The Calendar

This calendar reflects the University's regulations, and other information about the University, as of the date of its publication. However, these regulations are under constant review, and the University is continually changing. It is each student's responsibility to be familiar with University regulations and other information about the University that affects them, whether the regulations and other information are recorded in this calendar or not, and including any changes made from time to time to the said regulations and other information.

When changes are made in academic programs, a student may elect to satisfy the requirements of the new program or, if it is still reasonably possible to do so, of the program in effect at the time of first enrolment, provided no interruption in studies has occurred since that first enrolment.

Mount Allison University does not accept any responsibility for loss or damage suffered or incurred by any student as a result of the suspension or termination of services, courses or classes caused by reason of strikes, lockout, riots, weather, damage to University property or for any other cause beyond the reasonable control of Mount Allison.

Mount Allison has a non-discriminatory policy and does not discriminate against applicants and students on the basis of race, creed, colour, national or ethnic origin, sex, or sexual orientation. Such a non-discriminatory policy applies also to staff.

Sackville, New Brunswick, Canada

Sackville is situated in the southeastern corner of New Brunswick at about the geographic centre of the Maritime provinces, 11 km from the Nova Scotia border. The town borders the Trans-Canada Highway and is approximately 50 km from Moncton, NB, 210 km from Fredericton, NB, 450 km from Sydney, NS and 220 km from Halifax, NS.

Train service to and from Halifax and Montreal is available, with stops in Moncton, NB and Amherst, NS. Bus lines provide east and west service six days per week. Greater Moncton Roméo LeBlanc International Airport, approximately 40 km from the campus, provides service and connections daily to key Canadian cities, including Toronto, Montreal, Halifax, and Ottawa.

Mount Allison University

ACADEMIC CALENDAR
2026-2027 edition

Part I: General Information and Admissions

1 WELCOME TO MOUNT ALLISON UNIVERSITY

Mount Allison has built a reputation through the success of its students, faculty, staff, and graduates. Every year students like you come to campus from across Canada and around the world to be part of a living and learning community that fuels passions and ignites new interests.

The University offers a broad interdisciplinary knowledge base with more than 50 programs. With smaller class sizes and access to world-class faculty, students gain hands-on learning opportunities that combine practical experience, the application of learning to real-world situations, and skills development.

Along with our own award-winning faculty and resources, Mount Allison is also part of the Maple League with Acadia, Bishop's, and St. Francis Xavier Universities. The Maple League is a co-operative initiative to promote and extend common objectives of providing students with a high-quality undergraduate university education in a residential setting.

OUR MISSION

Mount Allison University is committed to the creation and dissemination of knowledge in a community of higher learning, centred on undergraduate students, in an intimate and harmonious environment. Our teaching, research, and creative enterprise are combined with extracurricular activities in a liberal education tradition that emphasizes development of the whole person. This integrated approach involves collaborative efforts among all members of the University community and leads to superior scholarship, cultural understanding and appreciation, personal and social maturation, leadership development, and informed citizenship.

WELL-ROUNDED STUDENTS IN A TIGHT-KNIT COMMUNITY

Mount Allison is an undergraduate liberal arts and science university with an enrolment of approximately 2,300 full-time students. It has preserved the character of a compact, scholarly community to foster excellence in teaching, mentoring, and student-centred research.

Students enjoy a close-knit community that is culturally diverse, gender inclusive, supportive, and welcoming with many extracurricular experiences to help you find your passion. Along with a dynamic athletics program with varsity, club, and intramural offerings, Mount Allison has 100+ student-run clubs and societies.

Mount Allison has one of the strongest records among Canadian universities of Rhodes Scholars (57 as of 2025) and enjoys a high number of external awards for both scholarships and research among its students and faculty members.

Notable alumni include Christopher Pratt, the late Mary Pratt, and the late Alex Colville; national broadcaster Ian Hanomansing; opera singer Sally Dibblee; cardiac surgeon Dr. Marc Pelletier; performance consultant and psychologist Dr. Kimberley Amirault-Ryan; Juno and ECMA award-winning singer/songwriter David Myles; and former lieutenant-governors of New Brunswick Margaret McCain, Marilyn Trenholme Counsell, and Herménégilde Chiasson, as well as former Nova Scotia lieutenant-governor John James Grant.

THE FACULTY

The University's faculty is talented and dedicated, exemplifying a strong blend of teaching and research. The vast majority of full-time faculty at Mount Allison (98%) have received their PhD (terminal degree). Eleven professors have been named National 3M Teaching Fellows, Canada's highest national teaching distinction, while at Mount Allison and six researchers have earned the Canada Research Chair designation.

Along with teaching, many faculty members also pursue research projects directly with their students, giving Mount Allison students unprecedented research experience at the undergraduate level.

AN EDUCATION SUITED TO THE 21ST CENTURY

Mount Allison offers bachelor degrees in Arts, Science, Arts and Science, Commerce, Fine Arts, Music, and Music Education, as well as master degrees in Science. It also has 16 undergraduate certificate programs that are taken concurrently with a degree.

The Bachelor of Arts and Bachelor of Science degrees are achieved through completion of one of a specialized honours program; a major plus a minor; a double major; a joint major; or a general degree of three minors. In addition, each Arts and Science student takes at least six credits from each of four distribution areas of Arts and Letters, Humanities, Science, and Social Sciences. The University has also introduced embedded certificate programs, which offer students an additional credential within their degree program and provide an area of focus to their elective requirements.

Mount Allison is a liberal arts and sciences institution. A liberal arts and sciences education allows you to gain a broad knowledge base and combine your interests in new and surprising ways. It teaches you how to learn, think, understand, adapt, problem solve, communicate, work with people, and tackle today's and tomorrow's challenges. It is a solid foundation for any career you may choose to pursue.

A degree from Mount Allison, or a few carefully selected courses or electives as part of a Mount Allison degree, may permit admission to a professional program. Some of these programs include medicine, dentistry, pharmacy, veterinary medicine, law, education, theology, social work, audiology and speech therapy, occupational physiotherapy, optometry, architecture, and nutritional programs as well as many others. These professional programs may be accessed upon successful completion of courses or a degree from Mount Allison and in combination with other requirements as appropriate (e.g. LSAT, MCAT, GRE, etc.).

Mount Allison is also focused on providing experiential or hands-on learning opportunities — the chance to apply what you have learned in the classroom to real-world situations.

A REPUTATION FOR LEADERSHIP

For over 180 years, Mount Allison has been recognized as a leader in education. Mount Allison was the first university in the British Empire to confer a bachelor degree on a woman — Grace Annie Lockhart received a Bachelor of Science in 1875. It was also the first university in Canada to grant a Bachelor of Arts to a woman — Harriet Starr Stewart in 1882.

Mount Allison boasts the oldest university art gallery in Canada; was the first Canadian university to offer a Bachelor of Fine Arts and a Canadian Studies program; and it is a pioneer in the establishment of services for students with learning disabilities through the award-winning Meighen Centre. Mount Allison has been recognized

by *Maclean's* annual university rankings as the top primarily undergraduate university in Canada 24 times in the past 33 years — a record unmatched by any other university. A high-calibre faculty, outstanding students, and financial stability are among the reasons why.

HISTORICAL SKETCH

Founder Charles Frederick Allison was a Sackville merchant. His grandfather emigrated from Ireland in the late 1700s, as a result of a dinner with the local tax collector. Wanting to impress him, the family set the table with their one valuable possession, a set of silver spoons. After entertaining their guest, the Allisons were informed that if they could afford silver spoons, they could afford to pay more taxes. They left Ireland shortly thereafter. The spoons are on display in the R.P. Bell Library at Mount Allison.

In June 1839, Charles Frederick Allison proposed to the Wesleyan Methodists that a school of elementary and higher learning be built. His offer to purchase a site in Sackville, to erect a suitable building for an academy, and to contribute operating funds of 100 pounds a year for 10 years was accepted. The formal opening of the Mount Allison Academy for boys took place in 1843. In 1854, a branch institution for girls opened. In July 1862, the degree-granting Mount Allison College was organized. The first two students graduated in May 1863. For nearly a century, Mount Allison functioned as three distinct, mutually enriching parts: the College proper, the Boys' Academy, and the Ladies' College.

Mount Allison has a long and proud tradition, and part of that tradition has been the ability to evolve and adapt to new and changing demands. It is very much a university of the 21st century, while remaining the direct and recognizable descendant of the first Academy of 1843.

ONE OF THE MOST BEAUTIFUL CAMPUSES IN CANADA

Nestled in the heart of Sackville, NB, Mount Allison has one of the most beautiful campuses in the country.

The majority of campus buildings are clad in distinctive red and grey sandstone — much of it quarried right here in Sackville — giving students and visitors the impression of having stepped back in time. But behind the ivy-covered stone exteriors are modern and state-of-the-art facilities. In particular, the Purdy Crawford Centre for the Arts, opened in 2014, provides purpose-built space for fine arts and drama, while the Gairdner Building was completely refurbished in 2018 to create a life sciences research centre. In 2022, the McCormack gymnasium in the Athletic Centre underwent its first significant upgrades since opening in 1961 with improved ventilation, new hardwood flooring, modernized equipment and accessible bleachers. There have also been recent significant upgrades to classrooms and laboratories across campus. Construction on the Multi-Sport Complex will begin in 2025, and it will temporarily serve as the Interim Library while the R.P. Bell Library undergoes renovations starting in 2027.

One of the highlights of the 72-acre campus is Ladies' College Park, located next to the Conservatory. The park is known for its century-old pond, which serves as a skating rink in winter and as the backdrop for graduation photographs in spring and summer. The campus has an abundance of green space displaying a wide variety of trees, shrubs, and flowers — the perfect setting for studying or meeting up with friends.

2 GLOSSARY OF ACADEMIC TERMS AND CALENDAR OF EVENTS

2.1 DEFINITIONS

This page provides a list of commonly used academic terms found in this calendar. The definitions provided are intended to help readers understand the outlines of academic regulations and programs which follow.

Academic Dismissal
Denial of all registration privileges for a minimum of three academic years because of failure to meet academic standards

Academic Distinction
A designation awarded to any student completing an undergraduate degree with an overall Grade Point Average of at least 3.7 on all courses attempted

Academic Probation
Permission to continue registration, subject to meeting terms required for continuing on Probation until Good Standing is achieved

Academic Session
The academic year upon which academic standing is assessed including the Spring/Summer, Fall and Winter terms

Academic Suspension
Denial of all registration privileges for a specified period of time because of failure to meet academic standards

Academic Term
Either the May to August or the September to December or the January to April portion of an academic session

Advanced Placement
Registration at an advanced level in a course because of previously acquired background knowledge. Unlike advanced standing, this permission is not granted with credits awarded for the previously acquired knowledge

Advanced Standing
Registration at an advanced level in a discipline because of transfer credits granted for courses completed at another recognized institution

Anti- requisite
A specific course or level of attainment which, if already successfully completed, does not permit registration for credit in another course, or may not be taken for credit concurrently with another course.

Audit
Registration status of a student who attends class(es) with written permission of the course instructor. Students auditing a course will not write final examinations or receive a grade for the course. See calendar regulation [10.3.8]

Continuous Enrolment
Registration in at least one term (including Spring/Summer, Fall and Winter terms) in consecutive academic sessions without interruption.

Corequisite
A course which must be taken at the same time as another course

Credit
The weight value assigned to a course. A course that normally meets for 3 hours each week throughout the academic year is worth 6 credits; a course that normally meets for 3 hours each week in one term is worth 3 credits. Ensemble performance courses in Music which meet on a regular basis throughout the academic year are worth 1 credit

Cross-listed Course
A course listed for credit under more than one discipline. The course may only be taken once for credit

Cumulative Grade Point Average (CGPA)
An average calculated by dividing the total number of grade points obtained (credit hours x grade points) by the number of credit hours attempted during all academic sessions

Discipline
A subject area or branch of knowledge

Elective
A credit course which is outside of the specialization component of a program

Exclusion
Students may not count for credit toward a degree any course which is listed as an exclusion for a course in which they are currently registered or which they have already passed.

Faculty
a) The academic teaching staff of a university and b) A grouping of related academic departments administered by a Dean

Full-time Student
A student enrolled for the equivalent of 9 or more credits per term

Good Standing
An academic status achieved by attaining a Session Grade Point Average (SGPA) of at least 1.5 and a Cumulative Grade Point Average (CGPA) of at least 1.5

GPA (Grade Point Average)
An average calculated by dividing the total number of grade points obtained (credit hours x grade points) by the number of credit hours attempted

Honours Program
A specialized Arts, Commerce or Science degree program which must be completed at an above average academic level

Interdisciplinary Studies
A group of related courses from various disciplines

Letter of Permission
An official document granting prior approval to take a course from another university for credit to a Mount Allison program

Major
The discipline(s) or area of specialization selected to fulfill part of the requirements for most Arts, or Science degrees

Minor
A secondary discipline(s) or area of specialization selected to fulfill part of the requirements for most Arts, or Science degrees

Prerequisite
Many courses require knowledge of material covered in other courses to ensure that a student has the background necessary to complete the course successfully. A prerequisite states the requirement that must be completed or waived before registration in a course is permitted. This requirement may consist of one or both of the following:

a) having a certain registration status (i.e. in a particular program or having a specified standing); or
b) having earned credit for a course or combination of courses. Students must obtain a grade of at least C- in each course used to fulfill this requirement.

Note: A student who does not have the stated prerequisite must receive written permission from the appropriate Department Head or Program Director to waive the requirement.

Registration
The process of choosing, enrolling in and paying fees for courses taken in an academic session

Session Grade Point Average (SGPA)
An average calculated by dividing the total number of grade points obtained (credit hours x grade points) by the number of credit hours attempted during the academic session

Term Grade Point Average (TGPA)
An average calculated by dividing the total number of grade points obtained (credit hours x grade points) by the number of credit hours attempted during the academic term

Transcript
An official document that lists the entire academic record of a student at an educational institution

Transfer Credit
Credit granted on a degree and/or certificate for work completed at another recognized institution. Transfer credits are not used in calculation of any Grade Point Average. The term 'non-designated' transfer credits indicates that no direct equivalency exists at Mount Allison but the transfer credit is granted and can be applied toward the credits required for a Mount Allison degree.

3 ADMISSION

3.1 CONTACT INFORMATION

All correspondence regarding admission should be submitted to the Registrar's Office, Mount Allison University, 62 York St., Sackville, NB, E4L 1E2; phone (506) 364-2269; e-mail <**admissions@mta.ca**>. Full information on admissions procedures are available from the Registrar's Office and on the web at <**www.mta.ca/apply**>

3.2 ADMISSION TO THE UNIVERSITY

3.2.1 Admission Criteria

Mount Allison University recognizes a strong academic performance at the high school level as the primary indicator of university-level success. It also recognizes the added potential of those students with a well-balanced record of academic and extra-curricular activities. In making admissions decisions, both high school marks and other activities are considered. The University is interested in applicants possessing a strong academic record, leadership skills, a high level of commitment, and the potential for personal growth. Among the additional information requested from applicants will be evidence of extra-curricular involvement, volunteer activities in school and in the community, work experiences, and letters of reference.

3.2.2 Students with Disabilities

Students with disabilities receive assistance from the Meighen Centre after presenting appropriate documentation. They are encouraged to identify themselves on the Application for Admission and to contact the Meighen Centre as early as possible so that their needs can be addressed. Students applying to the University should meet all admission criteria. See Calendar section 3.3.2 Minimum Grade/Average. Visit the Meighen Centre site at <**www.mta.ca/meighen**>.

3.2.3 Early Admission

a) Students who achieve an 80% final average on five academic courses in their grade 11 (or equivalent) year may be offered a conditional acceptance, provided they have successfully completed a grade 11 (or equivalent) academic English course.
b) Students applying to the Bachelor of Commerce program or Bachelor of Science program must provide proof of enrollment in the required university preparatory grade 12 (or equivalent) courses to be offered a conditional acceptance to the program. If proof of enrollment in required courses for a the Bachelor of Commerce or Bachelor of Science program are not provided but minimum early admission requirements are met, a conditional acceptance to the Bachelor of Arts program may be offered.
c) Students applying for early admission to the Bachelor of Fine Arts program or Bachelor of Music program who satisfy the minimum early admission requirements may be offered a conditional acceptance to the Bachelor of Arts program with acceptance to the Bachelor of Fine Arts program pending portfolio review by the department and acceptance to the Bachelor of Music program pending audition/interview and theory test review by the department.

See Calendar section 3.4.2 Requirements for Specific Programs

3.2.4 Refusal of Admission

The University reserves the right to reject any application for admission on the basis of the overall record even if all entrance requirements are satisfied.

3.2.5 Special Circumstances

In special circumstances, a student who does not meet our entrance requirements but provides evidence of academic promise at the university level may be admitted.

3.3 MINIMUM GENERAL ADMISSION REQUIREMENTS

3.3.1 Provincial Requirements

Students registering at Mount Allison are expected to have graduated from high school at the university preparatory level. In New Brunswick, Nova Scotia, Prince Edward Island, Newfoundland, Ontario, Manitoba, Saskatchewan, Alberta, British Columbia, the Northwest Territories, the Yukon, and Nunavut, this is Grade 12. Students from Quebec will be expected to have completed either Grade 12 Senior Matriculation or Grade 11 and one year of a CEGEP academic program.

3.3.2 Minimum Grade/Average

For an application to be considered, during the final two years of preparatory work a minimum grade of 65% must have been achieved on each academic course considered for admission. Meeting the minimum requirements guarantees only that the application will be considered; normally, students who are admitted have averages that are above the minimum.

3.4 ADDITIONAL ADMISSION REQUIREMENTS

3.4.1 University Preparatory Courses

All students must have successfully completed a university preparatory English course among their university preparatory courses. Whenever possible, students should anticipate their first year of university study and take the appropriate preparatory courses. (See Section 3.5). The University strongly recommends that students undertake a well-balanced preparatory year that includes courses in the Humanities, Mathematics, Sciences and the Social Sciences.

3.4.2 Requirements for Specific Programs

Students are advised to complete the following courses for specific programs:

Bachelor of Arts: University preparatory English is required and it is strongly recommended that university preparatory courses in the Humanities, Mathematics, Sciences and the Social Sciences be completed.

Bachelor of Arts and Science: University preparatory English and science preparatory Mathematics are required and it is strongly recommended that two university preparatory courses in the Sciences, and one in either Humanities or Social Sciences, be completed.

Bachelor of Music: University preparatory English is required and it is strongly recommended that university preparatory courses in the

Humanities, Mathematics, Sciences and the Social Sciences be completed. All Music applicants must complete a satisfactory audition and interview.

Bachelor of Fine Arts: University preparatory English is required and it is strongly recommended that university preparatory courses in the Humanities, Mathematics, Sciences and the Social Sciences be completed. All Fine Arts applicants are required to present a portfolio of their previous artwork for assessment.

Bachelor of Science: University preparatory English and science preparatory Mathematics are required and it is strongly recommended that two university preparatory courses in the Sciences, and one in either Humanities or Social Sciences, be completed.

Bachelor of Commerce: University preparatory English is required and it is strongly recommended that university preparatory courses in the Humanities, Mathematics, Sciences and the Social Sciences be completed.

To view admission requirements, please see <**www.mta.ca/requirements**>

3.4.3 Provincial Guidelines

Students are advised of the following provincial guidelines for admission, including the above program-specific requirements:

British Columbia, Yukon: Four provincially-examinable grade 12-level subjects

Alberta, Northwest Territories, Nunavut: Four academic 30- or 31-level subjects of which at least four are departmentally examinable

Saskatchewan: Five academic 30-level subjects

Manitoba: Five academic 40- or 41-level or 45-level subjects

Ontario: Five academic grade 12-level subjects, a combination of U and M courses

Quebec: Five academic grade 12-level subjects, or Grade 11 and one year of an academic CEGEP program. Only CEGEP courses with a credit value of 2.00 or higher will be considered for admission

New Brunswick: Five academic grade 12-level subjects

Prince Edward Island: Five academic 600-level subjects

e) Students enrolling in Physics 1051 should normally have completed a university preparatory-level* course in Mathematics.

*See section 3.3

3.6 REQUIREMENTS FOR NON-CANADIAN EDUCATION SYSTEMS

3.6.1 American School System

Students studying an American high school curriculum will be considered for admission provided they have successfully completed a selection of university/college preparatory courses and graduated from an accredited high school. The required academic standing is comparable to those outlined in sections 3.3 and 3.4. Scholastic Achievement Test (SAT) results are not required, but students are encouraged to submit their results.

3.6.2 General Certificate of Education (GCE)

For those studying towards the General Certificate of Education or the International General Certificate of Secondary Education (IGCSE), (e.g. in the United Kingdom, West Indies, Bermuda, East and West Africa, Hong Kong) the University requires a minimum of two subjects at the Advanced 'A' Level and three at the Ordinary 'O' Level, or three at the 'A' Level and one at the 'O' level, with an overall average of 'C' and no subject below a 'D' grade. Two Advanced Standard (AS) Level courses may be used in place of one Advanced Level course.

3.6.3 International Baccalaureate

Students pursuing an International Baccalaureate (IB) diploma program must include three courses in each of the higher and standard levels, with a minimum score of 4 in each subject and a minimum overall score of 26 points (excluding bonus points). Credit may be granted for specific higher level courses with minimum scores of 5 points (see section 3.9.1).

3.6.4 Baccalaureate

Students following France's system of education, must complete the requirements for the Baccalaureate with a minimum academic standing of 'Assez Bien'.

3.6.5 Other Educational Systems

Students studying in other educational systems are expected to satisfy the university admissions requirements of their own country, and must demonstrate a high level of accomplishment. To view the requirements for international applicants please see <**www.mta.ca/requirements**>.

3.7 ENGLISH REQUIREMENTS

English is the language of instruction at Mount Allison University except for specific language courses. Students must possess a mastery of English sufficient to communicate effectively, follow lectures, and write assignments and examinations in English. All applicants will be required to provide evidence of English language proficiency. This evidence may take one of the following forms:

a) Successful completion of at least three years of instruction in Canada at a secondary institution as recognized by Mount Allison University

b) Successful completion of at least 30 credit hours (or equivalent) at a post-secondary institution as recognized by Mount Allison University where English is the primary language of instruction
c) TOEFL iBT score 90 with no band score lower than 20
d) Michigan Test with a score of 55
e) International English Language Testing System (IELTS) score of 6.5 with no band score lower than 6
f) Canadian Academic English Language Assessment CAEL (or CAEL CE) with an overall score of 70, and no sub-test result below 60
g) Cambridge English Test (B2 First, C1 Advanced, or C2 Proficiency) with an overall score of 176, with no band score lower than 169
h) Pearson Test of English Academic (PTE Academic) score of at least 60 with no individual score less than 51
i) Duolingo English Test (DET) with a minimum overall score of 110 and minimum sub scores of: Comprehension 125; Literacy 120; Conversation 110; Production 95

3.7.1 English Language Training Partners

Applicants who require enhanced English language proficiency have the option of taking advantage of Mount Allison's partnership with one of partner language schools. An advantage to such students of these partnerships is that Mount Allison is able to grant conditional admission, which enables students to begin their visa application processes before completion of the language program.

ILI: International Language Institute (Halifax, NS): Successful completion of ILI's University Preparatory (UP) program will allow students to meet Mount Allison's English language proficiency requirements.

KAPLAN: Kaplan International English (Vancouver, BC; Toronto, ON): Successful completion of Kaplan International English's University Foundation Course will allow students to meet Mount Allison's English language proficiency requirements.

CLLC: Canadian Language Learning College (Toronto, ON; Ottawa, ON; Halifax, NS): Successful completion of CLLC's University Pathway Program (UPP) will allow students to meet Mount Allison's English language proficiency requirements.

McKENZIE: McKenzie College (Moncton, New Brunswick): Successful completion of McKenzie College's English for Academic Purposes (EAP) program will allow students to meet Mount Allison s English language proficiency requirements.

SACLI: Study Abroad Canada Language Institute (Charlottetown, Prince Edward Island): Successful completion of SACLI's University Preparation Program will allow students to meet Mount Allison's English language proficiency requirements.

ECLC: East Coast Language College (Halifax, Nova Scotia): Successful completion of ECLC's University College Pathway program will allow students to meet Mount Allison s English language proficiency requirements.

3.8 MATURE STUDENTS

Mount Allison recognizes that students come to us through many different paths and, consequently, with many different experiences. Individuals who will be 22 years of age or older prior to the first day of classes of the term in which admission is sought may be considered for admission as a mature student. A mature student should apply as a full or part-time student and include with their application a letter of intent, an updated resumé, and a copy of their high school transcript. A letter of intent should state both personal and career goals which detail the reasons for applying to the university. The resumé should document recent work and volunteer experience.

Applicants who have attempted fewer than 18 credits or equivalent of transferable post-secondary level courses may also be eligible for admission as a mature student. If a student has undertaken study at any other university or recognized post-secondary institution please have the institution send an official transcript directly to the Admissions Office.

The Admissions Office reserves the right to refer any cases to the Admissions and Re-admissions Committee for special consideration.

3.9 ADMISSION WITH ADVANCED STANDING

Students applying for admission with advanced standing must provide official transcripts for the applicable program, within one year of admission to Mount Allison to be eligible for transfer credits to be recognized and count toward a degree from Mount Allison.

Students who have received credit in a subject and who propose to register for a further course in that subject must at registration determine placement in consultation with the department concerned. Placement may be granted without credit. In cases of doubt applicants may be required to write one or more examinations upon entering the University.

Students may not earn more than a total of 30 credits towards their degree program from any combination of types of Advanced Standing listed in Section 3.9.

3.9.1 International Baccalaureate

For students who have completed the IB Diploma with an overall score of at least 26 as per 3.6.3, a maximum of 30 credits on a 120-credit degree program may be awarded for both HL and SL courses with scores of at least 5 and for Theory of Knowledge (TOK) with a score of at least 'C'. Otherwise, up to 18 credits on a 120-credit degree program may be awarded for individual HL IB subjects completed with scores of at least 5.

3.9.2 Collège d'Enseignement Général et Professionnel (CEGEP)

Students accepted to Mount Allison from the CEGEP system may receive up to 30 credits according to the criteria listed below:

CEGEP	Mt. Allison Credits Granted
16 courses	6
18 courses	12
20 courses	18
22 courses	24
24 courses	30

3.9.3 General Certificate of Education (GCE)

Students who have successfully completed Advanced 'A' Level papers with grades of at least 'D' may receive up to 30 credits.

3.9.4 Advanced Placement 'AP' Program

The University grants a maximum of 30 credits on a 120-credit degree program for subjects completed in the Advanced Placement program at a level of 4 or 5. Evidence of completion of appropriate laboratory or studio work would be required.

3.10 TRANSFER STUDENTS

Students pursuing post-secondary studies at a recognized university or college should present a minimum overall grade point average of 2.0 (or equivalent) on their post-secondary studies to be considered for admission. Please be aware that possession of the minimum requirement does not guarantee admission; students may be expected to present higher grades for admission to any given year. If course work has been completed at multiple institutions, the academic performance at all institutions will be taken into consideration. Students who are not eligible to return to their home institution will normally be required to wait at least one academic year before applying for admission. **Please note that failure to provide a full and complete academic record as relating to post secondary institutions attended may result in the cancellation of your application and/or admission, and/or expulsion once admitted.**

3.10.1 Transfer Credits

a) Students transferring from recognized post-secondary institutions may receive credits for courses previously completed as determined by the Registrar in consultation with the appropriate Academic Department or Academic Dean.
b) Transfer credit will normally be granted for courses with passing grades for which credit has been earned. However, students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.
c) Transfer credits are recorded on the transcript with credit value and a notation of 'P' (equivalent to passing grade of C- or higher) or 'CP' (equivalent to passing grade below C-, not eligible to be used as a prerequisite) and they are excluded from the Grade Point Average.
d) A maximum of 60 transfer credits may be credited toward a degree from Mount Allison. (See also Regulation 10.10.2 regarding transfer credit limitations).
e) Students transferring credits from another institution must provide the following:
   i) an official transcript pertaining to the credits, submitted directly to the Registrar's Office by the institution concerned.
   ii) detailed course descriptions from the transferring institution's Calendar. (Notarized English translations should be included if applicable)

Note: Students transferring from another institution to Mount Allison must have provided official transcripts for all post-secondary institutions attended within one year of admission to Mount Allison to be eligible for transfer credits from other institutions to be recognized and count toward a degree from Mount Allison.

3.11 CHALLENGE FOR CREDIT

Mount Allison University may recognize prior learning through Challenge for Credit for certain courses when students have obtained a proficiency or intellectual skills in the subject matter through training or experience rather than through high school, college, or previous university instruction.

3.11.1 Eligibility for Challenge for Credit

a) Challenge for Credit is available only in courses which have been recommended by academic Departments or Programs and approved by Senate for this purpose. These courses will be identified in the Calendar. Courses that are not identified in the Calendar as available for Challenge for Credit may be approved on a case-by-case basis upon recommendation by the department or program concerned and with approval of the Academic Dean in consultation with the Registrar. In such cases, the department or faculty concerned should be satisfied that there is a reasonable basis for requesting a challenge and the department or faculty will determine the content and form of the Challenge for Credit examination.
b) Only students who have been admitted to or are currently registered in a degree program at Mount Allison University may Challenge for Credit.
c) Students may not Challenge for Credit courses:
   i) that serve as prerequisites to courses in which students are currently registered, have previously been registered, or have been placed as a result of a placement test; or
   ii) in which students have previously been registered (including registration for audit) at any postsecondary institution.
d) Students may not Challenge for Credit more than once in any course.
e) Students may not earn more than a total of 30 credits towards their degree program through Challenge for Credit and any form of Advanced Standing (Calendar section 3.9). Such credits do not count towards Academic Residency Requirements (Calendar regulation 10.10.2).

3.11.2 Regulations and Procedures for Challenge for Credit

a) A student who wishes to Challenge a course which has been identified as being available for Challenge for Credit as per 3.11.1 a) must complete the application available on the Mount Allison University website and submit it at least one month before the beginning of the Fall or Winter Term.
b) The student must pay the required fee, which payment must accompany the application. If the student is judged ineligible to pursue the Challenge for Credit option, this fee will be returned to the student.
c) Challenge for Credit is normally evaluated through a comprehensive examination which covers the entire content of a course. The Challenge examination may or may not be the same as the final examination for the course. In some cases there may be alternative or additional evaluative components such as submission of portfolios or of sample work, laboratory tests, or performance of essential course-related skills.
d) Challenge examinations will be held before or during the first week of the Fall and Winter Terms, normally in conjunction with self-directed distance learning and deferred examinations.
e) All challenge examinations will be held on the campus of Mount Allison University.
f) A student must achieve a grade of C- or higher to succeed in the challenge. Any attempted Challenge for Credit will be recorded on

a student's transcript. A successful challenge will be recorded as Cr (Credit); an unsuccessful challenge will be recorded as NC (No Credit). Challenge grades are excluded from the calculation of a student's GPA.

3.12 VISITING STUDENTS

Students pursuing post-secondary studies at another recognized university or college and who want to complete coursework at Mount Allison are considered visiting students. In order to be considered for admission, applicants must obtain a Letter of Permission from their home institution and submit a complete Visiting Student Application. The visiting student application is available online at <**www.mta.ca/apply**>

3.13 EXCHANGE STUDENTS

Students applying to Mount Allison as an exchange student are normally required to meet the University's minimum admissions requirements and may be required to provide proof of English language proficiency. Students should be in good academic standing at their home institution and will need to present a transcript of all courses previously taken at the university level in order to be considered for admission to Mount Allison as an exchange student. The application for admission as an exchange student is available online at <**www.mta.ca/apply/**>

3.14 SPECIAL CIRCUMSTANCES

Students who do not intend to earn a degree from Mount Allison may be admitted under special circumstances to register for individual courses which they are qualified to take.

3.15 GRADUATE STUDIES

For Admission requirements to the Master of Science program please see the Master of Science program outline in the Academic Programs section 11.4.

4 FEES

The following sections deal with fees, refunds and related matters. Students should read the sections that apply to their situations. Please contact us through the Registrar's Office if you have any questions. Please note that in the event of any conflict between this section and any other section of the Calendar concerning fees or their calculation, this section will apply.

Please note that Mount Allison University does not accept responsibility for any loss, damage, or interruption of classes, accommodation or meal service as a result of circumstances beyond the reasonable control of the University.

4.1 FEES AND EXPENSES

4.1.1 Full-time/Part-time Enrolment - Fall and Winter terms

For fee administration purposes students enrolled in nine or more credits in the Fall or Winter terms are full-time for that term. All other students are part-time for fee administration purposes for that term.

Tuition fees for students in an Aviation program are in two parts. Mount Allison sets its part and its partner, MFC Training, sets its own tuition and other fees. Students in those programs should contact the Registrar's Office for tuition amounts and deadlines.

4.1.2 Tuition Fees

Tuition fees for the following year are finalized in May and will then be posted on the Mount Allison University website. Inquiries should be directed to the Registrar's Office.

The following are the 2025/2026 tuition fees.

Full-Time Students	
Undergraduate Tuition - Canadian	$10,800.00
Undergraduate Tuition - Non-Canadian*	$21,800.00
Graduate students - first six terms	$1,670 per term
Graduate students - remainder terms	$670.00 per term

Students who are full-time for a term will pay half of these fees for that term.

*Students charged Non-Canadian tuition will only be changed to Canadian tuition once proof of Canadian citizenship or Permanent Resident status has been received by the Registrar s Office. This change will take effect in the term the information is received. No adjustments will be made for prior terms.

Part-Time Students	
per six credit course - Canadian	$2,160.00
per six credit course - NB Resident (students with a start date of September 2019)	see website
per six credit course - Non-Canadian	$4,360.00
per three credit course - Canadian	$1,080.00
per three credit course - NB Resident (students with a start date of September 2019)	see website
per three credit course - Non-Canadian	$2,180.00

4.1.3 Overload Fees for Full-Time Students

Full-time students who have permission to take course overloads (see Academic Regulations) may take up to 18 credits per term without being charged additional tuition. **However, students taking more than 15 credits in a term will be charged additional tuition fees if any of their credits are for self-directed distance learning courses.** Additional tuition fees will be charged for credits in excess of 18 credits per term.

4.1.4 Auditing Fees

Courses may be audited for half the normal tuition. Please refer to section 10.3.8 which outlines requirements for auditing courses.

4.1.5 Mail Service, Fitness Centre, and Technology and Service Fee

All full-time students, registered in at least one course with an on-campus requirement, must have a University address and pay a $35.00 non-refundable mail service fee. Part-time students may also receive mail service by paying the fee.

All full-time students registered in at least one course with an on-campus requirement must pay the Fitness Centre fee. The cost is $200 for the full year. Part-time students may receive the service by paying $75 per term to the secretary in the Department of Physical Recreation and Athletics.

All full-time students must pay the Technology and Service fee. The cost is $300 for the full year.

All full-time students must pay the Student Experience fee. The cost is $200 for the full year.

4.1.6 Student Organization Fees

The University collects fees on behalf of the student Union (MASU), the student newspaper (the Argosy) and the campus radio station (CHMA). The student organization fees for full-time students, other than Exchange Students are listed below. Part-time students are required to pay Mount Allison Students' Union Membership Fees as listed below. Such fees payable in the Fall term are not refundable after September 30. In the Winter term they are not refundable after January 31. The following fees are for the 2025/2026 Fall/Winter academic terms, charged 50% each term.

Mount Allison Students' Union Membership fees for full-time students	$280.00

4.1.8 Fieldwork and Travel: Expenses and Liability

Travel expenses incurred during the course of field work (e.g. accommodation, travel, meals, etc.) within prescribed courses (e.g. Geography and Environment, Biology, Fine Arts, etc.) will be the responsibility of the individual student. These costs must be paid to the Registrar's Office prior to the trip as per the payment schedule provided by the faculty member.

Participants in academic fieldtrips, athletic travel, international exchanges and study abroad, and any university sanctioned activities involving travel are required to conform to Mount Allison University's travel liability policies. Failure to comply with these policies will result (as applicable) in de-registration from courses with a required travel component, withdrawal from international exchange and study abroad programs, or cancellation of participation in athletic travel. Mount Allison University will not be held liable for fees repayment on the above activities beyond any repayment noted in 4.5.

4.1.9 Instructional Supplies Fees

Fine Arts Studio Courses - Students enrolled in those courses designated by the Fine Arts Department will be charged Fine Arts Instructional Supplies Fees. Those fees range from $85 to $170 per course and are finalized in May. A list of courses is noted in section 11 Fine Arts Studio Courses and are subject to change.

4.1.10 Study Abroad and Exchange Fee

For students who have been accepted to one of the study-abroad or exchange programs offered by Mount Allison, there is a non-refundable $125.00 Study Abroad and Exchange Fee. Additionally, all students who travel internationally on a Mount Allison University program will be covered with comprehensive travel insurance for the duration of their program and charged an insurance fee. The insurance fee will be applied to the students' accounts and must be paid prior to the start of the program. Some study-abroad programs already have these fees built into the program charge. These fees are in addition to the non-refundable Registration Deposit required in 4.2.4. Inquiries about the fee should be directed to the Mount Allison International Centre.

4.1.11 Residence, Communications and Meal Plan Fees

Residence, meal plan and services fees are finalized in May and will then be posted on the Mount Allison University website. Inquiries should be directed to the Housing Office, email address: <**resroom@mta.ca**>. The following are the 2025/2026 room, meal plan, and services fees for the Fall/Winter academic terms. They are subject to change for the 2026/2027 Fall/Winter academic terms.

Room	
Triple Shared Ensuite Room	$6,074.00
Double Room	6,550.00
Double Shared Ensuite Room	$7,425.00
Single Room	$8,257.00
Single Shared Ensuite Room	$9,389.00
Single Private Ensuite	$10,380.00
Residence Services Fee*	$764.00
House executive residence dues	$100.00

*This fee is mandatory for all students living in residence and covers Internet connection, Wi-Fi, a mini fridge and access to the laundry room.

Meals	
Unlimited Meal Plan for Residence Students	$6,091.00
10/ Week meal plan (only Charlotte House)	$3,878.00

All students living in residence must have a meal plan.

4.2 DEPOSITS FOR FULL-TIME STUDENTS

4.2.1 Registration Deposits for New Students

A non-refundable Registration Deposit is due by May 1, 2026, or such later date as may be specified in the offer of admission. The date this deposit is received or post-dated, whichever is later, determines the position on the room selection list. Students will not be able to register for courses through on-line registration until the registration deposit has been paid. The Registration Deposit will be applied against Fall term tuition fees.

4.2.2 Residence Deposits for New Students

A $800 Residence Deposit for students who apply to live in residence is due by May 1, 2026. Early residence room assignments will be offered to students who pay the $800 Residence Deposit by March 1, 2026. Residence accommodations are guaranteed if all deposits are received by March 1, 2026. The Residence Deposit will be applied against Fall term residence fees.

4.2.3 Refunds of Residence Deposits for New Students

A residence room can be cancelled prior to the beginning of the Fall academic term by completing the Withdrawal Form in Self-Service. If you cancel your residence room, a refund of the Residence Deposit will be made as follows:

$300 by June 15
no refund after June 15

4.2.4 Registration Deposits for Returning Students

A non-refundable $100 Registration Deposit is due by June 1, 2026. A late payment will result in a late processing fee being charged (see section 4.4.1) and may delay registration. The Registration Deposit will be applied against Fall term tuition fees.

4.2.5 Residence Deposits and Refunds for Returning Students

Residence students who intend to live in residence in the following year have the first opportunity to apply for a room during residence Room Draw. A $800 Residence Deposit for students who intend to live in residence is due by the January deadline to pay the remaining balance of tuition and fees without penalty (4.3.4 Winter Payments by Full-Time Students). The Residence Deposit will be applied against Fall term residence fees. If the Residence Deposit is not paid by the January deadline to pay the remaining balance of tuition and fees without penalty, the University can no longer hold the student's room or guarantee any room in residence. Students who paid the $800 deposit and who cancel their rooms by the January deadline (4.3.4 Winter Payments by Full-Time Students) will receive a refund of $800 on their student account. There will be no refund after the January deadline.

Students who wish to cancel their rooms for the Fall but intend to have a room for the Winter should contact the Housing Office at <resroom@mta.ca>

4.2.6 Registration Deposits for January Admissions (New and Former Students)

A non-refundable Registration Deposit is due November 6, 2026, or such later date as may be specified in the offer of admission.

4.2.7 Residence Deposits for January Admissions (New and Former Students)

For students wishing to enter residence in January, a $400 Residence Deposit must be paid by November 6, 2026. Refunds of this deposit will be made as follows:

$250 by November 25

4.3 PAYMENT OF FEES

4.3.1 Payments and Charges

Payments must be received by the University by the dates specified in section 4.3.3 and below. Payments not received by the due date will be subject to a late payment fee. Payments delayed by processing times will not be subject to a late fee. See section 4.4.5.

4.3.2 Fall and Winter Payments by Part-Time Students

All fees for courses taken in the Fall or Winter term are due and payable at the time of registration.

4.3.3 Fall Payments by Full-time Students

The Fall term payment is due September 21, 2026.

Students are responsible for payment of fees by the fee deadlines. In the situations outlined in section 4.3.7 only, payments may be made that are less than these amounts. Registered students may view their accounts through Self-Service. Students are encouraged to use the online payment method described at <**www.mta.ca/feepayment/**>.

University services may be revoked if by the Fall payment due date either 1) the correct Fall payment has not been received, or 2) late payment arrangements have not been approved. See section 4.4.2. Therefore, please forward your payments well in advance of their due dates, and, if you cannot make your full payment on time, please consult as early as possible before the due date with a) the Financial Aid and Awards Counsellor in the Registrar's Office, if payment is delayed by the Canada Student Loans Program or b) the Manager, Student Accounts and Other Billing in Financial Services, if payment is delayed for other reasons.

Note: Students who are considered to be Covered Individuals by the US Veterans Benefits and Transition Act of 2018, section 3679 of title 38 and are therefore entitled to educational assistance under Chapter 31, Vocational Rehabilitation and Employment, or Chapter 33, Post-9/11 GI Bill benefits, are excluded from these penalties.

4.3.4 Winter Payments by Full-time Students

All amounts pertaining to the Winter term are payable by January 18, 2027. Students are encouraged to use the online payment method described at <**www.mta.ca/feepayment/**>. E-mail notification will be sent to students when Winter charges have been applied to the students' accounts. This will take place during the last week in November. Students admitted to the University beginning in January will be advised upon registration of the amount owing. The Winter fees for students may change if courses are added or dropped. Registered students may access their accounts through Self-Service.

University services may be revoked if by the Winter payment due date either 1) the correct Winter payment has not been received, or 2) late payment arrangements have not been approved. See section 4.4.2. Therefore, please forward your payments well in advance of their due dates, and, if you cannot make your full payment on time, please consult as early as possible before the due date with a) the Financial Aid and Awards Counsellor in the Registrar's Office, if payment is delayed by the Canada Student Loans Program or b) the Manager, Student Accounts and Other Billing in Financial Services, if payment is delayed for other reasons.

4.3.5 Fall and Winter Payments for Students Participating in Exchange Programs

Fall Payments - Strasbourg Program

The Fall payment is due August 31, 2026. The amount of the Fall payment will be the tuition for the Fall term plus the residence fee for the full year.

Fall Payments - All Other Exchange Programs

The Fall payment is due September 21, 2026. The amount of the Fall payment for outgoing Mount Allison students will be the tuition for the Fall term. Students who live in residence while participating in the

exchange program will be obliged to pay the residence fees to the host university.

Winter Payments

For all Mount Allison students participating in exchange programs the Winter payment will be due and payable January 18, 2027. The amount of the Winter payment will be the tuition for the Winter term.

Inbound Exchange Students

Inbound exchange students who will be staying in Mount Allison residences should contact the Registrar's Office for information on their residence, meal plan, financial commitments, and their fee payment deadlines.

4.3.6 Method of Payment

In order to improve service to students, the University strongly suggests that students pay online.

Information about fee payment is available on the web at <**www.mta.ca/feepayment/**>.

4.3.7 Reducing the Amount of Payments

There are three circumstances in which students can reduce the amount of the above payments:

i) Student has been awarded **Mount Allison** scholarships and bursaries; please refer to the offer letter for information regarding disbursement.

ii) Student has proof of the amount of the Canada Student Loan they will receive.

iii) Student has an external sponsor **who will be invoiced by the University**; this category does not include external scholarships and bursaries.

Temporary registration status will be granted when the amount of payment has been reduced because of circumstances I and II.

It is the student's responsibility to ensure that government or sponsorship funding is received by the University by September 30 or January 31, as the case may be. If the University has not received the funds by these dates, students must make other financial arrangements to meet their financial obligations to the University.

4.4 LATE FEES AND INTEREST CHARGES

4.4.1 Late Processing Fees

a) Late Registration Deposit Processing Fee - A $50 late payment processing fee may be charged if the University does not receive the Registration Deposit from returning students by the due date.

b) Late Letter of Permission Processing Fee - A $25 late processing fee may be charged for Letters of Permission issued on a retroactive basis (see 10.5.1b)

c) Late Registration Fee - Under exceptional circumstances, an Academic Dean in consultation with the instructor, may approve late registration in a course. In such cases, a $200 Late Registration Fee may be charged.

Note: Students who are considered to be Covered Individuals by the US Veterans Benefits and Transition Act of 2018, section 3679 of title 38 and are therefore entitled to educational assistance under Chapter 31, Vocational Rehabilitation and Employment, or Chapter 33, Post-9/11 GI Bill benefits, are excluded from these financial penalties.

4.4.2 Services Reinstatement Fee

University services including, but not limited to, accessing course marks, ability to register or deregister from courses, and eligibility to participate in room draws may be revoked in the case of dishonoured payments or failure to meet the defined payment schedule. Students wishing to have their services reinstated, including reinstatement of their academic program, may be charged a services reinstatement fee of $100.

Note: Students who are considered to be Covered Individuals by the US Veterans Benefits and Transition Act of 2018, section 3679 of title 38 and are therefore entitled to educational assistance under Chapter 31, Vocational Rehabilitation and Employment, or Chapter 33, Post-9/11 GI Bill benefits, are excluded from these penalties for amounts owing.

4.4.3 Interest Charge

Interest will be applied to outstanding balances at the rate of 1% per month (12.68% per annum compounded).

Note: Students who are considered to be Covered Individuals by the US Veterans Benefits and Transition Act of 2018, section 3679 of title 38 and are therefore entitled to educational assistance under Chapter 31, Vocational Rehabilitation and Employment, or Chapter 33, Post-9/11 GI Bill benefits, are excluded from this financial penalty for any balance owing in the amount equal to such educational assistance.

4.4.4 Appeals of Academic Standing

Letters of appeal from students appealing their academic standing at the end of the academic session will only be forwarded to the Admissions and Re-admissions Committee for consideration if there are no outstanding fees payable on the students' accounts.

4.4.5 Late Payment Fee

A $75 late payment fee will be added to accounts not paid in full by the prescribed due dates in 4.3.3 and 4.3.4.

4.5 WITHDRAWALS AND STUDENT ACCOUNTS

4.5.1 Withdrawals Fall and Winter

Absence from classes does not constitute withdrawal.

Full-time and part-time students who wish to withdraw from individual courses can do so using the registration feature in Self-Service.

Students who wish to withdraw from all courses in a single term or all courses in multiple terms must complete the Withdrawal Request form in Self-Service. The date of withdrawal for the purpose of fee administration will be the date the withdrawal form is submitted. Students will receive email confirmation when the withdrawal form has been received.

There will be no fee charged for withdrawal from university by Friday of the second week of term. For withdrawals after Friday of the second week of term, fees will be calculated as 15% of the tuition for the term times the number of weeks or part weeks since the first day of classes. There is no credit (refund) given after the sixth week of classes.

Students changing from full-time to part-time status should contact the Registrar's Office regarding their fee obligations.

Any inquiries regarding the calculation/proration of tuition fees on academic withdrawal should be directed to Financial Services. The procedure concerning the calculation of any refunds for students with United States (FFELP) loans is available on the web at <**www.mta.ca**>.

4.5.2 Withdrawals Self-directed Distance Learning Courses

Full time students who wish to withdraw from a self-directed distance learning course that is part of their full time course load and for which they have not paid an additional fee over full time tuition, will only be eligible for a refund if their status changes to part time. These students should contact the Registrar's Office regarding their eligibility for a credit.

All self-directed distance learning course refunds are calculated from the first day of the term and the withdrawal date of a course dropped through Self-Service. Fee credits will be calculated as the tuition fee paid for the course minus 15% times the number of weeks including the week of withdrawal, since the beginning of the term. There is no credit (refund) given after 6 weeks of registration.

Refunds will not be given to students who do not adhere to these deadlines.

4.5.3 Withdrawals - Spring Term Courses

Refunds are calculated from the withdrawal date of a course dropped through Self-Service. Within 24 hours of making a change students should confirm their registration in Self-Service. If it does not reflect the addition, change, or deletion, or if students have problems viewing their schedule through Self-Service, they should contact the Registrar's Office.

There will be no fee charged for 3 credit courses having 2 classes per week dropped up to and including the last day for change in registration.* Fee credits will be calculated as the tuition fee paid for the course minus 15% times the number of classes including the week of withdrawal, since the course began. There is no credit (refund) given after 6 classes.

Refunds will not be given to students who do not adhere to these deadlines.

*Any course having more than 2 classes per week may be charged a withdrawal fee if dropped before the last day for change in registration. These courses may also be calculated differently for withdrawals. Please see the Registrar's Office.

4.5.4 Residence and Meal Plan Withdrawals

Students wishing to withdraw from residence and/or the meal plan must complete the Withdrawal Request form in Self-Service. Students will receive email confirmation when the withdrawal form has been received. The date of withdrawal for the purpose of fee administration will be the date students have checked out of residence and keys have been returned, whichever is later.

The student's account will be adjusted to reflect residence and/or meal plan charges as follows:

Month of withdrawal:	
September 1-14 (plus Aug. 24-31)	20% of the full year cost
September 15-30	40% of the full year cost
October	50% of the full year cost
November	60% of the full year cost
December	70% of the full year cost
January	80% of the full year cost
February	90% of the full year cost
March	97% of the full year cost
April	100% of the full year cost

Students entering residence and/or meal plan for one term will have their accounts adjusted to reflect residence and/or meal plan charges as follows:

Month of withdrawal, as determined above:	
September or January	50% of term cost
October or February	75% of term cost
November or March	95% of term cost
December or April	100% of term cost

Students who decide during the winter holiday break not to return to the University in January must complete the Withdrawal Request form in Self-Service by December 31 to be treated for fee purposes as a December withdrawal. This may be done even if University offices are closed. Any student who wishes to consult with a University staff member before making this decision should contact the Student Life Office by email at <**studentlife@mta.ca**>or by phone at (506) 364-2255 leaving a voice mail message if University offices are closed.

Students entering residence and purchasing meal plans in the middle of a term who subsequently withdraw should contact the Registrar's Office regarding their charges for the term. Any inquiries should be directed to the Registrar's Office by email to <**regoffice@mta.ca**> or by phone call to (506)364-2269.

4.5.5 Payments to Students from their Accounts

Payments will only be made to students from their accounts with the University if, and to the extent that, their accounts have a credit balance. Students may forfeit a scholarship or bursary or residence bursary award from Mount Allison if they do not complete the Fall/Winter academic terms and this may affect whether there is a refund on withdrawal and the amount of any such refund. Furthermore, if any portion of a student's fees was paid by Canada Student Loan Program, the University is obliged to remit any refund upon withdrawal to the Canada Student Loan Program, or student's bank, for credit towards their government student loan.

4.5.6 Required to Withdraw

Students required to leave the University or its residences for failing to meet the required payment schedule, or for academic or disciplinary reasons, will be required to complete the withdrawal process and will be responsible for the charges detailed in sections 4.5.1, 4.5.2, 4.5.3, 4.5.4 and 4.5.5.

5 FINANCIAL ASSISTANCE

5.1 SCHOLARSHIPS

Mount Allison is interested in attracting the most well-rounded and involved student citizens from across Canada and abroad every year and is fortunate in being endowed with funds to financially reward and assist them in their studies. Every student has the opportunity to earn a scholarship, regardless of the degree program or the year of study. Mount Allison attempts to make scholarship funds available on an equitable basis across the entire student population.

5.1.1 Eligibility

The University awards entrance scholarships to entering students for academic achievement and extracurricular involvement. Students need not apply for entrance scholarships, as consideration for scholarship eligibility is automatic and part of the admissions process. The University also offers a wide range of major scholarships that are adjudicated during the admissions process. Major scholarships have various eligibility criteria and may require supplemental information or application submission. For a listing of major scholarship and their criteria visit the University website. The deadline for application is March 1.

5.1.2 Entrance Scholarships

Scholarships awarded to entering students are tenable as long as the student is carrying a full course load of 30 credits over the Fall and Winter terms, and all other conditions of the award are fulfilled. Entrance scholarships range from $1,000 to $5,000.

5.1.3 The Bell Scholarship

Established in 2002 as the premier entrance scholarship at Mount Allison, the Bell Scholarship celebrates students who have demonstrated strong academic ability, leadership potential, volunteer work, extracurricular activities, work experience, and good citizenship. To be considered for this prestigious scholarship, applicants must ensure that the required documentation is submitted to the university along with the application for admission by the application deadline of March 1st. Eight awards are offered with a total value of $70,000 per award.

5.1.4 Scholarships for Returning Students

All students who attend Mount Allison will be considered for scholarships after their first year of study. The University General Scholarships will be awarded annually to students, not holding an entrance scholarship or other major renewable scholarship or award, enrolled in a full course load of 30 credits over the Fall and Winter terms and who achieve a GPA of 3.7 during the same period.

5.2 BURSARIES

The Mount Allison bursary program provides assistance to full-time and part-time students who demonstrate financial need and who have exhausted all other avenues of support. Prior to applying for a Mount Allison bursary, applicants should apply to their province or country of residence for financial aid. Bursaries are awarded on the basis of financial need to students who have made satisfactory academic progress. Students needing assistance are encouraged to submit the online bursary application located within their secure Self-Service account.

5.2.1 Entrance Bursary Program

Mount Allison's Entrance Bursary Program has been established to offer assistance to students who have financial need in order to provide access to post-secondary education and to help them successfully complete their studies within a reasonable time period. Bursaries “are determined based on financial need and are intended to supplement, but not replace, the student's own resources and the resources of the applicant's immediate family.” Financial need is established when a student can demonstrate that their expenses exceed their resources. Students must first be accepted for admission at Mount Allison before the Entrance Bursary application is processed. Completed Entrance Bursary applications must be received by the deadline date each year, as noted on the application, in order to be considered. Students starting in January are not eligible for this award. To maintain their eligibility, students must also apply to their province for a student loan. Likewise, to maintain eligibility, international students from the United States

must apply and be approved for a Subsidized Direct Loan from the US Department of Education.

5.2.2 Senior Citizen Bursary Program

The Senior Citizen Bursary offers assistance to students 65 years of age or older who have financial need in order to provide access to post-secondary education and to help them successfully complete their studies within a reasonable time period. Bursaries "are determined based on financial need and are intended to supplement, but not replace, the student's own resources and the resources of the applicant's immediate family." Financial need is established when a student can demonstrate that their expenses exceed their resources. Students must first be accepted for admission and/or be enrolled at Mount Allison before the Senior Citizen Bursary application is processed. Completed Senior Citizen Bursary applications must be received by the deadline date each year, as noted on the application, in order to be considered.

5.3 PRE-THEOLOGICAL BURSARIES

Various forms of financial assistance are available to students at Mount Allison who intend to study theology and enter some form of Christian Ministry.

5.3.1 The Mount Allison Theological Fund

The Mount Allison Theological Fund is administered by the Pre-Theological student advisor and is used in a variety of ways for the benefit of pre-theological students. Monies from the fund are available to students in the form of loans and bursaries. Various denominations provide assistance to students in Arts who intend to study for some form of Christian ministry. Information can be obtained from the Pre-Theological student advisor. In addition, some theological schools offer scholarships and bursaries to students in Arts who undertake to study theology at the theological school concerned. Pine Hill Divinity Hall (the United Church component of the Atlantic School of Theology) offers grants to students preparing for the ministry in the United Church. Students must commit themselves to taking full courses in Theology at the Atlantic School of Theology and plan to work for at least two years thereafter for the United Church of Canada. Students who do not fulfill these conditions are expected to arrange for repayment of monies received.

5.3.2 Application Procedure

Advanced applications are not necessary for Pre-Theological bursaries, but students who wish to apply should contact the Pre-Theological student advisor at the beginning of the academic year.

5.3.3 Pre-Theological Funds Index

5.4 AWARDS

Awards for entering and returning students provide financial support and recognize academic achievement as well as the capacity to balance scholarly activity with volunteer and extra-curricular accomplishments. Some awards may require a separate application. For more information see the Financial Aid website at <**www.mta.ca/financialaid**>. Awards for entering students are tenable as long as the student is carrying a full course load of 30 credits over the Fall and Winter terms, and all other conditions of the award are fulfilled. All returning students will be considered for Awards that do not require a separate application provided they are enrolled in a full course load of 30 credits over the Fall and Winter terms.

5.5 INDEPENDENT STUDENT RESEARCH GRANTS PROGRAM

Mount Allison offers a generous Independent Student Research Grants program aimed at third year students entering their fourth and final year of study. These awards allow students to work on their own independently developed research or creative activity project, under the close supervision and mentorship of a faculty advisor. This is an opportunity to better understand research and creative activity methods and to actively engage in research and creative activities in areas of special interest. Independent Student Research Grants are awarded via both institutional and departmental competitions. The grants are supported by a variety of funding resources, including the following:

R. Thomas M. Allan Summer Research Scholarship
Marjorie Young Bell Summer Fellowships
Capital Campaign Summer Fellowships
Class of '46 Summer Scholarship
J.E.A. Crake Student Fellowships
Dr. A. Cuthbertson Summer Research Scholarship
Ellis Fund
Dr. L.A. Goodridge Summer Fellowships

5.6 THE DONALD CAMERON AND CLASS OF 1950 FUND

Donald A. Cameron served this University as Registrar from 1959 to 1986, following a term as Assistant Professor of Education. He obtained a B.Sc. in 1950 from Mount Allison University. In 1952-53, he held a Lord Beaverbrook Overseas Scholarship and received a Diploma in English Educational Thought and Practice from the University of London in 1953. Upon his retirement as Registrar in 1986, and in recognition of his long and distinguished service, the University

established the Donald A. Cameron Fund from which students with financial need and good academic standing might be able to obtain assistance. Students will be encouraged to repay the funds to the University either during their time as a student or after graduation with a donation to the University. Interested students may apply to the Financial Aid and Awards Counsellor.

6 CO-CURRICULAR LIFE

6.1 THE MOUNT ALLISON STUDENTS' UNION

The MASU is governed by the Students' Administrative Council (SAC), a body of elected and appointed persons who represent the educational, social and personal concerns of Mount Allison students. These representatives include, but are not limited to, student senators, councillors-at-large, and a six-member executive.

There are many opportunities to be involved with the MASU. For example, the MASU hires a number of part-time staff that receive compensation in the form of a small honorarium. Students can also serve on various committees, such as the Sustainability Committee and Finance Committee.

The MASU employs a General Manager, Office Manager, and Insurance Administrator to aid in its work. The MASU office is located on the first floor of the Wallace McCain Student Centre.

Some of the services and events provided by the MASU include:

- Orientation, Shinerama, Winter Carnival, and the ASCARS
- Extended Health and Dental Insurance and International Health Insurance
- Funding for clubs and societies and for academic enrichment
- Off-Campus Housing Directory
- The MASU Handbook/Agenda and the Allisonian Yearbook
- Events, parties, and workshops

The MASU also sponsors and promotes the Clubs and Societies (C&S) of Mount Allison. These are a great way to become involved with the Mount Allison community. Examples of C&S include:

- Academic: Commerce Society, Psychology Society, Politics and IR Society, Chemistry Society, etc.
- Community Involvement: Association for Physically Disabled and Chronically Ill Students (ACID), Because I am a Girl, Best Buddies, Eco-Action, Global Brigades, Health Care Outreach, Habitat for Humanity, MOSIAC, Right to Play, SMILE, World University Services of Canada (WUSC), etc.
- Debating and Governance: Debate Society, Model United Nations, etc.
- International Organizations: UNICEF, Amnesty International, etc.
- Sports: Rugby (Men's and Women's), Lacrosse, Varsity Dance, Ultimate Frisbee, Brazilian Jiu-Jitsu, etc.
- Musical, Theatre, and Musical Theatre: Garnet and Gold, Drama Society, Conduct Becoming, etc.

Any student wishing to join a club or society can attend the MASU Clubs & Society Fair in September and should go to the MASU Office for help starting a new club or society. All athletic clubs and intramurals are run through the Athletics Department.

Overall, students have widespread representation on campus, including membership on the Board of Regents (governing body) and Senate (academic body). Full-time students are also represented at the provincial and federal level by advocacy organizations such as the New Brunswick Student Alliance (NBSA) and the Canadian Alliance of Student Associations (CASA).

6.2 THE ARGOSY WEEKLY

This campus weekly newspaper has been published for over 125 years by an all-student staff. The newspaper is editorially independent of both the University administration and the Student Administrative Council or the MASU.

6.3 CHMA FM

In 1985 the CHMA Radio Station was converted to FM Stereo frequency. Mount Allison is one of the smallest universities to have an FM radio station. The staff (from the announcers to the technicians) consists mainly of students and members of the Sackville community, all working under a full-timte Station Manager. The Station is funded by student fees and advertising revenues and reaches a listening audience of over 15,000.

6.4 MOTYER-FANCY THEATRE

The state-of-the-art Motyer-Fancy Theatre, located in the Purdy Crawford Centre for the Arts, not only supports the Drama Studies Program but is also open to the campus community. All students are encouraged to audition for roles and volunteer for design and production crews guided by professional staff and student technicians. It is also the home of Tintamarre, Mount Allison's bilingual theatre troupe.

6.5 RESIDENCE COUNCIL

Students living in the University's traditional-style residences elect house executives. These bodies organize house events and coordinate social activities. The president of each house executive sits on Residence Council, a body which represents residential concerns to Student Life and the Housing Office.

6.6 THE POND

The campus pub, established in 1974, is a vibrant venue for social gatherings. The Pond is the only permanently licensed facility on campus and offers TV screens, a dance floor and weekly special events. The Pond is located in the Wallace McCain Student Centre, ground floor.

6.7 ACCOMMODATION

6.7.1 Residences

Mount Allison is a residential university with housing facilities available for approximately 50% of the student population. Each residence is unique and provides a positive living and learning environment, which promotes a balanced university experience. All first-year students who want to live in residence are guaranteed accommodation if deposit deadlines are met.

Our 12 secure residences offer common lounges, kitchens, study rooms and laundry facilities with high speed and wireless Internet. Typical room furnishings are a bed, desk, chair, closets, mini-fridge, microwave, lighting, and shelving. For more information see our residence profile pages at **<www.mta.ca/life-mta/housing-and-dining>**

Prospective students should note that the University cannot be responsible for personal property. Students are strongly advised to insure their personal belongings. As indicated in the Conditions of

Residence Accommodation, pets, halogen lights, hot plates, wireless routers and networking equipment and firearms and explosive materials are not permitted in residence.

6.7.2 Residence Application Procedure

All first year students who wish to be considered for residence accommodation can apply using the application form found in the portal on the Housing website at <**www.mta.ca/housing**>. The residence application for new students opens November 1. A non-refundable residence application fee of $50.00 is required to complete the application. Assignment of residence rooms is based on the date the registration deposit is received by the Registrar's Office up to March 1. The $800.00 residence deposit must be paid by March 1 to be eligible for early residence room assignments and to guarantee residence accommodation for September. Residence applications and deposits are accepted, and rooms assigned after March 1 as they are received. For further information see Fees, Section 4.2.

Students are asked to take the time to answer all the questions on the application, as this helps in appropriate placement of students in residence. Provided incoming students have met all admission and deposit deadlines, they are guaranteed residence accommodation.

Students wishing to remain in residence for their second, third and fourth years of study can participate in the room draw process beginning in the fall. Students can choose to stay in the same residence or move to another residence for the following year. The room draw application can be found by signing in to the housing portal at <**www.mta.ca/housing**>. There is no application fee for room draw.

Once a student enters residence, the student is responsible for the full residence, meal plan and services fees. If a student later withdraws from residence, the student will be entitled to the refunds detailed in Section 4.5 "Withdrawals and Student Accounts".

Students studying abroad should contact the Housing Office at <**resroom@mta.ca**> if they wish to live in residence upon their return to Mount Allison.

6.7.3 Non-University Housing

The Mount Allison Students Union (MASU) maintains, for the use of students, a list of accommodations available in Sackville and area. Students wishing to live in town are invited to use this information.

6.8 DEPARTMENT OF ATHLETICS AND RECREATION

6.8.1 Intercollegiate Athletics, Varsity Programs

Mount Allison's Intercollegiate athletic teams compete against other Atlantic Universities and Colleges in a number of sports. Mount Allison competes in the Atlantic University Sport (AUS / U SPORTS) conference in football, men's and women's soccer, men's and women's swimming, and women's ice hockey. Mount Allison also has varsity teams in the Atlantic College Athletic Association (ACAA / CCAA) in men's and women's basketball, women's volleyball, and men's and women's badminton. In all sports, the championship team represents Atlantic Canada in National Championships. The Mounties also play exhibition games with teams from other parts of Canada and the United States.

If you are interested in receiving information about a varsity program, contact either the coach or the Athletic Director. Please note that the fall sports usually have pre-season tryout camps. Students interested in one of these sports should contact the respective head coach.

Note: Students who are registered in self-directed distance learning courses offered by Mount Allison and who are considered full-time students according to their course load, but who pay per-course tuition according to the fee structure outlined in 4.1.1 are not considered full-time on-campus students and are not eligible to participate in varsity sports that require confirmation of full-time enrolment.

6.8.2 Competitive Club Sports

A number of competitive club sport teams have been developed in recent years. Men's and women's rugby, curling, lacrosse, field hockey, ringette, and ultimate frisbee are just some of the sports that have developed representative teams and compete against other Universities and Colleges. The coordinator is the Manager, Athletics.

6.8.3 Intramurals

The intramural program gives students the opportunity to participate and compete in a wide variety of activities. Emphasis is placed on participation and fun. Leagues are scheduled in soccer, softball, basketball, hockey, and volleyball. Tournaments are held in golf, curling, tennis, badminton, ultimate frisbee, and other sports based on student interest. The coordinator is the MASU Intramural Coordinator.

6.8.4 Campus Recreation

There is time scheduled in the athletic facilities for open recreational use. Badminton, swimming, tennis, skating, pick up hockey, basketball, field games, ultimate frisbee, and fitness related activities are very popular daily activities. The Fitness Centre is open seven days a week with group fitness classes available.

6.9 SPIRITUAL CARE ON CAMPUS

MtA Spiritual Care supports students of all religions, spiritualities and world views and has a place for students of all faiths and no faiths. The Multi-faith Chaplain and Spiritual Care Coordinator, together with the Spiritual Care Ambassadors, offers programs grounded in values of generosity, curiosity, gratitude, compassion, and hospitality. MtA Spiritual Care supports students who are religious/spiritual, engages in interfaith dialogue, teaches religious literacy, and seeks to build compassionate community. The Multi-faith Chaplain and Spiritual Care Coordinator is also available to listen and guide in life's big (and not so big) questions.

The University Chapel, a beautiful building witnessing to the Christian roots of the university, is open to anyone, no matter what belief, gender, sexuality or origin. The Chapel, including the Quiet Room, the Manning Multi-faith Room, and the Multi-faith Prayer Room, is a space to pause, reflect, study, meet friends, eat lunch, sit, nap or simply enjoy its beauty. It is also a bookable space for student groups and university departments.

6.10 STUDENT LIFE

6.10.1 The Director of Student Experience

The Director of Student Experience is responsible for the quality of student life (transition and settlement) and for maintaining effective

liaison with student administrative bodies, student organizations and individual students. The Director oversees orientation programs; the campus life of students; the quality of residence life; International Centre staff and services; equity, diversity, and inclusion initiatives; sexualized violence education and response; and non-academic misconduct (e.g. Student Code of Conduct). The Director and other staff in Student Life are available for consultation and guidance on academic, personal, and extracurricular matters.

6.10.2 Academic Concerns

Students with academic concerns are encouraged to speak first with their professors and/or with the Head of the Department or appropriate academic Dean. The Manager of Academic Support, Student Development Counsellors, the MASU Ombudsperson, and Registrar s Office staff are also available as resources.

6.10.3 Academic Support

Assistance with academic skills is provided by the Office of Academic Support, located in the R. P. Bell Library. Academic Support offers programs such as the Writing Resource Centre, the Peer Tutor program, PASS (Peer Assisted Study Sessions), Academic Help Centres in many first-year courses, and Fresh START study skills labs. Inquiries and requests for assistance should be directed to the Manager of Academic Support at <**academicsupport@mta.ca**>.

6.10.4 Writing Resource Centre

The Writing Resource Centre (WRC) can assist students with written assignments in any subject area, at any stage of the writing process. Writing tutors are available in the Humanities, Social Sciences, and Sciences. The WRC also provides professional writing support to students with EAL (English as an Additional Language). The WRC is located in the R.P. Bell Library, and support from a writing tutor can be accessed online through Moodle.

6.10.5 Academic Help Centres

Academic Help Centres in Math, Physics, Computer Science, Chem/Bio/Biochem, Psychology, Economics, and Modern Languages operate as drop-in services, both online and in person in the R.P. Bell Library. These supports are run collaboratively by the academic departments and Academic Support, and are intended to support students in introductory courses. Schedules can be found on the Library website.

6.10.6 Residence Academic Mentors

Residence Academic Mentors (AcMen) assist residence students with academic resources necessary for academic assistance. AcMen organize help-sessions, provide access to tutors, and hold regular office hours in their respective residences. Please feel free to contact any of them at any time in person or by email if you have any questions, concerns, or suggestions.

6.10.7 Academic Tutors

A list of peer tutors who may be able to help with courses is available through Mount Allison's Nimbus app. Students can download the app, select Mount Allison University as the institution, and complete the sign-up process. Tutoring services can be booked and paid for directly through the Nimbus app. Students interested in working as a peer tutor should email the Coordinator of Peer Academic Support at <**peertutors@mta.ca**>.

6.11 STUDENT LIFE RESOURCES

6.11.1 Personal Counselling and Social Work Support

The demands of studies can be particularly stressful when students encounter additional challenges of health, family, relationships or other life issues. Mount Allison provides two accredited Counsellors, from whom students may receive confidential support through short-term counselling for a variety of personal issues which may include stress, adjustment to university, anxiety, depression, alcohol or drug use, sexuality, relationships, sexual assault, family dysfunction and grief. Students requiring support beyond Mount Allison's scope of practice, such as the need for psychiatric, psychological, or additional mental health services may be provided resource information through health and wellness staff. Additionally, a part-time counsellor with expertise in supporting 2SLGBTQIA+, BIPOC, and athletic communities is available. Counsellors are located in the Wellness Centre on the ground floor of the Wallace McCain Student Centre. To learn more about the counselling scope of practice, how to book an appointment, or to access external counselling resources, please visit <**www.mta.ca/wellness**>.

Mount Allison's social worker provides non-urgent case management services to students. Case management is not counselling but includes navigation and connection to appropriate services both on and off campus. Social work services are available at no cost during the fall and winter terms. To book an appointment, please visit <**www.mta.ca/wellness**>.

6.11.2 Experiential Learning and Career Development

The Office of Experiential Learning and Career Development is located in the Wallace McCain Student Centre. The Office facilitates the MtA Internship Program. Internships provide meaningful, paid work-integrated learning experiences to support student professional and academic goals while also developing competencies and connections to the world of work. For more information visit the website at <**www.mta.ca/internships**>.

Co-curricular entrepreneurship programming and Venture Space MtA offer opportunities for students from any field of study to engage with start up programs and apply for funding. For more information about Venture Space MtA visit the website at <**www.mta.ca/venturespace**>.

The Career Services Coordinator offers individual consultations and provides information on graduate and professional programs, careers, study, volunteer, and work abroad programs. Information is available on occupational profiles, labour market trends, résumé writing, job search techniques and preparing for interviews. Workshops are also available on mentorship, networking, skill development, and digital and information literacy. For more information visit the website at <**www.mta.ca/expl**>. Inquiries should be directed to <**careers@mta.ca**>.

6.11.3 Employment

On-campus part time job opportunities are available at Mount Allison. Students may earn extra income through employment with Dining Services, the Library, Event Services, Residence Life, Bar Services, The

Pond, the campus Bookstore, Conference Office and Summer Camps, the International Centre, the Registrar's Office, and other academic and non-academic departments. Contact the appropriate department of interest or visit the Experience Mount A employment portal managed by Experiential Learning & Career Development.

An online job board is available to students through Experience MTA at <**https://experience.mta.ca**>. This portal is regularly updated with opportunities available locally and nationally. Students are encouraged to reach out to the Office of Experiential Learning & Career Development in the Wallace McCain Student Centre if they require any support in applying for roles. Staff are able to help with resume writing, job search strategies, networking and more.

6.11.4 Health Services

The Wellness Centre is a non-emergency health service for all Mount Allison students open during the academic year (September to mid-April). It is a non-judgmental health service that strives to reduce health barriers for young adults living away from home with the support of a Registered Nurse/Educator. The Registered Nurse/Educator coordinates health care services of Mount Allison students, by triaging their individual needs through assessing, testing, planning, treating, providing health education and referrals when appropriate. Physician clinics may also be advertised throughout the year through a collaborative practice, and fee-for-service external supports (e.g. psychologist, massage therapist, chiropractor) may be available on site by appointment. Anyone experiencing a health emergency should call 911. There is also an Emergency Department at the Sackville Memorial Hospital. For more information on external resources and health services available at Mount Allison including a comprehensive list of fee-for-service external supports, visit <**www.mta.ca/wellness**>

6.11.5 Student Health Insurance

Domestic students must ensure they have basic health insurance for the duration of their studies at Mount Allison, such as New Brunswick Medicare or healthcare coverage under another provincial or territorial basic health plan. International students and visiting exchange students are automatically enrolled in the Mount Allison Students Union (MASU) Basic Medical Insurance Plan. To opt out of the plan, students must provide MASU with proof of equivalent insurance coverage from another provider. Canadians without provincial healthcare coverage may apply through MASU for medical coverage under the same plan. The MASU also provides extended health and dental coverage to all students. All full-time students are automatically charged for the extended health and dental plans but can opt out if they provide MASU with proof of equivalent insurance coverage from another provider. More information is available on the MASU website at <**www.masu.ca**>. Inquiries should be directed to <**masuhealth@mta.ca**>

6.11.6 Dietary and Nutritional Concerns

To discuss dietary and nutritional concerns please contact Dining Services (506) 364-2423

6.11.7 Student Wellness

Mount Allison takes a holistic approach to student wellness. Staff across the University collaborate to provide comprehensive wellness support for students. Inquiries about services and supports can be directed to the Wellness Centre by email to <**wellness@mta.ca**>. Information, materials and programming regarding student health and wellness can also be requested through the Wellness Centre, and may be available on the web at <**www.mta.ca/wellness**>.

6.11.8 Landlord/Tenant Concerns

Students with inquiries about landlord/tenant relations or leases are encouraged to contact the Office of the Rentalsman in Moncton.

6.11.9 International Students

Mount Allison strives to provide a welcoming, engaging, and supportive learning environment for students from all nationalities and backgrounds. Students with citizenship outside of Canada form an important part of Mount Allison's community. To facilitate the social, cultural, and academic adjustment to life at Mount Allison, the International Centre organizes international orientation sessions prior to the start of each term. Support continues throughout the year in the form of dedicated programs and services coordinated by the International Centre team. A full list of programs and services is available on the International Centre's website <**www.mta.ca/international/**>. Students have access to a Regulated International Student Immigration Advisor (RISIA) who can provide immigration advice and assist students with their temporary residence documents at no additional cost. The Mount Allison campus community features a range of clubs, societies, committees, and projects that help promote cross-cultural awareness, understanding, and appreciation. Mount Allison University has policies and procedures that protect all students' right to live and study in an environment free from fear of discrimination on the basis of race, religion, gender and sexual identity, ethnicity, and national origin.

6.11.10 Student Conduct

The Academic Integrity Policy sets the University's standards for student conduct in academic matters and is administered by the Vice-President, Academic and Research. The Student Code of Conduct sets the University's standards for student conduct in non-academic matters and is administered by the Vice-President, Student Affairs. Other related policies governing students' non-academic misconduct include the Residence Life Code of Conduct, the Sexual Violence Policy, and the Anti-Racism Policy. Policies can be viewed on the Mount Allison website at <**www.mta.ca/about/leadership-and-governance/policies-and-procedures/**>. All students at Mount Allison, by virtue of their admission to the University, are subject to the regulations outlined in these documents. The University reserves the right to suspend or dismiss any student for infractions of the regulations. Neither the University nor any of its regents or officers shall be under any liability whatsoever because of such action.

6.12 SERVICES FOR STUDENTS WITH DISABILITIES

6.12.1 Policy on Students with Disabilities

Mount Allison University is proud to be an institution that welcomes and supports a diverse student body. To this end, Mount Allison is committed to providing support for students with disabilities, and, where warranted and without compromising academic standards, will provide reasonable accommodations.

Copies of the University's Policy on Students with Disabilities (Policy 1201) may be obtained from the Director, Accessibility and Student Wellness and can be viewed on the Mount Allison website at <**www.mta.ca/about/leadership-and-governance/policies-and-procedures/**>.

6.12.2 The Meighen Centre

The Meighen Centre provides a range of services to support the academic and non-academic needs of students with documented disabilities or medical conditions.

Students who may require accessibility support and are applying for admission to Mount Allison are encouraged to identify themselves on the application form. Students should contact the Meighen Centre as early as possible in the admissions process.

Students currently attending Mount Allison who have been previously identified with a disability, or who suspect they have a disability, and who want to access support services should contact Meighen Centre staff.

The Meighen Centre is located on the 3rd floor of the Wallace McCain Student Centre. Staff can be contacted by emailing accessibility@mta.ca or by calling 506-364-2641. More information about the Meighen Centre is available on the Mount Allison website at <**www.mta.ca/meighen**>.

7 GENERAL INFORMATION

7.1 THE MOUNT ALLISON UNIVERSITY LIBRARIES AND ARCHIVES

The Mount Allison University Libraries and Archives include the Ralph Pickard Bell Library, the Alfred Whitehead Music Library, and the University Archives. The libraries provide Mount Allison students, faculty, and staff with global access to digital, print, and audio-visual information. They are committed to working with students and faculty to promote information literacy -- accessing, critically evaluating, and using information effectively and ethically. Librarians offer in-depth reference services, in-class instruction, and research consultations by appointment.

The Mount Allison University Libraries hold over 600,000 books, videos, DVDs, audio materials, microforms, maps, etc., and provides access to the contents of over 200,000 journals in various formats. The **Ralph Pickard Bell Library** houses all the University's collections except music, including collections of rare books, maps and manuscripts dating from as far back as the 16th century.

The Libraries are open seven days a week during the school year. Students can access online library catalogues and databases from anywhere they have Internet access, on or off campus. In addition, as a member of the Council of Atlantic Academic Libraries (CAAL), the Libraries provide interlibrary loan services that allow students and faculty to borrow materials from libraries worldwide.

The **Alfred Whitehead Music Library** is home to an extensive collection with over 28,000 items. The library's holdings, which support students and faculty in the Department of Music, include more than 19,000 scores, 10,000 books and periodicals, and thousands of audio and video recordings. Mount Allison Department of Music recordings dating back over 50 years are available in various formats, alongside other unique materials including seven paintings by Alfred Whitehead. The Music Library subscribes to more than 30 music-specific databases (including streaming audio and video) which can be accessed from on- or off-campus.

The **University Archives** is housed in the Ralph Pickard Bell Library. Archival holdings support the University's administrative operations and also act as primary research sources for faculty, students, alumni and the general public.

The Archives acquires, preserves and makes available the archival records of Mount Allison University which have long term legal, financial, and historical value. Holdings consist of over 2,000 feet of textual records, approximately 10,000 photographs, as well as manuscript maps, architectural drawings, videocassettes, films and sound recordings. Records and publications of the Board of Regents, Senate, Faculty Council, Office of the President and all University units, departments and programs, as well as records and publications related to faculty, student and campus life from 1843 to the present are acquired. The Archives also obtains selected private fonds and collections related to the greater Chignecto area of Westmorland County, New Brunswick. Holdings include family papers, business records, and records of local clubs and organizations. Archival documents must be examined in the Archives and are not available for loan. The Archivist offers reference services, in-class instruction and research interviews by appointment.

7.3 THE MOUNT ALLISON FEDERATED ALUMNI, INC.

The Mount Allison Federated Alumni was founded in 1937 with the merger of the Alumnae Society of the Mount Allison Ladies' College (1871) and the Alumni Society of the Mount Allison College and Academy (1874) with the purpose of maintaining contact with the alumni and friends of Mount Allison, for the benefit of the University.

The Alumni Association supports and develops programs and services that create a meaningful experience for alumni, helping them stay connected with fellow alumni and the Mount Allison community.

The Alumni Association is governed by the 15 members of the Board of Directors and operates through members-at-large, Class Officers, alumni representatives on the Board of Regents and University Senate, and the Alumni Engagement Office.

For generations, Mount Allison alumni have consistently demonstrated a commitment to the University by generously sharing their time, skills, and resources. They play an active part in student recruitment, provide important financial support, and help maintain and strengthen the institution's reputation and visibility.

7.3.1 Alumni Board of Directors

The mission of the Alumni Board of Directors is to promote and motivate the participation of alumni and friends of Mount Allison with the University through effective communication, events, and special initiatives.

7.3.2 The Alumni Engagement Office

The Alumni Engagement Office provides services to Mount Allison alumni and develops and administers the Mount Allison Alumni

Association as an organization that can aid the University in providing the best possible research, educational, and extracurricular opportunities for our students and faculty.

The Alumni Engagement Office works with the Alumni Board of Directors to develop initiatives that support the University's mission; develops and supports alumni networks; organizes on-campus and virtual alumni reunions and events; works with alumni networks and class executives to maintain a database of 33,000 records of alumni and friends of Mount A; publishes the alumni magazine the Record three times per year; and maintains the Alumni Association's communications and social media channels.

7.4 COMPUTER FACILITIES

There are several publicly accessible computer labs on campus. Laser printing is available at several locations.

7.4.1 Software

Software available in the labs includes Web browsers, E-mail, Microsoft Office for word processing, presentations, and spreadsheets and several mathematics, statistical and scientific packages. Several programming languages and many other course-specific programs are available.

7.4.2 Campus Network

The University is a member of the NB/PEI Educational Computer Network (ECN) and has connections to other ECN institutions. Mount Allison also has a wireless network covering the entire campus.

7.4.3 Residence Networking

Students have access to the high speed wired and wireless network in residence. A large networked printer (using web print) is available in Jennings Hall for printing and copying using Mountie Money.

7.4.4 Computing Services

Computing Services, located in the Bennett building at 10 Salem Street, manages and maintains the University's computing and network resources, and provides advisory and training assistance to all members of the university community through the Helpdesk and Student Helpdesk Consultants. The Computing Services Helpdesk is open weekdays to assist students and staff. Equipment including cameras, video cameras, tripods, laptops, and data projectors can be signed out from Computing Services for course work and extra-curricular events.

7.5 MOUNT ALLISON UNIVERSITY BOOKSTORE

Located on the ground floor of the Wallace McCain Student Center, the Mount Allison University Bookstore is the place for official MtA clothing, merchandise, textbooks, related course materials and more. The Bookstore is open Monday to Friday from 8:30 a.m. to 4:30 p.m. for in-person shopping or shop anytime via the Bookstore website at < **http://bookstore.mta.ca** > . Accepted payment methods include VISA, Mastercard, American Express and Interac (debit) direct payment.

The Bookstore, owned by Mount Allison University, makes textbooks and required course materials available to students at the lowest possible price. All textbooks are available to be ordered via the Bookstore website and can be ordered for pick up in store. Residence students can take advantage of the Books on Beds program and order course materials and general merchandise to be delivered to their residence room. Orders will be delivered to residence rooms the month before the term begins in both September and January.

7.6 BANKING SERVICES

Branches of the Royal Bank of Canada and the Bank of Nova Scotia are located in Sackville and include 24 hour ATM services at their locations.

7.7 PERFORMING ARTS SERIES

Each year the University helps sponsor a series of performances by groups and artists distinguished in the field of high quality entertainment. Mount Allison students have the opportunity to reserve tickets for these performances on specially favourable terms. Full details are available in the Performing Arts Series Brochure supplied to students each September.

9 LECTURESHIPS, TRUSTS AND FELLOWSHIPS; ENDOWED CHAIRS; FACULTY AWARDS

9.1 LECTURESHIPS, TRUSTS AND FELLOWSHIPS

9.1.1 The Josiah Wood Lectureship

This lectureship was founded and endowed in the autumn of 1925 by the Hon. Josiah Wood, D.C.L., a member of the first Mount Allison class.

The Wood lecturers have included Sir George E. Foster, Sir Robert Falconer, Dr. T.R. Glover, Rev. Lloyd Douglas, James Irvine, Rev. H.J. Cody, Dr. Alfred Noyes, Rev. Richard Roberts, Frank Parker Day, Sir Robert Boothby, Hon. Vincent Massey, Lord Bridges, Dr. Wilder Penfield, Dr. G.P. Grant, the Hon. Robert Stanfield, Dr. John Kenneth Galbraith, the Hon. Dr. Flora MacDonald, and Lester Brown.

9.1.2 The Bronfman Lecture Series

This lecture series was established in 1979, through the generosity of the Samuel and Saidye Bronfman Foundation. With the endowment of a fund to provide for the invitation to campus of a distinguished lecturer, the Bronfman Lecture series allows undergraduate researchers at the University the unique experience of meeting with noted scholars.

Distinguished lecturers have included: Professor Maurice Wilkins, FRS, winner of the Nobel Prize for his discovery of DNA, Dr. Brian Josephson, FRS, winner of the Nobel Prize for his work with the Josephson Junction, Prof. Gerhard Herzberg, FRS, winner of the Nobel Prize for his study of interplanetary matter in space, Sir Andrew Huxley, O.M., FRS, for his studies in Physiology and Medicine and Dr. James M. Buchanan for his studies in the Theory of Economics and Political Decision Making.

9.1.3 The Crake Lectureship in Classical Studies

The Crake Lecture was established in 1978 through the generosity of Dr. J.E.A. Crake, Professor Emeritus of Classics at Mount Allison University, and of the Crake Foundation, thus enabling the Department of Classics, in association with the Crake Foundation, to invite annually a distinguished scholar to give a public lecture on a subject drawn from the cultures of Greece and Rome.

Since the inception of the series the following distinguished academics have delivered the lectures: Professor James Russell, University of British Columbia; Professor Amanda Claridge, Princeton University; Dr. Rupert Bruce-Mitford, British Museum; Professor Malcolm McGregor, University of British Columbia; Professor Geoffrey Kirk, Cambridge University; Professor John Boardman, Oxford University; Professor T.D. Barnes, University of Toronto; Professor Peter Green, University of Texas; Professor C.W.J. Eliot, Mount Allison University; Professor Lillian Feder, City University of New York; Sir Kenneth Dover, Oxford University; Professor Keith Hopkins, Cambridge University; Professor Barry Cunliffe, Oxford University; Professor Elaine Fantham, Princeton University; Professor Oliver Taplin, Oxford University; Professor T.P. Wiseman, University of Exeter; Professor G.P. Goold, Yale University; Professor Susan Treggiari, Stanford University; Professor Eugene N. Borza, Pennsylvania State University; Professor Nial Rudd, University of Bristol; Andrew Wallace-Hadrill, British School at Rome; Professor Erich S. Gruen, University of California at Berkeley; Professor Josiah Ober, Princeton University; Professor Eleanor Winsor Leach, Indiana University; Professor Anne Carson, McGill University; Professor Virginia Hunter, York University; Dr. Ian Morris, Stanford University; Professor Edward Champlin, Princeton University; Professor Susan Rotroff, Washington University, St. Louis; Professor Michael C. J. Putnam, Brown University; Professor Gregory Crane, Tufts University; Professor Keith Bradley, Notre Dame University; and Dr. Helen King, University of Reading.

9.1.4 The Wilford B. Jonah Lecture Series

The Wilford B. Jonah Lecture Series was established in 2000 through the generosity of Wilford B. Jonah, a member of the Class of 1936. The endowment created is intended to provide funds to enable the University to bring to campus persons of high international stature and prominence to give a public lecture and where possible to take part in a forum of discussion with students.

Distinguished lecturers have included: Mordecai Richler, author and essayist; Dr. David Suzuki, scientist, broadcaster and environmental advocate; Dr. Lawrence Krauss, Case Western Reserve University, world renowned physicist and author; Steve Wozniak, co-founder Apple Computers; and Richard Florida, academic and author.

9.1.5 Crake Doctoral Fellowship in Classics

This fellowship was established by the Crake Foundation in 1984 in memory of Dr. J.E.A. Crake. It is open to Canadian citizens and permanent residents who at the time of taking up the fellowship have completed all course and residential requirements for the Doctorate in Classics and who can reasonably be expected to finish the Doctorate during the year of tenure. The holder is asked to teach the equivalent of six credits and give a public lecture.

Since its inception, the fellowship has been held by William G. Kerr, Princeton University; Johannes vanderLeest, University of Toronto; Sarah M. Bonnycastle, University of Michigan; Carol Gordon, McMaster University; Riemer Faber, University of Toronto; Thomas Goud, University of Toronto; Frances A. Skoczylas, University of Toronto; Christopher Marshall, University of Edinburgh; Angela Kalinowski, University of Toronto; Rebecca Nagel, Harvard University; Gordon Nixon, University of Toronto; John Harris, University of Illinois; Paul Chenier, Stanford University; Leslie Shumka, University of Victoria; Kelly MacFarlane, University of Alberta; Myles McCallum, State University of New York at Buffalo; Brad Levett, University of Washington; Carol King, Brown University; Rachel Levine, University of Toronto; Andrew Faulkner, Oxford University; Aven McMaster, University of Toronto; Allison Surtees, Johns Hopkins University; Milo Nikolic, University of Victoria; and Jody Gordon, University of Cincinnati.

9.1.6 The Ebbutt Memorial Trust for Religious Studies

The Trust was established by the Rev. Arthur J. Ebbutt, B.A., B.D., Th.D., D.D., L.L.D., in memory of his wife Helen MacNaughton Ebbutt. Dr. Ebbutt taught at Mount Allison University from 1947 to 1971, serving as Dean of the Faculty of Arts from 1954 to 1963. Under his leadership, a Department of Religion was established in 1960, the name being changed in 1968 to the Department of Religious Studies.

The Trust is intended to promote a standard of excellence within the Department of Religious Studies by supporting activities which augment those financed through the regular budget. These include provision of scholarships for students in Religious Studies, acquisition of new Library resources in Religious Studies, and sponsoring lectures by reputable scholars in Biblical and Theological Studies.

Ebbutt Lectures have been delivered by Malcolm Miller, Chartres Cathedral (1982); Dr. William Klassen, Inter-Faith Academy of Peace, Jerusalem (1985); Dr. Douglas J. Hall of McGill University (1988); Sir Owen Chadwick of Cambridge University (1989); Dr. Willem Saayman of the University of South Africa (1991); Dr. Eileen Schuller of McMaster University (1992); Dr. William Klempa of Presbyterian College, Montreal; Dr. John S. Moir of the University of Toronto (1994); Prof. A. Üner Turgay, Institute of Islamic Studies, McGill University (1996); Dr. Victor Sogen Hori of McGill University (2000); and Dr. Erin Runions of Pomona College (2006).

9.2 ENDOWED CHAIRS

The University is fortunate in the number of endowed professorships that have been established, and is very grateful to those who, by generous gift or bequest, have made them possible. The endowment of a Chair is a highly valued means of supporting the University and a particularly wise investment in higher education.

Information about the endowed chairs is of historical significance, and of general interest, too. Some of it is summarized here.

9.2.1 Clement Chandler Avard and Florence Sybil Avard Chair in French Language

The endowment for this Chair was provided by a bequest from the estate of Clement Chandler Avard, 1875-1956. Born in Point de Bute, he graduated from the New Brunswick Teachers' College and Mount Allison, B.A., 1898. He was called to the Bar in New Brunswick in 1901 but did not practice. He established the Sackville Tribune in 1902 and the Tribune Printing Company in 1906, and continued in control of these companies until 1947. During his lifetime he served on the Board of Directors of several Maritime Companies.

He had a deep interest in education. For fifteen years he served as Chairman of the Sackville School Board. He was a member of the Board of Regents of Mount Allison for thirty-four years, and also served as Chairman. In 1948 he was honoured by Mount Allison University with a Doctor of Literature Degree.

The Chair, established in 1956, has been held by Allan MacBeth, B.A., M.A., 1956-1965; J. Gordon Andison, B.A., M.A., Ph.D., 1965-1970; Peter Edwards, B.A., M.A., Ph.D., 2005-2007, and Mark Lee, B.A., M.A., Ph.D., 2019-2024.

9.2.2 The Walter B. Cowan Chair in Religious Studies

The Walter B. Cowan Chair in Religious Studies is endowed with a bequest from Walter B. Cowan, a distinguished lawyer and prominent United Church layman. Charles H.H. Scobie, S.T.M., M.A., B.D., Ph.D., D.D., was appointed the first Cowan Professor of Religious Studies in 1985. The following scholars have since held the chair: Fiona Black B.A., M.A., Ph.D., 2019-2024; and Barbra Clayton, B.A., M.A., Ph.D., 2025-2030.

9.2.3 The Edgar and Dorothy Davidson Chair in Canadian Studies

Believed to be the first of its kind in Canada, the Edgar and Dorothy Davidson Chair of Canadian Studies was established in 1969. The Chair has been most generously endowed and is named in honour of Dr. Edgar Davidson and Dr. Dorothy Davidson of Ottawa.

Mr. and Mrs. Davidson have over the years gathered together a rich collection of Canadiana books, imprints and manuscripts of great rarity and value and many fine examples of early Canadian glass, of Canadian furniture of the 18th Century, and of Canadian painting and sculpture of the 19th and 20th Centuries. In making the gift of this superb collection to Mount Allison, the donors stated that:

> ...we are prompted to make this gift in recognition of the great contribution made by the men and women of the Maritimes toward our national life from its early beginnings to the present time. We furthermore have selected a New Brunswick university because we believe that in this province more is done toward solving the crucial problem of achieving a bi-cultural life than anywhere else in Canada.
>
> ... We have been impressed with the splendid facilities and aims of Mount Allison and with what is done there for young people, not merely from an academic point of view but also from a cultural one.

The following scholars have held the chair since establishment: George F.G. Stanley, O.C., B.A., B.Litt., M.A., D.Phil., D-es-L., D.Litt., LL.D., D.C.L., F.R. Hist.S., F.R.S.C., 1969-1975; Douglas Grant Lochhead, B.A., M.A., B.L.S., D.Litt, LL.D., F.R.S.C., 1975-1987; Lawrence D. McCann, B.A., M.A., Ph.D., 1987-1992; and William Cross, B.A., M.P.S., J.D., M.A., Ph.D., 2001-2005; Frank Strain, B.A., M.A., Ph.D., 2005-2010; Christl Verduyn, B.A., M.A., Ph.D., 2010-2020; and Karl Hele, B.A., M.A., Ph.D., 2020-2026.

9.2.4 Fred C. Manning Chair in Commerce

This Chair is named in honour of the late Fred C. Manning, an outstanding Nova Scotian industrialist and distinguished Allisonian whose generous bequest to the University made possible its establishment.

Dr. Manning was born in Falmouth, Nova Scotia and attended Mount Allison Academy 1909-1910. When presented for the honorary degree at the May Convocation at Mount Allison in 1955 it was stated:

> ... he is President and controlling owner of multimillion dollar businesses in the Maritimes, the Canadian West, and in far off Venezuela. Director of a score or more companies, Fred Manning's record stands as an inspiration and challenge to every ambitious young student in the Commerce Course, and

effectively refutes the statement that there are no opportunities in the Maritimes.

Dr. Manning contributed to Mount Allison the cost of the Physics and Engineering Building, which is dedicated "to the advancement of Scientific knowledge." Mrs. Manning contributed funds for decorating and furnishing the Manning Room in the Chapel, as "an expression of her deep interest and concern for the religious life of the University Community."

The following scholars have held the chair since establishment: Professor Dan C. Patridge, B.Sc., M.B.A., 1971-1996; and Rosemary Polegato, B.Sc., M.Sc., M.B.A., Ph.D., 2025-2030.

9.2.5 The Hart Almerrin Massey Chair in Philosophy

The following scholars have held the chair since establishment: Roy Balmer Liddy, B.D., Ph.D., 1915-1931; Charles Arthur Krug, M.A., B.D., 1931-1947; Clayton Amos Baxter, M.A., Ph.D., 1947-1965; and Cyril Francis Poole, B.A., M.A., Ph.D., 1965-1977; Paul Bogaard, B.A., M.A., Ph.D., 2006-2010; Roopen Majithia B.A., M.A., Ph.D., 2019-2024.

9.2.6 The Pickard-Bell Chair in Music

This Chair was established in 1966 with a generous endowment from the estate of Winthrop Pickard Bell, B.A., M.A., Ph.D. This very substantial bequest to Mount Allison was in memory of Dr. Bell's mother, Mary Emerancy Pickard Bell, the first teacher of piano in the Conservatory of Music, 1873-1882. (In 1965 Dr. Ralph P. Bell, brother of Dr. Winthrop Bell, donated the Mount Allison Chapel Organ, also in memory of his mother). Mary Emerancy Pickard Bell graduated from the Mount Allison Ladies' College in 1866 with a degree of Mistress of Liberal Arts. From 1866-1869 she taught Literature, Mathematics and Calisthenics at the Ladies College, and in 1873 she joined the Faculty of the Conservatory of Music.

Winthrop P. Bell was one of Mount Allison's most illustrious and loyal graduates. An outstanding scholar, he graduated with honours in Mathematics, Bachelor of Arts and Master of Arts degree. He also earned an M.A. from Harvard and a Ph.D. from Gottigen, Germany. He lectured at the University of Toronto and at Harvard University, eventually returning to Nova Scotia to engage in business and pursue scholarly activities.

A loyal Allisonian and churchman, he annually supported the financial program of the university and encouraged classmates and friends to rally around their "alma mater." It is for one of his earliest works, composed when a student at Mount Allison, that he is best remembered by all Allisonians, for he wrote the lyrics of the "Alma Mater" song. Since 1906 this song has been sung by students at the University and by Allisonians throughout the world. Dr. Bell served on the Board of Regents from 1948-1951. He died in 1965.

In 1965 Mount Allison received Dr. Winthrop Bell's entire library, more than half of which is a very valuable collection of Acadiana.

The following scholars have held the chair since establishment: George A. Procter, B.A., M.Mus., Ph.D., 1967-1974; Nancy F. Vogan, B.A., M.Mus., Ph.D., 2005-2014; Elizabeth Wells, M.Mus. Ph.D., 2013-2018; David Rogosin, B.Mus., M.Mus., D.M.A., 2019-2024; and James Kalyn, B.Mus; M.M.; D.M.A., 2025-2030.

9.2.7 The Reverend William Purvis Chair in English Literature

This Chair was established in 1969 in honour of the Reverend Mr. Purvis by a generous endowment from the estate of his son, Mr. William Sterling Purvis, a retired merchant of Warwick, Bermuda. Mr. William S. Purvis was a member of the class of 1905; his father served in pastorates in the Nova Scotia Conference of the United Church of Canada. The following scholars have held the chair since establishment: Arthur Motyer, B.A., M.A., 1970-1994; Carrie MacMillan, B.A., M.A., Ph.D., 2005-2008; Robert Lapp, B.A., M.A., Ph.D., 2009-2014; Janine Rogers, B.A., M.A. PhD., 2015-2020; Andrea Beverley, B.A., M.A., Ph.D., 2020-2025; and Amatoritsero Ede, B.A. and M.A., Ph.D., 2025-2030.

9.2.8 The Obed Edmund Smith Chair in Physics

Initial funding of this Chair came from a bequest of Obed Edmund Smith in 1938. The following scholars have held the chair since establishment: Donald Gordon MacGregor, B.A., M.A., 1938-1964; William John Noble, B.Sc., M.Sc., M.A., Ph.D., 1972-1979; James Horace Matthews, B.Sc., M.Sc., Ph.D., 1984-1994; Ralf Brüning, M.Sc., Ph.D., 2004-2014; Mohammad Ahmady, BSc., MSc., Ph.D. 2019-2024; and Catherine Lovekin, B.Sc., M.Sc., Ph.D., 2025-2030.

9.2.9 The Obed Edmund Smith Chair in Mathematics

Initial funding for this Chair was provided from the estate of Obed Edmund Smith in 1938. The following scholars have held the chair since establishment: William Hayward McEwen, M.Sc., M.A., Ph.D., 1938-1946; William Stanley Hayes Crawford, B.A., M.A., Ph.D., D.Sc., 1946-1982; Michael Edelstein, M.Sc., 1984-1986; Elmer Melvin Tory, B.Sc., Ph.D., 1989-1996; Margaret Beattie, B.Sc., M.Sc., Ph.D., 2006-2010; Robert Rosebrugh, B.Sc., M.Sc., Ph.D., 2010-2015; and Margaret-Ellen Messinger, BSc., MSc., Ph.D. 2019-2024.

9.2.10 The Stiles-Bennett Chair in History

This Chair was endowed in 1943 with a generous gift from Viscount R.B. Bennett. The following scholars have held the chair since establishment: George F.G. Stanley, O.C., C.St.J., B.A., M.A., B.Litt., D.Phil., D-es-L., D.Lit., D.C.L., F.R.Hist.S. , F.R.S.C. , 1943-1947; Donald Grady Kerr, B.A., Ph.D., 1947-1958; Philip Anthony Lockwood, M.A., 1959-1964; and William Godfrey, B.A., M.A., Ph.D., 2003-2006.

9.2.11 The Josiah Wood Chair in Classics

In 1866, Josiah Wood established an endowment of $15,000 for this chair, and Alfred Smith was appointed the first Wood Professor of Classics. An additional contribution to the endowment was made in 1934. The following scholars have held the chair since establishment: Alfred Smith, 1886-1917; C.B. Delano, 1917-1919; J.W. Cohoon, 1919-1946; J.E.A. Crake, 1947-1977; C.W.J. Eliot, 1978-1985; Bruce Robertson, B.A., M.A., Ph.D., 2020-2025; and Ilaria Battiloro, B.A., M.A., Ph.D., 2025-2030.

9.2.12 The Charles and Joseph Allison Chair of English Language and Literature

Initial funding for this Chair was provided from Joseph Allison in 1921 and was later combined with funds from Charles F. Allison. The

following scholars have held the chair since establishment: William Tweedie, 1921-1936; Henry Gundy, 1943-1947; Lloyd Duchemin, 1947-1974; Michael Thorpe, 1990-1997; and Karen Bamford, 2006-2011; Deborah Wills, Ph. D. 2011-2016 and Peter Brown, B.A., M.A., Ph.D., 2020-2025.

9.3 FACULTY AWARDS

9.3.1 The Herbert and Leota Tucker Award

The Tucker award was endowed in 1983 by members of the Tucker family to perpetuate the memory of their parents, the Reverend Herbert Tucker, B.A., M.A., M.Ed., Ph.D., one time Joseph L. Black Professor of Economics and Sociology and Head of the Department, and former Dean of the Faculty of Arts and University Registrar, and his wife, Leota Tucker. The annual prize recognizes outstanding effectiveness in the university classroom as well as broader influence within the university community and the wider constituency it serves. The recipient is expected to deliver a public lecture on a subject of their own choice. The award was first presented in 1984 to Alexander Boyd Fancy, B.A., M.A., Professor of French; in 1985 to Evron Norinne Kinsman, B.Mus., M.A., Professor of Music; in 1986 to Kathryn Eryl Hamer, B.A., M.A., Ph.D., Professor of French; in 1987 to Clifford Marsden Allen, B.Sc., M.Sc., Professor of Geology; in 1988 to Robert Lewis Hawkes, B.Sc., B.Ed., M.Sc., Ph.D., Professor of Physics; in 1989 to David Pierce Beatty, B.A., M.A., Ph.D., Professor of History; in 1990 to Carrie MacMillan, B.A, M.A., Ph.D., Professor of English; in 1991 to John T. Macfarlane, B.A., M.Sc., Professor of Physics; in 1992 to B. Arthur Miller, B.A., M.A., Ph.D., Professor of Mathematics and Computer Science; in 1993 to Ross Barclay, B.Sc., M.Sc., Ph.D., Professor of Chemistry; in 1994 to Roland Crooks, B.A., M.A., Associate Professor of Psychology; in 1995 to Judith A. Weiss, B.A., M.A., Ph.D., Professor of Spanish; in 1996 to Robert G. Thompson, B.Sc., M.Sc., Ph.D., Professor of Biology; in 1997 to Charles Hugh Hope Scobie, M.A., B.D., Ph.D., D.D., Cowan Professor of Religious Studies; in 1998 to Vincent Conrad Reinsborough, B.A., S.T.B., M.A., Ph.D., Professor of Chemistry; in 1999 to Roger Calkins, B.A., M.A., Ph.D., Professor of English; in 2000 to Robert Summerby-Murray, B.A., M.A., Ph.D., A.T.C.L., Assistant Professor of Geography; in 2001 to Dennis Tokaryk, B.Sc., M.Sc., Ph.D., Assistant Professor of Physics; in 2002 to Deborah Wills, B.A., M.A., Ph.D., Associate Professor of English; in 2003 to Robert Lapp, B.A., M.A., Ph.D., Associate Professor in English; in 2004 to Ivan Cohen, B.A., M.A., Ph.D., Associate Professor of Classics; in 2005 Nancy F. Vogan, B.A., M.Mus., Ph.D., Professor of Music; in 2006 to Erin Steuter, B.A., M.A., Ph.D., Associate Professor of Sociology; in 2007 to Louise Wasylkiw, B.A., M.A., Ph.D., Associate Professor of Psychology; in 2008 to Elizabeth Wells, B. Mus., M.A., Ph.D., Associate Professor of Music; in 2009 to Craig Brett, B.A., M.A., Ph.D., Professor of Economics; in 2010 to Bruce Robertson, B.A., M.A., Ph.D., Associate Professor of Classics; in 2011 to Colin Laroque, B.Sc., M.Sc., Ph.D., Associate Professor of Geography and Environment; in 2012 to Andrew Nurse, B.A., M.A., Ph.D., Associate Professor in Canadian Studies; in 2013 to Fiona Black, B.A., M.A., Ph.D., Associate Professor in Religious Studies; in 2014 to Christl Verduyn, B.A., M.A., Ph.D., Professor of English and Canadian Studies, Director of the Centre for Canadian Studies; in 2015 Amanda Cockshutt, B.Sc., Ph.D., Associate Professor and Department Head in Chemistry and Biochemistry; in 2016 Brad Walters, B.Sc., M.E.S., Ph.D., Professor of Geography and Environment; in 2017 Jennifer Tomes, B.A., M.A., Ph.D., Associate Professor and Department Head in Psychology; in 2018 Andrew Wilson, B. Theol, B.A., Ph.D., Associate Professor in Religious Studies; in 2019 no award was given; in 2020 Kevin Morse B.Mus., M.Mus., Ph.D., Associate Professor in Music; in 2021 Susan Andrews B.A., M.A., M.Phil., Ph.D., Associate Professor in Religious Studies; in 2022 Lisa Dawn Hamilton B.A, M.A., Ph.D., Associate Professor in Psychology; in 2023 D. Linda Pearse B.Mus., M.Mus., D.M., Associate Professor of Music; in 2024 Andrea Morash B.Sc., Ph.D., Associate Professor in Biology; and in 2025 Genevièeve Desmarais B.A., M.A., Ph.D., Professor in Psychology.

9.3.2 Imasco Paul Paré Medal and Awards of Excellence

In 1995 Paul Paré Medal to Jean-Guy Godin; Paul Paré Excellence Awards to Felix Baerlocher, Pat Baker, Peter Edwards, Andy Gann, Thaddeus Holownia, and Robert Ireland.

In 1996 Paul Paré Medal to Felix Baerlocher; Paul Paré Excellence Award to Raymond Blake, Edmund Dawe, Basil Favaro, Andy Gann, Jean-Guy Godin, Thaddeus Holownia, Jack Stewart, Frank Strain, and David Torrance.

In 1997 Paul Paré Medal to Frank Strain; Paul Paré Excellence Award to Catharine Baker, Margaret Beattie, Penny Bryden, Peter Edwards, Jean-Guy Godin, Eldon Hay, Irena Kaczmarska-Ehrman, and Alexander Wilson.

In 1998 Paul Paré Medal to Thaddeus Holownia; Paul Paré Excellence Award to Felix Baerlocher, Penny Bryden, Terrence Craig, Jean-Guy Godin, Robert Hawkes, David Mossman, Jeff Ollerhead, and Frank Strain.

In 1999 Paul Paré Medal to Robert Hawkes; Paul Paré Excellence Award to Felix Baerlocher, Margaret Beattie, Raymond Blake, Penny Bryden, Doug Campbell, Peter Edwards, Rick Langler, Carrie MacMillan, and Rosemary Polegato.

In 2000 Paul Paré Medal to Felix Baerlocher; Paul Paré Excellence Award to Doug Campbell, Bill Cross, Peter Edwards, Thaddeus Holownia, Irena Kaczmarska, James Stark, and Stephen Westcott.

In 2001 Paul Paré Medal to Peter Edwards, Stephen Westcott; Paul Paré Excellence Award to Felix Baerlocher, Karen Bamford, Margaret Beattie, Bill Cross, Edmund Dawe, Robert Hawkes, Thaddeus Holownia, and Richard Langler.

In 2002 Paul Paré Medal to Felix Baerlocher; Paul Paré Excellence Award to Monika Boehringer, Ralf Brüning, Bill Cross, Douglas Campbell, Peter Edwards, Richard Langler, Jeff Ollerhead, and Stephen Westcott.

In 2003 Paul Paré Medal to William Cross, Rick Langler; Paul Paré Excellence Award to Robert Summerby-Murray, Stephen Westcott, Penny Bryden, Jeffrey Burns, William Godfrey, and Jack Stewart.

In 2004 Paul Paré Medal to Alex Fancy, Ralf Brüning; Paul Paré Excellence Award to Karen Bamford, Mark Blagrave, Jeff Ollerhead, Robert Rosebrugh, Nancy Vogan, Brad Walters, Stephen Westcott, and Stacey Wetmore.

In 2005 Paul Paré Medal to Jeffrey Burns, Douglas Campbell; Paul Paré Excellence Award to Felix Baerlocher, Nauman Farooqi, David Fleming, Thaddeus Holownia, Irena Kaczmarska, Stephen Law, Helen Pridmore, and Steve Westcott.

In 2006 Paul Paré Medal to Felix Baerlocher, Robert Hawkes, and Thaddeus Holownia; Paul Paré Excellence Award to Terry Belke, Glen Briand, Suzie Currie, Erik Edson, Nauman Farooqi, William Godfrey,

Odette Gould, Colin Laroque, Jennifer Macklem, Laurie Ricker, Erin Steuter, and Brad Walters.

In 2007 Paul Paré Medal to Irena Kaczmarska; Paul Paré Excellence Award to Mohammad Ahmady, Craig Brett, David Fleming, Colin Laroque, Gayle Martin and Stephen Westcott.

In 2008 Paul Paré Medal to Catharine Baker; Paul Paré Excellence Awards to Michael Fox, Thaddeus Holownia, David Hornidge, Jane Mullen, Vett Lloyd, Felix Baerlocher, and Stephen Westcott.

In 2009 Paul Paré Medal to Craig Brett; Paul Paré Excellence Awards to Monika Boehringer, Suzie Currie, Zoe Finkel, Diana Hamilton, and Brad Walters.

In 2010 Paul Paré Medal to Suzie Currie; Paul Paré Excellence Awards to Fiona Black, Khashayar Ghandi, Odette Gould, Andrew Irwin, Colin Laroque, Bruce Robertson, Stephen Runge, Erin Steuter, and Deborah Wills.

In 2011 Paul Paré Medal to Stephen Westcott; Paul Paré Excellence Awards to Felix Baerolocher, Zoe Finkel, Gina Grandy, Thaddeus Holownia, David Hornidge, Mark Lee, Andrew Nurse, Gene Ouellette, and Elizabeth Wells.

In 2012 Paul Paré Medal to Christl Verduyn; Paul Paré Excellence Awards to Glen Briand, Ralf Brüning, David Fleming, Jennifer Harris, and Renata Schellenberg.

In 2013 Paul Paré Medal to David Hornidge; Paul Paré Excellence Awards to Monkia Boehringer, Khashayar Ghandi, Andrew Hamilton Wright, Thaddeus Holownia, Matt Litvak, Helen Pridmore, Helen Pridmore, David Rogosin, Brad Walters, and Stephen Westcott.

In 2014 Paul Paré Excellence Awards to Lauren Beck, Andrew Irwin, and Janine Rogers.

In 2015 the Paul Paré Medal was awarded to Elizabeth Wells, and Paul Paré Excellence Awards to Mohammad Ahmady, Kirsty Bell, Christina Ionescu, Irena Kaczmarska, and Gene Ouellette.

In 2016 the Paul Paré Medal was awarded to Janine Rogers, and Paul Paré Excellence Awards to Odette Gould, Lisa Dawn Hamilton, Tyson MacCormack, Linda Pearse, and Renata Schellenberg.

In 2017 the Paul Paré Medal was awarded to Vett Lloyd, and Paul Paré Excellence Awards to Lauren Beck, Mark Fedyk, Nancy Garon, and Steve Westcott.

In 2018 the Paul Paré Medal was awarded to David Fleming, and Paul Paré Excellence Award to Christina Ionescu.

In 2019 the Paul Paré Medal was awarded to Fiona Black, and Paul Paré Excellence Awards to Mark Lee, Irena Kaczmarska, and Gene Ouellette.

In 2020 the Paul Paré Medal was awarded to Stephen Runge, and Paul Paré Excellence Awards to Leslie Kern, Mario Levesque, and Vicki Meli.

In 2021, the Paul Paré Medal was awarded to Lauren Beck, and Paul Paré Excellence Awards to Christina Ionescu, Nathaniel Johnston, Renata Schellenberg, and David Thomas.

In 2022, the Paul Paré Medal was awarded to Karl Hele, and Paul Paré Excellence Awards to Susan Andrews, Ilaria Battiloro, David Hornidge, David Lieske, Catherine Lovekin, and Linda Pearse.

In 2023, the Paul Paré Medal was awarded to Diana Hamilton, and Paul Paré Excellence Awards to Kirsty Bell, Glen Briand, Geoffrey Cruttwell, Karl Hele, and Andrea Morash.

In 2024, the Paul Paré Medal was awarded to Tyson MacCormack, and Paul Paré Excellence Awards to Jane Dryden, Anne Koval, Joshua Kurek, Matt Litvak, and Vett Lloyd.

In 2025, the Paul Paré Medal was awarded to Gene Ouellette, and Paul Paré Excellence Awards to Christopher Forstall, Stephen Andrew Inkpen, and Jill Rourke.

Mount Allison University

ACADEMIC CALENDAR
2026-2027 edition

Part II: Academic Regulations

10 ACADEMIC REGULATIONS

The following regulations apply to students in all undergraduate degree or certificate programs. Students are responsible for knowing and adhering to these regulations as well as to the regulations pertaining to their particular programs.

10.1 COMMUNICATION

a) Email is an official means of communication for academic and administrative purposes at Mount Allison.

b) An email address assigned to a student by the university is the only email address used by Mount Allison for communication with students for academic and administrative purposes.

c) Students are responsible for frequently checking their Mount Allison email address to remain current with administrative and academic notifications.

10.2 COURSES OF INSTRUCTION

a) Courses offered by the University are listed and described, by program, in Section 12 of this Calendar.

b) Courses may be taught using a number of different formats.

c) The regulations outlined in Section 10 of this Calendar normally apply to all courses offered by the university.

d) In the case of intensive, experiential, or field courses, however, variations in the registration and withdrawal deadlines, the scheduling of classes, and the deadlines for completion of course work may be necessary. In these cases all variations will be stated clearly on the course outline and will be approved by an Academic Dean before the course is approved and available for registration.

   i) The A-Term is a two-week intensive course period at the beginning of the Fall term (normally the last two weeks of August). During this session, students may complete an entire 3-credit course or an intensive portion of a continuing fall-term course. A-Term registrations will be counted as part of the student's fall-term course load. Grades for A-Term courses will be available as per 10.9.2c (i).

10.3 REGISTRATION

10.3.1 Registration Procedures (Adding Courses)

a) Students are responsible for their registration.

b) Normally courses are added, changed, or dropped by the student through Self-Service.

c) Within 24 hours of making a change students should confirm their registration in Self-Service. If it does not reflect the addition, change, or deletion, or if students have problems viewing their schedule through Self-Service, they should contact the Registrar's Office.

d) Some academic departments require pre-registration of returning students for courses in their departments. For further information, please consult department heads.

10.3.2 Registration Deadline

a) All full and part-time students must register each year according to procedures and time frames supplied by the Registrar's Office. Failure to do so results in a financial penalty and possible denial of registration in certain courses.

b) In September and in January students must be registered and in attendance by the second Friday of each term. Exceptions must be approved by the Registrar (or direct delegate) on presentation of a medical certificate or on compassionate grounds.

c) In May students must be registered and in attendance (for in-class courses) by the first Friday of the term. Exceptions must be approved by the Registrar (or direct delegate) on presentation of a medical certificate or on compassionate grounds.

d) For specific intensive study courses the Registrar's Office will designate the deadline for registration.

e) Attending a course while not on the class list does not constitute registration and is not a basis for approval of a request for late registration. Under exceptional circumstances, an Academic Dean in consultation with the instructor, may approve late registration that is requested by the end of the term in which the course was delivered. A late registration fee may be charged. See section 4.4.1.

f) Within one week after the date for changes in registration at the beginning of each term, instructors will verify the list of students registered in the course.

g) Students must be properly registered in a course to receive a grade on any assignment or test.

h) Decisions concerning late registration in b) or c) above may be appealed to an Academic Dean within 3 calendar days of the decision.

10.3.3 Registration Deadline (Self-directed Distance Learning Courses)

a) Self-directed distance learning courses allow students to acquire credits toward a degree in a flexible, self-paced manner and are offered during the Fall, Winter, and Spring/Summer terms.

b) Any student registering for a self-directed distance learning course must follow the registration deadline specified in Regulation 10.3.2.

c) Any self-directed distance learning course must be completed by the end of the academic term in which it was started.

10.3.4 Determining Year Level

a) A student's year level is determined two times a year: 1) after Winter term grades have been recorded (normally by the end of May); and 2) after Spring/Summer term grades have been recorded (normally by mid-September).

b) Students who have earned less than 24 credits have first-year standing.

c) Students who have earned 24 to 53 credits have second-year standing.

d) Students who have earned 54 to 83 credits have third-year standing.

e) Students who have earned 84 or more credits have fourth-year standing.

10.3.5 Normal Course Loads and Overloads (Fall and Winter terms)

a) Full-time students are expected to register for the equivalent of 30 credits in the Fall and Winter terms, normally 15 credits per term. Students in any program may add ensemble credits in Music to a normal course load.

b) Full-time students are permitted to take up to six credits through self-directed distance learning as part of a normal course load.

c) Students are permitted to take up to three credits through A-Term courses offered in the Fall term.

d) Students with first-year standing are not permitted to register for more than 15 credits per term. Under exceptional circumstances first-year students may be permitted to overload in the Winter term if they achieve a TGPA of at least 3.5 in the Fall term.

e) Students with second- or third-year standing who are in Good Standing may register for up to 18 credits per term, provided they have attained a TGPA of at least 2.0 in the previous Fall or Winter term. Students in Good Standing who do not meet this requirement must have permission from the appropriate Academic Dean in order to register for overload credits.

f) Students with fourth-year standing who are in Good Standing may register for up to 18 credits per term. Students who are not in Good Standing must have permission from the appropriate Academic Dean in order to register for overload credits.

g) The permission of the appropriate Academic Dean is required for registration above 18 credits per term.

h) Students who qualify to overload under Section 10.3.5d or 10.3.5e may only register for the overload for the following Fall and Winter terms after June 1.

10.3.6 Normal Course Loads and Overloads (Spring/Summer term)

a) Students may register for a maximum of 12 credits during the Spring/Summer term unless approved by the appropriate Academic Dean.

10.3.7 Repeating Courses

a) No student may take the same course more than three times or be examined in it more than four times.

b) No student may take an Applied Music course more than twice or be examined in it more than three times. For the purposes of this regulation, students will be deemed to have taken an Applied Music course if they remain enrolled in it after the end of the fourth week of classes.

10.3.8 Auditing Courses

a) Students admitted to the university who wish to audit a course must obtain written permission of the instructor before formally registering for the course.

b) The instructor may deny permission to audit the course.

c) The nature and degree of class participation must be clarified in advance and are at the discretion of the course instructor.

d) Students auditing a course will not write final examinations or receive a grade for the course.

e) The notation of 'AU' will be indicated on the transcript upon verification by the instructor that the student has completed the specified nature and degree of class participation. If such verification is not received, a 'W' is automatically recorded on the transcript.

f) A course may not be changed from credit to audit or from audit to credit status after the last day of the change in registration period.

g) Registration and withdrawal deadlines apply to audited courses.

h) Fees are payable as indicated in the Financial Information section of the Calendar.

10.4 CHANGES IN REGISTRATION AND WITHDRAWAL

10.4.1 Change of Registration Period (Add/Drop)

a) Students may register for 3 credit Fall or Winter term courses until the second Friday of each term.

b) Students may register for 1, 3, and 6 credit full year courses until the second Friday of the Fall term.

c) Registration changes for Spring/Summer term courses are allowed until the first Friday of the term.

d) For specific intensive study courses the Registrar's Office will designate the deadline for registration changes.

10.4.2 Changing Programs

a) A student wishing to transfer from one program to another must apply to the Registrar's Office for a transfer, not later than the date specified for each program in the Calendar of Events (Section 2.2).

b) Request for *Change of Degree Program* forms are available on the Mount Allison University website.

10.4.3 Withdrawal Period Without Penalty

a) All students registered during the Fall and Winter terms may withdraw without academic penalty from a 3 credit course before the end of the eighth week of term.

b) All students registered during the Fall and Winter terms may withdraw without penalty from a full year 1, 3, or 6 credit course before the end of the second week in the Winter term.

c) Students registered for non-self-directed distance learning courses during Spring/Summer term may withdraw without academic penalty before the end of the fourth week of classes. Please see section 4.5.3 for financial information.

d) Students registered for an A-Term designated course may withdraw without academic penalty before the end of the first week of the A-Term session. For other specific intensive study courses the Registrar's Office will designate the deadline for withdrawal without penalty.

e) Students registered in a self-directed distance learning course in the Spring/Summer term may withdraw without academic penalty provided that such withdrawal occurs before not more than half the time limit for the course has elapsed.

f) Any student who does not withdraw from a course in accordance with these regulations must remain registered in the course and will receive a grade.

10.4.4 Late Course Withdrawal After the End of the Withdrawal Period

a) A student who wishes to withdraw after the deadline outlined in 10.4.3 because of a serious ongoing medical or personal issue that makes completion of a course unreasonable may apply to the Registrar (or direct delegate) to request consideration for late withdrawal by completing a Late Withdrawal Permission Request Form. Where appropriate, documentation from a medical professional to support the request for late withdrawal may be required. A decision will be made in consultation with the Director of Accessibility and Student Wellness

b) Any request for late withdrawal from a course must normally be submitted before the beginning of the exam period or, if there is no final exam, before the submission deadline for the final paper/assignment, and before a final grade has been recorded for a course.

c) A 'W' notation will be recorded on the transcript for approved late withdrawal from a course. A 'W' notation carries no academic penalty and is not factored into GPA calculations. Students may not petition to have a 'W' removed from the transcript.

d) Decisions concerning late withdrawal may be appealed to an Academic Dean within 3 calendar days of the decision.

10.4.5 Withdrawal from University

a) A student may withdraw from the University without academic penalty by completing the 'Withdrawal Request' form in Self-Service prior to the deadline for withdrawals from 1, 3, and 6 credit courses as outlined in regulation 10.4.3.

b) A student who withdraws from the University after this time, will remain registered and will receive grades, and Regulation 10.9.11 (Assessment of Academic Standing) will apply unless, on the recommendation of the Vice President Student Affairs, the student is granted late withdrawal because of serious ongoing medical or personal issues.

c) Any request for late withdrawal must normally be submitted before any final exams have been written or final paper/assignment has been submitted or final grades have been recorded for the term in which late withdrawal is being requested.

d) A series of 'x's will be recorded on the transcript indicating withdrawal from the university after the change of registration period as outlined in section 10.4.1. An 'x' notation carries no academic penalty and is not factored into GPA calculations. Students may not petition to have 'x's removed from the transcript.

10.4.6 Leave of Absence

a) A leave of absence is defined as an approved temporary absence from studies for one term or more.

b) Students in good academic standing may apply for a Leave of Absence for up to two academic terms.

c) Students may apply for one leave at any time, but the leave will not officially begin until the end of a term on condition that the student remains in good standing.

d) Students wishing to take a leave from their studies must first obtain the approval via the Registrar's Office by completing an *Application for a Leave of Absence*, available on the Mount Allison University website.

e) A student who has been approved for a Leave of Absence has permission to return to studies after the leave without having to apply for readmission. They may complete the degree requirements that were in effect at the time of leaving. Students with student loans or scholarships are advised to consult with the Financial Aid and Awards Counsellor prior to taking a leave, as there may be financial implications.

f) International students are advised to consult with the International Student Advisor to discuss the immigration implications of their leave request.

10.5 TRANSFER CREDITS

10.5.1 Letter of Permission to Take Courses at another Institution

a) Students planning to take courses at another university for Mount Allison credit must first obtain the Registrar's approval, by completing an *Application for a Letter of Permission*, available on the Mount Allison University website.

b) Letters of Permission are only issued on a retroactive basis if the application is made before the end of the academic term following completion of the course. A late application fee will be charged (see Section 4.4.1b).

c) Students must be in Good Standing to take courses on Letter of Permission at another university.

d) If approval is granted, a Letter of Permission will be issued on payment of the requisite fee. A passing grade may be accepted for transfer credit; however, students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

e) Transfer credits are recorded on the transcript with credit value only, no grade is recorded and they are excluded from the Grade Point Average.

10.6 ACADEMIC INTEGRITY

All members of the University community are expected to conduct themselves in an ethical manner, demonstrating a commitment to academic integrity and inherent fundamental values of honesty, fairness, respect, including respectful disagreement, and responsibility. It is the policy of the University that academic misconduct will not be tolerated. The academic regulations pertaining to academic integrity and academic misconduct are to be read in conjunction with the Academic Integrity Policy and Procedures.

10.6.1 Responsibilities

a) All members of the University community (i.e. students, faculty, and staff) are responsible for maintaining an atmosphere of academic integrity in all aspects of the academic enterprise.

b) Students have a responsibility to familiarize themselves with the University regulations and the conduct expected of them while studying at Mount Allison University.

c) Instructors are required to articulate clearly academic expectations in course outlines, including proper form of citation and use of sources, and expectations regarding collaboration and group work,

and are encouraged to use strategies that reduce opportunities for academic misconduct.

d) Any member of the University who has reason to believe that academic misconduct has occurred has a responsibility to report the matter promptly to the instructor of the course or, if the allegation does not involve a specific course or courses, to the appropriate Academic Dean. A teaching assistant or exam invigilator shall report to the instructor of the course who will investigate and report the incident as per the Academic Integrity Policy, Appendix A, 7.2.1.

e) Authority to deal with academic matters under the Academic Integrity Policy rests with the Academic Dean assigned with this responsibility as the Academic Integrity Officer (AIO) by the Provost and VP Academic and Research.

f) All allegations of academic misconduct will be reported to the Academic Dean (AIO). It is the responsibility of the Academic Dean (AIO) to conduct the appropriate follow-up to ensure the implementation of educative action, academic penalties, or sanctions, if applicable.

g) Decisions taken by the Academic Dean (AIO) may be appealed to the Academic Appeals Committee.

10.6.2 Academic Misconduct

Examples of academic misconduct include but are not limited to the following:

a) plagiarism or misrepresenting someone else's work, whether ideas, words, creative works, published or unpublished, as your own

b) submitting work you've already received academic credit for, or that you are already submitting for another course, without written permission from your instructor(s)

c) falsifying results in lab experiments, field exercises, or other assignments

d) copying someone else's work on assignments, tests, or exams

e) use of unauthorized aid or assistance in tests or exams

f) collaborating on assignments that were designated by the instructor as individual work

g) impersonating another student, or knowingly allowing someone to impersonate you, in an assignment, test, or exam

h) using someone else's computer account or using your computer account for unauthorized purposes

i) interfering with or damaging someone else's academic work including their access to campus resources

j) obtaining, viewing, or sharing information about an assignment, test, or exam

k) knowingly helping someone else engage in academically dishonest behavior

l) submitting false information or false medical documentation or misrepresenting personal circumstances to postpone or gain an advantage for any academic work

m) tampering with academic transcripts or records and/or submitting false credentials

n) any other form of misrepresentation, cheating, fraudulent academic behavior or other improper academic conduct of comparable severity

10.6.3 Determination of Offences and Outcomes

a) Academic misconduct may be alleged by a course instructor with respect to a course or courses taught by them. A determination of academic misconduct shall be based on a discussion between the student and the instructor, in person if possible, including a review of the evidence.

b) If academic misconduct has been determined, the instructor may impose an educative action (e.g. for instances that could be attributed to lack of understanding of appropriate citation) or an academic penalty (e.g for instances that reflect a serious breach of academic integrity).

c) The instructor will report the allegation and the outcome, whether educative action or academic penalty, to the Department Head and the Academic Dean (AIO) using the Report of Academic Misconduct form.

d) Academic misconduct may be alleged by a member (or members) of the university community other than a course instructor (e.g. invigilators in examinations, other students, Computing Services staff, etc.). If the allegation involves a course, it will be referred to the course instructor, who will follow procedures as above and as outlined in the Academic Integrity Policy, Appendix A, Section 7- Procedures for a Report of Academic Misconduct.

e) If the allegation does not involve a specific course or courses it will be referred to the Academic Dean (AIO), who will follow procedures as outlined in the Academic Integrity Policy, Appendix A, Section 7.

f) If the student disputes the allegation or the severity of the academic penalty imposed by the instructor they may appeal to the Academic Dean (AIO).

g) If the student's record (housed in the Registrar's office) shows a previous report of academic misconduct the Academic Dean (AIO) may impose additional sanctions.

h) All decisions of the Academic Dean (AIO) may be appealed to the Academic Appeals Committee (under the conditions outlined in the Academic Integrity Policy, Section 6).

i) Students must be advised of resources for support and their right to appeal decisions. Resources to advise students include any member of the University community such as: a MASU representative, Chaplain, Counselling Services, the Meighen Centre, and the Student Life Office.

10.6.4 Academic Penalties and Sanctions

a) In each case in which it has been determined that there has been academic misconduct, the relevant authority will determine and impose appropriate educative actions (Instructors, Academic Dean (AIO)), academic penalties (Instructors), or academic sanctions (Academic Dean (AIO) or the Academic Appeals Committee).

b) The following educative actions, academic penalties, or sanctions may be imposed:

   i) Educative Actions (may be imposed by Instructors or Academic Dean (AIO)) such as:

      - re-writing of the assignment
      - letter of reprimand and requirement to participate in an educational or remedial academic activity

ii) Academic Penalties (may be imposed by Instructors), such as:
- lower grade or failure on the assignment, test, or exam
- failure in the course

iii) Academic Sanctions (may be imposed by the Academic Dean (AIO)* or Academic Appeals Committee)
- rescinding of an offer of admission
- disciplinary probation, suspension*, dismissal* or expulsion* which will be recorded on the transcript
- revocation of degree*, diploma*, certificate or course credit*

c) Disciplinary probation, suspension, dismissal and expulsion will be recorded on students' transcripts. Except in cases of expulsion, one year after the expiry of the sanction the student may make a written request to the Registrar to have the notation of the offence removed from the transcript.

*decision requires consultation with the Academic Integrity Committee

NOTES:
- "Being an accessory" equates to "committing the offence".
- Disciplinary suspension refers to a term up to 2 years, disciplinary dismissal is for 3 years, expulsion is permanent.
- Disciplinary suspension or dismissal for academic misconduct means complete withdrawal from the University for the specified period. This means that students may not attend classes, do presentations or submit tests, essays or assignments of any sort, whether online, on paper or other medium, nor may they receive credit for courses taken elsewhere during the period of suspension or dismissal.
- The terms of suspension or dismissal are effective until such time as the student applies for and is offered re-admission to the University.

10.7 MISSED COURSEWORK OR TESTS

10.7.1 Missed Coursework or Tests

a) Mount Allison University encourages students to take responsibility for any health or personal problems that affect their academic performance. If students miss any kind of course work or test or are unable to meet deadlines for assigned work due to medical or personal circumstances beyond their control, they are urged to notify their instructor(s) as soon as they are aware that the illness or problem will affect their attendance and/or academic performance. Together, student and instructor should work to find appropriate and reasonable accommodation(s).

b) The Student Life Office may, in some circumstances, issue a notice on behalf of a student (for example, in the case of a sudden departure from campus due to family or medical circumstances) indicating that in the opinion of that office the student's ability to focus on academic work has been compromised. In such cases, appropriate supporting documentation is held by the Student Life Office.

c) Notes offering suggested accommodation(s) for particular circumstances may occasionally be prepared by professional staff in the Student Life Office but the primary responsibility for such accommodation(s) is between student and instructor.

d) It is understood that students must take personal responsibility for their academic performance, including the management of circumstances that may be beyond their control. Any concerns or allegations of misrepresentation of personal circumstances will be deemed to constitute an allegation of academic dishonesty and may be referred to the Academic Integrity Officer.

10.8 EXAMINATION REGULATIONS

10.8.1 Scheduled Tests and Final Examinations (Fall and Winter terms)

a) All final exams, with the exception of laboratory examinations, will occur during the final exam period. All other in-class or take-home tests worth more than 10% of the final grade must take place before the first day of the twelfth week of classes of either term. Normally this will be outside of the last five days of regularly scheduled classes, not including make up days within the schedule. In unusual circumstances faculty may request a variance from this requirement from the Vice-President (Academic & Research).

b) Take-home final examinations may be distributed at any time. They may not be due before the third day of the examination period and must not be due after the last day of the examination period.

c) All final tests and examinations (except laboratory examinations) will be scheduled in the final examination period. Requests for exemption from this regulation must be directed to the Vice-President (Academic & Research) for authorization.

10.8.2 Scheduled Tests and Final Examinations (Spring/Summer term)

a) Normally final examinations for Spring/Summer term non-self-directed distance learning courses will take place during the last scheduled class.

b) Final examinations for Spring/Summer term self-directed distance learning courses will normally be written on the Saturday prior to the start of the Fall term.

10.8.3 Viewing Examination Papers

a) Academic Departments must retain all final examination papers on file for six months following the date of the examination.

b) On request, students may arrange with a department or program to review their own examination paper(s) after final grades have been released by the Registrar's Office; however papers may not be removed from the department.

c) For purposes of this regulation a final examination shall be defined as one written in the regular or deferred examination periods.

10.8.4 Accommodations for Missed Final Examinations

a) A student may request accommodation for a missed final examination as a result of illness or for compassionate reasons by submitting an *Application for Exam Accommodation* form, which is available on the Mount Allison University website.

b) Accommodations for missed final examinations will be determined by the Registrar (or direct delegate) after consultation with the instructor.

c) If a deferred examination is approved as the appropriate exam accommodation for a Fall term course, the deferred exam will normally be written during the first week of the Winter term. Exceptions must be approved by an Academic Dean.

d) A deferred examination in a Winter term course must normally be written by the end of May, to be arranged by the Registrar (or direct delegate) in consultation with the instructor and student. If the examination cannot be written by that time, the student's academic standing will not be assessed until final grades have been submitted.

e) Students who do not clear their deferred status by the start of classes in the Fall term will receive a non pro-rated final grade and academic standing will be assessed based on these results.

10.8.5 Extended Deadlines for Completion of Course Work

a) If illness or compassionate reasons prevent a student from submitting all course work by the prescribed deadlines, the Registrar (or direct delegate) and the instructor may agree to extend the deadline(s) for completion of the work for up to four weeks beyond the original deadline(s).

b) If a granted extension prevents an instructor from submitting a final grade, a notation of 'INC' will be recorded on the transcript with a credit value of '0.0'.

c) If no grade is submitted by the specified extended deadline, the notation of 'INC' will be converted to an 'F'. Exceptions must be approved by an Academic Dean.

10.8.6 Special Examinations

a) A student with fourth-year standing may apply for a special examination if the following conditions apply:

i) the student has failed a course three times,

ii) that course is required for a degree program, and

iii) there is no acceptable alternative to allow fulfillment of degree requirements

b) Application for a special examination must be made in writing by using the form available on the Mount Allison University website.

c) A fee is charged for each special examination. This fee will be refunded if the application is not approved.

d) Applications for special examination must be approved by the Registrar, following consultation with the student, the instructor, and the Academic Dean.

e) The result of a special examination will be recorded with a grade of 'Pass' or 'Fail' unless the Registrar, in consultation with the instructor, determines that a letter grade would be more appropriate.

10.9 EVALUATIONS OF STUDENT PERFORMANCE

10.9.1 Grading Policies for Courses

a) Normally within the first week of the academic term, but at minimum by the earlier of the add/drop date or the end of the second week of classes, instructors shall provide students in their courses with written information indicating the policy concerning assessment, including but not limited to, assignments, tests, final examination, practical and laboratory work, class participation and attendance. This should include due dates for the assessment items (with the exception of exams scheduled by the Registrar during the exam period). The same information shall also be provided to the Department Head and the appropriate Academic Dean.

b) In all courses, work worth at least 20% of the final grade should be evaluated and returned to students before the end of the eighth week of term for Fall and Winter 3 credit courses and before the end of the second week of the Winter term for full year 1, 3, and 6 credit courses. For A-Term and Spring/Summer term courses work worth at least 20% of the final grade will usually be evaluated and returned to students before the course is no more than 60% completed.

c) Changes to due dates, assessment and marking scheme set at the beginning of the course (as per a. above) must be agreed upon by a strong majority (e.g. 2/3rds). These changes will be communicated in writing to students. This does not preclude the instructor's right to offer due date extensions to some or all of the students in the class; or the instructor's right to make assessment accommodations for students in need.

10.9.2 Reporting of Grades

a) Course work must be completed prior to the deadline for submission of the final grades.

b) Faculty members may not provide final grades or final exam grades to students in any form prior to the release of grades by the Registrar's Office. The Registrar's Office reports results to students following each examination period if all accounts with the University have been paid.

c) Faculty members must submit final grades to the Registrar's Office according to the following deadlines:

i) Fall Term: Normally before the University closes for the December holiday. With permission of an Academic Dean an extension may be granted to the day before the start of Winter Term classes.

ii) Winter Term: For all students whose names appear on the prospective May graduation list, four calendar days after the last day of the April examination period. For all other students normally 30 April. For non-graduating students, with permission of an Academic Dean an extension may be granted to the day before the start of Spring/Summer Term classes.

iii) For all other courses: Within seven calendar days of the final exam or the submission of final written work for the course.

10.9.3 Letter Grades and their Meanings

Letter grades are assigned. These grades, with descriptors and Grade Point Average equivalents as applicable, are as follows:

Letter Grade	Descriptor	GPA Equivalent
A+	Outstanding	4.3
A	Excellent	4.0
A-	Very Good	3.7
B+	Good	3.3
B	Good	3.0
B-	Good	2.7
C+	Satisfactory	2.3
C	Satisfactory	2.0
C-	Satisfactory	1.7
D+	Conditional (non-continuing) Pass	1.3
D	Conditional (non-continuing) Pass	1.0
D-	Conditional (non-continuing) Pass	0.7
F	Failure	0.0

Transfer Credits	Descriptor	GPA Equivalent
P	Pass, may be used to fulfill prerequisite requirements	excluded from the GPA
CP	Conditional Pass - may not be used to fulfill prerequisite requirements (Also used for Aegrotat Pass)	excluded from the GPA

Other Notations	Descriptor	GPA Equivalent
AU	Audit	excluded from the GPA
CIP	Course in progress	excluded from the GPA
CTN	Continuing, full year course, final grade recorded in 2nd term	
DE	Course results deferred	excluded from the GPA
E	Exemption from a course	excluded from the GPA
INC	Incomplete	0.0
W	Withdrawal from a course after course withdrawal deadline, without academic penalty	excluded from the GPA
X	Withdrawal from University	excluded from the GPA
*	Indicates repeated course	

10.9.4 Prerequisite Grade Requirements

a) A grade of D (D+, D, D-) in any course will be considered a non-continuing pass. In order for a course to be used to fulfill prerequisite requirements, a grade of C- or better must be obtained. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

10.9.5 Grades Excluded from GPA

a) Results from Special Examinations are reported on a Pass/Fail basis and are excluded from Grade Point Average calculations.

b) Transfer credits are excluded from the Grade Point Average.

10.9.6 Calculation of TGPA, SGPA and CGPA

a) A Term Grade Point Average (TGPA) is calculated at the end of each term by dividing the total number of grade points obtained during the term (credit hours x grade points) by the number of credit hours attempted per term.

b) A Session Grade Point Average (SGPA) is calculated at the end of the Winter term in each academic session (Spring/Summer, Fall, Winter) by dividing the total number of grade points obtained during the session (credit hours x grade points) by the number of credit hours attempted.

c) A Cumulative Grade Point Average (CGPA) is calculated by dividing the total number of grade points obtained on all courses (credit hours x grade points) by the total number of credit hours attempted.

10.9.7 Repeated Courses, SGPA and CGPA

a) In the event that a course is repeated, only the higher grade will be used in the Cumulative Grade Point Average calculation and in calculating the total number of credit hours used for the Cumulative Grade Point Average calculation.

b) In the event that a course is repeated within the same academic session, only the higher grade will be used in the Session Grade Point Average calculation and in calculating the total number of credit hours used for the Session Grade Point Average calculation.

c) In the event that a course is repeated by transfer credit, the transfer credit is excluded from Cumulative Grade Point Average calculations, but the failed attempt(s) that the transfer credit replaces will also be excluded from the Cumulative Grade Point Average calculations.

d) All results from attempts at a course will remain on the transcript.

10.9.8 Grade Changes

a) The maximum time limit permitted for a change of final grade is two months from the last day of classes in the term.

b) A grade change must be approved by the Dean of the Faculty in which the course is offered.

c) Once a final grade has been submitted to the Registrar, unsanctioned supplementary examinations or any additional assignments for the purpose of changing that grade are not permitted.

10.9.9 Re-evaluation of a Grade

Students may apply in writing for re-evaluation of a grade within 30 days of the release of final grades at the end of each term under one of the following scenarios:

a) **Request for Re-calculation of a Grade.** Students may request a re-calculation of the final grade without any review of written material. The calculation of the final grade will be reviewed by the instructor who will report a change in grade to the Registrar.

b) **Application for Re-Read.** Students may apply in writing for a re-read of the final examination and/or any written material not returned to the class before the last day of the final examination period of the term in which the course is concluded. An Application for a Re-Read must be submitted to the Registrar's Office, specifying the material that is to be re-evaluated. The material in question will be re-read by the faculty member concerned as well as by another faculty member designated by the Department Head. If there is serious disagreement between the two readers, the Department Head, or Academic Dean where appropriate, will then review the material under re-evaluation. If the final mark is based on performance not evaluated by written material, the re-read by both participants will be confined to a review of the mark sheets compiled by the original instructor. Students should remind themselves of the value of these items in relation to the overall course mark before determining whether it is worthwhile to apply for a re-read. The results of the re-read will normally be conveyed to the student within 30 days of receipt of the application. Students should remember that a grade can be revised upwards or downwards. A fee must be submitted with the application. If the grade is revised upwards, the fee will be refunded. Application forms are available on the Mount Allison University website.

10.9.10 Aegrotat Standing

a) If for medical or compassionate reasons a student is unable to complete one or more courses with in the term in which the course is offered, the student shall first seek exam accommodations (10.8.4) or extended deadlines for completion of course work (10.8.5).

b) If the nature or severity of the circumstances prevents the student from completing the course work or the final examination within six months of the end of the term in which the course was offered, the student may be granted Aegrotat Standing if:

   i) a request for Aegrotat Standing and supporting documentation are sent to the Registrar within two (2) weeks of the date that was set for any extended deadline or deferred examination;

   ii) the Registrar, in consultation with the instructor or the department, confirms that the student completed with passing grades at least 60% of the work required in the course; and

   iii) an Academic Dean approves the recommendation of the Registrar to award Aegrotat Standing.

c) If Aegrotat Standing is approved, the grade will appear on the student's transcript as a 'CP' Conditional Pass.

10.9.11 Assessment of Academic Standing

a) Academic standing is determined on the basis of the Session Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA).

b) Academic standing is assessed once per year at the end of the Winter term.

c) Students will be assessed for the first time when they have attempted at least 18 credits at Mount Allison.

10.9.12 Good Standing

a) Students remain in Good Standing if they attain a Session Grade Point Average (SGPA) of at least 1.5 and a Cumulative Grade Point Average (CGPA) of at least 1.5.

b) Students must be in Good Standing and have permission of the University for study abroad programs in which the University participates.

c) Students must be in Good Standing if they wish to apply for a Letter of Permission to take courses at another institution. Exceptions must be approved in writing by the appropriate Academic Dean.

d) Graduating students who have completed all other degree requirements but whose SGPA would normally place them on Academic Probation will remain in Good Standing if their CGPA remains at least 1.5.

10.9.13 Unsatisfactory Standing

a) Students whose academic performance is such that they fail to achieve Good Standing will be placed on Academic Probation, Academic Suspension or Academic Dismissal, which will be recorded on their transcript.

b) Students on Academic Suspension or Academic Dismissal will be notified in a letter from the Chair of the Admissions and Re-admissions Committee of their academic standing and the procedures and deadlines for appeal.

c) Those students seeking re-admission to the University must apply in a letter addressed to the Chair of the Admissions and Re-admissions Committee to be received by the Registrar's Office by the deadline specified (see 10.9.17 Procedures for Appeals and Re-admissions). Letters of appeal for re-admission received after the deadline will not be considered by the Admissions and Re-admissions Committee.

10.9.14 Academic Probation

a) Students who have been in Good Standing will be placed on Academic Probation if they attain:

   i) a Session Grade Point Average (SGPA) of less than 1.5 or

   ii) a Cumulative Grade Point Average (CGPA) of at least 1.0 but less than 1.5

b) Students who are on Academic Probation are not permitted to register for more than the normal course load (15 credits in each of the Fall and Winter terms, 12 credits in the Spring/Summer term).

c) To return to Good Standing, students on Academic Probation must attain:

   i) a Session Grade Point Average (SGPA) of at least 1.5, during the probationary period AND

   ii) a Cumulative Grade Point Average (CGPA) of at least 1.5.

d) Students on Probation are permitted to continue to register on Probation provided their SGPA during the probationary period is at least 1.5.

e) Students on Probation who do not achieve a SGPA of 1.5 will be placed on Suspension.

f) Students on Academic Probation are not eligible to take courses on Letter of Permission. Exceptions must be approved in writing by the Registrar (or direct delegate). Denied approval may be appealed to an Academic Dean within 3 calendar days of the decision.

10.9.15 Academic Suspension

a) Students in Good Standing will be placed on Academic Suspension if in any academic year they obtain a Cumulative Grade Point Average (CGPA) of less than 1.0.

b) Students who are on Academic Probation will be placed on Academic Suspension if they obtain a Session Grade Point Average (SGPA) of less than 1.5.

c) Students on Academic Suspension may not register for any Mount Allison courses nor receive credit at Mount Allison for courses taken elsewhere during the suspension period. Students may apply for re-admission at the end of the period of Academic Suspension.

d) The period of Academic Suspension is one full year; however, the terms of Academic Suspension are effective until such time as the student applies for and is offered re-admission to the University.

e) If accepted, students will be re-admitted on Academic Probation and special conditions may apply. To seek re-admission following a period of Suspension, students must complete a *Former Student Application* form and the *Supplementary Questionnaire*, available on the Mount Allison University website. These must be received by the Registrar's Office at least two months prior to the academic term for which the student is applying for re-admission and, if applying for re-admission to the study term commencing in September, no later than June 15.

10.9.16 Academic Dismissal

a) Students who incur a second academic suspension are dismissed for three years.

b) During dismissal, they may not register for any courses offered by Mount Allison, nor receive credit at Mount Allison for courses taken elsewhere during the dismissal period.

c) Students may apply for re-admission at the end of the period of Academic Dismissal.

d) The terms of Academic Dismissal are effective until such time as the student applies for and is offered re-admission to the University.

e) To seek re-admission following a period of Dismissal, students should complete a *Former Student Application* form and the *Supplementary Questionnaire*, available on the Mount Allison University website. These should be received by the Registrar's Office at least two months prior to the academic term for which the student is applying for re-admission and, if applying for re-admission to the study term commencing in September, no later than June 15.

f) Students returning after dismissal will be re-admitted on Academic Probation and special conditions may apply. If they fail to maintain a Session GPA of 1.5, they will be refused further registration at Mount Allison.

10.9.17 Procedures for Appeals and Re-admissions

a) Students who have been notified that their academic performance is such that they have been placed on Academic Suspension or Academic Dismissal may appeal their academic standing.

b) A Letter of appeal with all supporting evidence must be submitted to the Registrar's Office by the deadline specified in the notification.

c) Letters of appeal, which will be reviewed by the Admissions and Re-admissions Committee, should clearly and completely outline the factors that accounted for poor academic performance and explain why the applicant feels ready to commence studies again.

d) The appeal will be directed to the Admissions and Re-admissions Committee; should it be rejected by that Committee, the student will be informed of the grounds and deadline by which they may appeal the Committee's decision to the Re-admissions Appeals Committee, whose decision is final.

e) A Letter of appeal will only be forwarded for consideration by the Admissions and Re-admissions Committee or the Re-admissions Appeals Committee if there are no outstanding fees payable on the student's account (see 4.4.4 in the Fees section).

10.9.18 Disciplinary Suspension or Dismissal

a) Disciplinary suspension or dismissal may be imposed by the University Judicial Committee or Academic Judicial Committee for infractions of the Student Code of Conduct or Academic Integrity Policy

b) To seek re-admission following disciplinary suspension or dismissal, students should complete a *Former Student Application* form and the *Supplementary Questionnaire*, available on the Mount Allison University website. These must be received by the Registrar's Office at least two months prior to the academic term for which the student is applying for re-admission and, if applying for re-admission to the study term commencing in September, no later than June 15.

c) The Admissions and Re-admissions Committee will review the academic record only.

10.9.19 Dean's List

a) Mount Allison recognizes excellent academic performance through the Dean's List.

b) Dean's List standing is assessed once per year after grades have been submitted at the end of the Winter term.

c) To be placed on the Dean's List, a student must:

i) complete at least thirty credits over the academic session (May through April), including at least 24 credits taken in the Fall and Winter terms

ii) achieve a SGPA of at least 3.7 on that work

d) Students who achieved Dean's List standing in the academic session preceding a year long Study Abroad Program*, will maintain Dean's List standing until their Academic Standing is next assessed.

e) Students who participate in a one term Study Abroad Program* during an academic session will be assessed for Dean's list standing based on all credits completed at Mount Allison during the session, provided that they have carried the equivalent of a regular thirty credit course load from the combination of study abroad courses and Mount Allison courses.

f) Students with documented disabilities, on the written recommendation of the Meighen Centre, are entitled to reasonable accommodations with respect to course load expectations.

g) Students in their final year of study who reduce their course load over the academic session to a minimum of 24 credits over the fall and winter terms because they have sufficient credits for graduation, will be considered for Dean's List Standing

h) The Dean's List carries no financial award.

* for a list of eligible Study Abroad Programs, please refer to 11.13.1

10.10 DEGREE REQUIREMENTS

10.10.1 Academic Standing and Credits Required for a Degree

a) Students must be in Good Standing to be eligible to graduate (subject to 10.9.12 d).

b) All undergraduate degrees require completion of 120 credits.

c) Other degree requirements are set out in the summary of specific programs found in Section 11 of this Academic Calendar.

10.10.2 Academic Residency Requirements

a) Students must complete with courses from Mount Allison:

i) at least half the credits required for a degree

ii) at least half of the requirements for a Major or Honours program, including all 3/4000 level credits, subject to 10.10.2 d); and

iii) at least 6 credits of the requirements for a Minor.

b) For the purposes of this requirement, transfer credits earned from an approved Mount Allison study-abroad or international exchange program (Calendar section 11.13.1) may count towards the Minor, Major, or Honours, and towards degree requirements for 3/4000 level credits (Calendar sections 11.2.3, 11.3.5, 11.5.4, 11.9.3).

c) The total of credits earned through any form of Advanced Standing (Calendar section 3.9), through Transfer Credits (Calendar sections 3.10 and 10.5), and through Challenge for Credit (Calendar section 3.11) may not be greater than 60.

d) No more than six credits transferred at the 3/4000 level may be used to fulfill 3/4000 level requirements.

e) An Academic Dean must approve any exceptions to 10.10.2 a) ii., 10.10.2 a) iii., or 10.10.2 d).

10.10.3 Degree with Distinction Requirements

a) The degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Commerce, Bachelor of Fine Arts, and Bachelor of Music will be awarded with Distinction at the discretion of the Senate.

b) To be considered for Distinction, a student should have achieved a Cumulative Grade Point Average (CGPA) of approximately 3.7 in all work undertaken at the University.

10.10.4 Honours GPA and Overall GPA Requirements

a) A degree with First Class Honours requires attainment of a 3.7 Grade Point Average in the prescribed Honours work

b) A degree with Honours requires attainment of a 3.0 Grade Point Average in the prescribed Honours work.

c) When a thesis is part of the program, a minimum grade of B is required in all cases.

d) In addition, an overall Grade Point Average of approximately 3.0 must be earned by all Honours candidates on all work undertaken beyond the first year at Mount Allison. In the event that a course is repeated during this period, only the higher grade will be used in calculating the overall Grade Point Average calculation. For those in full-time attendance at Mount Allison for three years or fewer, this average will be calculated on all Mount Allison courses taken.

10.10.5 Submitting a Thesis

a) An Honours student's thesis must be submitted to the department or program for grading no later than the first day of the Winter term examination period.

b) A digital / electronic copy (Microsoft Word or pdf file format) of the thesis must be submitted to the office of the Academic Deans no later than the last day of the final examination period.

10.10.6 Falling Short of the Honours Requirements

Students failing to achieve the minimum standard for Honours as defined in 10.10.4, but who otherwise have satisfactorily completed all of the courses in the prescribed curriculum, will be awarded a degree in the Major area of study.

10.10.7 Second Undergraduate Degree Requirements

a) Students who hold one undergraduate degree from Mount Allison may apply for re-admission to be a candidate for a second different undergraduate degree under the following regulations:

i) the student should have demonstrated strong academic ability and must be approved by the Registrar (or direct delegate).

ii) the student must fulfill all the requirements for the second degree

iii) the student must complete Mount Allison courses totaling at least 36 additional credits, beyond those required for the first degree.

b) Students who wish to complete the requirements for two different Bachelor's degrees concurrently may apply for approval by the Registrar (or direct delegate) after having achieved third year standing (54 credits) with at least one year of study at Mount Allison demonstrating strong academic ability. If approved, regulations 10.10.7a i, ii, and iii apply.

10.10.8 Honours Certificate

Recipients of a first degree from Mount Allison earned with a Cumulative Grade Point Average of approximately 3.0 in all work undertaken beyond the first year at Mount Allison and in the intended Honours program, may apply to an Academic Dean to return as a candidate for an Honours Certificate. Application forms are available on the Mount Allison University website.

10.11 GRADUATION AND CONVOCATION

10.11.1 Application for Graduation

All prospective graduates must complete an Application for Graduation by the deadline indicated in the Calendar of Events (Section 2.2) for the academic year in which they intend to graduate. Application forms are available on the Mount Allison University website.

10.11.2 Completed Degree Requirements - May

a) Prospective degree and certificate candidates are responsible for completing degree requirements according to the regulations pertaining to their program.

b) All full and part-time students must register for and complete all remaining work toward the degree or certificate during the preceding May to April academic session.

c) Results must be officially reported to the Registrar before the deadline for submission of final grades (Section 10.9.2). In exceptional cases where there has been an approved extended deadline results may be accepted after this date.

d) The Registrar posts a list of prospective degree and certificate candidates for each May Convocation approximately five months prior to Convocation. All prospective degree and certificate candidates are responsible for checking the accuracy of this list and reporting any errors or omissions to the Registrar.

10.11.3 Completed Degree Requirements - October

a) Students who complete degree and/or certificate requirements after May Convocation and who apply and are approved for graduation at the October Senate meeting, will have their degrees conferred *in absentia* and will be accorded the academic status of graduates from that date forward.

b) October Graduates will be invited to participate in the subsequent May Convocation ceremony.

10.11.4 Academic Costumes

a) Successful degree and/or certificate candidates who come to Convocation must wear proper academic costumes.

b) Those who do not attend the ceremony will receive their diplomas in absentia. The diplomas will be mailed out after Convocation.

10.11.5 Authorized Hoods

The following hoods are authorized for holders of Mount Allison degrees:

a) Bachelor of Arts: a hood of black stuff edged with garnet and silk and with front of loop bordered with gold silk.

b) Bachelor of Science: a hood of black stuff edged on the inside with old gold silk.

c) Bachelor of Music: a hood of black stuff edged on the inside with royal blue silk.

d) Bachelor of Fine Arts: a hood of black stuff edged on the inside with green silk, and orange ornamentation.

e) Bachelor of Commerce: a hood of black stuff edged on the inside with light grey silk.

f) Bachelor of Teaching: a hood of black stuff edged on the inside with mauve silk.

g) Bachelor of Education: a hood of black stuff edged on the inside with light blue silk.

h) Bachelor of Music Education: a hood of black stuff edged on the inside with turquoise silk.

i) Bachelor of Arts and Science in Health Studies: a hood of black stuff edged on the inside with salmon silk

j) Master of Arts: a hood of black silk or stuff with a full lining of garnet silk

k) Master of Science: a hood of black silk or stuff with a full lining of old gold silk.

l) Master of Social Work: a hood of black silk or stuff with a full lining of fuchsia silk.

m) Master of Education: a hood of black silk or stuff with a full lining of light blue silk.

n) Doctor of Divinity, a hood of scarlet cloth lined with purple silk.

p) Doctor of Civil Law, a hood of scarlet cloth lined with old gold silk.

q) Doctor of Literature, a hood of scarlet cloth lined with white silk.

r) Doctor of Music, a hood of scarlet cloth lined with blue silk lining and half-inch facings.

s) Doctor of Science, a hood of scarlet cloth lined with primrose yellow silk.

t) Doctor of Fine Arts, a hood of scarlet cloth lined with green silk.

10.11.6 Honorary Degrees

The Senate of the University has authorized the awarding of the following degrees Honoris Causa:

a) Doctor of Divinity (D.D.)

b) Doctor of Laws (LL.D.)

c) Doctor of Civil Law (D.C.L.)

d) Doctor of Literature (D.Litt.)

e) Doctor of Music (D.Mus.)

f) Doctor of Science (D.Sc.)

g) Doctor of Fine Arts (D.F.A.)

10.12 TRANSCRIPTS

10.12.1 Privacy of Transcripts

a) A student's transcript of record is personal information as defined by New Brunswick's Personal Information and Protection of Privacy Act and will only be disclosed to a third party in accordance with the terms of that Act. In most cases, this means that the transcript will not be disclosed without the written consent of the student.

b) Students may request that transcripts be revealed to no one outside the university without written permission.

10.12.2 Transcript Requests

a) Students can have their transcripts sent outside the University on payment of a fee. All transcript orders must be placed in writing by the transcript holder. Application forms are available on the Mount Allison University website.

b) Telephone orders for transcripts cannot be accepted.

c) Partial transcripts are not issued.

d) Those requesting transcripts should be aware that at certain peak periods it may take approximately two weeks to process a transcript order.

10.13 REPLACEMENT/DUPLICATE DIPLOMAS

A duplicate or replacement diploma may be requested under the following conditions:

a) If a duplicate is requested, evidence by affidavit or statutory declaration shall be furnished that the diploma has been destroyed or is no longer in existence. If a replacement diploma is requested in a different name from that on the original diploma, the original diploma shall be returned.

b) If the present signing officers are the same as for the original diploma, a new diploma marked DUPLICATE or REPLACEMENT DIPLOMA may be issued.

c) If the signing officers have changed, the duplicate or replacement diploma may be issued, with the original signing officers' names printed in and a note added below to state the diploma is a duplicate or replacement. This note is to be signed by the President.

d) A fee is charged.

10.14 NOTIFICATION OF DISCLOSURE OF PERSONAL INFORMATION

10.14.1 Statistics Canada

Statistics Canada is the national statistical agency. As such, Statistics Canada carries out hundreds of surveys each year on a wide range of matters, including education. It is essential to be able to follow students across time and institutions to understand, for example, the factors affecting enrolment demand at postsecondary institutions. The increased emphasis on accountability for public investment means that it is also important to understand 'outcomes'. In order to conduct such studies, Statistics Canada asks all colleges and universities to provide data on students and graduates. Institutions collect and provide to Statistics Canada, student identification information (student's name, student ID number, Social Insurance Number), student contact information (address and telephone number), student demographic characteristics, enrolment information, previous education, and labour force activity.

The Federal Statistics Act provides the legal authority for Statistics Canada to obtain access to personal information held by educational institutions. The information may be used for statistical purposes only, and the confidentiality provisions of the Statistics Act prevent the information from being released in any way that would identify a student.

Students who do not wish to have their information used can ask Statistics Canada to remove their identifying information from the national database. On request by a student, Statistics Canada will delete an individual's contact information (name, address, or other personal identifiers) from the PSIS database. To make such a request or for further information please contact Statistics Canada by email at: <**PSIS-SIEP_contact@statcan.gc.ca**> or by mail: Institutional Surveys Section, Centre for Education Statistics, Statistics Canada, 150 Tunney's Pasture Driveway, Main Building, 2100-K, Ottawa, Ontario, K1A 0T6

10.14.2 Maritime Provinces Higher Education Commission (MPHEC)

The MPHEC collects the data described above on behalf of Statistics Canada. In addition, it archives these data and uses them to generate basic statistics, research products, as well as the sampling frame for its graduate survey. These activities support its mandate, which is to assist institutions and governments in enhancing post-secondary learning environment. The legal authority for these activities is provided by the Maritime Provinces Higher Education Commission Act. The Act also requires that all data received by the Commission is kept confidential, and ensures the protection of personal information. More information about the MPHEC and its Standard for Maintaining Confidentiality may be found at <**www.mphec.ca**>

Regarding those students who do not wish to have their information used, Statistics Canada will notify the MPHEC of any student choosing to have their personal information removed from the national database, and their information will subsequently be removed from the MPHEC's database.

ACADEMIC CALENDAR
2026-2027 edition

Part III: Academic Degrees, Programs and Courses

11 ACADEMIC PROGRAMS

This section provides complete outlines of the specific requirements for all degrees and/or certificates, as well as information regarding pre-professional requirements. Students completing a B.Comm., B.Mus. or B.F.A. will find all of their overall degree requirements plus an outline of specific courses required in this section. Students completing B.A. or B.Sc. Minors, Majors or Honours programs should consult the overall degree requirements outlined in this section plus the more specific Minor, Major and Honours requirements listed per program in the Programs/Courses of Instruction section which follows. Those students planning further study in Medicine, Law, Dentistry and other professional programs should consult the information regarding pre-professional requirements at the end of this section and the calendars of professional schools.

11.7 Bachelor of Music Education Degree
11.8 Bachelor of Fine Arts Degree
11.9 Bachelor of Arts and Science Degree
11.10 Certificate of Bilingualism
11.11 Certificate Programs
11.12 Pre-Professional Requirements
11.13 International Programs
11.14 Academic Credit for Independent Experiential Learning

11.0 Course Numbering and Credit Values

Each course is identified by a four-digit number, and carries a certain credit value.

The first digit indicates the year in which the course is normally taken.

The second digit sometimes indicates a stream or category of courses within one department.

The third digit specifies a particular course within the department.

The fourth digit indicates the credit value of the course. A 6 credit course extends through Fall and Winter terms and has a fourth digit of zero, with the exception of MSCI 5990 which extends through multiple terms and has no credit value; a 3 credit course usually lasts one term only and has a fourth digit of one. A few 3 credit courses extend through the Fall and Winter terms and have a fourth digit of three. One credit courses have a fourth digit of nine and normally extend throughout both Fall and Winter terms.

Note: Both Fall and Winter terms must be completed to obtain credit for full year courses.

Requirements for degree programs are stated in terms of such course numbers and their accumulated credit values. Typically, a degree requires a minimum 120 credits, earned by passing some combination of 6 credit (two term) and 3 credit (one term) courses. A typical Major requires 60 credits; a typical Minor requires 24 credits.

Note: A grade of D (D+, D, D-) in any course will be considered a conditional (non-continuing) pass. In order for a course to be used to fulfill prerequisite requirements, a grade of C- or better must be obtained. Otherwise, written permission of the appropriate Department or Program Co-ordinator must be obtained.

In any one year, it is only the University Timetable which specifies which courses are actually being taught that year, and in which terms. **The listing of a course in the calendar is not a guarantee that the course is offered every year.**

11.1 GENERAL REGULATIONS

11.1.1 Graduating under one calendar

Students with continuous enrolment at the University may must elect to graduate under any one calendar in force during their registration, earning their degree, major(s), minor(s), honours, and embedded certificates under requirements published in that calendar, subject to the availability of courses with the following exceptions:

a) Students returning after an interval of a year or more will be readmitted under the calendar in force when they return. Where necessary, an Academic Dean, in consultation with the Registrar, will interpret the student's past record in terms of the current curriculum.
b) Students who are more than ten years from the start of their degree and are returning after an interval of a year or more will be readmitted under the calendar in force when they return. The University may have course work completed in previous years reassessed to determine its applicability to the current curriculum and degree program. In some cases students may be required to retake a course for which credit was previously earned. An Academic Dean, in consultation with the Registrar, will interpret the student's past record.

Note: This regulation applies only to curriculum changes affecting a student's degree program, including embedded certificates taken concurrently with a degree program, as outlined in Section 11.0 - Academic Programs and Section 12.0 - Programs and Courses of Instruction.

11.1.2 B.A. and B.Sc. Degree Requirements

The Bachelor of Arts (B.A.) and Bachelor of Science (B.Sc.) degrees achieve a balance of breadth, depth and coherence by including these four features in each student's academic program:

a) The Bachelor's degree requires the completion of 120 credits worth of course work.
b) Six credits must be earned in each of the four distribution areas: Arts and Letters, Humanities, Science, and Social Science. (see 11.2.2 and 11.3.2)
c) A specified minimum number of credits earned at an advanced level must be included. (see 11.2.3 and 11.3.5)
d) One of the following must be completed: a Major plus a Minor; a Double Major; a Joint Major; a General degree of three Minors; or the most specialized degree an Honours program. It is also possible for students to design a program of their own. (See Regulations 11.2.15, 11.2.22, 11.3.17 and 11.3.23)

11.1.3 Declaration of Major, Minor, Honours

B.A. and B.Sc. students, in consultation with the designated Program Advisor, must formally declare a Major and a Minor **by the end of the academic session in which they will have achieved third year standing or upon completion of 54 credits** . Students should refer to the specific program requirements of their intended Major or Minor. Those opting to do a Double Major, Joint Major, or Triple Minor must, in consultation with the designated Program Advisor, declare their intention **by the end of the academic session in which they will have achieved third year standing or upon completion of 54 credits** . Students can change their choice of program after further consultation with a Program Advisor. A 'Declaration/Change of Major/Minor' form is available on the Mount Allison University website.

Those opting to do an Honours Program must declare their intention by **December of the year in which they are registered with third year standing** by completing a 'Declaration of Intention to Pursue Honours' form available on the web.

Students must consult with the Department Head or Program Co-ordinator with respect to application processes and admission criteria.

11.2 BACHELOR OF ARTS

11.2.1 Requirements for a B.A. Degree

In order to qualify for a Bachelor of Arts degree, a student must complete 120 credits including:

a) Six credits must be earned in each of the four distribution areas: Arts and Letters, Humanities, Science, and Social Science, as listed in 11.2.2
b) A minimum of 36 credits from the 3/4000 level
c) One of the following must be completed: a Major plus a Minor; a Double Major; a Joint Major; a General degree of three Minors; a Major with Aviation; or the most specialized degree an Honours program. It is also possible for students to design a program of their own, in consultation with an Academic Dean. (See Regulations 11.2.4, 11.2.6, 11.2.7, 11.2.8, 11.2.9, 11.2.10, 11.2.15, and 11.2.22)

11.2.2 Distribution Requirements

Six credits must be earned from each of the following lists:

Arts and Letters

Art History
Drama
English
Fine Arts
French Studies
German Studies
Hispanic Studies
Indigenous Language (MKMW)
Japanese Studies
Linguistics
Music
Screen Studies
Visual and Material Cultures

Humanities

Anti-Colonial Studies
Canadian Studies
Community Engaged Learning
Classics
Feminist and Gender Studies
Greek
History
Indigenous Studies
Latin
Philosophy
Religious Studies
Visual and Material Cultures

Social Sciences

Anti-Colonial Studies
Commerce
Economics
Feminist and Gender Studies
Geography and Environment (GENV)
Health Studies
Indigenous Studies
International Relations
Political Science
Sociology

Sciences

Biochemistry
Biology
Chemistry
Computer Science
Data Science
Geography and Environment (GENS)
Mathematics
Physics
Psychology

Note: For distribution requirement purposes, a maximum or 6 credits from Feminist and Gender Studies (FGST) courses can be applied to meet the distribution requirements for either Humanities or Social Sciences, or a combination of those two disciplines.

Note: For distribution requirement purposes, a maximum or 6 credits from Indigenous Studies (INDG) courses can be applied to meet the distribution requirements for either Humanities, Sciences or Social Sciences, or a combination of those three disciplines. Only those INDG courses cross-listed with GENS can be used towards Science distribution.

Note: For distribution requirement purposes, a maximum or 6 credits from Visual and Material Culture (VMCS) courses can be applied to meet the distribution requirements for either Arts and Letters or Humanities, or a combination of those two disciplines.

Note: Courses that have been designated by a student to fulfill distribution requirements may also count towards the requirements for a major or minor.

11.2.3 3/4000 Level Courses

A minimum of 36 credits must be earned from courses at the 3000 and/or 4000 level. At least 30 credits must be from Mount Allison courses.

11.2.4 Credits Required for a Major and Minor

The credits required for a B.A. include those required for a Major [see list under 11.2.17], plus the credits required for a Minor from any other program [see lists under 11.2.23 and 11.3.24]. **No more than 9 credits**

can be counted in common between the Major and Minor. Where there are more than 9 credits of requirements in common, the credit value of the combined program will still be at least 15 credits greater than the total for the Major. The Major and Minor are recorded on the student's transcript.

Although the combination of a Major and a Minor as called for in 11.2.4 is the usual means of achieving a B.A. degree, other combinations are possible, as outlined in 11.2.5 through 11.2.10.

11.2.5 Additional Minor

Students who satisfy the requirements for more than one Minor will have the additional Minor(s) recorded on their transcript.

11.2.6 Double Major

Students who (in lieu of the Minor required in 11.2.4) satisfy the requirements for a second Major from any other program [see lists under 11.2.17 and 11.3.18], will have achieved a B.A. with a Double Major, and will have both Majors recorded on their transcript. **No more than 24 credits can be counted in common between the two Majors** . Even where there are requirements in common, the credit value of the combined program will be at least 36 credits greater than the total for the first Major.

11.2.7 Joint Major

Students who (in lieu of the Minor required in 11.2.4) satisfy the requirements for a Joint Major [see list under 11.2.18] will have achieved a B.A. with a Joint Major.

11.2.8 Bachelor of Arts - Aviation

Students who (in lieu of 11.2.4) satisfy the requirements for a Bachelor of Arts - Aviation (see 11.2.16) will have their Major recorded on their transcript.

11.2.9 Honours Degree

Students who (in lieu of 11.2.4) satisfy the requirements for an Honours degree [see 11.2.24] will have achieved a B.A. with Honours, and will have the Honours program recorded on their transcript.

11.2.10 General Degree with Three Minors

Students who (in lieu of 11.2.4) satisfy the requirements for three Minors [see 11.2.19] will have achieved a B.A. General Degree, and will have this title plus all Minors recorded. A triple Minor will not total fewer than 72 credits, despite requirements in common. Students pursuing this option are reminded that Regulation 11.2.3 must still be fulfilled.

11.2.11 The Major as Required for the B.A.

The Major is designed to be approximately one half the course work a student completes toward a B.A. degree, providing the depth and rigour which can be achieved either by work within one discipline or through course work carefully planned under a theme. As called for in 11.2.4, this requirement can be satisfied by completing the courses specified in any one of the named Majors listed in 11.2.17, according to one of the options outlined in 11.2.12 through 11.2.15.

11.2.12 Disciplinary Major

A Disciplinary Major consists of a selection of courses worth 60 credits, with a minimum of 36 and a maximum of 42 credits required from a single discipline or department. This type of Major gains its coherence from the traditional discipline from which it is drawn. Provision is made within each Major for 18 credits, usually drawn from outside the Major discipline, intended to complement and enrich the Major.

11.2.13 Interdisciplinary Major

An Interdisciplinary Major consists of a selection of courses worth 60 credits, in most cases. This type of Major gains its coherence from a theme, or approach held in common by its component courses. Such programs are authorized in advance by Senate.

11.2.14 Joint Major

A joint major consists of a selection of courses from two disciplines that have very few, if any, courses that may be counted in common (as under a double Major), that are combined in such a way that while they may not qualify for a complete major in either discipline, there are sufficient courses (normally 42 to 45 credits from each discipline) to qualify for a joint major (maximum 90 credits).

11.2.15 Specially Approved Major

A Specially Approved Major consists of a selection of courses worth 60 credits. This type of Major gains its coherence from a carefully thought-out combination of available courses which has not received prior authorization from Senate. **Approval for this type of Major must be obtained from the appropriate Dean, in consultation with the Registrar, by the end of the third year.**

11.2.16 Bachelor of Arts - Aviation offered in conjunction with MFC Training

Entrance Requirements

a) Each prospective student for the Bachelor of Arts - Aviation must meet the general admissions requirements of Mount Allison (section 3) and should declare their intention to pursue Aviation at time of application.
b) Each prospective student for the Bachelor of Arts - Aviation must obtain and present a Transport Canada Category 1 medical certificate before commencing flight training.
c) Each prospective student for the Bachelor of Arts - Aviation must demonstrate English language proficiency by informal or formal assessment as determined by the MFC Training.

Note: Students must achieve second-year standing (earn 24 credits) prior to beginning the practical elements of the program. The practical elements of the program may require training time outside the traditional September-April teaching period. Students should consult with the Program Advisor about the time commitment needed.

The Bachelor of Arts - Aviation is 120 credits including:

a) Requirements for a B.A. Degree as defined in 11.2.1
b) 36 credits twelve of which are designated at the 3/4000 level as follows:
    i) from MFC Training through completing the requirements for flight training outlined in the Handbook for the Mount Allison Bachelor of Science (Aviation) including the Commercial Pilot

License with Multi-engine and Instrument Flight Rules ratings, or

ii) from MFC Training by transfer after completion of the Diploma in Aviation Technology (Pilot), or

iii) from Confederation College by transfer after completion of the Aviation Flight Management Diploma

*Consultation with the Program Advisor must occur before the student's second year of study.

11.2.17 Majors Available for the B.A.

For the B.A., the following Majors are available. For a complete list of courses required for each Major, see the appropriate heading under Programs and Courses of Instruction.

11.2.19 The Minor as Required for the B.A.

The Minor is designed to be a minimum number of courses by which a student can achieve a modest sense of coherence in another field of study. As called for in 11.2.4, this requirement can be satisfied by completing the courses specified in any one of the named Minors listed in 11.2.23, (or under 11.3.24) according to one of the options outlined in 11.2.20 through 11.2.22.

Note: The regulation requiring a Minor is waived for students pursuing Aviation. Students who complete a Minor will have the Minor recorded on the transcript.

11.2.20 Disciplinary Minor

A Disciplinary Minor consists of a selection of courses worth 24 credits, at least 6 of which must be completed at the 3000 and/or 4000 level. This type of Minor gains its minimum of coherence from the traditional discipline from which it is drawn.

11.2.21 Interdisciplinary Minor

An Interdisciplinary Minor consists of a selection of courses worth 24 credits, at least 6 of which must be completed at the 3000 and/or 4000 level. This type of Minor gains its coherence from a theme, or approach held in common by its component courses. Such programs are authorized in advance by Senate.

11.2.22 Specially Approved Minor

A Specially Approved Minor consists of a selection of courses worth 24 credits, at least 6 of which must be completed at the 3000 and/or 4000 level. This type of Minor gains its coherence from a carefully thought-out combination of available courses which has not received prior authorization from Senate. **Approval for this type of Minor must be obtained from the appropriate Academic Dean, in consultation with the Registrar, by the end of the third year.**

11.2.23 Minors Available for the B.A.

11.2.24 Disciplinary and Interdisciplinary Honours Programs

Honours programs represent the most specialized selection of courses to gain depth and coherence within one discipline or thematic area. They have traditionally provided the preparation most appropriate for post-graduate work in that field. The requirements for Honours extend beyond that of the Major, and so the regulation requiring a Minor is waived (see 11.2.4 and 11.2.9), although any student who completes a Minor from another discipline or program, will have this Minor recorded on their transcript. Academic regulation 10.10.4 governing the granting of Honours should be consulted. Students considering an Honours Program should consult as early as possible with the designated Program Advisor regarding the prescribed selection of courses.

11.2.25 Honours Programs Available for the B.A.

Under the B.A. Degree, the following Honours Programs are available. Each assumes that the student also meets the requirements of 11.2.2 and 11.2.3. For a complete listing of courses required for each Honours Program, see the appropriate heading under Programs and Courses of Instruction.

11.3 BACHELOR OF SCIENCE

11.3.1 Requirements for a B.Sc. Degree

In order to qualify for a Bachelor of Science degree, a student must complete 120 credits including:

a) Six credits must be earned in each of the four distribution areas: Arts and Letters, Humanities, Science, and Social Science, as listed in 11.3.2
b) 12 credits must be earned from the Science Core as outlined in 11.3.3
c) 72 Science credits of which a minimum of 30 credits must be from Science courses at the 3/4000 level (see 11.3.4 and 11.3.5)
d) One of the following must be completed: a Major plus a Minor; a Double Major; a Joint Major; a General degree of three Minors; or the most specialized degree an Honours program. It is also possible for students to design a program of their own in consultation with the Academic Dean (See Regulations 11.3.6, 11.3.8, 11.3.9, 11.3.10, 11.3.11, 11.3.17 and 11.3.23.)

11.3.2 Distribution Requirements

Six credits must be earned from each of the following lists:

Arts and Letters

Art History
Drama
English
Fine Arts
French Studies
German Studies
Hispanic Studies
Indigenous Language (MKMW)
Japanese Studies
Linguistics
Music
Screen Studies
Visual and Material Cultures

Note: Science distribution is fulfilled by Bachelor of Science degree requirements.

Note: For distribution requirement purposes, a maximum or 6 credits from Feminist and Gender Studies (FGST) courses can be applied to meet the distribution requirements for either Humanities or Social Sciences, or a combination of those two disciplines.

Note: For distribution requirement purposes, a maximum or 6 credits from Indigenous Studies (INDG) courses can be applied to meet the distribution requirements for either Humanities, Sciences or Social Sciences, or a combination of those three disciplines. Only those INDG courses cross-listed with GENS can be used towards Science distribution.

Note: For distribution requirement purposes, a maximum or 6 credits from Visual and Material Culture (VMCS) courses can be applied to meet the distribution requirements for either Arts and Letters or Humanities, or a combination of those two disciplines.

11.3.3 Science Core

Twelve credits must be earned as follows:

a) 6 credits from MATH 1111 or 1151 plus one of MATH 1121, 1251, 1311, 2211, 2221 or COMP 1631
b) 3 credits from CHEM 1001 or PHYS 1041 or PHYS 1051
c) 3 credits from BIOL 1001, BIOL 1501, BIOC 1001, GENS 1401, PSYC 1001 or PSYC 1011

11.3.4 Minimum Number of Science Credits

A minimum of 72 credits in Science must be earned from the Science disciplines.

11.3.5 3/4000 Level Science Courses

A minimum of 30 credits in Science must be earned from the 3000 and/or 4000 level. At least 24 credits must be from Mount Allison courses.

11.3.6 Credits Required for a Major and Minor

The credits required for a B.Sc. include those required for a Major [see list under 11.3.18], plus the credits required for a Minor from any other program [see lists under 11.3.24 and 11.2.23]. **No more than 9 credits can be counted in common between the Major and Minor** . Where there are more than 9 credits of requirements in common, the credit value of the combined program will still be at least 15 credits greater than the total for the Major. The Major and Minor are recorded on the student's transcript. Although the combination of a Major and a Minor as called for in 11.3.6 is the usual means of achieving a B.Sc., other combinations are possible, as outlined in 11.3.7 through 11.3.11.

11.3.7 Additional Minor

Students who satisfy the requirements for more than one Minor will have the additional Minor(s) recorded on their transcript.

11.3.8 Double Major

Students who (in lieu of the Minor required in 11.3.6) satisfy the requirements for a second Major from any other program [see lists under 11.3.18 and 11.2.17] will have achieved a B.Sc. with a Double Major, and will have both Majors recorded on their transcript. **No more than 24 credits can be counted in common between the two Majors** . Even where there are requirements in common, the credit value of the combined program will be at least 36 credits greater than the total for the first Major.

11.3.9 Joint Major

Students who (in lieu of the Minor required in 11.3.4) satisfy the requirements for a Joint Major [see list under 11.3.19], will have achieved a B.Sc. with a Joint Major.

11.3.10 Honours Degree

Students who (in lieu of 11.3.6) satisfy the requirements for an Honours degree [see 11.3.25] will have achieved a B.Sc. with Honours, and will have the Honours program recorded on their transcript.

11.3.11 General Degree with Three Minors

Students who (in lieu of 11.3.6) satisfy the requirements for three Minors, at least two of which must be in Science (see 11.3.20) will have achieved a B.Sc. General Degree, and will have this title plus the three (or more) Minors recorded on their transcript. A triple Minor will not total fewer than 72 credits, despite requirements in common. Students pursuing this option are reminded that Regulations 11.3.4 and 11.3.5 must still be fulfilled.

11.3.12 Courses which Qualify as Science Credits

For purposes of Regulation 11.3.4 and 11.3.5 only, all courses offered in the following disciplines are considered as Science credits: Biochemistry, Biology, Biopsychology, Chemistry, Cognitive Science, Computer Science, Data Science, Mathematics, Physics, and Psychology. The following courses outside of these disciplines may also count as Science credits: COMM 3411, ECON 3301, 3821, 4711, 4721, 4801, 4811, HLTH 3011, all GENS courses from the Department of Geography and Environment, PHIL 2511, 3511. Exceptions, including 1991/2991/3991/4991 courses, may be approved by the Dean of Science in consultation with the appropriate Department.

11.3.13 The Major As Required for the B.Sc.

The Major is designed to be approximately one half the course work a student completes toward a B.Sc. degree, providing the depth and rigour which can be achieved either by work within one discipline or through course work carefully orchestrated under a theme. As called for in 11.3.6, this requirement can be satisfied by completing the courses specified in any one of the named Major in Science listed in 11.3.18, according to one of the options outlined in 11.3.14 through 11.3.17.

11.3.14 Disciplinary Major

A Disciplinary Major in Science consists of a selection of courses worth 60 to 72 credits, with a minimum of 36 and a maximum of 42 credits required from a single discipline or department. This type of Major gains its coherence from the traditional discipline from which it is drawn. Provision is made within each Major for credits under 11.3.3.

11.3.15 Interdisciplinary Major

An Interdisciplinary Major consists of a selection of courses worth 60 to 84 credits. This type of Major gains its coherence from a theme, or approach held in common by its component courses. Such programs are authorized in advance by Senate.

11.3.16 Joint Major

A joint major consists of a selection of courses from two disciplines that have very few, if any, courses that may be counted in common (as under a double Major), that are combined in such a way that while they may not qualify for a complete major in either discipline, there are sufficient courses (normally 42 to 45 credits from each discipline) to qualify for a joint major (maximum 90 credits).

11.3.17 Specially Approved Major

A Specially Approved Major consists of a selection of courses worth 60 to 72 credits. This type of Major gains its coherence from a carefully thought out combination of available courses which has not received prior authorization from Senate. **Approval for this type of Major must be obtained from the appropriate Academic Dean, in consultation with the Registrar, by the end of the third year.**

11.3.20 The Minor as Required for the B.Sc.

The Minor is designed to be a minimum number of courses by which a student can achieve a modest sense of the coherence in another field of study. As called for in 11.3.6, this requirement can be satisfied by completing the courses specified in any one of the named Minors listed in 11.3.24 (or under 11.2.23), according to one of the options outlined in 11.3.21 through 11.3.23.

11.3.21 Disciplinary Minor

A Disciplinary Minor consists of a selection of courses worth 24 credits, at least 6 credits of which must be completed at the 3000 and/or 4000 level. This type of Minor gains its minimum of coherence from the traditional discipline from which it is drawn.

11.3.22 Interdisciplinary Minor

An Interdisciplinary Minor consists of a selection of courses worth 24 credits, at least 6 credits of which must be completed at the 3000 and/or 4000 level. This type of Minor gains its coherence from a theme, or approach held in common by its component courses. Such programs are authorized in advance by Senate.

11.3.23 Specially Approved Minor

A Specially Approved Minor consists of a selection of courses worth 24 credits, at least 6 of which must be completed at the 3000 and/or 4000 level. 11.4 MASTER OF SCIENCE

Graduate work is approved for the Master of Science in Biology and Master of Science in Chemistry.

11.4.1 Dean of Graduate Studies

All graduate work is administered by the Dean of Graduate Studies. Upon receiving recommendations from the Department concerned, the proposed supervisor, and the Office of the Registrar, the Dean of Graduate Studies will decide upon admission. In case of discordant recommendations the application will be revisited by the Dean of Graduate Studies, the Provost, the proposed supervisor, the department head, and an independent member of the university community (faculty or administration) selected by the proposed supervisor and Dean. The Dean of Graduate Studies will oversee the program of study, and on receipt of satisfactory evidence of the completion of the studies, will recommend the awarding of the degree.

11.4.2 Minimum Admission Requirements

a) A four-year Bachelor of Science degree with a minimum Cumulative Grade Point Average (CGPA) of 3.0 (on 4.3) or the equivalent with research experience in the intended field of study or its equivalent from a University of recognized standing (students with relevant professional experience and international students from institutions with different academic norms will be considered on a case by case basis); and

b) As English is the primary language of instruction at Mount Allison University, students must possess a mastery of English as outlined in section 3.7 of the Calendar.
c) Two letters of reference
d) A letter of support from the proposed Mount Allison supervisor including the duration, amount, and source of financial support offered to the student

Note: Applicants should submit a completed application form, curriculum vitae, a set of official transcripts, and arrange to have two letters of reference forwarded to the Dean of Graduate Studies. Applicants are also expected to contact potential supervisor(s) about the possibility of carrying on advanced study and research with them prior to application.

11.4.3 Time Required

a) The minimum time from admission to a graduate studies program to defense of the thesis is three academic terms.
b) The thesis should be defended within eight academic terms for a full-time student and fifteen academic terms for a part-time student.
c) If extenuating circumstances prevent a student from completing a graduate studies program within the normal period specified, the Dean of Graduate Studies may grant an extension, normally up to one academic term.

11.4.4 Course and Thesis Requirements

a) All candidates must:
   i) complete a minimum of two to a maximum of four 3 credit graduate level courses as determined by the supervisory committee and confirmed by the Dean of Graduate Studies;
   ii) complete a research program and a thesis based on this research; and
   iii) participate in a departmental seminar series.
b) Within one month of a student's admission to the program, the supervisory committee will:
   i) formulate a list of the number and type of graduate courses for that candidate; and
   ii) forward this list to the Dean of Graduate Studies for confirmation.
c) When a department intends to offer a graduate studies course, it must submit course information at least one month in advance to the Dean of Graduate Studies for approval.
d) The format of the written thesis will follow the rules for graduate theses as described in the graduate handbook.
e) Both a bound paper copy and an electronic copy (Microsoft Word of pdf file format) of the thesis must be made available to the members of the candidate's Examining Committee at least three weeks prior to its defense.

11.4.5 Standards of Achievement

The candidate must achieve a grade of at least B- in each course required for the degree, and also must pass a public oral examination on the thesis and related material.

11.4.6 Supervisory Committee

Within one month of admission, a committee will be appointed for each candidate by the Dean of Graduate Studies on the recommendation of the research supervisor who will be its chair. The Supervisory Committee shall consist of the research supervisor who will act as chair and a minimum of two other qualified individuals. It will be the responsibility of this committee to review periodically the progress of the candidate, read the thesis and conduct the oral examination which will be presided over by the Dean of Graduate Studies or designate. The Thesis Examining Committee will also include a qualified reader external to the university who has had no involvement in the project appointed by the Dean of Graduate Studies in consultation with the supervisor. A grade of 'Pass' or 'Fail' will be assessed for the thesis and its defense by the candidate's Thesis Examining Committee. If a 'Fail' evaluation is rendered, the supervisory committee will decide if and what remedial measure must be undertaken to obtain a 'Pass' grade. The candidate will have six months to meet these conditions.

11.5 BACHELOR OF COMMERCE

11.5.1 Primary Objective

The primary objective of the Mount Allison University Commerce program is to explore with students the nature of the business world, and thus help them acquire business knowledge and skills. Studies focus on the process of effective problem solving and decision making in the business environment through the development of management systems which combine quantitative analysis and human judgement. The Commerce program is designed to enable students to take courses in a variety of business subject areas (such as Accounting, Finance, Management, Marketing) while completing a Minor in a non-Commerce discipline. The Commerce degree at Mount Allison University is highly flexible, reflecting the diverse business society that students will enter after graduation.

11.5.2 Requirements for a Bachelor of Commerce Degree

In order to qualify for a Bachelor of Commerce degree, a student must complete 120 credits including:

a) 6 credits earned in each of the two distribution areas of Arts and Letters and Humanities (see 11.5.3)
b) A minimum of 39 credits from the 3/4000 level (see 11.5.4)

c) 42 credits from the Commerce Degree Core Program requirements as listed in 11.5.5
d) 27 additional Commerce elective credits, with at least 24 credits from 3/4000 level courses (see 11.5.6)
e) Courses which satisfy the requirements of a Minor (see 11.5.7) *Note: this requirement is waived for students pursuing Honours in Economics and Commerce-Aviation.*

11.5.3 Distribution Requirements

Six credits must be earned from each of the following lists:

Arts and Letters

Art History
Drama
English
Fine Arts
French Studies
German Studies
Hispanic Studies
Indigenous Language (MKMW)
Japanese Studies
Linguistics
Music
Screen Studies
Visual and Material Culture

Humanities

Anti-Colonial Studies
Canadian Studies
Classics
Community Engaged Learning
Feminist and Gender Studies
Greek
History
Indigenous Studies
Latin
Philosophy
Religious Studies
Visual and Material Culture

Note: Social Science and Science distributions are fulfilled by Bachelor of Commerce degree requirements.

Note: For distribution requirement purposes, a maximum or 6 credits from Visual and Material Culture (VMCS) courses can be applied to meet the distribution requirements for either Arts and Letters or Humanities, or a combination of those two disciplines.

11.5.4 3/4000 Level Courses

A minimum of 39 credits must be earned from courses at the 3000 and/or 4000 level. At least 33 credits must be from Mount Allison courses.

11.5.5 Commerce Degree Core Requirements

The Commerce Degree Core Requirements are 42 credits earned as follows:

27 credits from Commerce 1011, 1411, 2101, 2131, 2201, 2301, 3501, 4311, 4321
6 credits from Economics 1001 and 1011
3 credits in Computer Science or Mathematics* (excluding MATH 1011)
6 credits from Economics 1701 and 2701
OR MATH 1311 and ECON 2701
OR MATH 1311 and 2321
OR PSYC 2001 and 2011
OR SOCI 3301 and 3311
OR FGST 3111 and FGST 3121
OR COMM 3401 and GENV 3701

***Note:** MATH 1111 or 1151 is required for Honours in Economics.

11.5.6 Commerce Electives on the Bachelor of Commerce Degree

In addition to the Commerce courses required for the Core, 27 credits from Commerce elective courses are required with at least 24 credits from 3/4000 level courses. All Commerce courses other than those in the Core of the program (see 11.5.5), as well as the following courses from other disciplines may also be counted as Commerce electives: Economics 3201, 3211, 3301, 3601, 3711, 3921, 4501, 4521, 4611, 4621, 4711, 4721, 4801, 4811, 4821, 4990, Computer Science 3851.

11.5.7 The Minor as Required for the Bachelor of Commerce

All Bachelor of Commerce students must complete a Minor in a non-Commerce discipline from the list below or a Specially Approved Minor (see 11.2.22). No more than 9 credits can be counted in common between the Minor and the courses counted in 11.5.5 and 11.5.6. Where there are more than 9 credits of requirements in common, the credit value of the combined program requirements will still be at least 84 credits. The Minor will be recorded on the transcript. Students who satisfy the requirements for more than one Minor will have the additional Minor(s) recorded on their transcript.

Note: the regulation requiring a Minor is waived for students pursuing Honours in Economics and Commerce-Aviation. Students who complete a Minor will have the Minor recorded on the transcript.

The remaining credits beyond those completed to fulfill 11.5.3, 11.5.5, 11.5.6 and 11.5.7 may be from any discipline.

11.5.9 Honours Programs Available for the Bachelor of Commerce

Students who satisfy the requirements for an Honours program [see section 11.5.10, 11.5.11] will have achieved a Bachelor of Commerce with Honours, and will have the Honours program recorded on their transcript. Students with third year standing interested in pursuing Honours must apply to the Commerce Department by March 31, in the year in which they will have completed at least 84 credits. Students interested in pursuing Honours in Economics should contact the Economics Department. Academic regulation 10.10.5 governing the granting of Honours should be consulted. In addition to the prescribed Honours courses listed in 11.5.10 and 11.5.11, students must fulfill the general requirements for a Bachelor of Commerce degree as listed in 11.5.2. a), b), and e).

11.5.10 Commerce with Honours

Honours in Commerce is 69 credits earned as follows:

42 from the Commerce core requirements (see 11.5.5)
6 from Commerce 4990
21 from Commerce electives at the 3/4000 level

11.5.11 Commerce with Honours in Economics

Honours in Economics is 90 credits earned as follows:

42 from the Commerce core requirements (see 11.5.5)
12 from Economics 2001, 2011, 2101, 2111
12 from Economics 4001, 4011, 4711, 4721, 4801, 4811, 4821, 4990
12 from Economics at the 3/4000 level
12 from Commerce or Economics at the 3/4000 level

Note: the regulation requiring a Minor is waived for students pursuing Honours in Economics

11.5.12 Commerce - Aviation offered in conjunction with MFC Training

This interdisciplinary program combines courses in accounting, finance, management and marketing as well as courses in math, economics, and computer science together with credit for aviation courses studied at MFC Training.

Entrance Requirements

a) Each prospective student for Commerce - Aviation must meet the general admissions requirements of Mount Allison (section 3) and should declare their intention to pursue Aviation at time of application.
b) Each prospective student for Commerce- Aviation must obtain and present a Transport Canada Category 1 medical certificate before commencing flight training.
c) Each prospective student for Commerce - Aviation must demonstrate English language proficiency by informal or formal assessment as determined by the MFC Training.

Note: Students must achieve second-year standing (earn 24 credits) prior to beginning the practical elements of the program. The practical elements of the program may require training time outside the traditional September-April teaching period. Students should consult with the Program Advisor about the time commitment needed.

Commerce - Aviation is 120 credits earned as follows:

42 from the Commerce Core requirements (see 11.5.5)
12 from distribution courses comprised of 6 credits earned in Arts and Letters, and 6 credits earned in Humanities (see 11.5.3)
6 from GENS 1401, 2421
24 from Commerce electives, with at least 18 credits at the 3/4000 level including 3 credits from COMM 4381 Business of Aviation
36 credits twelve of which are designated at the 3/4000 level as follows:

a) from MFC Training through completing the requirements for flight training outlined in the Handbook for the Mount Allison Bachelor of Science (Aviation) including the Commercial Pilot License with Multi-engine and Instrument Flight Rules ratings, or
b) from MFC Training by transfer after completion of the Diploma in Aviation Technology (Pilot), or
c) from Confederation College by transfer after completion of the Aviation Flight Management Diploma

Note: the regulation requiring a Minor is waived for students pursuing a Bachelor of Commerce- Aviation

*Consultation with the Program Advisor must occur before the student's second year of study.

11.5.13 Major from Other Disciplines

Students who, in lieu of 11.5.7, complete a Major in a non-Commerce discipline as listed in 11.2.17 and 11.3.18 will have the Major recorded on their transcript. No more than 24 credits can be counted in common between the major and the courses counted in 11.5.5 and 11.5.6. Where there are more than 24 credits of requirements in common, the credit value of the combined program requirements will still be at least 105 credits. Students who satisfy the requirements for a Specially Approved Major (see 11.2.15) will have that Major recorded on their transcript.

11.5.14 Transferring to Commerce

Students applying to transfer into the Bachelor of Commerce program must have completed twelve credits from the following Core courses with grades of at least 'C-': COMM 1011, COMM 1411 or a Computer Science course, ECON 1001 and ECON 1011.

11.6 BACHELOR OF MUSIC

The Bachelor of Music (B.Mus.) degree is designed to develop well-rounded musicians and to provide sound education in the liberal arts. The program includes required courses on solo and large ensemble performance, music history, music theory, and musicianship, all of which focus mainly on Western art ("classical") music in staff notation. These required courses are supplemented by electives on a broad range of musical traditions, including world music, popular music, and jazz. The B.Mus. is offered without designated majors, so students have considerable latitude in their choice of electives, and the Department of Music offers individual advising on appropriate elective course choices for various career paths. Music electives encompass several areas of specialization, including composition and music technology, conducting, music education, music scholarship (music history, music theory), and performance. Students in the B.Mus. program may declare a Minor in another discipline, and a Minor in Music is available to students in other degree programs. The Department of Music also offers instruction leading to a Bachelor of Arts (B.A.) Honours and Major in music; a Joint B.A. Major in Computer Science and Music; and a Certificate in Music Education. Details regarding all of these programs can be found in Section 12 of this Academic Calendar.

11.6.1 Financial Assistance

Students applying for studies in Music are eligible for University general entrance scholarships in addition to those specifically established for students in Music. For detailed information, refer to Section 5, Financial Assistance.

11.6.2 Entrance Requirements for the Bachelor of Music Degree

a) Each prospective student must meet the general admission requirements of Mount Allison.

b) In addition, all prospective Bachelor of Music students must appear for an audition-interview as part of the application for admission. See the Department's website for detailed audition requirements for each instrument. Vocalists and instrumentalists may either provide their own pianist or have one provided by the University for a nominal fee. In addition, each applicant will be asked to write a one-hour Entrance Assessment. This Assessment is designed to reflect the applicant's background and perception in aural skills, written theory, and musical terms, and will determine placement in either MUSC 1001 or 1101. If the applicant cannot arrange to come to Sackville for a personal audition, an audition recording may be sent directly to the Department of Music, and an Entrance Assessment will be sent upon request to the applicant's teacher to be administered by them.

c) Prospective students should see the Department's website or contact the Department of Music directly for information about audition dates.

11.6.3 Requirements for Bachelor of Music Degree

In order to qualify for a Bachelor of Music Degree, a student must complete 120 credits including:

a) 54 credits from the following required core:
   i) 42 credits from MUSC 1101, 1111, 1201, 1211, 1221, 1703, 2101, 2201, 2211, 2703 and MUSC, 2501, 2511, 3501, 4501
   ii) 3 credits from MUSC 2111, 2121
   iii) 3 credits from MUSC 3511, 3581, 3591; and 3 credits from MUSC 4511, 4581, 4591
   iv) 3 credits from MUSC 1619-4619, 1639-4639, 1659-4659, 1669-4669

b) 36-39 credits from the following Music electives:
   i) Theory and Composition (MUSC 1021, 2111, 2121, 2141, 2151, 2171, 3121, 3141, 3151, 3161, 3171, 4181)
   ii) Music History and Literature (MUSC 2021, 3001, 3201, 3221, 3231, 3261, 3271, 3281, 4221)
   iii) Music Education (MUSC 2301, 3301, 3311, 3321, 3331, 3341, 3351, 3361, 4311, 4361)
   iv) Performance Electives (MUSC 1501, 1511, 1521, 1601, 1801, 1811, 2603, 2613, 3401, 3411, 3421, 3603, 3613, 3801, 3813 4603, 4613, 4803 and MUSC 1619-4619, 1629-4629, 1639-4639, 1649-4649, 1659-4659, 1669-4669, 1689-4689, 1699-4699)
   v) General Music Electives (MUSC 1991, 2991, 3991, 4991, 4951; these courses may be repeated if topics differ); COMM 3271, 4301; PHYS 1401

c) 27-30 non-Music electives

Note: All piano and organ students must complete MUSC 1601. It is recommended that this course be completed within the first two years of study.

Note: All voice students must complete MUSC 1521 in the course of their degree. It is recommended that this course be completed within the first two years of study.

Note: Performance Electives may be offered in one term only or over two terms. Please consult the timetable for specific information.

Note: COMM 3271, 4301, and PHYS 1401 may be used toward the degree either as general music electives or as non-Music electives.

11.6.4 Music Ensembles

All B.Mus. students must participate in a core ensemble during every year in which they are registered for an Applied Music or Recital course. The core ensemble will normally be determined by the Applied Music instructor in consultation with the student and the Ensemble Directors, and will be chosen to suit the student's interests and developmental needs, and the requirements of the ensemble program. All music ensembles run for two terms and are valued at one credit per year of participation. B.Mus. students may complete up to three elective

ensemble credits in addition to their required core ensemble credits, for a maximum of seven on their degree. Students in all other degree programs are eligible to complete up to six credits on their degree through ensemble participation.

The following may be taken for core ensemble credit; they may additionally be taken for elective credit: 1619-4619 Wind Ensemble; 1639-4639 Symphonic Band; 1659-4659 Elliott Chorale; 1669-4669 Choral Society. The following may only be taken for elective ensemble credit: 1629-4629 Chamber Orchestra; 1649-4649 Jazz Ensemble; 1689-4689 Special Ensemble; 1699-4699 New Brunswick Youth Orchestra. All ensembles are valued at 1 credit per year of participation.

Attendance and prompt arrival at all ensemble rehearsals and participation in all public performances are mandatory unless prior consent of the Director of the ensemble has been obtained. Preparedness for and active participation in rehearsals and performances, as well as regular attendance, are principal factors in the determination of the grade that the student will receive. The details of the application of this policy will be provided by Ensemble Directors at the beginning of each academic year.

11.6.5 Recitals

In addition to performing in Collegium programs, qualified students are given the opportunity to present credited full-length and shared solo recitals. These courses replace 3rd and 4th year applied courses as follows:

MUSC 3511 is replaced by either MUSC 3581 or MUSC 3591

MUSC 4511 is replaced by either MUSC 4581 or MUSC 4591

Third year level shared and full recitals: To be eligible to present a shared recital (MUSC 3581) or a full recital (MUSC 3591), a student must be recommended by their Applied Music instructor; must normally have achieved a grade of at least A- in MUSC 3501; must have participated in two Collegia, or the equivalent, since enrolling in the Bachelor of Music program; and must pass a Recital Application Jury.

Fourth year level shared and full recitals: To be eligible to present a shared recital (MUSC 4581), a student must be recommended by their Applied Music teacher; must normally have achieved a grade of at least A- in MUSC 4501; must have participated in two Collegia, or the equivalent, since enrolling in the Bachelor of Music program; and must pass a Recital Application Jury.

To be eligible to present a full recital (MUSC 4591), a student must be recommended by their Applied Music instructor; must normally have successfully completed MUSC 3581 or MUSC 3591; must normally have achieved a grade of at least A- in MUSC 4501; and must pass a Recital Application Jury.

11.7 BACHELOR OF MUSIC EDUCATION

The Bachelor of Music Education (B.Mus.Ed.) degree is designed to develop well-rounded musicians and to prepare pre-service teachers for careers in education. The program includes required courses in general pedagogy, music performance, music history, music theory, and musicianship. It also includes 18 weeks of experiential learning through teaching practicums. Graduates of the B.Mus.Ed. will be eligible to apply for Teaching Certificate 4 in the province of New Brunswick upon graduation.

11.7.1 Entrance Requirements for the Bachelor of Music Education Degree

a) Each prospective student must meet the general admission requirements of Mount Allison.

b) In addition, all prospective Bachelor of Music Education students must appear for an audition-interview as part of the application for admission. Prospective students should see the Department's website or contact the Department of Music directly for information about audition dates.

11.7.2 Requirements for Bachelor of Music Education Degree

In order to qualify for a Bachelor of Music Education Degree, a student must complete 138 credits including:

a) 51 credits from Music core:
   i) 6 credits from MUSC 1703, 2703
   ii) 9 credits from MUSC 1101, 1111, 2101

   iv) 6 credits from MUSC 1211, 2201, 2211
   v) 12 credits from MUSC 1501, 1511, 2501, 2511
   vi) 6 credits from MUSC 3501, 3503, 3511, 3513, 3581, 3591
   vii) 3 credits from MUSC 2141, 3161, 3171
   viii) 3 credits from MUSC 1619-4619, 1629-4629, 1639-4639, 1649-4649, 1659-4659, 1669-4669, 1689-4689, 1699-4699

b) 9 credits from Prerequisites:
   i) 6 credits from PSYC 1001, 1011
   ii) 3 credits from INDG 1001

c) 39 credits from Pedagogy:
   i) 6 credits from EDUC 2001, 2011
   ii) 6 credits from EDUC/MUSC 3311, 4311
   iii) 3 credits from EDUC/INDG/SOCI 3401
   iv) 6 credits from PSYC 2431, EDUC/PSYC 3801
   v) 3 credits from MUSC 2301, 3361
   vi) 3 credits from MUSC 3401
   vii) 3 credits from MUSC 3411, 3421
   viii) 6 credits from MUSC 3321, 3331, 3341, 3351
   ix) 3 credits from courses in this section (11.7.2 c) which have not been counted elsewhere

d) 18 credits from Teaching Practica:
   i) 18 credits from EDUC 2101, 3101, 4101, 4111, 4121, 4131

e) 21 credits from Electives/Second Teachable Area:
   i) 18 credits from one single subject area approved under paragraph 6(b) of the Education act (non-Music 'second teachable' area), chosen in consultation with the program advisor. Possible subject areas include but are not limited to:

      Biology
      Canadian Studies
      Chemistry
      Commerce
      Computer Science

ii) 3 credits from any elective course (Music or non-Music):

Note: See calendar sections 11.6.4 and 11.6.5 for further information regarding Music ensembles and credited recitals.

Note: BMusEd students who complete a Minor from those listed under section 11.2.23 or 11.3.24 (excluding Music), or a Specially Approved Minor (see 11.2.22), will have the Minor recorded on the transcript.

11.8 BACHELOR OF FINE ARTS

The Department of Fine Arts, located in the Purdy Crawford Centre for the Arts Building, offers a unique opportunity for professional training in the Fine Arts in conjunction with all the benefits of a university campus. These include the stimulus of a broad intellectual environment, the facilities of a good library and a balanced program of social activities.

11.8.1 The Bachelor of Fine Arts Degree

The curriculum in Fine Arts leading to the degree of Bachelor of Fine Arts is primarily intended to develop creative ability in drawing, painting, photography, printmaking and sculpture. The major part of the program consists of studio work, and includes instruction in the principles of design and the use of various media. In addition to the studio classes, attention is given to the artist's heritage through illustrated lectures and seminar courses in art history which are designed to improve the student's artistic judgement and assist in acquiring an ability to write and speak about works of art. Academic electives, which are chosen in consultation with the Fine Arts Department, are taken in other departments of the University. They are included in the curriculum with the aim of widening the student's understanding of the world, in the belief that the artist's domain pertains to all aspects of human endeavour.

11.8.2 Additional Admission Requirements

Each prospective student must meet the regular admission requirements of the University. While the course is designed so that it assumes no previous training on the part of the new student, applicants must give evidence of their suitability for work in this specialized field. Applicants are required to present a portfolio of their previous art work for assessment prior to admission to this program. Instructions for the submission of this portfolio will be sent to all applicants for admission to the program or can be found on the Fine Arts website. All portfolios are reviewed each year in February and late portfolios cannot be considered. Only a limited number of students can be accepted to the program.

11.8.3 Advanced Status

A student may be admitted to the second year of the program provided full entrance requirements are met and if the applicant presents evidence of having satisfactorily completed work, academic and artistic, equivalent to the prescribed work of the first year.

11.8.4 Requirements for the Bachelor of Fine Arts Degree

The Bachelor of Fine Arts is a four-year, 120-credit degree. The program is designed with maximum flexibility to allow student growth within various studio art study fields. The common first year of the program is followed in years two to four by various studio art options.

a) A student who fails any studio course will not be allowed to take further courses in that studio area until the failed course is completed satisfactorily.
b) In either the third or fourth year of the program students are required to travel to a major North American art centre (e.g. Boston, New York, Montreal/Ottawa), in the company of one or more professors, as part of a class field trip for the purpose of study and research at art museums and galleries.

Year One:

a) 18 Studio credits from FINA 1101, 1111, 1921, 1931, 1941, and 1951.
b) 6 credits from ARTH/MUSE 2101, ARTH/MUSE 2111
c) 6 credits from outside of Fine Arts, Art History, and Museum and Curatorial Studies (see Notes below)

Year Two:

a) 18 Studio credits selected from FINA 2101, 2111, 2201, 2211, 2301, 2311, 2401, 2411, 2501, 2511, 2991
b) 6 credits from 3/4000 level Art History (ARTH) and/or Museum and Curatorial Studies (MUSE) courses or from ENGL 3621, FREN 2801, GERM 2701, PHIL 2401
c) 6 credits from outside of Fine Arts, Art History, and Museum and Curatorial Studies (see Notes below)

Year Three:

a) 15 Studio credits from FINA 3101, 3111, 3201, 3211, 3301, 3311, 3401, 3411, 3501, 3511, 3601, 3611, 3991
b) FINA 3701 - Third Year Seminar
c) 6 credits from 3/4000 level Art History (ARTH) and/or Museum and Curatorial Studies (MUSE) courses or from ENGL 3621, FREN 2801, GERM 2701, PHIL 2401
d) 6 credits from outside of Fine Arts, Art History, and Museum and Curatorial Studies (see Notes below)

Year Four:

a) 12 Studio credits - FINA 4801, 4811, 4821, 4831
b) 3 additional credits from 2/3000 level studio courses
c) Fine Arts 4701 - Fourth Year Seminar
d) 6 credits from 3/4000 level Art History (ARTH) and/or Museum and Curatorial Studies (MUSE) courses or from ENGL 3621, FREN 2801, GERM 2701, PHIL 2401
e) 6 credits from outside of Fine Arts, Art History, and Museum and Curatorial Studies (see Notes below)

Note: 24 credits from Art History courses are required as a component of the Bachelor of Fine Arts degree program and therefore a Minor in Art History is not recorded as a separate additional credential.

Note: ENGL 3621, FREN 2801, GERM 2701, PHIL 2401 count as Art History courses for BFA students and cannot be counted toward the 24 credits from electives outside of Fine Arts, Art History, and Museum and Curatorial Studies.

Note: BFA students who complete a Minor from those listed under section 11.2.23 or 11.3.24 (excluding Art History and Fine Arts), or a Specially Approved Minor (see 11.2.22), will have the Minor recorded on the transcript.

11.8.5 Entrance Scholarship

The E.B. Pulford Scholarship is normally awarded to the top incoming B.F.A. student, based on portfolio assessments.

11.9 BACHELOR OF ARTS AND SCIENCE

11.9.1 Requirements for a B.A. & Sc. Degree

In order to qualify for a Bachelor of Arts and Science degree, a student must complete 120 credits including:

a) Six credits must be earned in each of the four distribution areas: Arts and Letters, Humanities, Science, and Social Science, as listed in 11.9.2
b) A minimum of 36 credits from Science courses (see 11.3.12)
c) A minimum of 36 credits from non-Science courses in disciplines from Arts and Letters, Humanities, or Social Science, as defined in 11.9.2
d) A minimum of 30 credits from the 3/4000 level (see 11.9.3)
e) One of the following must be completed: a Major; or an Honours program

11.9.2 Distribution Requirements

Six credits must be earned from each of the following lists:

Arts and Letters

Art History

Note: For distribution requirement purposes, a maximum or 6 credits from Feminist and Gender Studies (FGST) courses can be applied to meet the distribution requirements for either Humanities or Social Sciences, or a combination of those two disciplines.

Note: For distribution requirement purposes, a maximum or 6 credits from Indigenous Studies (INDG) courses can be applied to meet the distribution requirements for either Humanities, Sciences or Social Sciences, or a combination of those three disciplines. Only those INDG courses cross-listed with GENS can be used towards Science distribution.

Note: For distribution requirement purposes, a maximum or 6 credits from Visual and Material Culture (VMCS) courses can be applied to meet the distribution requirements for either Arts and Letters or Humanities, or a combination of those two disciplines.

Note: Courses that have been designated by a student to fulfill distribution requirements may also count towards the requirements for a major or minor.

11.9.3 3/4000 Level Courses

A minimum of 30 credits must be earned from courses at the 3000 and/or 4000 level. At least 24 credits must be from Mount Allison courses.

11.9.4 Credits Required for a Major

The credits required for a B.A. & Sc. include those required for a Major [see list under 11.9.6]. The Major will be recorded on the student's transcript.

Note: B.A. & Sc. students are not required to complete a Minor. Students who do complete a Minor from those listed under section 11.2.23 or 11.3.24 will have the Minor recorded on the transcript.

11.9.5 Honours Degree

Students who (in lieu of 11.9.4) satisfy the requirements for an Honours degree [see 11.9.7] will have achieved a B.A. & Sc. with Honours, and

will have the Honours program recorded on their transcript. Honours programs represent the most specialized selection of courses to gain depth and coherence within one discipline or thematic area. They have traditionally provided the preparation most appropriate for post-graduate work in that field. Academic regulation 10.10.5 governing the granting of Honours should be consulted. Students considering an Honours Program should consult as early as possible with the designated Program Advisor regarding the prescribed selection of courses.

11.9.6 Majors Available for the B.A. & Sc.

For the B.A. & Sc., the following Majors are available. For a complete list of courses required for each Major, see the appropriate heading under Programs and Courses of Instruction.

11.10 CERTIFICATE OF BILINGUALISM/ CERTIFICAT DE BILINGUISME

Mount Allison students who can demonstrate a high level of competence in both of Canada's official languages may qualify for a Certificate of Bilingualism. The Certificate, which is awarded upon graduation, attests to the student's ability to speak, understand, and write English and French with ease and proficiency. The formal recognition afforded by the Certificate could prove particularly valuable to graduates seeking employment in the many business and government careers where knowledge of both French and English is a requirement or an asset. Any student may apply to be examined for the Certificate, whether or not they have taken French or English courses at Mount Allison. The Department of Modern Languages and Literatures administers the Certificate program and any inquiries should be directed to the Department.

Les étudiants de Mount Allison capables de montrer qu'ils possèdent une bonne connaissance des deux langues officielles du Canada peuvent se présenter au concours du Certificat de bilinguisme. Ce certificat décerné lors de la remise des diplômes, fait foi que les étudiants ont démontré leur capacité de lire, d'écrire, de parler et de comprendre le français et l'anglais avec facilitié et correction. L'attestation officielle que représente le Certificat pourrait s'avérer utile aux diplômés se proposant de poursuivre une carrière dans la fonction publique ou dans les affaires, où la connaissance de l'anglais et du français est exigée ou souhaitable. Tous les étudiants peuvent s'inscrire au concours, qu'ils aient suivi ou non des cours de français ou d'anglais à Mount Allison. Les candidats sont invités à s'adresser au Département de langues et littératures modernes, qui administre le Certificat de bilinguisme.

11.10.1 Information and Regulations/ Renseignements

Candidates may be of any linguistic background. Candidates must make formal application to take the tests no later than the end of the first term of their final year. Candidates will be examined in both French and English in the areas of listening, speaking, reading and writing. The examinations are comprehensive, and may include writing letters and essays or translations; reading literary or other complex texts; and conversation or oral discussion. There is no prescribed sequence of courses in either language leading to the examination for the Certificate. Candidates are invited to profit from the many possibilities offered by the University to improve their language skills.

Le concours est ouvert à tous les étudiants, quelle que soit leur langue maternelle. Les candidats sont priés de s'inscrire au concours au plus tard en décembre de leur année terminale à Mount Allison. Tous les candidats devront passer un examen qui consistera à écouter, parler, lire et écrire en français et en anglais. Il s'agit d'un examen d'ensemble, qui pourra comprendre la rédaction de lettres, d'essais ou de traductions; la lecture de textes littéraires ou techniques; et la participation à une conversation ou à une discussion. La préparation du Certificat n'est sujette à aucune série préétablie de cours. Les candidats sont toutefois encouragés à profiter des nombreuses possibilitiés dont on dispose à Mount Allison pour l'acquisition des deux langues officielles du Canada.

11.10.2 Standards/ Niveaux Requis

Candidates must demonstrate their ability in both languages to:

a) follow and understand broadcasts, films and lectures,
b) understand the main ideas of a complex text (book, article, report) without using a dictionary, and also to understand such a text thoroughly in a reasonable amount of time with the use of a dictionary,
c) write a letter or report that is free of grammatical and stylistic errors,
d) participate in conversation by expressing complex ideas, developing an argument, and answering questions.

Les candidats doivent démontrer, dans les deux langues, qu'ils sont capables:

a) de suivre et de comprendre des émissions radiophoniques, des films, des conférences,
b) de comprendre sans dictionnaire, les idées principales d'un texte complexe (livre, article, compte rendu); et de comprendre à fond le même genre de texte avec l'aide d'un dictionnaire dans une période de temps raisonnable,
c) d'écrire une lettre ou un compte-rendu sans fautes de grammaire et sans erreurs de style,
d) de prendre part à une conversation en exprimant des idées complexes, en élaborant et en développant un raisonnement, et en répondant à des questions.

11.11 UNDERGRADUATE CERTIFICATES

Mount Allison University may award undergraduate certificates as an embedded certificate taken concurrently with a degree program or as a free-standing credential. Certificates are thematic in nature, comprised of a breadth of available courses related to the theme and open to students across the university with no dependency on program of study. Certificate programs consist of a selection of courses worth 12–18 credits

and must be authorized in advance by Senate. Students should plan their certificates well in advance. The listing of a certificate in the academic calendar does not guarantee that the requisite courses are available in any given year.

11.11.1 Embedded Certificates

A Senate approved certificate program may be completed as an embedded certificate taken concurrently with a degree program. The embedded certificate must be completed prior to graduation from the degree program, in order to be noted on the transcript.

11.11.2 Free-standing Certificates

A Senate approved certificate program may also be completed as a free-standing credential, taken independent of a degree program. Students who hold a Mount Allison degree may also apply for readmission following graduation as a candidate for a certificate, which may include some but not all courses required for the certificate that were completed as part of their undergraduate degree. A transcript and certificate are issued upon completion; however, the recipient does not participate in convocation.

Note: Free-standing certificates are not available at this time

11.11.3 Certificate Programs Available

Certificate in Anti-Colonial Thought
Certificate in Arts Administration
Certificate in Biopsychology
Certificate in Canadian Arts and Culture
Certificate in Community Engaged Learning
Certificate in Data Analytics
Certificate in Data Management
Certificate in Diversity, Equity, and Inclusion
Certificate in Foundations of Health
Certificate in Mi'kmaw Studies
Certificate in Music Education
Certificate in Public History
Certificate in Social Research Methodologies
Certificate in Studies of Indigenous History
Certificate in Theatre Arts
Certificate in Visual Literacy and Culture

11.12 PRE-PROFESSIONAL REQUIREMENTS

A degree from Mount Allison, or a few carefully selected courses or electives as part of a Mount Allison degree, may permit a student admission to a professional program. Some of these programs include medicine, dentistry, pharmacy, veterinary medicine, law, education, theology, social work, audiology and speech, occupational therapy, physiotherapy, optometry, architecture and nutritional programs as well as many others. These professional programs may be accessed upon successful completion of courses and/or a degree from Mount Allison and in combination with other requirements as appropriate (e.g. LSAT, MCAT, GRE, etc.). All students contemplating applying to professional programs should consult the academic calendars of the schools involved carefully and should be aware of any standardized tests required. Interested students should consult the Academic and Career Counsellor for advice on course selection and the process to enter these professional programs after their undergraduate career at Mount Allison.

11.13 INTERNATIONAL PROGRAMS

11.13.1 Study Abroad and Exchange Programs

Students can add an international dimension to their university degree by participating in one of Mount Allison's many study-abroad and exchange programs. Most programs allow qualified students to complete a period of study at/through a partner institution for which students can be assessed for transfer of credit. To be considered for participation in one of these programs, students must be in Good Standing. In most cases, selection of participants is competitive and preference is given to students who have a cumulative GPA of at least 2.5 and who will be in their third year of study while away from Mount Allison. Some programs have further specific criteria (such as language requirements). Students are encouraged to consult with staff in the International Centre for more information about programs, requirements, and application procedures.

Mount Allison currently has bilateral exchange partnerships with:

BI Norwegian Business School, Norway
Bilkent University, Turkey
Bowling Green State University, USA
City University of Hong Kong, Hong Kong Special Administrative Region (China)
Chinese University of Hong Kong, Hong Kong Special Administrative Region (China)
Dongguk University, South Korea
Eberhard-Karls-Universität (Tübingen), Germany
Ewha Womans University, South Korea
Fudan University, China
Georgia Southern University, USA
The Hague University of Applied Sciences, The Netherlands
Institut International D'Etudes Francaises (IIEF), Université de Strasbourg, France
Killam Fellowship, USA
Kwansei Gakuin University, Japan
Mid Sweden University, Sweden
Nordakademie, Germany
Phillips Universität Marburg, Germany
Pontificia Universidad Católica de Valparaíso (PUCV), Chile
Sciences Po Strasbourg IEP, Université de Strasbourg, France
Université Angers, France
Universidad de Extremadura, Spain
Universidad de San Francisco de Quito (USFQ), Ecuador
University of Bahamas, Bahamas
University of Bristol, England
University of Kent, England
University of Limerick, Ireland
University of Newcastle, Australia
University of Otago, New Zealand
University of Southern Denmark, Denmark
University of Stirling, Scotland
University of Tasmania, Australia
Waseda University, Japan

Mount Allison also offers the following short-term study-abroad programs during the spring/summer term (note that not all study-abroad programs are offered each year):

Cross-Cultural College, Japan (in partnership with Queen's, University of Toronto, King's College University at Western University, and Kwansei Gakuin University)

Summer Studies in India Program
Paris Summer Field School
Seville Summer Field School
Pompeii Archaeological Field School, Italy
Utrecht Field School - funded through the Global Skills Opportunity
Belize Field School - funded through the Global Skills Opportunity
Kyoto Field School - funded through the Global Skills Opportunity
Galapagos Field School - funded through the Global Skills Opportunity

11.13.2 MASSIE PROGRAM

The MASSIE Program (Mount Allison Semester Studies in English) offers an on-campus, full-immersion language experience for non-degree seeking students from partner universities. It allows students the opportunity to live and study in an English environment for one semester or less and receive academic credit at their home university. Students live in residence, are matched with Mount Allison conversation partners, and are fully integrated into all aspects of campus life. Students in the MASSIE program follow a specialized English curriculum that creates a rich learning environment so that their knowledge of English, their fluency in using English and their confidence in their ability to function in another language and society are all strengthened. Field trips and activities serve to introduce students to the history, culture and geography of Atlantic Canada. A volunteer component provides participants and community members with opportunities for hands-on learning and cross-cultural connections. Since the program's beginning in 2000, the program has had more than 1400 participants from Japan and has had over 1400 Mount Allison students as volunteers for the program. The MASSIE program has three sessions: summer, fall and winter. The summer and fall MASSIE programs are 15 week, full semester programs. The winter program is an intensive 6-week session that currently receives student from two partner universities: Toyo-Eiwa University and Kwansei Gakuin University.

11.14 ACADEMIC CREDIT FOR INDEPENDENT EXPERIENTIAL LEARNING

Academic credit may be awarded for certain forms of independent experiential learning subject to the criteria listed below and with the approval of the appropriate committee. Normally, three credits per experience (to a maximum of 6 credits) may be assigned to an independent experiential learning course (EXPL 3/4000/01) as recommended by the course supervisor and approved by the Head of the Department. A letter grade will be assessed for the credit. A maximum of 6 credits may be included in a student's degree from this mechanism. Normally, students must have third year standing at the time of course approval and may not gain additional academic credit under this regulation where credit has been assigned as part of an existing Mount Allison course. Credit obtained from the independent experiential learning cannot be used to fulfill distribution requirements.

To be eligible for academic credit, the independent experiential learning must satisfy the following criteria:

a) the experience is provided through an organization or institution which supports open inquiry and intellectual freedom,
b) two months prior to the experience, the student must consult with an appropriate faculty supervisor and forward a study plan (see below, section c) to the Head of the Department for approval. The Head of the Department will confirm the decision with the Registrar, including the course to which credit will be assigned,
c) the study plan submitted to the faculty supervisor and the Head of the Department must contain:
   i) a brief description of the intended experiential learning, including beginning and ending dates;
   ii) an overview of the sponsoring organization and supporting documentation on the particular program, including a letter of acceptance noting the student's involvement, where appropriate;
   iii) a description of any academic components required before or during the program (such as public seminars, pre-departure sessions, academic or cultural preparation); and
   iv) a plan for the academic evaluation of the experience that demonstrates its contribution to the student's scholarly development. The study plan must include an analytical assignment which forms the basis for the assigning of academic credit. All elements of the study plan are to be completed before credit will be assigned,
d) the requirements of the University's policy on liability for student travel must be met,
e) following the experience, the student shall request that a letter from the director/co-ordinator of the experience or program be submitted to the faculty supervisor confirming that the student completed the experiential learning program successfully.

EXPL3000 (6.00 CR)
INDEPENDENT EXPERIENTIAL LEARNING

Prereq: Second year standing and special permission from the university. Please see 11.14 for details.

This is a university-wide course that provides credit for academic analysis of independent experiential learning. Normally a student may earn three credits (and up to six credits) per experience (to a maximum of six credits in a student's degree program) based on an independent experiential learning program evaluated under regulation 11.14.

12 PROGRAMS AND COURSES OF INSTRUCTION

This section provides alphabetically ordered descriptions of all Minor, Major and Honours programs, including those that are interdisciplinary and those that centre on one discipline, as well as course descriptions for all disciplines. The course listings by disciplines are not an indication in all instances that a separate department exists for that discipline or that all courses are offered each year. Certificate programs are listed as a separate group at the end of this section.

Note: The listing of a course in the calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department or Program Coordinator must be obtained.

ANTI-COLONIAL STUDIES

The Minor in Anti-Colonial Studies is designed to provide students with theoretical, contextual, and engaged knowledge of the interrelated and ongoing processes of colonization with a focus on ways to counter colonialism. This program fosters critical engagement with questions of colonization, decolonization, and Indigenization through an interdisciplinary lens rooted in the Arts and Humanities, and with a global frame of reference. Despite historical and ongoing movements against colonialism, colonization remains an active project in many sites around the world. The minor in Anti-Colonial Studies advances understandings of colonization and ways to counter ongoing colonialism through the study of histories of colonization and anti-colonialism, the exploration of historical and contemporary policies in many regional sites, and engagement with social and political movements against colonialism around the world. Concerns with gendered and sexualized dynamics of colonialism are centered throughout. Materials include literary and artistic formats as well as written texts of many kinds.

A certificate in Anti-Colonial Studies is also available (see Certificate Programs in Section 12 Programs and Courses of Instruction).

Interdisciplinary B.A. Programs

MINOR in Anti-Colonial Studies is 24 credits earned as follows:

3	from DCOL 2001
9	from INDG 2901, 3201, 3301, 3401, 3901, 4801, INDG/CENL 2201, INDG/CANA 3111, 3501, 3831, 4101, 4121, INDG/CANA/HIST 3821, 3841, MKMW 2001, 3001
9	from CANA 2501, 3231, CANA/FGST 3301, CANA/HIST 2801, ENGL 2751, 3731, 3751, 3771, 3791, 4941, FGST 2301, 4301, HIST 2411, 3021, INDG/SPAN 2701
3	from DCOL 4001

Note: Special topic and independent study courses from the following disciplines may also be approved by the Program Coordinator when a significant Anti-Colonial Studies component can be demonstrated: Canadian Studies, English, Feminist and Gender Studies, History, Indigenous Studies, Indigenous Language, and Spanish.

ANTI-COLONIAL STUDIES COURSES

DCOL2001 (3.00 CR)
THEORIES OF DECOLONIZATION AND ANTI-COLONIALISM

Prereq: 3 credits from CANA 1001, 1011, FGST 1001, INDG 1001; or permission of the Program Coordinator

This course surveys the growing field of anti-colonial studies and provides a solid theoretical foundation for studies of anti-colonialism and decolonization. The course provides a rigorous critical foundation for understanding the historical and epistemological roots of colonialism, with a particular focus on settler-colonialism. Specific emphasis is placed on anti-colonial movements emerging in different parts of the world which contest and dismantle colonialisms, while practicing, imagining, and creating alternatives. (Format: Lecture 3 Hours)

DCOL4001 (3.00 CR)
ADVANCED STUDIES IN DECOLONIZATION AND ANTI-COLONIALISM

Prereq: Third-year Standing; DCOL 2001; Declared minor in Anti-Colonial Studies; or permission of the Program Coordinator

This capstone seminar course explores specific topics related to anti-colonialism and decolonization. It examines theoretical concepts such as survivance, resurgence, liberation, and sovereignty and focuses on drawing together understandings of decolonization and imagining anti-colonial futures. Topics include borders and im/migration, identity, and land and water defense. The course includes a focus on historical and contemporary anti-colonial movements. (Format: Seminar 3 Hours)

ART HISTORY

The Department of Fine Arts offers a B.A. with a Major or Minor in Art History. The study of Art History is integral to the study of art and visual culture. With its increasingly interdisciplinary approach, Art History encompasses a broad range of visual, cultural and social studies. An art history background provides valuable insight into history and the humanities in general. Course offerings range from an introduction to Art History to more focused examinations of the Nineteenth and Twentieth Centuries, including Canadian Art, Contemporary Art, and Women and Gender in Art. Advanced seminars are also offered on subjects ranging from critical issues in Archival research, Museum and Curatorial Studies, and Art Criticism. Students majoring in Art History are also encouraged to do an Independent Study paper on a specific area of interest. Courses are also offered for credit as Art History courses in Classics, Philosophy, English, History, and Modern Languages and Literatures. The Owens Art Gallery is an invaluable resource for the study of Art History and for the Fine Arts Department. Further resources include Fine Arts field trips and a Visiting Artists' Program.

Museum and Curatorial Studies . The Department of Fine Arts offers a B.A. Minor in Museum and Curatorial Studies. The Museum and Curatorial Studies Minor offers an interdisciplinary approach to Art History, Canadian Studies, Chemistry, Classics, Commerce, History, Indigenous Studies, Visual and Material Culture Studies, with the resources and professional staff of the Owens Art Gallery, Colville House, the Mount Allison Libraries and Archives, and the Visiting Artists and Curators program. Course offerings include: arts and culture management; museum education and community engagement; curating and critical writing; the close study of collections and issues around collecting, including the repatriation of Indigenous objects; the archives; and the critical study of art museums and galleries. Students pursuing a Minor in Museum and Curatorial Studies can undertake an experiential learning component in their senior year.

A background in Museum and Curatorial Studies provides a wider understanding of the cultural production of museums and their communities and can lead to professions in curating, museum education, conservation, collections, marketing, or administration in the arts.

Disciplinary B.A. Programs

Topics include naturally, and culturally, constructed bodies, gender identity, sexual identities, ethnic bodies, abject bodies, and political and religious identities. It includes art in a variety of media including the bodies of humans and animals, painting, sculpture, assemblage,installation, photography, printmaking, architecture, textiles, film, video, and performance art. (Format: Lecture 3 Hours) (Exclusion: FINH 3071; Any version of ARTH 3071 previously offered with a different title)

ARTH3081 (3.00 CR)
FEMINISM AND GENDER IN ART

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); or permission of the Department

This course offers a history of representations of gender in art and society, from the Medieval period through to contemporary culture. Drawing on social histories, feminism and its implications, and the representation of gender in the visual arts, this course provides a better understanding of the situation of artists within different social, regional, and global contexts. (Format: Lecture 3 Hours) (Exclusion: FINH 3081; Any version of ARTH 3081 previously offered with a different title)

ARTH3141 (3.00 CR)
EARLY NINETEENTH CENTURY ART

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); or permission of the Department

This course examines art and architecture during the first half of the nineteenth century in the United States and Europe. It includes art in a variety of media and pays particular attention to the inventions of lithography and photography during this time. It considers artistic movements such as NeoClassicism, Romanticism and Realism along with artists who worked independently from these movements. (Format: Lecture 3 Hours) (Exclusion: FINH 3141; Any version of ARTH 3141 previously offered with a different title)

ARTH3241 (3.00 CR)
LATE NINETEENTH CENTURY ART

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); or permission of the Department

This course examines art and architecture during the second half of the nineteenth century in the United States and Western Europe (particularly Belgium, England, France, Germany and Spain). It includes art in a variety of media and pays particular attention to innovations in the production of photography and etching. It considers artistic movements such as Realism, Impressionism, Post-Impression, Arts and Crafts, and Art Nouveau. (Format: Lecture 3 Hours) (Exclusion: FINH 3241; Any version of ARTH 3241 previously offered with a different title)

ARTH3991 (3.00 CR)
SPECIAL TOPIC IN ART HISTORY

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for ARTH 3991 more than once, provided the subject matter differs.] (Format: Variable) (Exclusion: FINH 3991 if offered with the same title)

ARTH4091 (3.00 CR)
ADVANCED SEMINAR IN ART HISTORY

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); 3 credits from ARTH (or FINH) at the 3000 level; or permission of the Department

This course explores key issues in nineteenth to twenty-first century art, with topics to vary from term to term. It emphasizes contemporary, theoretical, methodological and critical approaches to the art of the recent past. [Note: Students may register for ARTH 4091 more than once, provided the subject matter differs.] (Format: Seminar 3 Hours) (Exclusion: FINH 4091)

ARTH4311 (3.00 CR)
ART AND ARCHIVES

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); 3 credits from ARTH, MUSE (or FINH) at the 3000 level; or permission of the Department

This course engages the archives as a real and conceptual space for memory to be activated through critical, historical, and creative methodologies. It opens a dialogue around what constitutes an archive or cultural collection and develops critical skills to navigate archival collections for primary research and documentation that can be applied to any course that examines historical or material culture. Students curate an exhibition drawn from an archival collection such as the Mount Allison Archival Collection. [Note 1: This course is cross-listed with MUSE 4311 and may therefore count as three credits in either discipline.] (Format: Seminar/Experiential 3 Hours) (Exclusions: FINH 4091 Advanced Seminar: Art and The Archives; FINH 4091 Advanced Seminar: Art & Archives; FINH 4311)

ARTH4331 (3.00 CR)
QUEERING VISUAL CULTURE

Prereq: Prereq: ARTH/MUSE 2101; ARTH/MUSE 2111; or permission of the Department

This course uses the theoretical notion of 'queering' to challenge, reject, disrupt, and destabilize normative visual representations in visual culture. To queer visual culture is to question the way visual representations are created and presented to audiences, challenge why certain images are deemed legible and authentic, and recenter marginalized perspectives. Drawing on various visual cultural practices, including film and TV, video games, fandom and art histories, this course examines how visual cultures and practices can and should be queered. [Note 1: This course is cross-listed with MUSE 4331 and may therefore count as three credits in either discipline.] (Format: Seminar 3 Hours) (Exclusion: ARTH 3991 Queering Visual Culture)

ARTH4341 (3.00 CR)
POETICS OF SPACE: ART AND AFFECT

Prereq: ARTH/MUSE 2101; ARTH/MUSE 2111; 3 credits from ARTH or MUSE at the 3000 level; or permission of the Department

This course critically engages with concepts and perceptions about space and affect in art, architecture and the environment. Within the politics of affect, space can be gendered and is rarely neutral. This course questions how space is perceived, particularly through the lens of visual art. It examines the spatial relationship between visual and audio art, screen imagery, and architecture through both theory and practice. The course explores concepts such as phenomenology, the memory, bodily sensations and affect. (Format: Seminar/Experiential 3 Hours) (Exclusions: ARTH 4991 Poetics of Space; FINH 4991 Poetics of Space: Art & the Everyday)

ARTH4950 (6.00 CR)
INDEPENDENT STUDY IN ART HISTORY

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for ARTH 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

ARTH4951 (3.00 CR)
INDEPENDENT STUDY IN ART HISTORY

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 3: Students may register for ARTH 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

ARTH4991 (3.00 CR)
SPECIAL TOPIC IN ART HISTORY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for ARTH 4991 more than once, provided the subject matter differs.] (Format: Variable) (Exclusion: FINH 4991 if offered with the same title)

MUSEUM AND CURATORIAL STUDIES COURSES

MUSE1991 (3.00 CR)
SPECIAL TOPIC IN MUSEUM AND CURATORIAL STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for MUSE 1991 more than once, provided the subject matter differs.] (Format: Variable)

MUSE2101 (3.00 CR)
INTRODUCTION TO ART HISTORIES

This course provides a critical introduction to the history of Western art and its display from the early Renaissance to the present day. It introduces analytical tools through which to examine movements that shaped art throughout these periods. [Note 1: This course is cross-listed with ARTH 2101 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: FINA 2011; FINH 2011; FINH 2101; Any version of ARTH 2101 previously offered with a different title)

MUSE2111 (3.00 CR)
CONTEXTS OF ART AND MUSEUM CULTURE

This course focuses on the cultural, historical, and critical contexts of art. It thematically explores aspects of visual art, material culture, art markets, museum studies, repatriation, and issues around decolonization, all within a broader study of art history and visual culture. [Note 1: This course is cross-listed with ARTH 2111 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: FINH 2111)

MUSE2991 (3.00 CR)
SPECIAL TOPIC IN MUSEUM AND CURATORIAL STUDIES

MUSE3301 (3.00 CR)
MUSEUMS, EDUCATION, AND ENGAGEMENT

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); or permission of the Department

This course examines the expanding field of museum education and considers the broader educational role of the museum. Topics include: current practice in museum education; informal learning theories; visitor experience; visitor research; writing in the museum; accessibility; inclusion; relevance; and the ways in which museums use new media, social media, and mobile technology. (Format: Seminar 3 Hours) (Exclusion: FINH 3301; FINH 3991 Museums, Education and Engagement)

MUSE3311 (3.00 CR)
COLLECTIONS, COLLECTING, AND COMMUNITY

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); or permission of the Department

This course critically examines the material culture of galleries, archives, and collections. Its close study of collections, collecting, and their communities broadens the dialogue around the politics of repatriation, stewardship, spoliation and restitution, and ownership and community. (Format: Seminar 3 Hours) (Exclusion: FINH 3311)

MUSE3321 (3.00 CR)
INTRODUCTION TO MUSEUM STUDIES

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); or permission of the Department

This course examines the art museum within contemporary society. It considers the history and future shape of the museum, and examines current practice, issues, and debate. It includes topics such as: the politics of the museum; its history and discourse; curatorial practice and the development of exhibitions; the museum and its publics; museums and new media; collections; and issues of artistic freedom and censorship. (Format: Seminar 3 Hours) (Exclusion: FINH 3041)

MUSE3331 (3.00 CR)
DIVERSITY IN MUSEUMS

Prereq: ARTH/MUSE 2101; ARTH/MUSE 2111; or permission of the Department

This course examines how museums reevaluate and diversify objects, narratives and audiences. While many museums have policies and goals to create more inclusive spaces, issues of censorship, colonialism, questionable object acquisition, as well as systematic social inequalities such as racism, homophobia, transphobia, ableism and misogyny, remain prevalent in the museum. Through a series of case studies, this course offers students the critical tools to analyze the responses, actions and outcomes that impact the inclusion of wider narratives, voices and experiences. (Format: Seminar 3 Hours) (Exclusion: MUSE 3991 Diversity in Museums; MUSE 4991 Diversity in Museums)

MUSE3991 (3.00 CR)
SPECIAL TOPIC IN MUSEUM AND CURATORIAL STUDIES

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. MUSE4301 (3.00 CR)
CURATING ART AND CRITICAL WRITING

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); 3 credits from ARTH, MUSE (or FINH) at the 3000 level; or permission of the Department

This course develops a critical and creative approach to contemporary curating, museology, and writing on art. Topics include: a close examination of museums, galleries, and artist-run centres; the material cultures of display; collections; art writing. Students gain experience through curating art within a group dynamic. (Format: Seminar 3 Hours) (Exclusions: FINH 4091 Advanced Seminar: Curating Art and Critical Writing; FINH 4091 Advanced Seminar: Curating Art; FINH 4301)

MUSE4311 (3.00 CR)
ART AND ARCHIVES

Prereq: ARTH/MUSE 2101 (or FINH 2101); ARTH/MUSE 2111 (or FINH 2111); 3 credits from ARTH, MUSE (or FINH) at the 3000 level; or permission of the Department

This course engages the archives as a real and conceptual space for memory to be activated through critical, historical, and creative methodologies. It opens a dialogue around what constitutes an archive or cultural collection and develops critical skills to navigate archival collections for primary research and documentation that can be applied to any course that examines historical or material culture. MUSE4321 (3.00 CR)
MUSEUM PRACTICUM

Prereq: Fourth-year standing in the Minor in Museum and Curatorial Studies; and Permission of the Department

This course provides students with an applied understanding of museum and curatorial practices. Students have an opportunity to engage in a directed study with a community museum, art gallery, arts centre, cultural or heritage centre, or archive, to develop a deeper knowledge of how these institutions, and their related professions, operate and function. (Format: Independent Study/Experiential) (Exclusion: FINH 4321)

MUSE4331 (3.00 CR)
QUEERING VISUAL CULTURE

Prereq: ARTH/MUSE 2101; ARTH/MUSE 2111; or permission of the Department

OTHER ART HISTORY COURSES

The following courses also count as Art History offerings:

Note: Only ENGL 3621, FREN 2801, GERM 2701, PHIL 2401 may be counted as Art History credits towards the BFA degree. CLAS 3621, 3631, 3721, 3731 can only be counted as Art History credits towards the BA programs in Fine Arts and Art History.

CLAS3621 (3.00 CR)
THE ARCHAEOLOGY OF GREEK COLONIZATION OF SOUTHERN ITALY
Format: Lecture 3 Hours

CLAS3631 (3.00 CR)
GREEK ART AND ARCHAEOLOGY
Format: Lecture 3 Hours

CLAS3721 (3.00 CR)
ART AND ARCHAEOLOGY OF POMPEII
Format: Lecture 3 Hours

CLAS3731 (3.00 CR)
ROMAN ART AND ARCHAEOLOGY
Format: Lecture 3 Hours

AVIATION

This interdisciplinary major covers basic geography and environmental science, mathematics and computer science, and physics, and upper level courses from these disciplines plus credit for aviation courses studied at MFC Training.

Entrance Requirements

a) Each prospective student for the Major in Aviation must meet the general admissions requirements of Mount Allison (section 3) and should declare their intention to pursue Aviation at time of application.
b) Each prospective student for the Major in Aviation must obtain and present a Transport Canada Category 1 medical certificate before commencing flight training.
c) Each prospective student for the Major in Aviation must demonstrate English language proficiency by informal or formal assessment as determined by the MFC Training.

Note: Students must achieve second-year standing (earn 24 credits) prior to beginning the practical elements of the program. The practical elements of the program may require training time outside the traditional September-April teaching period. Students should consult with the Program Advisor about the time commitment needed.

Interdisciplinary B.Sc. Program

MAJOR in Aviation is 78 credits earned as follows:

3 from MATH 1111, 1151
3 from COMP 1631
6 from PHYS 1051, 1551
6 from GENS 1401, 2421
6 from Computer Science, DATA, GENS, Mathematics or Physics chosen in consultation with the Program Advisor*
18 from Computer Science, DATA, GENS, Mathematics or Physics at the 3000/4000 level chosen in consultation with the Program Advisor*
36 credits twelve of which are designated at the 3000/4000 level as follows:
  a) from MFC Training through completing the requirements for flight training outlined in the Handbook for the Mount Allison Bachelor of Science (Aviation) including the Commercial Pilot License with Multi-engine and Instrument Flight Rules ratings, or
  b) from MFC Training by transfer after completion of the Diploma in Aviation Technology (Pilot), or
  c) from Confederation College by transfer after completion of the Aviation Flight Management Diploma.

*Consultation with the Program Advisor must occur before the student's second year of study.

BIOCHEMISTRY

Biochemistry is the study of the chemical structures and processes of living organisms.

Interdisciplinary B.Sc. Programs

MINOR in Biochemistry is 24 credits earned as follows:

6 from BIOC 1001, 2001
3 from BIOL 1501
6 from CHEM 1001, 1021
3 from CHEM 2111, 2411
6 from Biochemistry at the 3/4000 level

MAJOR in Biochemistry is 72 credits earned as follows:

15 from BIOC 1001, 2001, 3041, 3521, 4031
3 from BIOC 3001, 3031
3 from Biochemistry at the 3/4000 level
3 from BIOL 1501
9 from BIOL 2101, 2201, 2301, 2401, 2701, 2811, 3111, 3211, 3631, 3711, 4151, 4211, GENS 1401
24 from CHEM 1001, 1021, 2111, 2211, 2311, 2411, 3111, 3131
3 from MATH 1111 or 1151
3 from MATH 1121
3 from PHYS 1051
6 from Biochemistry or Biology or Chemistry or GENS at the 3/4000 level, of which three credits must be from BIOC or CHEM

Note: PHYS 1551 is recommended.

HONOURS in Biochemistry is 84 credits earned as follows:

72 credits as in the Major
3 from BIOC 3001, 3031
9 from BIOC 4990 and BIOC 4903

BIOCHEMISTRY COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

BIOC1001 (3.00 CR)
INTRODUCTORY BIOCHEMISTRY

This course introduces current topics and advances in Biochemistry and engages students in the scope and activities of the discipline. It examines the central role of water in biological systems, leading to an introduction of acid-base equilibria, the properties of biological membranes, and the bioenergetics of solutes moving across membranes. It introduces the principles of carbon bonding and electronegativity, leading to coverage of the bioorganic functional groups, whose characteristic properties and reactions combine to create the highly complex biological macromolecule classes of carbohydrates, proteins,nucleic acids, and lipids. (Format: Lecture 3 Hours, Tutorial 1.5 Hours)

BIOC1991 (3.00 CR)
SPECIAL TOPIC IN BIOCHEMISTRY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for BIOC 1991 more than once, provided the subject matter differs.] (Format: Variable)

BIOC2001 (3.00 CR)
ENZYMOLOGY AND METABOLISM

Prereq: Second-year standing; BIOC 1001; CHEM 1001; CHEM 1021 strongly recommended; or permission of the Department

This course examines the properties of enzymes including kinetics and regulation. It introduces carbohydrate and fat metabolism, respiratory and photosynthetic electron transport, and nitrogen assimilation and dissimilation, concentrating on key stoichiometries, structures, redox biochemistry, and bioenergetics. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: Any version of BIOC 2001 previously offered with a different title)

BIOC2991 (3.00 CR)
SPECIAL TOPIC IN BIOCHEMISTRY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for BIOC 2991 more than once, provided the subject matter differs.] (Format: Variable)

BIOC3001 (3.00 CR)
EXPERIENTIAL BIOCHEMISTRY

Prereq: BIOC 2001; declared Major or Honours in Chemistry or Biochemistry; or permission of the Department

This course teaches students to plan and conduct a range of current biochemical analyses including spectroscopy, gas analyses, and chromatographic separations and imaging, with particular emphasis on the new opportunities opened through high-throughput computerized data capture applied to both established and new instrumental analyses. In parallel, it guides students through the processes of plotting, interpreting, and presenting the meaning of their results. [Note 1: Students in other programs who have the prerequisites may be admitted by permission of the instructor.] (Format: Integrated Lecture and Laboratory, 6 Hours)

BIOC3031 (3.00 CR)
MOLECULAR ANALYSES

Prereq: BIOC 2001; declared Major or Honours in Chemistry or Biochemistry; or permission of the Department

This course focuses on experiential analysis and computer modeling of key concepts of the molecular basis of biology, including nucleic acid structure, synthesis, and replication through template-directed polymerizations. The course builds on these key concepts to explore gene structure, expression, and engineering, leading to the wide-ranging applications of molecular biology to biology, medicine, and diagnostics [Note 1: Students in other programs who have the prerequisites may be admitted by permission of the instructor.] (Format: Integrated Lecture and Laboratory 6 Hours) (Exclusion: BIOC 3021; BIOC 3531; BIOL 3031)

BIOC3041 (3.00 CR)
NUCLEIC ACIDS: STRUCTURES, MECHANISMS AND REGULATIONS

Prereq: BIOC 2001; BIOL 1501; or permission of the Department

This course interlinks structural, mechanistic, and regulatory aspects of nucleic acid function. It explores the structures of DNA and RNA and how DNA assembles into chromosomes. It also reviews the mechanisms of DNA replication, repair, recombination, transcription, and RNA splicing. It examines the complexity and ingenuity of gene regulation in both prokaryotes and eukaryotes. (Format: Lecture 3 Hours) (Exclusion: BIOC 4911 Nucleic Acids)

BIOC3051 (3.00 CR)
MOLECULAR IMMUNOLOGY

Prereq: BIOL 1501; BIOC 2001; or permission of the Department

This course explains the core molecular structures of the immune system: antibodies and their interactions with antigens. It places these molecular interactions in the context of the cells and tissues of the immune system and the signaling cascades that regulate immune responses. The course concludes with topics in immunology and applications of immunochemistry. [Note 1: This course is cross-listed with BIOL 3051 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: BIOC 4011)

BIOC3131 (3.00 CR)
ORGANIC CHEMISTRY: BIOORGANIC

Prereq: 3 credits from CHEM 2121, 3111; or permission of the Department

This course presents the principles of organic chemistry as they apply to biochemical problems. Topics covered include enzymic reaction mechanisms, enzyme cofactors, peptide and nucleic acid synthesis, and enzymes in organic synthesis. [Note 1: This course is cross-listed with CHEM 3131 and may therefore count as three credits in either discipline. Chemistry students should register for CHEM 3131.] (Format: Lecture 3 Hours)

BIOC3261 (3.00 CR)
PHYSICAL CHEMISTRY: SURFACE AND INTERFACIAL

Prereq: CHEM 2211; or permission of the Department

This course investigates a broad range of fundamental topics in surface and interface science including: self-assembly, surface chemistry and monolayers, colloidal systems, liquid crystals, and modern experimental techniques. [Note 1: This course is cross-listed as CHEM 3261 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: CHEM 3991 Surface and Interfacial Chemistry)

BIOC3501 (3.00 CR)
ADVANCED METABOLISM

Prereq: BIOC 2001; or permission of the Department

This course examines the coordinated biochemical transformations of matter, energy, and information through metabolic pathways, emphasizing nitrogen, lipid, and secondary metabolism, metabolic compartmentalization and integration, and bioenergetics. (Format: Lecture 3 Hours) (Exclusion: BIOC 3501 Metabolism)

BIOC3521 (3.00 CR)
PROTEIN BIOCHEMISTRY

Prereq: BIOC 2001; declared Major or Honours in Chemistry or Biochemistry; or permission of the Department

This course examines the relations between protein structure and function at the primary, secondary, tertiary, and quaternary levels; enzyme catalysis and mechanism; isolation, purification, and characterization of proteins; the metabolism of proteins through synthesis and degradation; and recent trends in protein design. Students learn sequence comparison, motif searching, and development of visual protein structures constructed from the protein structural data bases available over the web. The course introduces mass spectroscopic analyses of the proteome and protein sequencing. [Note 1: Students in other programs who have the prerequisites may be admitted by permission of the instructor.] (Format: Lecture 3 Hours, Laboratory 3 Hours)

BIOC3601 (3.00 CR)
RESEARCH AND COMMUNICATION IN CHEMISTRY AND BIOCHEMISTRY

Prereq: Third-year standing; 6 credits from CHEM 2111, 2311, 2211, 2411, BIOC 2001; or permission of the Department

This course examines the scholarly communication and research ecosystem in detail, with a particular emphasis on academic publishing. The course focuses on the literature, the academic publishing industry, research funding, open access, copyright basics and artificial intelligence in research. [Note 1: This course is cross listed with CHEM 3601 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: BIOC/CHEM 3991 Research & Communication).

BIOC3711 (3.00 CR)
BIOCHEMICAL ECOLOGY

Prereq: BIOL 2101; BIOC 2001; or permission of the Biology Department

This course deals with the biochemistry of interactions between animals, plants and microorganisms that occur in the natural environment. It places strong emphasis on the role of "secondary metabolites" or "natural products" such as alkaloids, flavonoids, terpenoids, etc., in the insect-plant, vertebrate-plant, plant-plant and vertebrate-vertebrate relationships. [Note 1: This course is cross-listed with BIOL 3711 and may therefore count as three credits in either discipline.] (Format: Seminar 3 Hours)

BIOC3991 (3.00 CR)
SPECIAL TOPIC IN BIOCHEMISTRY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for BIOC 3991 more than once, provided the subject matter differs.] (Format: Variable)

BIOC4021 (3.00 CR)
LIPID AND MEMBRANE BIOCHEMISTRY

Prereq: BIOC 2001; or permission of the Department

This course covers the metabolism of major classes of lipids, their roles in signal transduction, and their interactions with proteins. (Format: Lecture 3 Hours)

BIOC4031 (3.00 CR)
SIGNAL TRANSDUCTION

Prereq: BIOC 3521; or permission of the Department

This course examines the processes by which cells receive external signals and convert this information into cellular events through ordered sequences of biochemical reactions that may result in changes to cellular metabolism, behaviour, or gene expression.(Format: Lecture 3 Hours)

BIOC4201 (3.00 CR)
ENVIRONMENTAL PHYSIOLOGY AND BIOCHEMISTRY OF ANIMALS

Prereq: 3 credits from BIOC 2001, BIOL 3201, BIOL 3211; or Permission of the Department

This course in animal physiology examines the physiological and biochemical strategies animals use to survive in diverse, often stressful environments. Using primary literature from scientific journals, this course focuses on animal responses to environmental conditions such as hypoxia and anoxia, high and low temperatures, overwintering, altitude, environmental pollutants, osmotic stress, and UV radiation. [Note 1: Weekly discussion groups on recent topical papers form a major component of this course. Note 2: This course is cross-listed with BIOL 4201 and may therefore count as three credits in either discipline.] (Format: Seminar 3 hours) (Exclusion: BIOC 4201 previously offered with a different title)

BIOC4351 (3.00 CR)
INORGANIC CHEMISTRY: BIOINORGANIC

Prereq: CHEM 2311; CHEM 3321; or permission of the Department

This course examines the roles metals play in biochemical systems, and includes an overview of bioinorganic chemistry and a discussion of metals in medicine. [Note 1: This course is cross-listed with CHEM 4351 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

BIOC4903 (3.00 CR)
CURRENT ADVANCES IN BIOCHEMISTRY

This is a seminar course for Honours students in Biochemistry, which critically evaluates a wide range of topics from the current literature. Students are expected to deliver seminars on topics outside their thesis areas and to present preliminary thesis results. (Format: Seminar 3 Hours)

BIOC4950 (6.00 CR)
INDEPENDENT STUDY IN BIOCHEMISTRY

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor is required. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for BIOC 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

BIOC4951 (3.00 CR)
INDEPENDENT STUDY IN BIOCHEMISTRY

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. (Format: Independent Study) [Note 1: Permission of the Department/Program Advisor is required. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for BIOC 4950/51 more than once, provided the subject matter differs.]

BIOC4990 (6.00 CR)
HONOURS THESIS

Coreq: BIOC 4903

The honours thesis is based upon a program of original student research conducted with the advice of an academic supervisor. [Note 1: Consent of supervising staff member prior to registration and permission of the Program Advisor is required.] (Format: Independent Study/Thesis)

BIOC4991 (3.00 CR)
SPECIAL TOPIC IN BIOCHEMISTRY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for BIOC 4991 more than once, provided the subject matter differs.] (Format: Variable)

BIOLOGY

Biology is the scientific study of living things: their form, their function, their origin and their behaviour. The study of Biology can be an important part of a liberal education, for to understand it well requires knowledge of chemistry, physics, mathematics, and natural history; to describe it well requires a command of language and ability to present observations visually; to appreciate it requires an awareness of human nature, both past and present, and the interplay between humans and other living organisms and their common environment. For three thousand years this discipline has developed to describe living things in aid of the arts of healing, of gardening and of living. Today it abounds with exciting new knowledge and discoveries, so that wise people still read about it with amazement or pursue it with delight.

In this Department three things are attempted: to give all students an understanding of the scope, techniques and general principles which underpin Biology; to encourage independent study and self-learning where possible; to give those students who are seriously interested in advanced studies an opportunity of exploring the areas of special interest to faculty who are primarily concerned with the fields of ecology and physiology.

Students intending to take a Major or Minor or Honours in Biology should consult the Department website and/or a Program Advisor before completing registration.

Disciplinary B.Sc. Programs

MINOR in Biology is 24 credits earned as follows:

6	from BIOL 1001, 1501
3	from BIOC 1001
6 to 9	from BIOL 2101, 2201, 2301, 2401, 2701, 2811
6 to 9	from Biology at the 3/4000 level. Up to 3 credits of this requirement may be obtained from the following courses: BIOC 3031, BIOC 3041, BIOC 3501, BIOC 3521, DATA 3001, PSYC 3101, PSYC 3211, PSYC 3141, PSYC 4101, PSYC 4611, GENS 3431, GENS 3491, GENS 4421

MAJOR in Biology is 60 credits earned as follows:

6	from BIOL 1001, 1501
3	from PHYS 1051, 1041
3	from MATH 1111 or 1151
3	from MATH 1121, 1251, 1311, 2211, 2221, or COMP 1631
3	from CHEM 1001
3	from BIOC 1001
9	from BIOL 2101, 2701, 2811
9	from BIOL 2201, 2301, 2401, BIOC 2001
21	additional credits from Biology at the 3/4000 level. Up to 6 credits of this requirement may be obtained from the following courses: BIOC 3031, BIOC 3041, BIOC 3501, BIOC 3521, DATA 3001, PSYC 3101, PSYC 3141, PSYC 3211, PSYC 4101, PSYC 4611, GENS 3431, GENS 3491, GENS 4421

Note: BIOC 2001 is a prerequisite for several 3/4000 Biology courses.

Note: Additional 3/4000 level courses are needed to fulfill Calendar Regulation 11.3.5

HONOURS in Biology is 75 credits earned as follows:

60 as in the Major, plus:
9 from BIOL 4903, 4990
6 from Biology at the 3/4000 level, chosen in consultation with the Program Advisor

Note: The thesis required will involve laboratory or field investigation, and unless the candidate shows satisfactory ability to carry on independent work, honours will not be recommended.

BIOLOGY COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

BIOL1001 (3.00 CR)
FOUNDATIONS OF BIOLOGY

This course introduces the fundamentals of organismal biology: the scientific method, principles of evolution including Darwin's theory of natural selection, adaptations in organismal form and function, biodiversity, the interactions of organisms with their environment, and the practices of scientific communication. [Note 1: This course is designed for science majors. Students who intend to continue to study in Biology should note the need to complete BIOC 1001 as a prerequisite for BIOL 1501.] (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: Any version of BIOL 1001 previously offered with a different title)

BIOL1201 (3.00 CR)
HUMAN BIOLOGY

This course applies biological principles to practical human concerns. It introduces the development, structure and function of the human body, and mechanisms involved in degenerative infectious diseases, discusses human reproduction and genetics, examines the impact of evolutionary theory on our understanding of the human species, considers the interdependence between natural ecosystems and human activities, and looks at threats to the environment through pollution and overpopulation. [Note 1: This course is restricted to non-science majors. Science majors require the instructor's permission to enrol.] (Format: Lecture 3 Hours)

BIOL1501 (3.00 CR)
CELL BIOLOGY

Prereq: BIOC 1001; or permission of the Department

This course introduces the structure, organization and functions of the cell, which is the fundamental structural and functional unit of living organisms. It places particular emphasis on eukaryotic cells. Topics include: membranes and organelles, communication within and between cells, membrane transport, the cell cycle, meiosis and mitosis. (Format: Lecture 3 Hours, Laboratory 3 Hours)

BIOL1991 (3.00 CR)
SPECIAL TOPIC IN BIOLOGY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for BIOL 1991 more than once, provided the subject matter differs.] (Format: Variable)

BIOL2101 (3.00 CR)
INTRODUCTION TO ECOLOGY

Prereq: BIOL 1001; or permission of the Department

This course introduces current concepts of individual, population and community ecology using local ecosystems and organisms whenever possible. Students will gain experience collecting and interpreting ecological data, and applying concepts covered in class in a lab setting. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: Any version of BIOL 2101 previously offered with a different title)

BIOL2201 (3.00 CR)
FORM AND FUNCTION: MICROORGANISMS

Prereq: 3 credits from BIOL 1501, BIOC 2001; or permission of the Department

This course surveys the evolutionary and functional diversity of the Archaea, Bacteria, and selected eukaryotic microbes, examining the cellular structures and metabolic processes characteristic of each group, and how these characteristics allow humans to control and use microbial growth. The course also examines how omics is altering our views of microbial evolution and ecology. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: BIOL 3101)

BIOL2301 (3.00 CR)
FORM AND FUNCTION: PLANTS

Prereq: BIOL 1001; BIOL 1501 strongly recommended; or permission of the Department

This course introduces the structure and function of plants with an emphasis on vascular plants. Topics include plant diversity, comparative anatomy, development and functional adaptations to the environment, and how molecular evidence is altering our views of plant evolutionary relationships. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: Any version of BIOL 2301 previously offered with a different title)

BIOL2401 (3.00 CR)
FORM AND FUNCTION: ANIMALS

Prereq: Second-year standing; BIOL 1001; or permission of the Department.

This course introduces students to the structure and function of major groups of invertebrate and vertebrate animals on a comparative basis by observation of both preserved and living material. Topics include comparative anatomy and phylogeny, and the evolution and function of locomotory, digestive, excretory, respiratory, nervous and reproductive systems.(Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: Any version of BIOL 2401 previously offered with a different title)

BIOL2701 (3.00 CR)
INTRODUCTORY DESIGN & STATISTICAL ANALYSIS

Prereq: 3 credits from BIOL 1001, 1501; 3 credits from MATH 1111, 1151, 1311; or permission of the Department

This course introduces data analysis, the principles of experimental design and the formulating and testing of hypotheses. It describes graphical and statistical (t-test, chi-square test, ANOVA) analyses of laboratory and field collected data, and discusses their appropriate use in Biology. [Note 1: Data management and statistical analyses uses Excel and R.] (Format: Lecture 3 Hours and Tutorial 1.5 Hours) (Exclusion: BIOL 3701; any version of BIOL 2701 previously offered with a different title)

BIOL2811 (3.00 CR)
GENETICS AND EVOLUTION

Prereq: BIOL 1001; BIOL 1501; or permission of the Department

This course examines evolution by natural selection as the driving force behind the diversity of life, examining genetic and evolutionary processes from the level of cells (recombination, mutation) to populations (selection, migration, genetic drift, mutation) to species (speciation). Building from Mendelian genetics, it examines theories of biological evolution and presents evolutionary biology as an experimental science, emphasizing the methods used to test evolutionary hypotheses in the wild and in the lab. The course discusses the importance of an accurate understanding of genetics and evolution to human society. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: 6 credits from BIOL 2601, 2801)

BIOL2991 (3.00 CR)
SPECIAL TOPIC IN BIOLOGY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for BIOL 2991 more than once, provided the subject matter differs.] (Format: Variable)

BIOL3021 (3.00 CR)
PALAEONTOLOGY

Prereq: BIOL 2301; BIOL 2401; or permission of the Department

This course provides an overview of the major fossil plant and animal taxa in the context of the history of macroscopic and microscopic forms of life on Earth. It discusses morphology and anatomy of organisms in relation to accompanying changes in marine and terrestrial environments and when appropriate it emphasizes diagnostic features of the organisms used as time (biostratigraphy) and/or environmental (paleoecology) indicators. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: GENS 3991 Introduction to Palaeontology)

BIOL3041 (3.00 CR)
ECOTOXICOLOGY

Prereq: BIOL 2101; or permission of the Department

This course examines how toxic pollutants coming from human activities affect ecosystems. Using a broad interdisciplinary approach, key topics include the environmental transport and fate of toxins, the effects of toxins on individual organisms, and the impact of toxins from the scale of biological populations and communities to a global scale. The course also covers the practical application of these topics to environmental monitoring and conservation as well as their intersection with issues of environmental justice and public policy. [Note 1: This course is cross-listed with GENS 3041 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: BIOL 3991 Ecotoxicology)

BIOL3051 (3.00 CR)
MOLECULAR IMMUNOLOGY

Prereq: BIOC 2001; or permission of the Department

This course explains the core molecular structures of the immune system: antibodies and their interactions with antigens. It places these molecular interactions in the context of the cells and tissues of the immune system and the signaling cascades that regulate immune responses. The course concludes with topics in immunology and applications of immunochemistry. [Note 1: This course is cross-listed with BIOC 3051 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)(Exclusion: BIOC 4011)

BIOL3111 (3.00 CR)
ENVIRONMENTAL MICROBIOLOGY

Prereq: 3 credits from BIOL 2201, BIOC 2001; or permission of the Department

This course covers the ecophysiology of microorganisms. The course surveys the key functional microbial groups which mediate major steps in the biogeochemical cycles, their ecological requirements and factors limiting their growth and activity. This leads to discussion of the roles of microorganisms in current issues in biology, industry and environmental science. (Format: Integrated Lecture and Laboratory 6 Hours) (Exclusion: Any version of BIOL 3111 previously offered with a different title)

BIOL3201 (3.00 CR)
ANIMAL PHYSIOLOGY; ADAPTATION AND ENVIRONMENT

Prereq: BIOL 2401; BIOL 2701; or permission of the Department

This course focuses on the physiological processes underpinning a monumental step in the evolution of the vertebrates, the transition from water to land. It examines the respiratory, circulatory, acid-base and osmoregulatory adaptations seen in fish to mammals and studies the integration of animal physiology with the environment by investigating metabolism and temperature. (Format: Lecture 3 Hours, Laboratory 3 Hours)

BIOL3211 (3.00 CR)
HUMAN PHYSIOLOGY

Prereq: Third-year standing; BIOL 1501; or permission of the Department

This course provides a comprehensive study of the physiology of the human body. It examines the function of the nervous, muscular, sensory, endocrine, respiratory, cardiovascular, and renal systems. [Note: Laboratory exercises with students as participants in experiments complement the course material and advance students' knowledge of important physiological processes.] (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusions: Any version of BIOL 3201 offered prior to 2015-2016; Any version of BIOL 3211 previously offered with a different title)

BIOL3221 (3.00 CR)
HUMAN ANATOMY

Prereq: 3 credits from BIOL 2401, 3211; or permission of the Department

This course examines the structural organization of the human body, including the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, respiratory, digestive, urinary, and reproductive systems. It investigates these systems in the context of human health and disease. (Format: Lecture 3 Hours) (Exclusion BIOL 3991 Human Anatomy)

BIOL3271 (3.00 CR)
SCIENCE COMMUNICATION IN BIOLOGY

Prereq: Third-year standing; 9 credits from BIOL 2101, 2201, 2301, 2401, 2701, 2811, BIOC 2001; or permission from the Department

This course develops and hones fundamental communication skills. It examines how people perceive and construct knowledge, relating to concepts such as learning theory and rhetorical studies, and it discusses how to use frameworks from writing composition and narrative to produce and create more engaging means of communicating science. Students apply this knowledge to build practical skills in both public engagement and academic communications. Assignments draw from recent studies in biology, and students have the opportunity to tailor the focus of their work to areas of biology that interest them. (Format: Lecture 3 Hours, Lab 3 Hours) (Exclusions: BIOL 3991 Scientific Communication)

BIOL3301 (3.00 CR)
PHYSIOLOGICAL PLANT ECOLOGY

Prereq: BIOL 2101; BIOL 2301; or permission of the Department

This course examines the ways by which plants respond to their environments. Topics include a discussion of transpiration and heat transfer, photosynthesis in nature, vernalization, photoperiodism and response to stresses such as drought, temperature, salinity and pollutants. (Format: Lecture and Laboratory 3 Hours) (Exclusion: BIOL 4301)

BIOL3351 (3.00 CR)
MARINE BOTANY

Prereq: BIOL 2301; or permission of the Department

A lecture, laboratory, and field course summarizing recent advances in our understanding of macroscopic plant growth in the sea. This progress has been based upon studies involving morphology, development, physiology, and ecology. The following topics will be emphasized: the sea as an environment for plants to grow, production of marine plants, morphogenesis and geographic distribution of marine plants, and use of marine plants. (Format: Lecture 3 Hours, Laboratory 3 Hours)

BIOL3361 (3.00 CR)
COASTAL MARINE BIOLOGY

Prereq: BIOL 2101; 2401; 3 credits from BIOL 2701, GENS 2431, PSYC 2011, or permission of the Department

This course investigates the ecology of estuarine, intertidal, and subtidal ecosystems with a particular focus on ecosystems within Atlantic Canada. Fundamental aspects of marine science will be covered to highlight the physical, geological, and chemical processes that shape coastal ecosystems. Building from these fundamentals, students will explore the community ecology, food webs, and biodiversity of the major types of coastal ecosystems. [Note: The course includes a required field trip to the Huntsman Marine Sciences Centre in St. Andrews, N.B. Students are expected to contribute to their accommodation costs.] (Format: Lecture 3 Hours, Field Trip)

BIOL3371 (3.00 CR)
PRINCIPLES OF AQUACULTURE

Prereq: BIOL 2401; or permission of the Department

This course introduces the history, practice, and future of aquaculture with particular emphasis on development of finfish aquaculture in Atlantic Canada. Topics include biology of growth, culture of live feed, hatchery techniques, health, nutrition, engineering, economics, and public policy.(Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: BIOL 3991 Principles of Aquaculture)

BIOL3401 (3.00 CR)
ANIMAL BEHAVIOUR

Prereq: BIOL 2101; BIOL 2401; 3 credits from BIOL 2701, GENS 2431, PSYC 2011; or permission of the Department

A course which will present the development, physiology, ecology and evolution of animal behaviour. Topics to be discussed will include basic concepts of behavioural organization; physiology of behaviour, learning and memory phenomena; behaviour of communication; reproductive behaviour and mating systems; spatial distribution patterns and social systems; migrations and orientation mechanisms; feeding and anti-predator behaviours. Field excursions and laboratory exercises will permit students to observe and to quantify different behaviours in a variety of animal species. (Format: Lecture 3 Hours, Laboratory 3 Hours)

BIOL3421 (3.00 CR)
BIOGEOGRAPHY
Prereq: GENS 2421; 3 credits from BIOL 2701, GENS 2431; or permission of the Department

This course explores the links between the geomorphology and climatology of a region and the plant-animal environments through a biogeographical approach to ecological studies. It focuses on the geography of plants including environmental controls of plant distributions and the functional and historical aspects of plant communities. [Note 1: This course is cross-listed with GENS 3421 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: GEOG 3421)

BIOL3451 (3.00 CR)
ENTOMOLOGY
Prereq: BIOL 2401; or permission of the Department

Insects surpass all other organisms in their diversity and numbers, comprising over two thirds of the earth's known animals. This course will introduce students to this class of organisms by covering the following six areas: structure, function classification and phylogeny, behaviour and ecology. Throughout the course, evolutionary forces influencing the animals and systems involved will be stressed. Discussions will emphasize the use of the comparative methods to determine what these forces might be. (Format: Lecture 3 Hours, Laboratory/Field Trip 3 Hours)

BIOL3471 (3.00 CR)
LIMNOLOGY
Prereq: Third-year standing; 3 credits from GENS 2431, BIOL 2701; or permission of Department

This course examines the structure and function of freshwater ecosystems. It emphasizes the physical, chemical, and biological processes that occur within lakes and, to a lesser extent, river and wetland environments. The course also covers the diversity of, and interactions between aquatic and highlights environmental stressors that threaten freshwaters. [Note 1: This course is cross-listed with GENS 3471 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: GENS 3991 Stressors on Freshwater Systems; GENS 3991 Limnology)

BIOL3501 (3.00 CR)
NATIVE FLORA (VASCULAR PLANTS)
Prereq: BIOL 2301; or permission of the Department

This course presents principles of plant systematics and taxonomy, and the key characters of important families of vascular plants in the New Brunswick flora, enabling students to recognize plants belonging to these families in the field. Students will practice using dichotomous keys, preparing and handling herbarium specimens, and conveying of biological information through botanical sketches and floral diagrams. (Format: Integrated Lecture and Laboratory 6 Hours)

BIOL3511 (3.00 CR)
INTEGRATIVE INVERTEBRATE BIOLOGY
Prereq: BIOL 2401; or permission of the Department

This course draws from many disciplines within the biological sciences to explore the importance of invertebrates at both the ecosystem and global scale. Aspects of evolutionary biology, behavioural ecology, ecosystem ecology, and biogeochemistry are integrated to study invertebrate diversity and roles in terrestrial, freshwater, and marine ecosystems. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: BIOL 4511)

BIOL3551 (3.00 CR)
INTRODUCTION TO HERPETOLOGY
Prereq: BIOL 2101; BIOL 2401; or permission of the Department

This course introduces herpetology, the study of reptiles and amphibians. Through a combination of lectures and practical activities, this course provides an overview of the global diversity, ecology, and conservation of herpetofauna. There is also a focus on the natural history and identification of amphibians and reptiles located in Atlantic Canada. (Format: Lecture 3 Hours, Laboratory/Field Trip 3 Hours)

BIOL3601 (3.00 CR)
ECOLOGICAL GENETICS
Prereq: BIOL 2701; BIOL 2811; or permission of the Department

This course investigates theoretical and observed changes in ecologically significant traits. It explores the connections between ecological properties of populations and evolutionary forces at work through the study of population structure, mathematical treatment of models, quantitative traits, and natural selection on phenotypic traits. (Format: Seminar 3 Hours)

BIOL3621 (3.00 CR)
APPLIED GENETICS
Prereq: Prereq: BIOL 2811; or permission of the Department

This course explores how genetic technologies can be used to solve current problems in biology, ranging from ecology to medicine. It focuses on technical skills related to current genetic technologies including some or all of: polymerase chain reaction (PCR), DNA extraction, gel electrophoresis, cytology, in situ hybridization, immunocytology, data mining, bioinformatics, conventional light microscopy, fluorescent microscopy, scanning electron microscopy, and related techniques. The course also emphasizes other skills such as science literacy, critical analysis of scientific literature, oral and visual presentation, and gAI skills. (Format: Integrated Lecture and Laboratory 3 Hours)

BIOL3631 (3.00 CR)
DEVELOPMENTAL BIOLOGY
Prereq: BIOL 2811; or permission of the Department

The course provides a foundation to the rapidly expanding field of Developmental Biology, which draws upon the disciplines of Cell Biology, Genetics, and Molecular Biology. This course focuses on the structural changes exhibited during the development, differentiation, and growth of organisms. It examines gametogenesis, fertilization, and embryogensis in a variety of model organisms. Laboratory exercises reinforce the concepts and stages of development.(Format: Integrated Lecture and Laboratory 3 hours) (Exclusion: BIOL 3311; any version of BIOL 3631 previously offered with a different title)

BIOL3651 (3.00 CR)
INTRODUCTION TO ORNITHOLOGY
Prereq: BIOL 2101; BIOL 2401; or permission of the Department

An introduction to the study of birds through lectures, laboratories and field trips. All of the bird families represented in the Maritime region will be discussed, with special emphasis on anatomy, structural adaptations, behaviour and physiology. The species composing the bird communities of the Sackville area will be examined during field trips. (Format: Lecture 3 Hours, Laboratory/Field Trip 3 Hours)

BIOL3661 (3.00 CR)
HUMAN GENETICS
Prereq: BIOL 2811; or permission of the Department

This course explores how the genetic program of cells interacts with the external and organismal environment to produce the phenotype of the organism. It explores our current understanding of how interactions between genes, gene identification, gene-environment interactions, gene regulation, and epigenetics allow normal development. Human, animal, and plant diseases provide examples of how these processes work and the consequences of disruption. (Format: Lecture 3 Hours) (Exclusion: Any version of BIOL 3661 previously offered with a different title)

BIOL3671 (3.00 CR)
HISTOLOGY
Prereq: BIOL 1501; BIOL 2401; or permission of the Department

This course examines microscopic/cellular anatomy, i.e., the composition and structure of multi-cellular plant and animal tissues in relation to their specialized functions. It places a strong emphasis on lab skills. Students learn to identify tissues and organs using prepared slides to correlate structure and function and study histopathological changes associated with disease. Through classroom learning, independent projects, and groups work, students develop a strong, applied understanding of histology while also developing professional skills such as critical thinking, analysis, communication, gAI power and limitations, time management, independence and teamwork. (Format: Integrated Lecture and Laboratory 3 Hours) (Exclusion: BIOL 3991 Histology)

BIOL3711 (3.00 CR)
BIOCHEMICAL ECOLOGY
Prereq: BIOL 2101; BIOC 2001; or permission of the Biology Department

This course deals with the biochemistry of interactions between animals, plants and microorganisms that occur in the natural environment. It places strong emphasis on the role of so-called "secondary metabolites" or "natural products" such as alkaloids, flavonoids, terpenoids, etc., in the insect-plant, vertebrate-plant, plant-plant and vertebrate-vertebrate relationships. (Format: Seminar 3 Hours) [Note 1: This course is cross-listed with BIOC 3711 and may therefore count as three credits in either discipline.]

BIOL3751 (3.00 CR)
COMPARATIVE CHORDATE ANATOMY
Prereq: BIOL 2401; or permission of the Department

A lecture and laboratory course in which the structure, function and diversity of vertebrate animals will be examined and compared. It will discuss successive modifications of structural and functional systems found in vertebrates, and speculate on the survival value of these systems and on their relationships to contemporary environments. (Format: Lecture 3 Hours, Laboratory 3 Hours)

BIOL3801 (3.00 CR)
THEORETICAL AND EVOLUTIONARY ECOLOGY
Prereq: Third-year standing; BIOL 2101; BIOL 2701; BIOL 2811 or permission of the Department

This course explores how mathematical theory, natural history observation, and experimentation complement one another to improve our understanding of the natural world. It introduces techniques for reading and assessing mathematical models,and explores some central themes in evolutionary ecology, such as life history evolution, sex-ratio evolution, and kin selection. Topics vary from year to year. (Format: Seminar 3 Hours)

BIOL3811 (3.00 CR)
CONSERVATION BIOLOGY
Prereq: BIOL 2101; or permission of the Department

The field of conservation biology applies to the principles of ecology, biogeography, and population genetics to the mitigation of human impact and the maintenance of global biodiversity. The course will familiarize the student with the concepts and principles of conservation biology and will encourage active debate about threats to ecological integrity and the ways scientists attempt to cope with such threats. (Format: Lecture 3 Hours)

BIOL3911 (3.00 CR)
PLANTS AND HUMAN SOCIETY
Prereq: Third-year standing; 3 credits from BIOL; or permission of the Department

This course investigates the interactions between plants and human societies from the introduction of agriculture until the present. It includes the consideration of the evolution of vascular plants, especially those important to agriculture and forestry. It emphasizes the origins of agriculture on various continents and discusses economic botany and the present day commercial uses of plants. It also considers interrelations between plants and societies in dietary, cultural and religious connotations. Finally, the course considers world food shortages, either present or potential, and possible ways to alleviate these. (Format: Lecture 3 Hours)

BIOL3991 (3.00 CR)
SPECIAL TOPIC IN BIOLOGY
This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for BIOL 3991 more than once, provided the subject matter differs.] (Format: Variable)

BIOL4011 (3.00 CR)
FOREST RESPONSE

Prereq: Third-year standing; GENS 3421; or permission of Department

This course examines the biogeography of global forests, past, present and future, in response to a range of environmental changes. It investigates methods of paleo-forest analysis that provide evidence of long-term forest shifts. The course also explores cumulative effects of human activities on forest ecosystems throughout the Anthropocene. Forest response to climate changes will be estimated using published models and paleoenvironmental data to forecast how forests may be reorganized. [Note 1: This course is cross-listed as GENS 4011 and may therefore count as 3 credits in either discipline.] (Format: Seminar 3 Hours) (Exclusion: GENS 3991 Environmental Change: Forest Response).

BIOL4101 (3.00 CR)
BEHAVIOURAL ECOLOGY

Prereq: BIOL 2701; 2811; 3401; or permission of the Department

This course explores the relationships between animal behaviour and ecology, emphasizing the behavioural strategies which animals have evolved to enhance their survival and to increase their reproductive success. It discusses topics such as foraging, living in groups, resource defence, sexual selection, parental care, mating systems, altruism and communication within a neo-Darwinian framework using optimality models and game theory. (Format: Lecture 3 Hours)

BIOL4111 (3.00 CR)
FIELD ECOLOGY

Prereq: BIOL 2101; 3 credits from BIOL 2701, GENS 2431; or permission of the Department

This course introduces the basic principles of field ecology research, experimental design, and data analysis It considers various techniques used in quantitative field ecology, including the design of observational and manipulative studies, and methods used to quantify abundance of plants and animals, implementing these in a wide range of environments during the field week. [Note 1: This course requires a 6-day field course component in August as well as regular class meetings through the term.] (Format: Field course, Lecture 3 Hours)

BIOL4201 (3.00 CR)
ENVIRONMENTAL PHYSIOLOGY AND BIOCHEMISTRY OF ANIMALS

Prereq: 3 credits from BIOL 3201, BIOL 3211, BIOC 2001; or permission of the Department

This course in animal physiology examines the physiological and biochemical strategies animals use to survive in diverse, often stressful environments. Using primary literature from scientific journals, this course focuses on animal responses to environmental conditions such as hypoxia/anoxia, high and low temperatures, overwintering, altitude, environmental pollutants, osmotic stress and UV radiation. [Note 1: Weekly discussion groups on recent topical papers form a major component of this course. Note 2: This course is cross-listed with BIOC 4201 and may therefore count as three credits in either discipline.] (Format: Seminar 3 hours) (Exclusion: Any version of BIOL 4201 previously offered with a different title)

BIOL4211 (3.00 CR)
ENDOCRINOLOGY

Prereq: BIOL 3211; or permission of the Department

This course investigates vertebrate hormone systems and may examine some aspects of invertebrate systems. It discusses hormone synthesis, control of secretion, modes of secretion and general mechanisms of action and examines specific hormone systems such as the hypothalamus-pituitary axis, renin-angiotensin system, and pituitary-adrenal axis. (Format: Seminar 3 Hours)

BIOL4221 (3.00 CR)
EXERCISE PHYSIOLOGY

Prereq: 3 credits from BIOL 3201, BIOL 3211; or permission of the Department

This course explores the metabolic and systemic basis of exercise, the physiology of training and performance and exercise under special conditions such as environment and disease. In addition to studying these fundamentals of exercise physiology, this course delves into recent research and advancements in the field. (Format: Seminar 3 Hours)

BIOL4311 (3.00 CR)
NEUROPHYSIOLOGY

Prereq: BIOL 3211; or permission of the Department

This course investigates advanced topics in neurophysiology including neuro- and glio-transmission, the physiology and plasticity of synapses, and neuronal circuits that underlie behaviour. It also discusses the development and pathophysiology of the nervous system. (Format: Lecture/Seminar 3 Hours) (Exclusion: BIOL 4991 Special Topics in Neurophysiology)

BIOL4371 (3.00 CR)
ADVANCED TOPICS IN MARINE SCIENCE

Prereq: Third-year standing; BIOL 2101; or permission of the Department;

This course explores selected topics in the study of ocean ecosystems ranging from the microbial ecology of the ocean's surface to the unique adaptations of cryptic animals in the ocean's depths with an emphasis on topics of current global significance. Students will apply knowledge from topical studies to evaluate emerging large-scale human activities in the oceans such as ecosystem restoration efforts, offshore aquaculture, deep sea mining, and geoengineering. (Format: Lecture 3 hours)

BIOL4411 (3.00 CR)
ECOLOGY AND BIOLOGY OF FISHES

Prereq: BIOL 2101; BIOL 2401; 3 credits from BIOL 2701, GENS 2431, PSYC 2011; or permission of the Department

This course provides an overview of the general biology of fish-like chordates, with particular emphasis on the teleost fishes and on adaptations that have allowed fishes to become the most evolutionary successful group of vertebrates. Topics include: aspects of form and function, ecology and behaviour, and fisheries management. (Format: Lecture 3 Hours, Laboratory 3 Hours/Field Trip 3 Hours) (Exclusion: BIOL 3411)

BIOL4711 (3.00 CR)
ADVANCED DESIGN AND STATISTICAL ANALYSIS

Prereq: 3 credits from BIOL 2701, GENS 2431; or permission of the Department

This course investigates how to design studies with clear hypotheses, select appropriate statistical methods, and carry out the analyses, applying the techniques to real data sets. It reviews a variety of statistical techniques including advanced ANOVA and regression, techniques for categorical data, resampling methods, MANOVA, and other multivariate techniques. It also considers experimental design issues such as power analysis and pseudoreplication. [Note: Throughout the course, data analyses are conducted using R.] (Format: Lecture 3 Hours, Laboratory 3 Hours)

BIOL4903 (3.00 CR)
CURRENT ADVANCES IN BIOLOGY

A seminar course for Honours students in Biology which will critically evaluate a wide range of topics from the current literature in all branches of biological science. Students will be expected to deliver seminars on topics outside their thesis area and present preliminary thesis results. (Format: Lecture/Seminar 3 Hours)

BIOL4950 (6.00 CR)
INDEPENDENT STUDY IN BIOLOGY

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for BIOL 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

HONOURS THESIS

Coreq: BIOL 4903

The thesis requires a report on one or more laboratory, library or field investigations carried out by arrangement with and under the direction of an appropriate member of the staff. This course is open only to candidates for Honours in Biology in their senior year. A minimum grade of B is required in this course for successful completion of an honours degree. [Note 1: Consent of supervising staff member prior to registration and permission of the Program Advisor is required] (Format: Independent Study/Thesis)

BIOL4991 (3.00 CR)
SPECIAL TOPIC IN BIOLOGY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. GRADUATE LEVEL TOPIC IN BIOLOGY

Prereq: Registration in the M.Sc program and permission of the Department Head and course instructor (Format: Variable)

BIOPSYCHOLOGY

This program aims to equip students with expertise and foundational skills in the fields of both biology and psychology. A truly interdisciplinary program, Biopsychology will allow students to study the strong links between human and animal biology and neuropsychology, with a focus on how physiology affects behavior and, in turn, how behavior influences physiology. From a biological standpoint, students will develop a solid foundation of knowledge and skills in anatomy, physiology, behaviour, and genetics. From a psychological standpoint, students will explore the biological and neural basis of the mind and behavior, and contextualize these phenomena within a social and cognitive framework. Studied together, each discipline illuminates salient aspects of the other, and gives learners the opportunity to cultivate and integrate meaningful connections and cross-disciplinary skills.

Interdisciplinary B.Sc. Programs

MAJOR in Biopsychology is 75 credits earned as follows:

6 from PSYC 1001, 1011
6 from BIOL 1001, 1501
3 from BIOC 1001
3 from MATH 1111, 1151
3 from MATH 1121, 1251, 1311, 2211, 2221, COMP 1631
3 from CHEM 1001, PHYS 1041, PHYS 1051
9 from BIOL 2101, 2401, 2811
3 from PSYC 2001
3 from BIOL 2701, PSYC 2011
3 from PSYC 2101
3 from PSYC 2121, 2201, 2431, 2601, 2611
6 from BIOL 3211, 3221
6 from PSYC 3101, 3211, 3141
15 from the following, including at least 6 credits from BIOL and 6 credits from PSYC: BIOL 3401, 3201, 3621, 3631, 3651, 3661, 3751, 4101, 4211, 4221, 4311, 4621, 4711, PSYC 3001, 3111, 3141, 3151, 3201, 3221, 3311, 3331, 3511, 3421, 4101, 4201, 4411, 4601, 4611, 4801
3 from BIPS 4121

Note: Students are responsible for ensuring they have the necessary prerequisites for elective courses.

Note: Biopsychology majors cannot double major in Biology or Psychology or minor in Biology or Psychology

HONOURS in Biopsychology is 87 credits earned as follows:

75 as in the Major, plus:
9 from PSYC 4903, 4990 OR BIOL 4903, 4990
3 from PSYC 3001, BIOL 2701, BIOL 4711 OR from another 3/4000 level course in Psychology or Biology, chosen in consultation with the Honours supervisor

Note: Students are responsible for ensuring they have the necessary prerequisites for elective courses.

Note: Biopsychology Honours students cannot minor in Biology or Psychology.

BIOPSYCHOLOGY COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

BIPS4121 (3.00 CR)
ADVANCED TOPICS IN BIOPSYCHOLOGY NEUROSCIENCE

Prereq: Fourth- year standing in a Biopsychology Major or Honours Program

This capstone course in the Biopsychology program integrates knowledge obtained throughout the Biopsychology degree. With an emphasis on discussion of the primary literature, this course explores advanced topics in Biopsychology with a focus on the physiological, psychological, evolutionary, and genetic link between the brain and behavior. (Note 1: This course is only open to students in the Biopsychology Program) (Format: Seminar 3 Hours)

CANADIAN PUBLIC POLICY

See Politics and International Relations

CANADIAN STUDIES

Canadian Studies seeks to analyse and explain the Canadian experience in all of its dimensions. These include Canada's vast and varied geographical character, its regional distinctions, its history and politics, its cultures and economy, its urban, modern and multicultural realities. An important feature of Canadian Studies is the analysis of Canada's place in the world. Questions about Canada and the world are addressed across departments and disciplines at the university. The Canadian Studies Program approaches these questions by drawing together the analytical strengths and content of individual disciplines in the humanities, the social sciences, and the sciences. The multi-disciplinary and interdisciplinary approaches of Canadian Studies core courses are a distinguishing feature of Canadian Studies.

There are many reasons for taking Canadian Studies. The program's courses provide students with skills and knowledge that graduates find very valuable in their working lives - as teachers in the classroom; as government employees at various levels - municipal, provincial, national and international; as individuals working in the private sector or in business. The multi-disciplinary or interdisciplinary approaches of Canadian Studies core courses provide students the opportunity to develop unique and flexible analytical skills.

Mount Allison's Canadian Studies Program offers courses leading to a Minor, Major, or Honours as well as a range of courses that can be taken as electives or as distribution credits. Students looking for more information about Canadian Studies at Mount Allison may consult the program web page or the Program Advisor.

Interdisciplinary B.A. Programs

MINOR in Canadian Studies is 24 credits earned as follows:

- 6 from CANA 1001, 1011, 1991, INDG 1001
- 15 from CANA at the 2/3000 level, with at least 3 credits at the 3000 level
- 3 from CANA 4611

MAJOR in Canadian Studies is 60 credits earned as follows:

- 6 from CANA 1001, 1011, 1991, INDG 1001
- 6 from CANA at the 2000 level
- 6 from CANA at the 3000 level
- 3 from CANA 4611
- 3 from CANA 4000 level
- 6 from CANA at any level. Up to 3 credits of this requirement may be obtained from an EXPL* course
- 6 from FREN 1811, any French language course by placement, or any 3000 level course on the literature, culture, or history of French Canada, HIST 3411, 3431
- 6 from INDG or MKMW at any level
- 18 from complementary courses where a significant Canadian Studies component can be demonstrated, chosen in consultation with the Program Advisor. Special Topics courses with significant Canadian Studies content should be considered. The following courses are specifically recommended:

  ARTH 3021, 3031

CLAS 3801
COMM 3271
DRAM 3301
ECON 2301, 2311, 3201, 3211, 4501

SOCI 2111, 2211, 3521, 3531, 3551, 3711, 3721, 3771, 4551

Note: * indicates that the Department may approve the course for inclusion when the topic includes a significant Canadian Studies component. Approval from the program advisor is required.

HONOURS in Canadian Studies is 72 credits earned as follows:

60 credits as in the Major, plus
3 additional credits from 3/4000 level Canadian Studies
3 from CANA 4901
6 from CANA 4990

Courses chosen in consultation with the Program Advisor

CANADIAN STUDIES COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

CANA1001 (3.00 CR)
CONTEMPORARY CANADA: AN INTRODUCTION

This course provides an introduction to contemporary Canada as represented by its key social, political, and economic institutions. It examines the nature and character of Canadian institutions, communities, and values. (Format: Lecture/Tutorial 3 Hours) (Exclusion: CANA 2001)

CANA1011 (3.00 CR)
REPRESENTING CANADA: AN INTRODUCTION TO CANADIAN CULTURE

This course provides an introduction to Canadian culture and identity. It examines key Canadian symbols and myths and various forms of cultural expression, including film, the arts, literature, and music in relation to Canadian national identity. (Format: Lecture/Tutorial 3 Hours) (Exclusion: CANA 2011)

CANA1991 (3.00 CR)
SPECIAL TOPIC IN CANADIAN STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for CANA 1991 more than once, provided the subject matter differs.] (Format: Variable)

CANA2121 (3.00 CR)
CULTURAL DIVERSITY IN CANADA

This course explores plurality and diversity in Canada, from historical developments in demographic trends to multiculturalism and its policy frameworks. It examines current debates about Canadian identity and future developments in diversity in Canada. (Format: Lecture 3 Hours) (Exclusion: CANA 3121)

CANA2201 (3.00 CR)
EXPERIENCE THE ARTS

This course introduces students to critical assessment of culture and arts. Students attend, discuss, and write about Canada-focused (national and local) cultural events such as public lectures, visits to local historic sites, concerts, exhibitions, and plays. (Format: Seminar /Experiential Learning 3 Hours) (Exclusion: UNST 1991 Experience the Arts)

CANA2211 (3.00 CR)
MEDIA AND POPULAR CULTURE IN CANADA

This course explores the key institutions and issues relating to media and popular culture in Canada. Topics include: film, television, state institutions like the CBC, state regulation of media, and the connections among media, consumerism, and public life. (Format: Lecture 3 Hours)

CANA2311 (3.00 CR)
CANADIAN FOODWAYS: GENDER, FOOD, AND CULTURE IN CANADA

This course explores the interconnections among gender, food, and culture. Topics include: the complex relationships between food production and consumption; food, culture, and national identity; embodiment; food colonialism, food security, and food sovereignty. (Format: Lecture 3 Hours)

CANA2431 (3.00 CR)
COMPARATIVE CANADIAN REGIONALISM

This course explores regionalism as a key dynamic of Canadian political-economic, geographic, and cultural life. The course pays particular attention to regional diversity in Canada and to the changing character of Canadian regionalism. (Format: Lecture 3 Hours)(Exclusion: CANA 3431)

CANA2501 (3.00 CR)
CONTEMPORARY ISSUES IN INDIGENOUS CANADA

Prereq: 3 credits from CANA 1001, 1011, INDG 1001; or permission of the Program Director

This course will explore contemporary issues facing Indigenous peoples within Canada with a focus on the current and continuing processes of colonialism, resistance, resurgence, and survivance. [Note 1: This course is cross-listed with INDG 2501 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

CANA2801 (3.00 CR)
INDIGENOUS CANADA: A HISTORICAL SURVEY

Prereq: 3 credits from CANA 1001, 1011, INDG 1001; or the permission of the Program Director

This course explores the history of Indigenous peoples in Canada with a focus on the processes of colonialism, resistance, resurgence, and survivance. [Note 1: This course is cross-listed with HIST 2801 and INDG 2801 and may therefore count as three credits in any of the three disciplines.] (Format: Lecture 3 Hours)

CANA2991 (3.00 CR)
SPECIAL TOPIC IN CANADIAN STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. CANA3111 (3.00 CR)
MI'KMA'KI

Prereq: 6 credits from CANA 1001, 1011, INDG 1001; or 6 credits from CANA/INDG 2501, CANA/HIST/INDG 2801; or permission of the Program Director

This course explores Mi'kma'ki from an interdisciplinary perspective. Topics include: Indigenous history, geographies, politics, language, stories, and culture in the Atlantic region, Mi'kmaw philosophy and ethics, as well as the politics of self-government among various Mi'kmaw, Abenaki, and Wolastoqiyik communities. [Note 1: This course is cross-listed with INDG 3111 and may therefore count as three credits in either discipline. Note 2: Students who have taken a previous version of CANA 3111 require Program Director permission to register in CANA 3111 Mi'kma'ki.] (Format: Lecture 3 Hours)

CANA3201 (3.00 CR)
CULTURE OF THE MARITIMES

Prereq: Second-year standing; or permission of the Program Director

This course explores the history and key elements of Maritime culture. Its focus is on the diversity of Maritime cultural expression. (Format: Seminar 3 Hours) (Exclusion CANA 4201 Culture of the Maritimes)

CANA3231 (3.00 CR)
RECALLING CANADA: REDRESS AND CULTURAL MEMORY

Prereq: Second-year standing; or permission of the Program Director

This course examines current case studies that demonstrate how the past is present in contemporary Canada. Topics may include: government apologies and redress, public commemoration, and the invention of national and regional histories. (Format: Seminar 3 Hours)

CANA3301 (3.00 CR)
GENDER & SEXUALITY IN CANADA

Prereq: 6 credits from CANA 1001, 1011, FGST or WGST 1001, FGST or WGST 2101; or permission of the Program Director

This course provides an interdisciplinary perspective on gender and sexuality in Canada. It explores how gender and sexuality are taken up in contemporary scholarship on Canadian politics, law, and society. Topics include the role of identity, representation, multiculturalism, and social movements in Canada, within an approach that centres movements to queer and decolonize Canada. (Format: Lecture 3 Hours) [Note 1: This course is cross-listed with FGST 3301 and may therefore count as three credits in either discipline] (Exclusion: Any version of CANA 3301 previously offered with a different title)

CANA3401 (3.00 CR)
CONTEMPORARY CANADIAN ISSUES

Prereq: Second-year standing; or permission of the Program Director

This course explores contemporary Canadian issues in light of the evolution and development of Canadian institutions, belief systems and social relations. (Format: Lecture 3 Hours)

CANA3421 (3.00 CR)
CANADIAN-AMERICAN RELATIONS

Prereq: Second-year standing; or permission of the Program Director

This course explores the political, economic, cultural, and social interaction between Canada and the United States. It pays special attention to the demise of the Canada-US 'special relationship', the current status of this relationship, and a comparative perspective of the values animating Canada and the United States as political communities. (Format: Lecture 3 Hours) (Exclusion: CANA 2421)

CANA3451 (3.00 CR)
THE CANADIAN LAND

Prereq: Second-year standing; or permission of the Program Director

This course explores land as a central icon of Canada. It looks at how the land has been represented, its role in the economy, distinctions between Indigenous and Settler conceptions of the land, nordicity, conceptions of environment, distinctions between the urban and rural, and contemporary political issues. (Format: Lecture 3 Hours)

CANA3501 (3.00 CR)
ABORIGINAL POLITICAL AND LEGAL ISSUES

Prereq: 6 credits from CANA 1001, 1011, INDG 1001; or 6 credits from CANA/INDG 2501, CANA/HIST/INDG 2801; or permission of the Program Director

This course explores political and legal issues that are integral to the examination and understanding of Aboriginal rights and relationships with the Settler State. Topics include: the politics of genocide and colonization and de-colonization, self-determination, gender, identity, land claims, court decisions, and international law and borders. [Note 1: This course is cross-listed with INDG 3501 and may therefore count as three credits in either discipline.] (Format: Seminar 3 Hours) (Exclusion: CANA 4111)

CANA3821 (3.00 CR)
THE INDIAN ACT: LAW, POLICY, AND FIRST NATIONS

Prereq: INDG 1001 and 3 credits from INDG at the 2000 level; or 6 credits from CANA 1001, 1011, and 3 credits from CANA at the 2000 level; or 6 credits from HIST at the 2000 level; CANA/HIST/INDG 2801 recommended; or permission of the Program Director

This course will focus on the origins, evolution, and contemporaneity of Canada's Indian Act and policies. Emphasis will be placed on First Nations resistance and survivance and efforts to overturn these colonial acts and policies through time. [Note 1: This course is cross-listed with HIST 3821 and INDG 3821 and may therefore count as three credits in any of the three disciplines.] (Format: Lecture 3 hours)

CANA3831 (3.00 CR)
INDIGENOUS CANADA: HIST PERSPECTIVE

Prereq: INDG 1001 and 3 credits from INDG at the 2000 level; or 6 credits from CANA 1001, 1011, and 3 credits from CANA at the 2000 level; or 6 credits from HIST at the 2000 level; CANA/HIST/INDG 2801 recommended; or permission of the Program Director

This course will focus on the history of Indigenous people in Canada with a focus on the debates within Indigenous history surrounding events, peoples, memory, de/colonialism, resurgence, survivance, and re-storying. [Note 1: This course is cross-listed with HIST 3831 and INDG 3831 and may therefore count as three credits in any of the three disciplines.] (Format: Lecture 3 hours)

CANA3841 (3.00 CR)
BORDERLANDS

Prereq: 6 credits from CANA, HIST, INDG at the 1/2000 level; or permission of the Program Director

This course explores Indigenous and Settler interactions, resistance, resurgence, and survivance along and amidst frontiers, borders, and borderlands. [Note 1: This course is cross-listed with HIST 3841 and INDG 3841 and may therefore count as three credits in any of the three disciplines.] (Format: Seminar 3 hours)

CANA3871 (3.00 CR)
ALTERNATIVES TO CANADA I: HISTORIES OF SOCIAL ACTIVISM IN CANADA

Prereq: Second-year standing; or permission of the Program Director

This course explores the history of social activism in Canada, its effects on the evolution of Canada, and how the ways in which activists tried to reconceptualize the future to realize a better country. [Note 1: This course is cross listed with HIST 3871 and may therefore count as three credits in either discipline]. (Format: Seminar)

CANA3881 (3.00 CR)
ALTERNATIVES TO CANADA II: CONTEMPORARY SOCIAL ACTIVISM

Prereq: Second-year standing; or permission of the Program Director

This course explores issues in contemporary activism in Canada. Topics that may be addressed include: Occupy, Buy-Nothing Day, Idle No More, land and water defenders and environmentalism, Queer activism, Black Lives Matter, and crisis theory. This course explores the dynamics of activism as a response to the specific character of contemporary Canada to explore the potential for fundamental changes in Canadian social relations. (Format: Seminar)

CANA3991 (3.00 CR)
SPECIAL TOPIC IN CANADIAN STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for CANA 3991 more than once, provided the subject matter differs.] (Format: Variable)

CANA4101 (3.00 CR)
INDIGENOUS HISTORY: ADVANCED TOPICS

Prereq: INDG 1001 and 3 credits from INDG at the 2/3000 level; or 6 credits from CANA 1001, 1011, and 6 credits from CANA at the 2/3000 level; or third-year standing and 6 credits from HIST at the 3000 level; CANA/INDG 2501 and CANA/HIST/INDG 2801 recommended; or permission of the program director

This course will focus on specific topics in transcolonial-border Indigenous history. Theoretical concepts such as re-storying and survivance are used to explore topics that may include treaties, borders, state policy, violence, resistance, missionization, disease, death, well-being, and performance. [Note 1: This course is cross-listed with INDG 4101 and may therefore count as three credits in either discipline. Note 2: Students may register for CANA 4101 more than once, provided the subject matter differs.] (Format: Lecture 3 hours) (Exclusion: Any version of CANA 4101 previously offered with a different title)

CANA4121 (3.00 CR)
SUSTAINING INDIGENOUS LANGUAGES

Prereq: Third-year standing; or permission of the Program Director

This course explores both the 'critical loss' of Indigenous languages throughout Canada due to colonization and assimilation, along with current efforts by communities at revitalizing, promoting and sustaining Indigenous languages.?In addition to examining national and international topics related to language rights and advocacy, the course critically discusses the influence of Indigenous languages on health and wellbeing, culture and identity, relationships to land, as well as contemporary music and art. [Note 1: This course is cross-listed with INDG 4121 and may therefore count as three credits in either discipline.] (Format: Seminar)

CANA4211 (3.00 CR)
TEACHING DIFFICULT KNOWLEDGE

Prereq: Third-year standing; or permission of the Program Director

This course explores, through a project-based curriculum, how school systems, classrooms, learners, and educational policy engage with, teach, and learn 'difficult knowledge' (i.e. knowledge that could prove disturbing or unsettling). [Note: This course is cross listed with CENL 4211 and may therefore count as three credits in either discipline] (Format: Seminar)

CANA4301 (3.00 CR)
GENDER AND SETTLER COLONIALISM

Prereq: 3 credits from WGST 3111, FGST 3111; or CANA 3301 and 3 credits from CANA at the 3000 level; or permission of the Program Director

This course focuses on the gendered, racialized, and sexualized dimensions of settler colonialism and Indigenous resurgence. It begins with the recognition that all of our learning takes place on the lands of the Mi'kmaw and Wolastoqiyik peoples, and with the acknowledgement that we all have different and specific relationships to this land and these nations. Attending to these relationships and the responsibilities they entail, the central questions this course examines include: How do Indigenous thinkers conceptualize identity, land, and belonging? How do they think and talk about gender, sexuality, and difference? [Note 1: This course is cross-listed with FGST 4301 and may therefore count as 3 credits in either discipline.](Format: Seminar 3 Hours) (Exclusions: WGST 4001 18/WI and 19/WI; WGST 4301)

CANA4401 (3.00 CR)
CANADA IN WORLD AFFAIRS

Prereq: Third-year standing; or permission of the Program Director

This course examines Canada's place in world affairs both historically and in the post-global age. It looks at the evolution of Canadian foreign policy, Canadian conceptions of an internationalized self-identity, and key case studies focusing on the situations that challenge Canadian self-conceptions, such as the peacekeeping myth. (Format: Seminar 3 Hours)

CANA4611 (3.00 CR)
IMAGINING CANADA

Prereq: Third-year standing; or permission of the Program Director

This course provides an in-depth, advanced examination of the ways that various public intellectuals and cultural producers have imagined or narrated Canada. (Format: Seminar 3 Hours) (Exclusion: Any other version of CANA 4611 previously offered with a different title)

CANA4901 (3.00 CR)
DIRECTED READINGS IN CANADIAN STUDIES

Coreq: CANA 4990; or permission of the Program Director

This course is required of honours students. It promotes bibliographic and information literacy skills and familiarizes students with the larger-scale organization of secondary literature in Canadian Studies. (Format: Seminar 3 Hours)

CANA4950 (6.00 CR)
INDEPENDENT STUDY IN CANADIAN STUDIES

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for CANA 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

CANA4951 (3.00 CR)
INDEPENDENT STUDY IN CANADIAN STUDIES

CANA4990 (6.00 CR)
HONOURS THESIS

Coreq: CANA 4901

Supervised by the Advisor and with one or more members of the faculty associated with the Program. The subject must be approved by the Advisor. The candidate will receive instruction in the techniques of research methods and thesis writing. [Note 1: Permission of the Program Advisor] (Format: Thesis)

CANA4991 (3.00 CR)
SPECIAL TOPIC IN CANADIAN STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. CHEMISTRY

Chemistry is the branch of physical science involving the study of the composition of substances, the ways in which their properties are related to their composition, and the interaction of substances to produce new materials. This subject occupies a central place among the sciences, it draws on the facts and theories of physics, and on mathematics for the tools necessary to evaluate and express quantitative chemical information. Chemistry in turn, provides terminology, facts, principles and methods that are essential to many aspects of other sciences. The applications of chemistry in fields such as agriculture, medicine, pharmacology, pharmacy, engineering and oceanography are numerous.

Mount Allison's undergraduate chemistry program is fully accredited by the Canadian Society for Chemistry (CSC). The program is designed to provide students with an education in the main branches of the subject, namely, analytical, inorganic, organic, physical and computational chemistry. The broad objectives of the Department are summarized in the following definition of education:

> Education is learning to appraise data critically, to try to think up an intellectual framework, to be able to test it, to be able to marshal facts, to be able to write about them, to be able to communicate with people who may - and almost certainly will - have less knowledge of those facts than you have, because they will be asking you questions about them with a view to taking some action. (F. Dainton)

Students interested in pursuing a Major or Minor in Chemistry or Chemistry Honours, should consult the Departmental Website and a faculty member of the Department before completion of registration.

Disciplinary B.Sc. Programs

MINOR in Chemistry is 24 credits earned as follows:

6 from CHEM 1001, 1021
3 from MATH 1111 or 1151
9 from Chemistry at the 2000 level*
6 from Chemistry at the 3/4000 levels

Note: *Where insufficient Chemistry courses are available at the 2000 level to fulfill this requirement, Chemistry courses at the 3/4000 levels may be substituted.

MAJOR in Chemistry is 63 credits earned as follows:

6 from CHEM 1001, 1021
3 from MATH 1111 or 1151
3 from MATH 1121
3 from MATH 2111, 2121, 2221 or CHEM 3201*
6 from BIOC 1001, 2001
6 from PHYS 1051, 1551**
12 from CHEM 2111, 2211, 2311, 2411
12 from CHEM 3111, 3231, 3321, 3421
3 from CHEM 3121, 3161, 3271, 3751, 4511, 4951, 4953, BIOC 3001, 3031, 3521
9 from Chemistry at the 3/4000 level, excluding CHEM 3161, 4951, 4953

Note: *CHEM 3201 can be used as either a required course from MATH or as a 3000 level CHEM course, but not both.

Note: **It is recommended that Chemistry Majors take Physics 1551 in their first or second year.

Note: Additional 3/4000 level courses are needed to fulfill Calendar regulation 11.3.5

THE CHEMISTRY HONOURS PROGRAM

Students with a special interest in Chemistry and those who, after obtaining the B.Sc. degree, wish to continue their studies at the post-graduate level, should consider following the Chemistry Honours program. The courses required for the B.Sc. Chemistry Honours degree are all listed below. The required chemistry credits are ones that provide for study of the main branches of Chemistry in some depth. The required nine credits from Mathematics and the six credits from Physics give minimum background essential for work in Chemistry. Honours students are given a special opportunity to participate in chemical research with faculty members in the Thesis (CHEM 4990) course. This research is normally carried out in the summer months following the third year.

HONOURS in Chemistry is 81 credits earned as follows:

51 credits as in first eight lines of Major, plus
21 from Chemistry at the 3/4000 level, chosen in consultation with the Program Advisor
3 from CHEM 4903
6 from CHEM 4990

CHEMISTRY LABORATORY WORK

Most Chemistry courses in the first three years have laboratory classes of about three hours duration each week as indicated in the course description.

GRADUATE STUDIES IN CHEMISTRY

The Department of Chemistry & Biochemistry offers a program of research courses leading to the Master of Science degree. The research interests in the Department are varied and further information can be obtained from the Department Head or from individual faculty members. The requirements for the M.Sc. degree are given in Section 11.4. Individual programs are arranged, depending on the student's background and interests.

CHEMISTRY COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

Note: The following courses are subject to an instructional supply fee - CHEM 1001, 1021, 2111, 2121, 2211, 2311, 2411, 3111, 3231, 3321, 3331, 3421.

CHEM1001 (3.00 CR)
INTRODUCTORY CHEMISTRY I

This course presents chemical concepts that are required for a fundamental understanding of the physical and life sciences. It explores the qualitative aspects of matter with such topics as: atomic structure, the periodic table and periodic trends; Lewis, valence bond and molecular orbital bonding models; bond polarity and intermolecular interactions; nomenclature of organic compounds, functional groups, and common organic reactions; and characterization of chemical compounds using spectroscopic methods. It briefly reviews nomenclature of inorganic compounds, dimensional analysis, chemical equations, stoichiometry, empirical and molecular formula, percent mass, and other foundational concepts. (Format: Lecture 3 Hours, Laboratory 3 Hours, regular tutorials)

CHEM1021 (3.00 CR)
INTRODUCTORY CHEMISTRY II

Prereq: CHEM 1001; or permission of the Department

This course builds on CHEM 1001 and presents chemical concepts that are required for a fundamental understanding of the physical and life sciences. It explores the quantitative aspects of matter and topics such as: gases, the laws of thermodynamics; Gibbs energy; chemical reaction rates and mechanism; chemical equilibria; qualitative and quantitative descriptions of acid-base chemistry, redox reactions, and electrochemistry. (Format: Lecture 3 Hours, Laboratory 3 Hours, regular tutorials)

CHEM1991 (3.00 CR)
SPECIAL TOPIC IN CHEMISTRY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for CHEM 1991 more than once, provided the subject matter differs.] (Format: Variable)

CHEM2111 (3.00 CR)
ORGANIC CHEMISTRY I

Prereq: CHEM 1021; or permission of the Department

This course provides an in-depth look at the structures, reactivity, and synthesis of important functional groups in organic chemistry, starting with the reactions of alkenes. It emphasizes resonance, reaction mechanisms (arrow pushing), conformational analysis, stereochemistry, and organic synthesis, and introduces IR and proton NMR spectroscopy and mass spectrometry. (Format: Lecture 3 Hours, Laboratory 3 Hours)

CHEM2211 (3.00 CR)
PHYSICAL CHEMISTRY I: THERMODYNAMICS AND KINETICS

Prereq: CHEM 1021; MATH 1121; PHYS 1051 recommended; or permission of the Department

This course introduces the fundamental principles of thermodynamics, including the laws of thermodynamics and their applications to ideal systems, mixtures, and chemical equilibria. It also examines the physical and chemical applications of kinetics, including those related to reaction mechanisms and dynamics. (Format: Lecture 3 Hours, Laboratory 3 Hours)

CHEM2311 (3.00 CR)
INORGANIC CHEMISTRY I: CO-ORDINATION CHEMISTRY

Prereq: CHEM 1021; or permission of the Department

This course covers fundamental concepts of bonding and structure, with a particular focus on transition-metal coordination compounds. It examines several bonding theories and their advantages/disadvantages , and discusses topics including magnetism, colour, and symmetry. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: CHEM 3311)

CHEM2411 (3.00 CR)
ANALYTICAL CHEMISTRY I

Prereq: CHEM 1021; 3 credits from MATH 1111, 1151 recommended; or permission of the Department.

This course covers the following topics with an emphasis on problem solving: the treatment of errors and statistics of measurements; aqueous solutions, complex equilibria (including acid/base and buffer systems); electrochemistry theory; redox, electrode potentials (ion selective electrodes), and electrogravimetry. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: CHEM 3411)

CHEM2991 (3.00 CR)
SPECIAL TOPIC IN CHEMISTRY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for CHEM 2991 more than once, provided the subject matter differs.] (Format: Variable)

CHEM3111 (3.00 CR)
ORGANIC CHEMISTRY II

Prereq: CHEM 2111; or permission of the Department

This course further develops the concepts taught in CHEM 2111. New topics include 13C NMR, aromatic chemistry, reactions of amines, chemistry of the carbonyl group, carboxylic acid derivatives, dienes/polyenes, and UV spectroscopy. It emphasizes mechanisms, synthesis, and the biological equivalents of certain organic reactions such as NaBH4/NADH and phosphate esters. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: CHEM 2121 Organic Chemistry II)

CHEM3121 (3.00 CR)
INTERMEDIATE ORGANIC CHEMISTRY

Prereq: 3 credits from CHEM 2121, 3111; or permission of the department

This course introduces common spectroscopic techniques in the context of structure elucidation. It introduces Frontier Molecular Orbital Theory, and the application of synthetic reactions to total synthesis. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: CHEM 3111 Intermediate Organic Chemistry)

CHEM3131 (3.00 CR)
ORGANIC CHEMISTRY: BIOORGANIC

Prereq: 3 credits from CHEM 2121, 3111; or permission of the Department

This course presents the principles of organic chemistry as they apply to biochemical problems. Topics covered include enzymic reaction mechanisms, enzyme cofactors, peptide and nucleic acid synthesis, and enzymes in organic synthesis. [Note 1: This course is cross-listed with BIOC 3131 and may therefore count as three credits in either discipline. Chemistry students should register for CHEM 3131.] (Format: Lecture 3 Hours)

CHEM3161 (3.00 CR)
EXPERIENTIAL SYNTHETIC CHEMISTRY

Prereq: 3 credits from CHEM 2121, 3111; CHEM 2311; CHEM 3321; or permission of the Department

This course examines the planning and conducting of multi-step reaction sequences involving a range of synthetic organic and inorganic reactions and techniques, including those required for the manipulation of air-sensitive materials. It emphasizes purification of synthesized compounds and their characterization by a variety of spectroscopic and physical methods. (Format: Integrated Lecture and Laboratory, 6 Hours)

CHEM3201 (3.00 CR)
METHODS OF MATHEMATICAL CHEM

Prereq: CHEM 2211; or permission of the Department

This course introduces mathematical methods that are frequently used in both theoretical and experimental treatments in chemistry and focuses on applications to chemical problems. Topics include probability theory and distributions, multi-variable calculus, complex variables, vectors, differential equations, operators, matrix algebra, vector spaces and eigenvalue problems. (Format: Lecture 3 Hours)

CHEM3231 (3.00 CR)
PHYSICAL CHEMISTRY II: QUANTUM MECHANICS AND SPECTROSCOPY

Prereq: 3 credits from CHEM 2211, PHYS 3701; 3 credits from MATH 2111, 2121, 2221, CHEM 3201 strongly recommended; or permission of the Department

This course is an introduction to the foundations of quantum mechanics (QM) within the framework of spectroscopy and chemical systems. Starting from the early experimental observations that led to the development of QM, this course will explore its founding postulates and mathematical formalism. Exactly solvable model systems of spectroscopic relevance such as particle in a box, harmonic oscillator, rigid rotor, and the hydrogen atom will be discussed. Molecular orbital theory will also be examined in the context of polyatomic systems and how spectroscopic techniques (e.g., absorption, emission, infrared, and Raman) are utilized to probe complex molecular systems. [Note 1: This course is cross listed with PHYS 3231 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: any version of CHEM 3231 previously offered with a different title)

CHEM3261 (3.00 CR)
PHYSICAL CHEMISTRY: SURFACE AND INTERFACIAL

Prereq: CHEM 2211; or permission of the Department

This course investigates a broad range of fundamental topics in surface and interface science including: self-assembly, surface chemistry and monolayers, colloidal systems, liquid crystals, and modern experimental techniques. [Note 1: This course is cross-listed as BIOC 3261 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: CHEM 3991 Surface and Interfacial Chemistry)

CHEM3271 (3.00 CR)
NANOSCIENCE AND NANOTECHNOLOGY

Prereq: PHYS 1051; 3 credits from CHEM 2211, CHEM 2411; or permission of the Department

This course examines the changes in physical and chemical properties that arise when systems are confined to nanoscale dimensions and discusses applications in electronics, photonics, and biotechnology. Topics may include: quantum confinement, scanning probe techniques, localized surface plasmon resonance, self-assembled monolayers, nanoparticle synthesis, and biological applications. (Format: Lecture 3 Hours) (Exclusion: CHEM 3991-Nanoscience and Nanotechnology -14/WI, 16/WI)

CHEM3321 (3.00 CR)
INORGANIC CHEMISTRY II: MAIN GROUP ELEMENTS

Prereq: CHEM 1021; CHEM 2111; CHEM 2311; or permission of the department

This course examines structure and bonding in main group compounds and discusses ionic and covalent bonding with respect to Lewis, valence shell electron pair repulsion, valence bond and molecular orbital theories as well as periodic trends and a survey of the properties and reactions of the elements of groups 1, 2 and 13 - 18. It presents an overview of state of the art spectroscopic techniques and their applications. (Format: Lecture 3 Hours, Laboratory 3 Hours)

CHEM3421 (3.00 CR)
ANALYTICAL CHEMISTRY II: INSTRUMENTAL METHODS OF ANALYSIS

Prereq: PHYS 1551; 3 credits from CHEM 2411, 3411; or permission of the Department

This course introduces the theoretical basis, scope and limitations of various instrumental methods of analysis, in the areas of Spectroscopy and Chromatography. Methods include GC/MS and HPLC for organic compounds, Atomic Absorption Spectroscopy (AAS) for metals and UV/VIS for both organic and inorganic compounds. (Format: Lecture 3 Hours, Laboratory 3 Hours)

CHEM3521 (3.00 CR)
ENVIRONMENTAL CHEMISTRY

Prereq: CHEM 2111; CHEM 2411; or permission of the department

This course investigates chemical aspects of the environment and draws upon physical, inorganic,organic and analytical chemistry. It explores the natural chemical compositions of and the anthropogenic effects on air, water and soil. Topics include ozone chemistry, smog, acid rain, global climate, DOM, metals, colloids, pE/pH, soil chemistry and wastes. (Format: Lecture 3 Hours) (Exclusion: CHEM 4521 Environmental Chemistry)

CHEM3601 (3.00 CR)
RESEARCH AND COMMUNICATION IN CHEMISTRY AND BIOCHEMISTRY

Prereq: Third-year standing; 6 credits from CHEM 2111, 2311, 2211, 2411, BIOC 2001; or permission of the Department

This course examines the scholarly communication and research ecosystem in detail, with a particular emphasis on academic publishing. The course focuses on the literature, the academic publishing industry, research funding, open access, copyright basics and artificial intelligence in research. [Note 1: This course is cross listed with BIOC 3601 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: BIOC/CHEM 3991 Research & Communication)

CHEM3751 (3.00 CR)
ENERGY AND THE ENVIRONMENT

Prereq: PHYS 1551; CHEM 1021; or permission of the Department

This course examines different aspects of energy harvesting, storage, and transmission with particular emphasis on the environmental impacts, sustainability, and development of renewable energy resources. It also introduces modern technologies based on the development of novel materials. Specific technologies and topics may include: wind power, photovoltaic generation, solar energy, nuclear fission, and fusion, hydroelectric, combustion based fuel generation, tidal energy and fuel cells. [Note 1: This course is cross-listed with PHYS 3751 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: Any version of PHYS 3751 previously offered with a different title)

CHEM3991 (3.00 CR)
SPECIAL TOPIC IN CHEMISTRY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for CHEM 3991 more than once, provided the subject matter differs.] (Format: Variable)

CHEM4131 (3.00 CR)
ADVANCED ORGANIC CHEMISTRY

Prereq: CHEM 3111; or permission of the Department

This course investigates the synthesis of complex organic molecules. Topics include: conformational analysis, stereoselectivity, transition metal mediated reactions, radical reactions, mechanisms, and synthetic strategy. (Format: Lecture 3 Hours) (Exclusion: CHEM 4101; any version of CHEM 4131 previously offered with a different title)

CHEM4141 (3.00 CR)
PHYSICAL ORGANIC CHEMISTRY

Prereq: CHEM 3111; CHEM 3231; or permission of the Department

This course examines the principles of bonding, structure, and mechanisms in organic chemistry. Topics include: models of bonding, acid/base catalysis, linear free-energy relationships, dynamic NMR, concerted reactions and orbital symmetry, transition-state theory and intramolecular dynamics, thermodynamics, and molecular motors. (Format: Lecture 3 Hours) (Exclusion: CHEM 4111; any version of CHEM 4141 previously offered with a different title)

CHEM4241 (3.00 CR)
PHYSICAL CHEMISTRY: COMPUTATIONAL

Prereq: 3 credits from CHEM 3231, PHYS 3821; or permission of the Department

This course focuses on a basic knowledge of the methods currently used in computational chemistry. It addresses approximations involved in the application of quantum mechanics to chemical systems, and how these approximations can be systematically improved, and considers practical aspects of computational chemistry programs. (Format: Lecture 3 Hours, Laboratory 1.5 Hours)

CHEM4331 (3.00 CR)
INORGANIC CHEMISTRY: ORGANOMETALLICS

Prereq: 3 credits from CHEM 2121, 3111; CHEM 3321; or permission of the Department

This course covers the fundamental concepts of transition metal organometallic chemistry, with a particular focus on synthesis, structure, and reactivity, especially as it relates to real-world applications in catalysis. (Format: Lecture 3 Hours) (Exclusion: CHEM 3331)

CHEM4341 (3.00 CR)
INORGANIC CHEMISTRY: PHYSICAL ASPECTS

Prereq: CHEM 2311; CHEM 3321; or permission of the Department

This course investigates applications of group theory in inorganic chemistry for molecular bonding, reaction mechanisms, and IR and Raman spectroscopic transformations for small molecules and ions. It explores the interpretation of multinuclear NMR, EPR, IR and Raman spectra and discusses the fundamental aspects of X-ray crystallography. (Format: Lecture 3 Hours) (Exclusion: CHEM 4311)

CHEM4351 (3.00 CR)
INORGANIC CHEMISTRY: BIOINORGANIC

Prereq: CHEM 2311; CHEM 3321; or permission of the Department

This course examines the roles metals play in biochemical systems, and includes an overview of bioinorganic chemistry and a discussion of metals in medicine. [Note 1: This course is cross-listed with BIOC 4351 and may therefore count as three credits in either discipline. Honours Chemistry students should register for CHEM 4351.] (Format: Lecture 3 Hours)

CHEM4361 (3.00 CR)
INORGANIC CHEMISTRY: STRUCTURE AND BONDING IN MAIN GROUP CHEMISTRY

Prereq: CHEM 2311; CHEM 3321; or permission of the Department

This course explores modern approaches to describing bonding in main group compounds with novel and unusual structures. Classes of compounds discussed include electron-deficient clusters, inorganic rings and polymers, and low coordinate main group centres. It also considers synthetic approaches, spectroscopic analysis, and industrial applications of these materials (Format: Lecture 3 Hours) (Exclusion: CHEM 3361)

CHEM4511 (3.00 CR)
ANALYTICAL ENVIRONMENTAL CHEMISTRY

Prereq: CHEM 2411; CHEM 3521; CHEM 3421 recommended; or permission of the Department

This experiential course examines concepts and techniques of sample collection, preparation, detecting, and measuring chemical species and their transformations in environmental media. Laboratory experiments expose students to hypothesis development, experimental design, as well as data analysis, interpretation, and presentation of their results. Students may be involved in field measurements. [Note 1: This course may be required for students completing a Major or Honours in Chemistry. It is open to students from other programs on a space available basis, provided that the student has met the prerequisite requirement.] (Format: Integrated Lecture and Laboratory, 6 Hours) (Exclusion: CHEM 4991 Analytical Environmental Chemistry)

CHEM4831 (3.00 CR)
ADVANCED QUANTUM MECHANICS

Prereq: CHEM 3231; or 6 credits from PHYS 3821, MATH 2221; or permission of the Department

This course extends the study of principles of quantum mechanics, comparing properties of continuous and discrete representations. It also develops time-independent perturbation theory for first order, second order, and degenerate cases and treats small perturbations through direct diagonalization of large matrices. This course examines variational principle, central force problems, elements of scattering theory, and the addition of quantized angular momenta. The course concludes with applications of quantum mechanics in molecules, aspects of relativistic quantum mechanics, time dependence in quantum and quantum statistics. [Note 1: This course is cross-listed with PHYS 4831 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours)

CHEM4903 (3.00 CR)
CURRENT ADVANCES IN CHEMISTRY

This is a course for Honours students in Chemistry which critically evaluates a wide range of topics from the current literature in all branches of Chemistry. Students are expected to deliver seminars on topics outside of their thesis area and to present preliminary thesis results. (Format: Seminar 3 Hours)

CHEM4950 (6.00 CR)
INDEPENDENT STUDY IN CHEMISTRY

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for CHEM 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

CHEM4951 (3.00 CR)
INDEPENDENT STUDY IN CHEMISTRY

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for CHEM 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

CHEM4990 (6.00 CR)
HONOURS THESIS

Coreq: CHEM 4903

This will involve an extensive experimental or theoretical study culminating in the writing of a thesis. The research will be conducted under the supervision of a faculty member and will usually be carried out during the summer and the following year. [Note 1: Permission of the Department is required.] (Format: Independent Study/Thesis)

CHEM4991 (3.00 CR)
SPECIAL TOPIC IN CHEMISTRY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for CHEM 4991 more than once, provided the subject matter differs.] (Format: Variable)

CHEM5991 (3.00 CR)
GRADUATE LEVEL TOPIC IN CHEMISTRY

Prereq: Registration in the M.Sc program and permission of the Department Head and course instructor (Format: Variable)

CHEM5993 (3.00 CR)
GRADUATE LEVEL TOPIC IN CHEMISTRY

Prereq: Registration in the M.Sc program and permission of the Department Head and course instructor (Format: Variable)

CLASSICS

Classical Studies is concerned primarily with the cultures of Greece and Rome and their contributions to Western civilization. It is unique among modern academic disciplines in the breadth of its approach to its subject. Classics is a field in which the specialist must be simultaneously linguist, literary critic, anthropologist, sociologist, and historian, not only of politics, but also of religion and art.

The cultures of Greece and Rome are fascinating and important in themselves, but seen in the context of their legacy the very special value that we attach to them comes to light. For many elements of our own culture - its language and literature, its social and political patterns, and its ideals - are deeply rooted in the experience and achievement of Greece and Rome.

The Department of Classics at Mount Allison offers the opportunity to study these ancient cultures through courses in history, mythology, art, archaeology, language, and literature. The history and literature of Greece and Rome can be approached either in the original languages or through courses using English translation. The study of ancient literature in translation makes it possible to gain an acquaintance with the thought and literary art of antiquity without studying Greek and Latin. But those deeply interested in the subject should bear in mind the importance of the languages themselves; the direct experience of the ancients through study of Greek and Latin, in order to be fruitful, should begin as early as possible in the university career.

The Humanities 1600 series is intended to provide an introduction to Humanities disciplines. These three-credit courses offered by the participating disciplines of Classics, History, Philosophy and Religious Studies are designed to acquaint beginning students with the methodologies typical of these disciplines and to familiarize them with the approaches taken, as well as the sorts of themes pursued and questions raised in those disciplines.

Disciplinary B.A. Programs

MINOR in Classical Studies is 24 credits earned as follows:

18 from Classics, Latin, or Greek; or PHIL 1601
6 from Classics, Latin, or Greek at the 3/4000 level
Students may choose a minor program with an emphasis on Ancient History, Classical Literature or Art and Archaeology

MINOR in Greek is 24 credits earned as follows:

18 from GREK 1001, 1101, 2001, 2101, and Greek at the 3000 level
6 from Greek, Latin, or Classics

MINOR in Latin is 24 credits earned as follows:

18 from LATI 1001, 1101, 2001, 2101, and Latin at the 3000 level
6 from Greek, Latin, or Classics

MAJOR in Classical Studies is 60 credits earned as follows:

6 from either LATI 1001, 1101, GREK 1001, 1101; or 6 from from the Humanities 1600 series.
36 from Classics, Greek, Latin, of which 24 must be from the 3/4000 level, and may include PHIL 3000, PHIL 3011
18 from complementary courses in Arts and Letters and Humanities (or others), chosen in consultation with the Program Advisor

HONOURS in Classical Studies is 72 credits earned as follows:

12 from LATI 1001, 1101, GREK 1001, 1101
6 from LATI 2001, 2101, GREK 2001, 2101
6 from Greek/Latin at the 3000/4000 level OR CLAS 4950/4951
48 from Classics/Greek/Latin, of which 33 must be at the 3/4000 level

CLASSICAL STUDIES COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

CLAS1631 (3.00 CR)
GREECE AND ROME: THE FOUNDATIONS OF WESTERN CIVILIZATION

This course surveys the political and social history of ancient Greece and Rome with a focus on the themes of Law, Politics, War, and Society. It pays particular attention to Athens in the fifth and fourth centuries B.C.E. and to Rome under Caesar Augustus. [Note 1: This course is cross-listed with HIST 1631 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours

CLAS1651 (3.00 CR)
CLASSICAL MYTHOLOGY: GODS, GODDESSES, AND THE CREATION OF ORDER

This course introduces the gods and goddesses of classical myth in the literature, art, and religion of ancient Greece and Rome. It examines cosmogonies and divine myths in order to shed light on the views held by the Greeks and Romans about the nature of the relationship between mortal and immortal. (Format: Lecture 3 Hours)

CLAS1991 (3.00 CR)
SPECIAL TOPIC IN CLASSICS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for CLAS 1991 more than once, provided the subject matter differs.] (Format: Variable)

CLAS2021 (3.00 CR)
ALEXANDER THE GREAT AND THE HELLENISTIC WORLD

This course examines the career of Alexander the Great and the Hellenistic era that followed his conquest of the eastern Mediterranean. The main themes include the goals of Alexander, the new political climate of kingship and patronage that he helped create, the interaction of the Greeks with the civilizations of Egypt and the East, and the integration of new cultural ideas into Greek society. [Note 1: This course is cross-listed with HIST 2021 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: CLAS/HIST 3011)

CLAS2051 (3.00 CR)
WOMEN IN ANTIQUITY

Using written and material evidence, this course will explore the economic, social and political roles of women in the societies of ancient Greece and Rome, as well as the development of the Western idea of the female in antiquity. Secondarily, it will introduce and explore the social theories commonly applied to the study of gender in history. [Note 1: This course is cross-listed with HIST 2051 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours)

CLAS2411 (3.00 CR)
HERO'S QUEST: GREEK AND ROMAN EPIC POETRY

This course presents the canonical works of the Greek and Roman Epic traditions: the Trojan war and the rage of Achilles, the wanderings of Odysseus, Jason's quest for the Golden Fleece, and Aeneas' search for a Roman homeland. Students read the original authors in English translation: Homer, Virgil, and Apollonius of Rhodes. The course also introduces key analytical skills necessary for research in the humanities, with a special focus on critical close reading, effective argumentation, and citation of primary sources. (Format: Lecture 3 Hours)

CLAS2501 (3.00 CR)
INTRODUCTION TO ARCHAEOLOGY

This course introduces the methods, basic techniques, and theory of archaeology and excavation. It uses examples of both past and present archaeological research done in the Old and New Worlds to illustrate the topics under discussion. [Note 1: This course is cross-listed with VMCS 2501 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

CLAS2521 (3.00 CR)
THE ARCHAEOLOGY OF DAILY LIFE IN THE GREEK AND ROMAN WORLD

An examination of the evidence used by archaeologists to recreate the social history of ancient Greece and Rome. The course will consider how archaeology can shed light on such topics as the lives of men, women, and children; the home; government; the economy; the army; and entertainment. [Note 1: This course is cross-listed with VMCS 2521 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

CLAS2531 (3.00 CR)
THE ARCHAEOLOGY OF RELIGION IN THE GREEK AND ROMAN WORLD

An examination of the evidence used by archaeologists to recreate the religions of the ancient Greeks and Romans. The course will consider how archaeology reveals ancient views and practices involved in the worship of the Olympian Gods; the religions of Egypt and the Near East; Royal and Emperor cults; Mithraism and mystery cults; Judaism; and early Christianity. [Note 1: This course is cross-listed with VMCS 2531 and may therefore count as three credits in either discipline.](Format: Lecture 3 Hours)

CLAS2991 (3.00 CR)
SPECIAL TOPIC IN CLASSICS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for CLAS 2991 more than once, provided the subject matter differs.] (Format: Variable)

CLAS3001 (3.00 CR)
DEMOCRACY AND IMPERIALISM IN CLASSICAL GREECE

Prereq: Second-year standing; 3 credits from CLAS, HIST at the 1/2000 level; or permission of the Department

An examination of archaic and classical Greek history and civilization from the emergence of the polis to the fall of the Athenian empire. Main themes include the development of political institutions, warfare, and gender relations. Emphasis is placed on historical methods and the interpretation of ancient evidence. [Note 1: This course is cross-listed with HIST 3001 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours)

CLAS3021 (3.00 CR)
CONQUEST AND EXPANSION: THE RISE AND FALL OF THE ROMAN REPUBLIC

Prereq: Second-year standing; 3 credits from CLAS, HIST at the 1/2000 level; or permission of the Department

An examination of the development of Rome from a small city-state into the leading power in the Mediterranean. Main themes include the conflict between Rome and Carthage, the conquest of the Hellenistic East, and the political and social changes in Roman society. There will be an emphasis on the analysis and interpretation of primary sources in translation. [Note 1: This course is cross-listed with HIST 3021 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours)

CLAS3031 (3.00 CR)
THE ROMAN EMPIRE: CENTRE AND PERIPHERY

Prereq: Second-year standing; 3 credits from CLAS, HIST at the 1/2000 level; or permission of the Department

An examination of the history of imperial Rome from the age of Augustus to that of Constantine. Main themes include the imperial form of government, the Roman army, urban development and its impact on society, and the conflicts between Romans and other cultures. There will be an emphasis on the analysis and interpretation of primary sources in translation. [Note 1: This course is cross-listed with HIST 3031 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours)

CLAS3051 (3.00 CR)
HEALTH AND MEDICINE IN THE ANCIENT WORLD

Prereq: Second-year standing; 3 credits from CLAS, HIST, PHIL; or permission of the Department

Employing both material and literary evidence, this course surveys the conditions of life and common ailments and treatments of the inhabitants of the Greek and Roman world from ca. 1000 B.C.E. to ca. 500 C.E.. It also examines the origins of Western medicine in Greek and Roman science, alongside its alternatives, such as magic. [Note 1: This course is cross-listed with HIST 3051 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours)

CLAS3201 (3.00 CR)
GREEK TRAGEDY

Prereq: Second-year standing; 3 credits from CLAS, HIST at the 1/2000 level; or permission of the Department

A study of Greek tragic drama as it developed in Athens of the fifth century B.C.E. The course will examine (in translation) the main surviving plays of Aeschylus, Sophocles, and Euripides. (Format: Lecture 3 Hours)

CLAS3211 (3.00 CR)
GREEK AND ROMAN COMEDY

Prereq: Second-year standing; 3 credits from CLAS, HIST at the 1/2000 level; or permission of the Department

A study of Greek and Roman comic drama (in translation) as represented by the work of Aristophanes, Menander, Plautus, and Terence. (Format: Lecture 2 Hours)

CLAS3401 (3.00 CR)
THE LYRIC POETRY OF GREECE AND ROME

Prereq: Second-year standing; 3 credits from CLAS, HIST at the 1/2000 level; or permission of the Department

A study of Greek and Roman poetry that expresses universal feelings of love and fear, celebration and personal aspiration. The course will examine the themes and forms of lyric poetry, as well as the role of the poet in society. The poems of Sappho, Archilochus, Pindar, Catullus, Propertius, Ovid, and others will be read in English translation. (Format: Lecture 3 Hours)

CLAS3421 (3.00 CR)
ROMAN HORROR: POETRY AND DRAMA OF IMPERIAL ROME

Prereq: CLAS 2411; or permission of the Department

This course is an intensive study of the poetry of the period after Augustus, especially Epic and Tragedy. It examines themes of excess, spectacle, violence, and belatedness through intensive primary readings, informed by consideration of the political and philosophical conditions of the period and, above all, of earlier literary traditions. (Format: Lecture 3 hours) (Exclusion: CLAS 3991 Roman Horror)

CLAS3501 (3.00 CR)
ARCHAEOLOGICAL FIELD COURSE

This course involves participation in an archaeological field project, through which students gain experience in archaeological methods such as site survey, supervised excavation, recording and interpretation of evidence, and the processing of finds. The field location varies according to the project. [Note 1: Permission of the Department is required. Note 2: This course is only available to students during the Spring/Summer term. Enrollment is limited and students should be aware of the additional costs of travel and participation fees. Note 3: This course is cross-listed with VMCS 3501 and may therefore count as three credits in either discipline.] (Format: Field Course)

CLAS3511 (3.00 CR)
LABORATORY METHODS IN CLASSICAL ARCHAEOLOGY

Coreq: CLAS 3501

This course introduces students to the laboratory methods used by Classical archaeologists in the study of materials recovered from Greek and Roman sites. The field location and nature of the remains studied vary according to the project. [Note 1: Permission of the Department is required. Note 2: This course is only available to students during the Spring/Summer term. Enrollment is limited and students should be aware of the additional costs of travel and participation fees. Note 3: This course is cross-listed with VMCS 3511 and may therefore count as three credits in either discipline.] (Format: Field Course)

CLAS3621 (3.00 CR)
THE ARCHAEOLOGY OF GREEK COLONIZATION OF SOUTHERN ITALY

Prereq: Second-year standing; 3 credits from CLAS, ARTH (or FINH), HIST at the 1/2000 level; or permission of the Department

This course surveys the art and archaeology of Magna Graecia and Sicily, the areas of Southern Italy colonized by the Greeks between the 8th and 3rd centuries BC. The course begins with an overview of the Italian cultures living in Southern Italy and Sicily during the Late Bronze Age and the Iron Age, and their interaction with contemporary Greek cultures (e.g., Mycenaeans). Most of the course focuses upon the period between the mid-8th century (when Greek colonization started) and the late 3rd century BC (when Rome colonized or otherwise dominated the region). It examines urban planning, architecture (private and public), sculpture, painting, and minor arts. It uses a broad contextual approach, locating archaeological evidence within its historical, political, economic, and cultural context, and pays special attention to concepts such as colonization, cultural interaction, and acculturation, as well as to the differences and similarities between Greek and Roman colonization, and between ancient Greek and modern colonization. [Note 1: This course may count as 3 credits in Art History only towards the BA programs in Fine Arts and Art History Note 2: This course is cross-listed with VMCS 3621 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: 17/WI CLAS 3991 The Greeks in Southern Italy)

CLAS3631 (3.00 CR)
GREEK ART AND ARCHAEOLOGY

Prereq: Second-year standing; 3 credits from CLAS, ARTH (or FINH), HIST at the 1/2000 level; or permission of the Department

This course introduces the art of the ancient Greek world - urban planning, architecture (private and public), sculpture, painting, minor arts - from the Bronze Age to the Hellenistic period. It engages the analyzed monuments and artifacts within the political, economic, religious, intellectual, and social context in which they were created. It uses this contextual approach as a framework for a more comprehensive understanding of art and artistic movements in their diachronic development. It considers other themes such as the way we experience ancient Greek culture today, and questions about archaeological investigative practice, the antiquities trade, and cultural heritage. [Note 1: This course may count as 3 credits in Art History only towards the BA programs in Fine Arts and Art History. Note 2: This course is cross-listed with VMCS 3631 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusions: CLAS 3601; CLAS 3611)

CLAS3721 (3.00 CR)
ART AND ARCHAEOLOGY OF POMPEII

Prereq: Second-year standing; 3 credits from CLAS, ARTH (or FINH), HIST at the 1/2000 level; or permission of the Department

This course closely examines the archaeological remains from the city of Pompeii in the Bay of Naples: its road system, sewers, public markets, cult places, burial monuments, brothels, bathhouses, political buildings, and houses and residential areas. It pays special attention to the occupation phases of the city before the foundation of the Roman colony in 80 BC, and the impact that the Roman conquest of Pompeii had on its architectural and artistic forms. It also explores the 'hidden history' of Pompeii as a means to raise awareness about the role of material culture in giving voice to cultures and communities that have not left written sources to us. [Note 1: This course may count as 3 credits in Art History only towards the BA programs in Fine Arts and Art History. Note 2: This course is cross-listed with VMCS 3721 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

CLAS3731 (3.00 CR)
ROMAN ART AND ARCHAEOLOGY

Prereq: Second-year standing; 3 credits from CLAS, ARTH (or FINH), HIST at the 1/2000 level; or permission of the Department

This course introduces the artistic, architectural, and archaeological monuments of the Roman world from the eighth century BC to the fifth century AD. It traces Roman art and architecture from its early origins under Etruscan influence through to the periods of the Roman Republic and Principate. It engages monuments and artifacts within their political, economic, religious, intellectual, and social context. This approach provides a framework for a more comprehensive understanding of art and artistic movements in their diachronic development. [Note 1: This course may count as 3 credits in Art History only towards the BA programs in Fine Arts and Art History. Note 2: This course is cross-listed with VMCS 3731 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusions: CLAS 3701, CLAS 3711)

CLAS3801 (3.00 CR)
DIGITAL METHODS IN THE HUMANITIES

Prereq: Second-year standing, any second-year course in Arts

This course introduces the tools and methods of Digital Humanities research. It surveys recent computational work in a variety of humanities disciplines, focusing critical attention on the particular modes of thought, biases, strengths, and limitations that characterize the Digital Humanities. The course simultaneously provides hands-on instruction in basic practices for digital research. It assumes no prior computing expertise but does expect that students have some experience with research in their own field. (Format: integrated lecture and laboratory 3 Hours) (Exclusion: CLAS 3991- Digital Methods in the Humanities)

CLAS3991 (3.00 CR)
SPECIAL TOPIC IN CLASSICS

Prereq: 6 credits from CLAS, LATI, GREK; or Permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for CLAS 3991 more than once, provided the subject matter differs.] (Format: Variable)

CLAS4950 (6.00 CR)
INDEPENDENT STUDY IN CLASSICS

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for CLAS 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

GREEK COURSES

GREK1001 (3.00 CR)
INTRODUCTORY ANCIENT GREEK I

This course introduces the grammar and vocabulary of ancient Greek for students with no previous knowledge of the language. Through grammatical exercises, composition, and the reading of prescribed texts, it develops a basic understanding of the language of classical Athens. (Format: Lecture 3 Hours, Tutorial 1 Hour) (Exclusion: GREK 1000)

GREK1101 (3.00 CR)
INTRODUCTORY ANCIENT GREEK II

Prereq: GREK 1001; or permission of the Department

A continuation of the study of the ancient Greek language. This course adds new grammar and continues to build vocabulary, while concentrating on the development of a reading facility in ancient Greek. Three class periods per week, plus a fourth hour to be arranged after classes have begun. (Format: Lecture 3 Hours, Tutorial 1 Hour) (Exclusion: GREK 1000)

GREK1991 (3.00 CR)
SPECIAL TOPIC IN GREEK

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for GREK 1991 more than once, provided the subject matter differs.] (Format: Variable)

GREK2001 (3.00 CR)
INTERMEDIATE GREEK

Prereq: GREK 1101; or permission of the Department

This course introduces students to the reading of unadapted passages from ancient authors. While the emphasis is on developing a fluency in reading Greek, it also reviews basic Greek grammar and presents some more advanced grammar and syntax. (Format: Lecture 3 Hours)

GREK2101 (3.00 CR)
INTRODUCTORY READINGS IN GREEK LITERATURE

Prereq: GREK 2001; or permission of the Department

A reading of selected works by Greek authors. This course will acquaint the student with some of the forms of ancient prose and poetry. (Format: Lecture 3 Hours)

GREK2991 (3.00 CR)
SPECIAL TOPIC IN GREEK

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for GREK 2991 more than once, provided the subject matter differs.] (Format: Variable)

GREK3001 (3.00 CR)
READINGS IN GREEK PROSE
Prereq: GREK 2101; or permission of the Department

The translation and study of the work of one or more Greek prose authors. (Format: Lecture 3 Hours)

GREK3101 (3.00 CR)
READINGS IN GREEK POETRY
Prereq: GREK 2101; or permission of the Department

The translation and study of the work of one or more Greek poets. (Format: Lecture 3 Hours)

GREK3991 (3.00 CR)
SPECIAL TOPIC IN GREEK
Prereq: 6 Credits from History and first year standing;

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for GREK 3991 more than once, provided the subject matter differs.] (Format: Variable)

GREK4001 (3.00 CR)
DIRECTED READINGS IN GREEK
This course is a detailed study of one or more Greek authors. [Note 1: Permission of the Department required. Note 2: GREK 4001 may be taken for credit more than once if the topic differs.] (Format: Lecture 3 Hours)

COGNITIVE SCIENCE

Cognitive Science is an interdisciplinary program that seeks to further understand what the mind does and how it works. Incorporating perspectives from a variety of fields, it investigates how information is represented, processed, and transformed in both humans and machines.

Interdisciplinary B.A. and B.Sc. Programs

B.A. MAJOR in Cognitive Science is 60 credits earned as follows:

9 from COMP 1631, 1731, 2611
3 from COMP 2711, 2931
9 from PSYC 1001, 1011, 2201
6 from PSYC 2101, 3111, 3201, 3211, 3101, 4101
6 from PSYC 2001 (or MATH 1311), 2011 (or MATH 2321)
6 from PHIL 2511, 3511
3 from PHIL 4511, 4521
3 from LING 3001, 3011, PSYC 3221
15 from the following, with at least 12 being at the 3/4000 level: COMP 3651, 3851, 3611, COMP/MATH 2211, 3531, PHIL 2611, 3221, 3231, 3351, 3631, 3711, 4611

Note: Students pursuing the Interdisciplinary Major in Cognitive Science under the Bachelor of Arts degree are reminded that Regulation 11.2.3 must still be fulfilled.

B.Sc. MAJOR in Cognitive Science is 60 credits earned as follows:

9 from COMP 1631, 1731, 2611
3 from COMP 2711, 2931
9 from PSYC 1001, 1011, 2201
6 from PSYC 2101, 3111, 3201, 3211, 3101, 4101
6 from PSYC 2001 (or MATH 1311), 2011 (or MATH 2321)
6 from PHIL 2511, 3511
3 from PHIL 4511, 4521
3 from LING 3001, 3011, PSYC 3221
9 from the following, with at least 6 being at the 3000 level: COMP 3651, 3851, 3611, COMP/MATH 2211, 3531, PHIL 2611, 3221, 3231, 3351, 3631, 3711, 4611, PHYS 3361, 3581
3 from MATH 1111 or 1151
3 from CHEM 1001, PHYS 1041, PHYS 1051

Note: Students pursuing the Interdisciplinary Major in Cognitive Science under the Bachelor of Science degree are reminded that Regulations 11.3.4 and 11.3.5 must still be fulfilled.

B.A. or B.Sc. HONOURS in Cognitive Science is 75 credits earned as follows:

60 credits as in either the B.A or B.Sc. Major, plus:
6 from COGS 4990
9 additional credits from the following, with at least 6 credits from a single discipline chosen in consultation with the Program Advisor:
COMP 3651, 3851, 3611, 4951
PHIL 3221, 3231, 3351, 3631, 3711, 4511, 4521, 4611, 4951
PHYS 3581, 3361, 4951 (only for B.Sc.)
PSYC 3001, 3101, 3111, 3201, 3211, 4101, 4951

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

COGNITIVE SCIENCE COURSES

COGS4990 (6.00 CR)
HONOURS THESIS

This course comprises independent research and study under the direction of one or more supervisors for students in the Cognitive Science Honours program. The supervising faculty member(s) and the area of research under the student's focal discipline must be appropriate for cognitive science and must be approved by the program coordinator. [Note 1: Consent of supervising staff member prior to registration and permission of the Program Advisor is required.] (Format: Independent study/Thesis)

COMMERCE/RON JOYCE CENTRE FOR BUSINESS STUDIES

Note: The Minor and Major in Commerce on a B.A. program are outlined below. For a description of program requirements for completion of a B.Comm. Please see Section 11.5.

COMMUNITY ENGAGED LEARNING

Community-Engaged learning is the study of the methods, approaches and contexts involved in working to make positive social change in communities. It intersects with such areas as education, social justice and social, political, and environmental advocacy. The Minor has several introductory core courses, which introduce ideas of community and the theory and practice of community engaged learning. The intermediate level courses build on this knowledge and also allow students an opportunity to work in an applied and sustained way with a community partner. The program incorporates a range of courses from around the University to allow students the chance to explore themes in community engaged learning. Students have at least one opportunity to connect their developing disciplinary expertise in their major area of study with community engaged learning.

A certificate in Community Engaged Learning is also available (see Certificate Programs in Section 12 Programs and Courses of Instruction).

Interdisciplinary B.A. Programs

MINOR in Community Engaged Learning is 24 credits earned as follows:

3	from CENL 1001, 1101, 1201, 1401
3	from CENL 2001, 2101, 2201
3	from CENL 3101, 4001
9	from the following, with at least 6 being at the 3/4000 level: CANA 2201, 3231, CENL 2001, 2101, 2201, 2421, 3101, 3301, 4001, 4951*, GENV 1201, INDG 1001, 3601, 3991, 4991, PHIL 1611, 2701, 3721, PSYC 2121, 2301, 2431, 2611, 3421, 3511, 3801, SOCI 3521, 3531, 3731, 3751, 4541, RELG 2411, 3981, FGST 1001, 2101, 3201, 4301
6	from CENL 4001, 4101, 4201, 4211, GENV 4521, SOCI 4311, 4971

Note: Students are responsible for ensuring that they have prerequisites for 2/3/4000 level courses in the elective streams

Note: *It is strongly recommended that students will seek an opportunity to explore the connection between community engaged learning and their own area of developing expertise

COMMUNITY ENGAGED LEARNING COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

CENL1001 (3.00 CR)
INTRO TO COMPASSIONATE COMMUNITIES

This course explores the concept of the compassionate community as a model for how communities might address social injustices such as poverty, homelessness and loneliness in their midst. Drawing on tools from work in community engaged learning, the course gives students the critical and theoretical skills to understand the factors in community making (history, shared values, identity) and the preparations needed for establishing and maintaining community partnerships. The course has a particular focus on the local-Sackville, Port Elgin, Dorchester-and an applied component that directs students in the skills needed to make connections with local potential community partners and assemble the skills and competencies to discern mutually what sort of relationships and projects are best, given the needs of all involved. [Note 1: This course is cross-listed as RELG 1001 and may therefore count as three credits in either discipline] (Format: Lecture/Tutorial 3 hours) (Exclusion: RELG 1991 Compassionate Communities)

CENL1101 (3.00 CR)
INDIGENOUS COMMUNITY ASSETS

This course explores Indigenous community strengths as the starting point to authentic community building. This course explores asset based community development principles and practices and embed an experiential learning component that will require students to be active participants within First Nation communities. [Note 1: This course is cross-listed with INDG 1101 and may therefore count as three credits in either discipline.] (Format: Experiential) (Exclusion: CENL/INDG 1991 Indigenous Community Assets)

CENL1201 (3.00 CR)
COMMUNITY AND SOCIAL CHANGE

This course introduces the idea of social change from a variety of disciplinary areas including Religious Studies, Modern Languages, Geography, Environmental Studies, Sociology, Music, Fine Arts and Biology. The course is for students who are looking to contribute to their community by addressing social change but are not sure how to get involved in this type of work. With knowledge garnered from years of community activism and research, this team-taught course introduces students to the conceptual tools that are crucial for community organizing, development and volunteer work. (Format: Lecture 3 Hours) (Exclusion: CENL 1991: Community and Social Change)

CENL1401 (3.00 CR)
EDUCATION, IDENTITY AND ATHLETICS

This introductory course uses outdoor education and athletics as a lens to learn about mentorship and community advocacy in the public school system. As part of a university-community partnership with a local school, students will work directly with elementary and middle school children on a weekly basis to design and supervise learning activities and undertake informal mentoring. The course is well suited for those who volunteer as coaches and mentors, or those who are considering careers in recreation administration and education, especially careers involving children. (Format: Lecture 3 Hours) (Exclusion: CENL 1991: Education, Mentorship and Athletics)

CENL1991 (3.00 CR)

CENL2001 (3.00 CR)
COMMUNITY NARRATIVES

This course examines the stories that groups and institutions - both mainstream and marginal - tell about themselves and their membership in communities. It examines such factors as community programming, local events and practices, religious observances, material culture, natural and historical sites, local myths and practices, and family histories. Using a range of relevant critical tools, and focusing on local community contexts, students examine these cultural texts for the shared values and complex identities that they evidence. (Format: Lecture/Tutorial 3 hours)

CENL2101 (3.00 CR)
COMMUNITY ENGAGEMENT IN SCHOOLS

Prereq: 3 credits from CENL 1001, 1101, 1201, 1401; or permission of the Department

This course involves sustained participation in a major ongoing community project in connection with local schools. It introduces the field of community engaged learning in an educational context and facilitates the exploration of models of community supported education. It provides an opportunity to develop the skills and values necessary to establish community partnerships, engage in community advocacy, and participate in non-profit organizations. (Format: Lecture/Tutorial 3 hours) (Exclusion: Any version of CENL 2101 previously offered with a different title)

CENL2201 (3.00 CR)
LEARNING TO DESIRE

This course reflects on what has shaped Indigenous identities. Damage narratives are perpetuated and maintained about Indigenous peoples in a variety of areas. This course will explore how damage has informed a frame of reference for Indigenous peoples and how it may affect the conceptual map of those it subjects. Moving from 'decolonial' strategies in academia to a new emergence, this course aims to utilize reframing as the foundation of community resilience. [Note 1: This course is cross-listed with INDG 2201 and may therefore count as three credits in either discipline.] (Format: Experiential) (Exclusion: INDG 2991 Learning to Desire)

CENL2421 (3.00 CR)
ACTIVE HOPE

This course investigates models and frameworks that are useful to students who are considering embarking on the path of environmental advocacy, which is notorious for its accompanying risks of burnout and despair. Based on theories of critical hope, the course examines and critically assesses the various approaches to the grave problems of our time that are aimed at fostering resilience and facilitating collaborative work for ongoing engagement. [Note 1: This course is cross-listed as RELG 2421 and may therefore count as three credits in either discipline] (Format: Lecture 3 Hours)

CENL2991 (3.00 CR)
SPECIAL TOPIC IN COMMUNITY ENGAGED LEARNING

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. COMMUNITY AS CLASSROOM

Prereq: 3 credits from CENL 1001, 1101, 1201, 1401; 3 credits from CENL 2001, 2101, 2201; or Permission of the Department

This course provides a deep analysis of specific methods and theories of community engagement. It introduces students to the larger praxis of community-engaged learning, and centres students' participation in a major ongoing community project. Students assist in project design, assessment, and formulation of future projects. (Format: Lecture/Tutorial 3 hours) (Exclusions: Any version of UNST 3991/4991 with the same title Community as Classroom)

CENL3301 (3.00 CR)
CRITICAL THEORIES OF LEARNING

Prereq: 3 credits from CENL at the 1000 level; 3 credits from CENL at the 2000 level; or permission of the Department

This course introduces students to the fields of critical pedagogy and social justice education. It asks if knowledge serves to liberate people from oppression, what, then, is the role of pedagogy, teachers and educational institutions? The course aims to interpret educational systems and investigate innovative models for learning. Via a range of influential critical pedagogy theorists, it examines how class, race, religion, gender and disability inform power relations and impact accessibility within the educational system. The notion of learning and the learner form a central part of this critical work, with key examples from a range of contexts that serve to challenge conventional Western practices and open up more just ways of engaging. (Format: Lecture 3 Hours)

CENL3401 (3.00 CR)
CLASSROOM INSTRUCTION AND DESIGN

Prereq: 3 credits from CENL 1401, 2101; and permission of the Department

This course is conducted in either English or French, and places students with a community partner to gain hands-on experience with lesson planning, community-engaged learning, project-based and outdoor education, and classroom engagement. [Note 1: Students may register for CENL 3401 more than once, provided the subject matter differs] (Format: Independent Study/Experiential 3 Hours)

CENL3601 (3.00 CR)
SOCIAL ASPECTS OF PLACE

Prereq: Second-year standing; or permission of the Department

This course explores Indigenous conceptions of place and environment through collaborative partnerships with First Nations people and communities. [Note 1: This course is cross-listed with INDG 3601 and may therefore count as three credits in either discipline.] (Format: Experiential/Lecture)

CENL3991 (3.00 CR)

CENL4001 (3.00 CR)
ADVANCED STUDIES IN COMMUNITY ENGAGEMENT

Prereq: Permission of the Department

This course provides students with a focused learning opportunity in community engagement research. Students will be connected with a focused, experiential learning opportunity. [Note1: This course is cross-listed with RELG 4001 and may therefore count as three credits in either discipline.]

CENL4101 (3.00 CR)
PRACTICUM IN COMMUNITY-ENGAGED LEARNING

Prereq: Permission of the Department

This course applies community-engaged learning methods and practices to an actual case or scenario in the student's local community. Students develop a project in cooperation with a community partner that forms a response to an existing problem that the student and partner have identified. Students and partners reflect on and evaluate the response and evaluate its future implications for the community. The practicum involves a learning environment where students' expertise in their major area of study can be brought together fully with community-engaged learning principles. [Note 1: Students may register for CENL 4101 more than once, provided the subject matter differs] (Format: Independent Study/Experiential, 3 hours)

CENL4201 (3.00 CR)
EXPLORING INDIGENEITY TOGETHER

Prereq: Third-year standing; or permission of the Department

This course embeds Indigenous and non-Indigenous panelists and panel discussions to explore important topics identified by the students. The course attempts to counter courses focused only on Indigenous topics that have an undertone of Indigenous peoples as objects of study. [Note 1: This course is cross-listed with INDG 4201 and may therefore count as three credits in either discipline.] (Format: Seminar)

CENL4211 (3.00 CR)
TEACHING DIFFICULT KNOWLEDGE

Prereq: Third-year standing; or permission of the Department

This course explores, through a project-based curriculum, how school systems, classrooms, learners, and educational policy engage with, teach, and learn 'difficult knowledge' (i.e. knowledge that could prove disturbing or unsettling). [Note: This course is cross listed with CANA 4211 and may therefore count as three credits in either discipline] (Format: Seminar)

CENL4950 (6.00 CR)
INDEPENDENT STUDY IN COMMUNITY ENGAGED LEARNING

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for CENL 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

COMPUTER SCIENCE

The field of computing ranges from hands-on applications to pure theory, and includes the analysis of algorithms, software design, and the study of computer architecture, operating systems, networks, and databases. Our goal is to introduce students to all facets of the discipline, and to give them an appreciation of the historical, ethical, and social context of computing, and the responsibility of the computer professional and casual computer user in a modern society.

The Department offers a broad variety of courses and programs in Computer Science. Introductory courses may teach programming and theories of computing or offer a general overview of the use and application of popular software; more advanced courses deal with topics ranging from artificial intelligence and the role of computers in society to the design and implementation of advanced hardware or software systems. All courses in the computing curriculum offer a blend of theory and practical application, with many of the offerings having a significant project component in which students are given the opportunity to apply the classroom material to real-world problems. Courses are designed to address the needs of a wide variety of users, from the casual to the professional. Some students may enrol in a course to familiarize themselves with computer systems and application software, while others may choose to pursue a minor or a major in Computer Science. Students may choose to select Computer Science in combination with areas such as Mathematics, Geography, GIS, Economics, Music or Physics. Mount Allison has been quite successful in placing its students in graduate programs in Computer Science, while many others have found employment after graduation in one of the many computer-related fields.

Disciplinary B.A. and B.Sc. Programs

B.A. or B.Sc. MINOR in Computer Science is 24 credits earned as follows:

12 from COMP 1631, 1731, 2611, 2711
3 from MATH 1111, 1151
3 from COMP 2211, 2931
6 from Computer Science at the 3/4000 level

B.A. MAJOR in Computer Science is 60 credits earned as follows:

18 from COMP 1631, 1731, 2211, 2611, 2711, 2931
12 from COMP 3611, 3911, 4721, 4911
3 from COMP 3361, 3971
9 from Computer Science at the 3/4000 level
3 from MATH 1111, 1151
3 from MATH 2221
3 from MATH 1121, 1311
9 from complementary courses in Arts and Letters, Humanities and Social Sciences chosen in consultation with the Program Advisor

B.Sc. MAJOR in Computer Science is 63 credits earned as follows:

18 from COMP 1631, 1731, 2211, 2611, 2711, 2931

12 from COMP 3611, 3911, 4721, 4911
3 from COMP 3361, 3971
9 from Computer Science at the 3/4000 level
3 from MATH 1111, 1151
3 from MATH 2221
6 from MATH 1121, 1311
6 from CHEM 1001, PHYS 1051, 1551
3 from BIOL 1001, BIOL 1501, BIOC 1001, GENS 1401, PSYC 1001 or PSYC 1011

B.A. HONOURS in Computer Science is 75 credits earned as follows:

60 Credits as in the B.A. Major, plus
3 from Computer Science at the 3/4000 level
6 from Computer Science or Mathematics at the 3/4000 level
6 from COMP 4990

B.Sc. HONOURS in Computer Science is 78 credits earned as follows:

63 Credits as in the B.Sc. Major, plus
3 from Computer Science at the 3/4000 level
6 from Computer Science or Mathematics at the 3/4000 level
6 from COMP 4990

B.A. or B.Sc. HONOURS in Computer Science and Mathematics (Course Option) is 75 or 87 credits earned as follows:

18 from COMP 1631, 1731, 2211, 2611, 2711, 2931
3 from MATH 1111, 1151
12 from MATH 1121, 2111, 2121, 2221
9 from MATH 3111, 3211, 3311
3 from MATH 3221, 3231, 3251, 4011, 4221
3 from Mathematics at the 3/4000 levels
3 from COMP 3361, 3971
12 from COMP 3411, 3611, 3911, 4721
12 from Computer Science or Mathematics at the 3/4000 level
9 from CHEM 1001, CEHM 1021, PHYS 1051, PHYS 1551 (only for B.Sc.)
3 from BIOL 1001, BIOL 1501, BIOC 1001, GENS 1401, PSYC 1001, PSYC 1011 (only for B. Sc.)

B.A. or B.Sc. HONOURS in Computer Science and Mathematics (Thesis Option) is 75 or 87 credits earned as follows:

63 as in the first eight lines of the BA or BSc Honours in Computer Science and Mathematics (Course Option)
6 from Computer Science or Mathematics at the 3/4000 level
6 from COMP 4990 or MATH 4990
9 from CHEM 1001, CHEM 1021, PHYS 1051, PHYS 1551 (only for B.Sc.)
3 from BIOL 1001, BIOL 1501, BIOC 1001, GENS 1401, PSYC 1001, PSYC 1011 (only for B. Sc.)

Interdisciplinary B.A. and B.Sc. Programs

B.A. or B.Sc. MINOR in Geographic Information Systems is 24 credits earned as follows:

6 from COMP 1631, 1731
3 from GENS 1401, GENV 1201
3 from GENS 2431, BIOL 2701, MATH 1311
9 from GENS 2441, GENS 3441, GENS 3481, GENS 4721
3 from COMP at the 2/3/4000 level

B.A. JOINT MAJOR in Computer Science and Economics is 81 credits earned as follows:

18 from COMP 1631, 1731, 2211, 2611, 2711, 2931
9 from COMP 3611, 3811, 3851
6 from COMP at the 3/4000 level, chosen in consultation with the CS Program Advisor
3 from MATH 1111, 1151
6 from MATH 1121, 2221
21 from ECON 1001, 1011, 2001, 2011, 2101, 2111, 2701
3 from ECON 1701, MATH 1311
6 from ECON 4711, 4721
9 from Economics at the 3/4000 level

Note: COMM 3411, 3501, 4501, 4521, and 4541 may be designated as Economics electives for students taking a Joint Major in Computer Science and Economics, a Major, Minor or Honours in Economics or the Major or Honours in Philosophy, Politics, and Economics.

Note: Students in the BA Joint Major in Computer Science and Economics are required to integrate knowledge in both Economics and Computer Science in the research project component of ECON 4721.

B.A. JOINT MAJOR in Computer Science and Music is 90 credits earned as follows:

9 from MATH 1151, 1121, 2221
27 from COMP 1631, 1731, 2211, 2611, 2711, 2931, 3361, 3611, 3811
6 from COMP 3711, 3831, 3911, 3971
3 from PHYS 1401
30 from MUSC 1101, 1201, 1221, 1703, 2141, 2151, 2171, 3141, 3151, 3171
9 from MUSC 1021, 1111, 1211, 1991*, 2021, 2101, 2111, 2121, 2201, 2211, 2703, 2991*, 3001, 3121, 3161, 3991*, 4991*
3 from MUSC 1619-4619, 1629-4629, 1639-4639, 1649-4649, 1659-4659, 1669-4669, 1689-4689, 1699-4699
3 from MUSC 4951

Note: * indicates that the Department may approve the course for inclusion when the topic is relevant to the program.

Note: MUSC 4951 will take the form of an independent capstone project co-supervised by faculty in Computer Science and Music.

Note: Students in the BA Joint Major in Computer Science and Music are required to integrate knowledge in both Computer Science and Music in their independent capstone project (MUSC 4951).

B.Sc. HONOURS in Computer Science and Physics is 87 credits earned as follows:

6 from COMP 1631, 1731
6 from CHEM 1001, 1021
3 from BIOL 1001, 1501, BIOC 1001, GENS 1401, PSYC 1001, 1011
3 from MATH 1111 or 1151
12 from MATH 1121, 2111, 2121, 2221
12 from PHYS 1051, 1551, 2251, 2801
18 from COMP 2211, 2611, 2711, 2931, 3811, 3851
3 from COMP/MATH/PHYS 3411
3 from COMP/PHYS 3361
15 from PHYS 2811, 3101, 3451, 3701, 4411
6 from PHYS 4990

Note: The topic of the Honours project or thesis, PHYS 4990, must be chosen in consultation with both departments

Note: Students in the BSc Joint Honours in Computer Science and Physics are required to integrate knowledge in both Physics and Computer Science in their Honours project or thesis (PHYS 4990).

B.A. JOINT MAJOR in Geocomputing is 87 credits earned as follows:

18 from COMP 1631, 1731, 2211, 2611, 2711, 2931
9 from COMP 3611, 3811, 3851
6 from COMP at the 3/4000 level, chosen in consultation with the CS Program Advisor
3 from MATH 1111, 1151
6 from MATH 1121, 2221
6 from GENV 1201, GENS 1401
6 from GENV 2001, 2101, 3201
12 from GENS 2431, 2441, 3441, 3481, 4721
3 from GENS 3401, GENV 3701
15 from GENV or GENS, of which at least nine credits must be at the 3/4000 level (GENV 3211 recommended)
3 from GENS 4951, with topic chosen in consultation with the CS and GENS Program Advisors

COMPUTER SCIENCE COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

COMP1631 (3.00 CR)
INTRODUCTION TO COMPUTER SCIENCE

This course provides an introduction to computer science and the fundamentals of computer programming. Topics include: designing a computational solution to a problem using algorithms; converting an algorithm effectively into a program; ensuring program correctness; and the proper use of variables, loops, conditionals, modularity, and simple data structures in formulating problem solutions. [Note 1: University preparatory level course in Mathematics is required.] (Format Integrated Lab/Lecture 4 Hours) (Exclusion: COMP 1611; COMP 1711; any COMP course at the 2000 level or higher)

COMP1731 (3.00 CR)
PROGRAMMING TECHNIQUES AND ALGORITHMS

Prereq: COMP 1631; or permission of the Department

This course introduces program design techniques and algorithmic thinking using a high-level computer programming language. Topics include: fundamental control structures, elementary data structures, code reuse, basic algorithms, and debugging and testing. (Format: Lecture 3 Hours, Laboratory 3 Hours)

COMP1991 (3.00 CR)
SPECIAL TOPIC IN COMPUTER SCIENCE

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for COMP 1991 more than once, provided the subject matter differs.] (Format: Variable)

COMP2211 (3.00 CR)
DISCRETE STRUCTURES

Prereq: 3 credits from MATH 1111, 1151; or permission of the Department

This course introduces the terminology and concepts of discrete mathematics. Topics may include: logical arguments, proofs and algorithm verification, sets, relations, functions and cardinality of sets, induction and recursion, enumeration, and algorithms and complexity. [Note 1: This course is cross-listed with MATH 2211 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

COMP2611 (3.00 CR)
DATA STRUCTURES AND ALGORITHMS

Prereq: COMP 1731; or permission of the Department

This course introduces effective methods of data organization, focussing on data structures and their algorithms via abstract data types with the use of recursive procedures. It explores the design of flexible file structures and related methods such as indexes, system file structures, and hashed access, and it emphasizes object-oriented programming techniques.(Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: Any version of COMP 2611 previously offered with a different title)

COMP2711 (3.00 CR)
OBJECT-ORIENTED DESIGN AND METHODOLOGY

Prereq: COMP 2611; or permission of the Department

This course further explores the object-oriented paradigm with emphasis on inheritance, polymorphism, and encapsulation. Topics include: design principles, such as abstraction, decomposition, and generalization, and an introduction to graphical design notation and object-oriented design patterns. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: COMP 3721)

COMP2931 (3.00 CR)
INTRODUCTION TO SYSTEMS PROGRAMMING

Prereq: COMP 1731; or permission of the Department

This course is an introduction to programming at the systems level. Topics include: basic machine organization, assembly language, the UNIX environment, shell scripting, and C/C++ programming. (Format: Lecture 3 Hours, Laboratory 3 Hours)

COMP2991 (3.00 CR)
SPECIAL TOPIC IN COMPUTER SCIENCE

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for COMP 2991 more than once, provided the subject matter differs.] (Format: Variable)

COMP3361 (3.00 CR)
DIGITAL SIGNAL PROCESSING AND ELECTRONICS

Prereq: COMP 1631; PHYS 1551; or permission of the department

This course introduces students to digital electronic circuits and digital signal processing, with a focus of understanding current applications and concepts. Topics include: transistors, digital logic gates, Boolean algebra, logic circuit design, latches and flip-flops, counting circuits, adder circuits, digital logic families, digital sampling, analog-to-digital and digital-to-analog conversion, Fourier Transforms, correlation and convolution, noise, digital filtering, and digital image processing. Students will gain hands-on experience working with integrated circuits and micro-controllers. [Note 1: This course is cross-listed with PHYS 3361 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours, Laboratory 3 Hours)

COMP3411 (3.00 CR)
NUMERICAL ANALYSIS

Prereq: MATH 1121; 3 credits from MATH 2221, MATH/PHYS 3451; 3 credits from COMP or PHYS; or permission of the Department

This course introduces numerical methods for solving a variety of problems in the sciences. Topics include numerical errors and precision, root finding, model fitting, integration and solution of differential equations, solution of linear and nonlinear systems of equations, and matrix factorization. [Note 1: This course is cross-listed as PHYS 3411 and MATH 3411 and may therefore count as three credits in any of the three disciplines.] (Format: Lecture 3 Hours)

COMP3531 (3.00 CR)
SIMULATION AND MODELING

Prereq: 3 credits from MATH 1111, 1151; 3 credits from MATH 1311, MATH 2311, MATH 3311, PSYC 2001, PSYC 2011; 3 credits from COMP; or permission of the Department

This course introduces the simulation technique for studying mathematical models. Topics include: systems theory and system models, continuous system simulation, discrete system simulation, Monte Carlo methods, random number generators, and simulation languages. It emphasizes computer implementation of the methods studied. [Note 1: This course is cross-listed with MATH 3531 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

COMP3611 (3.00 CR)
ALGORITHM ANALYSIS

Prereq: COMP 2711; COMP/MATH 2211; or permission of the Department

This course applies analysis and design techniques to non-numeric algorithms that act on data structures. The design of efficient algorithms leads to in-depth investigations of computational complexity such as NP-hard problems. (Format: Lecture 3 Hours)

COMP3621 (3.00 CR)
ADVANCED DATA STRUCTURES

Prereq: COMP 2711; or permission of the Department

This course introduces advanced structures for data organization, with an emphasis on associated algorithms and their complexity. Topics include: binary and text file structures, compression, balanced trees, and advanced graph algorithms. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: COMP 2631)

COMP3651 (3.00 CR)
ARTIFICIAL INTELLIGENCE

Prereq: COMP 2711; COMP/MATH 2211; or permission of the Department

This course introduces general problem solving methods associated with automated reasoning and simulated intelligence. Topics include: state space heuristic search theory, mechanical theorem proving, game playing, natural language processing, propositional logic, learning and cognitive models and expert systems. (Format: Lecture 3 Hours)

COMP3711 (3.00 CR)
PRINCIPLES OF PROGRAMMING LANGUAGES

Prereq: COMP 2711; COMP 2931; or permission of the Department

This course introduces the principles of design and implementation of programming languages. Topics include: language syntax and processors, and semantic models of data and control structures. (Format: Lecture 3 Hours)

COMP3811 (3.00 CR)
DATABASE SYSTEMS

Prereq: COMP 2711; COMP/MATH 2211; or permission of the Department

This course introduces the major types of database systems and provides experience with at least one database model. It emphasizes the theoretical and practical aspects of the relational model, including database query systems and database design. (Format: Lecture 3 Hours)

COMP3831 (3.00 CR)
COMPUTER GRAPHICS

Prereq: COMP 2711; COMP 2931; MATH 2221; or permission of the Department

This course introduces the principles and tools of interactive computer graphics: implementation of device drivers, 3D transformations, clipping, perspective views, input routines, user interface design, data structures, hidden lines, surface removal, colour shading and ray tracing. (Format: Lecture 3 Hours)

COMP3851 (3.00 CR)
COMPUTERS AND SOCIETY

Prereq: Third-year standing; 3 credits from COMP 2611, 2931; or permission of the Department

This course examines the externalities arising from the introduction of technical innovations into society. The social context is central to understanding not only the effects of a technology but also informs the computing profession of the appropriate technical content of the innovation. An emphasis on the philosophical basis for computing ethics, including ethical issues faced by and brought about by computing professions, is the starting point for topics such as security, privacy, intellectual property, reliability and liability. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture 3 Hours)

COMP3911 (3.00 CR)
OPERATING SYSTEMS

Prereq: COMP 2611; COMP 2931; or permission of the Department

This course examines the major concepts underlying the design of operating systems such as process management, scheduling, memory management, device management, security, and network structures. (Format: Lecture 3 Hours)

COMP3971 (3.00 CR)
COMPUTER ORGANIZATION AND ARCHITECTURE

Prereq: COMP 2611; COMP 2931; or permission of the Department

This course introduces modern computer design and its relation to system architecture and program function. Topics include system bus design, memory organization, I/O device access, instruction set design, instruction pipelining, leading to an investigation of how these tools are used to support multi-processor systems. (Format: Lecture 3 Hours)

COMP3991 (3.00 CR)
SPECIAL TOPIC IN COMPUTER SCIENCE

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for COMP 3991 more than once, provided the subject matter differs.] (Format: Variable)

COMP4631 (3.00 CR)
THEORY OF COMPUTATION

Prereq: COMP 1731; COMP/MATH 2211; or permission of the Department

This course is an introduction to theoretical aspects of Computer Science such as formal language and automata theory and complexity theory. [Note 1: This course is cross-listed with MATH 4631 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

COMP4651 (3.00 CR)
CRYPTOGRAPHY

Prereq: COMP 1731; COMP/MATH 2211; MATH 2221; or permission of the Department

This course is an introduction to cryptographic algorithms and to the cryptanalysis of these algorithms, with an emphasis on the fundamental principles of information security. Topics include: classical cryptosystems, modern block and stream ciphers, public-key ciphers, digital signatures, hash functions, key distribution and agreement. [Note 1: This course is cross-listed with MATH 4651 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

COMP4721 (3.00 CR)
SOFTWARE DESIGN

Prereq: Third-year standing; COMP 2711; or permission of the Department

This course focuses on software design culminating in a major project. It studies life cycle models and their phases: planning, requirements, specifications, design, implementation, testing, and maintenance. (Format: Lecture 3 Hours, Laboratory 2 Hours)

COMP4911 (3.00 CR)
COMPUTER NETWORKS

Prereq: COMP 2611; COMP 2931; or permission of the Department

This course introduces computer network applications and design. Topics include: layered models, data transmission protocols, network topology, and security. (Format: Lecture 3 Hours)

COMP4950 (6.00 CR)
INDEPENDENT STUDY IN COMPUTER SCIENCE

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for COMP 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

Note 3: Students may register for COMP 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

COMP4990 (6.00 CR)
HONOURS THESIS

This course comprises independent research and study under the direction of a member of the Department; for students in Computer Science or Computer Science and Mathematics Honours program. [Note 1: Consent of supervising staff member and permission of the Department required.] (Format: Independent Study/Thesis)

COMP4991 (3.00 CR)
SPECIAL TOPIC IN COMPUTER SCIENCE

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. DATA SCIENCE

Data Science is the emerging interdisciplinary study and application of how we capture, organize, archive, access, and use large-scale data. Data Science alters disciplinary and professional practices, enabling new conceptual approaches and categories of questions, while generating new challenges in ethics and privacy. These issues and opportunities now pervade many areas of human endeavour, from physics to health care to social policy.

To successfully engage with the scope and scale of data resources requires high throughput approaches, with new concepts and practices for effective management, distribution, and presentation of data. Our goal is to give students the concepts and tools to empower their ethical engagement with the emerging potentials and challenges of data, across disciplines and fields of enquiry.

The Minor is designed to engage and serve the interests of a wide range of students. It emphasizes interdisciplinary opportunities and challenges of data science, which supports and extends many disciplines and professional areas. Skills in data science are thus highly transferrable across many areas of practice.

Certificates in Data Management and Data Analytics are also available (see Certificate Programs in Section 12 Programs and Courses of Instruction).

Interdisciplinary B.Sc. Programs

MINOR in Data Science is 24 credits earned as follows:

6	from MATH 1311, 2221
3	from COMP 1631
3	from ECON 2701, BIOL 2701, MATH 2321, PSYC 2011, GENS 2431, PHYS 2801
9	from DATA 3001, 3101, 4001
3	from ECON 4711, BIOL 4711, MATH 3311, PSYC 3001, GENS 4721

Note: There are prerequisites for some 2000 level courses in this minor. Students are responsible for ensuring that they have the necessary prerequisites. It is recommended that students meet with the program director early on to map out the minor.

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for DATA 1991 more than once, provided the subject matter differs.] (Format: Variable)

DATA3001 (3.00 CR)
DATA VISUALIZATION AND COMMUNICATION

Prereq: 3 credits from MATH 1311, BIOL 2701, ECON 2701, GENS 2431, PHYS 2801, PSYC 2011; or permission of the Department

This course covers accurate and effective visualization and communication of data to both technically trained audiences and to the wider public. Students will learn to organize diverse data types for efficient static, dynamic, and interactive visual presentations to effectively communicate key messages in multiple formats. Students will learn approaches to high throughput report generation and content updating, with principles of open data and maintaining audit trails from presentation back to source. The course will cover common pitfalls or distortions of data presentation, and principles of visual grammar and accessibility for diverse users. (Format: Integrated Tutorial and Laboratory 6 Hours)

DATA3101 (3.00 CR)
DATA ACQUISITION AND ORGANIZATION

Prereq: 3 credits from MATH 1311, BIOL 2701, ECON 2701, GENS 2431, PHYS 2801, PSYC 2011;or permission of the Department

This course covers high throughput acquisition and management of data. The course will use diverse data types and formats to illustrate conceptual challenges across disciplines. Technical aspects will include evolving approaches to script-based web scraping, file formats and conversions, data mergers and tidying, meta-data organization and capture. In parallel, the course will cover theoretical and ethical aspects of data curation and access policies, development of best practices for research data management and case studies in secure management of sensitive or private data.(Format: Integrated Lecture and Laboratory 3 Hours)

DATA4001 (3.00 CR)
ADVANCED METHODS IN DATA SCIENCE

Prereq: MATH 1311; 3 credits from DATA 3001, 3101; or permission of the Department

This course introduces advanced methods of data curation, data analysis and data visualization. It explores advanced techniques for curating data from unstructured sources, visualization and analysis techniques for unstructured data sources (including, but not limited to word clouds, similarity metrics, leveraging natural language models for quantitative analysis, etc.), and the foundations of Bayesian data analysis. This course will use a variety of programming environments and languages. (Format: Lecture 3 Hours) (Exclusion: Any version of DATA 4001 previously offered with a different title)

DRAMA STUDIES

Students at Mount Allison with an interest in drama have several options open to them. In all cases, the programs are designed to provide an education in drama rather than professional training for the theatre.

Interdisciplinary B.A. Programs

MINOR in Drama is 24 credits earned as follows:

3	from DRAM/ENGL 1701
6	from DRAM 2151, 3141, 3161

The following are particularly recommended: COMM 3271 (if not counted in the core courses), 4301; DRAM 3201 (if not counted in the core courses), DRAM 3301 (if not counted in the core courses, or toward Dramatic Literature), 4011*, 1991-4991; English credits at the 1000 level, ENGL 3621, 3850, 3851, 3871; FINA 1921, 1931, ARTH/MUSE 2101, ARTH/MUSE 2111; FREN 2601, 2801, 3801; GERM 2601, 2701; MUSC 1991-4991, 1001, 1011, 1101, 1111, 3201, 3271, 3301; SOCI 3451; and from the following courses when their subject is appropriate: CANA 1991-4991, 4601, 4951; ENGL 1991-4991; FREN 4951; GERM 1991-4991, 4950/4951; SPAN 1991-4991, 4950/51

Note: Students may take DRAM 4011 and 4950-51 more than once provided the topic differs.

MINOR in Screen Studies and Popular Culture is 24 credits earned as follows:

9	from SCRN 1001, 4001, 4011, 4031, 4950, 4951, SCRN/ENGL 2001

15 from ARTH 4091*, CANA 2211, ENGL 3621, FREN 2801, GERM 2701, RELG 1661, 3971, SCRN 1991, 2991, 3001, 3111, 3991, 4991, SCRN/ENGL 2101, SOCI 3451, 3811

Note: At least 6 credits must be completed from courses at the 3/4000 level.

Note: *Acceptable only in years when the Program Director approves that the content is relevant to the Minor.

Note: Students are responsible for ensuring that they have prerequisites for 2/3/4000 level courses.

Note: Students considering this minor should consult as early as possible with the Program Director regarding course planning for the prescribed program.

DRAMA COURSES

With the exceptions below, all descriptions of Drama courses available are given in the appropriate course description section. The only interdisciplinary drama courses offered are described below.

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

DRAMA COURSES

DRAM1701 (3.00 CR)
INTRODUCTION TO DRAMA STUDIES

This course introduces conventions, forms, and devices of drama as they emerge under, and respond to, specific theatrical and cultural conditions. [Note 1: This course is cross-listed as ENGL 1701 and may be taken as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: DRAM/ENGL 2021)

DRAM1991 (3.00 CR)
SPECIAL TOPIC IN DRAMA

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for DRAM 1991 more than once, provided the subject matter differs.] (Format: Variable)

DRAM2111 (3.00 CR)
PLAYWRITING AND DRAMATURGY

Prereq: DRAM/ENGL 1701; or permission of the Program Director

This course explores the nuts and bolts of dramatic structure to understand what makes for a 'good' play, why we tell certain stories, and how playwrights craft their work. Learning opportunities include play analysis, creative writing, and direct engagement with professional Canadian playwrights. The course balances dual priorities of playwriting (creative activity, analysis, reading, discussion) and dramaturgy (understanding of play structure and how to give and receive critical feedback). [Note 1: This course is cross-listed with ENGL 2111 and may therefore count as three credits in either discipline.] (Format: Lecture/Workshop 3 Hours) (Exclusion: DRAM/ENGL 2991 Playwriting and Dramaturgy)

DRAM2151 (3.00 CR)
INTRODUCTION TO ACTING

Prereq: DRAM/ENGL 1701; or permission of the Program Director

This course introduces the theory and practice of acting, and develops competence in script analysis and performance with a view to creating a dramatic role on stage. Dramatic improvisations and character and scene studies complement the exploration of the themes, structures, rhythms and subtext embedded in dramatic texts in order to prepare students for performance. (Format: Lecture/Workshop 3 Hours)

DRAM2991 (3.00 CR)
SPECIAL TOPIC IN DRAMA

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for DRAM 2991 more than once, provided the subject matter differs.] (Format: Variable)

DRAM3001 (3.00 CR)
DRAMA AND THEATRE THEORY

Prereq: DRAM/ENGL 1701; or permission of the Program Director

This course introduces seminal theories of theatre practice and aesthetics, as well as the nature of theatrical presentation and representation, theatre semiotics and communication, performer training, and questions of impersonation and embodiment, spectatorship and reception. The course aims to enrich students' awareness of how performance participates in the transmission of culture and explores the intersection of theory and praxis. (Format: Lecture/Workshop 3 Hours) (Exclusion: Any version of DRAM 3001 previously offered with a different title)

DRAM3141 (3.00 CR)
THEATRE PRODUCTION

Prereq: DRAM/ENGL 1701; or permission of the Program Director

This course provides a multidisciplinary introduction to what makes theatre happen behind the scenes. It covers the foundations of stage and production management, set construction, sound and lighting setup and operation, and other roles in theatre production. The course focuses on communication frameworks and strategies as they are applied in the Motyer-Fancy Theatre, and scalable to different environments. (Format: Lecture/Workshop 3 Hours) (Exclusion: DRAM 2161)

DRAM3151 (3.00 CR)
PRINCIPLES OF DIRECTING

Prereq: DRAM 2151; or permission of the Program Director

This course introduces students to the theory and practice of directing, diverse models of the director's role in the theatrical process, script analysis for directorial purposes, study of staging techniques, and techniques for working with actors. (Format: Lecture/Workshop 3 Hours) (Exclusion: DRAM 3051)

DRAM3161 (3.00 CR)
THEATRE DESIGN

Prereq: DRAM/ENGL 1701; or permission of the Program Director

This course explores set design, costume design, expanded scenography and historical research in support of theatrical design. (Format: Lecture/Workshop 3 Hours) (Exclusion: DRAM 3061; any version of DRAM 3161 previously offered with a different title)

DRAM3171 (3.00 CR)
ADVANCED ACTING

Prereq: DRAM 2151; or permission of the Program Director

This course focuses on approaches to character creation and acting styles across diverse theatrical forms. It explores advanced acting techniques and principles as a way to approach non-realist dramatic literature and types of performance with a special emphasis on developing the students' knowledge and understanding of style in performance. (Format: Integrated Lecture and Workshop 3 Hours) (Exclusion: Any version of DRAM 3171 previously offered with a different title)

DRAM3201 (3.00 CR)
TRENDS IN CONTEMPORARY THEATRE

Prereq: DRAM/ENGL 1701; or third-year standing in the Interdisciplinary Drama Program; or permission of the Program Director

This course introduces students to late twentieth and early twenty-first century theatre practice. It complements the investigation of contemporary postdramatic theatre and its methods with study of historical and cultural influences as well as seminal theories of performance that inform the work of selected theatre makers, performance artists, directors, scenographers, and actors. (Format: Lecture/ Workshop 3 hours) (Exclusion: DRAM 3991 Trends in Stage Performance; any version of DRAM 3201 previously offered with a different title) (Format: Lecture/ Workshop 3 Hours)

DRAM3301 (3.00 CR)
INTERCULTURAL THEATRE AND DRAMA

Prereq: DRAM 1701; third-year standing in the Interdisciplinary Drama Program; or permission of the Program Director

This course investigates contrasting historical perspectives on interculturalism and examines dramatic literature, theatrical productions, and types of performance research as representative of different approaches to the bridging of cultures. It explores the contributions drama and theatre make to the evolution of individual and community identities, and engages topics such as cultural exchange, cultural imperialism, colonialism, cultural appropriation, cultural nationalism, ethno-centrism, cosmopolitanism, universalism, post-colonialism, diaspora, transnationalism, and cultural syncretism. (Format: Lecture 3 Hours) (Exclusion: DRAM 2991, 3991- Intercultural Theatre and Drama -15/WI, 16/FA)

DRAM3841 (3.00 CR)
MODERN CANADIAN DRAMA

Prereq: DRAM 1701; 3 credits from ENGL at the 2000 level or third-year standing in the Interdisciplinary Drama Program; or permission of the Program Director

This course explores developments in Canadian theatre from the mid-1960s by looking at representative playwrights, plays, theatres, and movements. (Format: Lecture 3 hours) (Exclusion: ENGL 3991 Modern Canadian Drama)

DRAM3991 (3.00 CR)
SPECIAL TOPIC IN DRAMA

Prereq: DRAM 1701; third-year standing in the Interdisciplinary Drama Program; or permission of the Program Director

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for DRAM 3991 more than once, provided the subject matter differs.] (Format: Variable)

DRAM4011 (3.00 CR)
ADVANCED THEATRICAL INTERPRETATION

Prereq: Third-year standing in a Drama program; or permission of the Program Director

This course involves projects in areas such as acting, directing, writing, and design as assigned by the Director of Drama. DRAM 4011 projects may be assigned within the Motyer-Fancy Theatre season or may be community-centred including but not limited to engagement with professional companies, local schools, and other community groups. Written and/or visual materials support artistic outcomes as appropriate. [Note 1: Students may register for DRAM 4011 more than once, provided the subject matter differs.] (Format: Independent Study)

DRAM4021 (3.00 CR)
COMEDY OF MENACE

Prereq: Third-year standing; DRAM/ENGL 1701; or permission of the Program Director

This course examines the sub-genre of Comedy of Menace in its original historical context via the works of Harold Pinter and selected contemporaries, its evolution from Theatre of the Absurd, and its appearance and influence in twenty-first century drama and storytelling. (Format: Seminar/Workshop 3 Hours) (Exclusion: DRAM 4991 Comedy of Menace)

DRAM4950 (6.00 CR)
INDEPENDENT STUDY IN DRAMA

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for DRAM 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

DRAM4951 (3.00 CR)
INDEPENDENT STUDY IN DRAMA

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Note 3: Students may register for DRAM 4991 more than once, provided the subject matter differs.] (Format: Variable)

DRAM 2559 (1.00 CR) Professional Development:

Prereq: DRAM 1701; or permission of the Program Director.

This course focuses on skillsets that will benefit students in professional environments. Course content relates to grant writing, professional behavioural standards, communication skills, emotional intelligence, basic research methodologies, the non-profit sector, organizational structures, and collaboration. (Format: Lecture/Workshop 3 hours)

DRAM 3669 (1.00 CR) and DRAM 4669 (1.00 CR) Production Practicum:

Prereq: DRAM 1701; 3 credits from DRAM 3141, 3161 (may be taken as a co-requisite).

This course allows students to focus on developing skills and practical experience in areas of theatre production such as costume or set design and construction, lighting, stage-management, or front-of-house. [Note 1: Students registered for DRAM 3011 or 4011 projects related to a Motyer-Fancy Theatre production, as well as students engaged as paid theatre assistants, cannot also receive Production Practicum credit for that same production work.] (Format: Experiential)

SCREEN STUDIES COURSES

SCRN1001 (3.00 CR)
INTRODUCTION TO SCREEN STUDIES

This course introduces the study of film and television from critical and technical perspectives. It explores how film and television are made, and industrial, cultural, political, and social factors that influence television and filmmaking, as well as various styles and genres. This course familiarizes students with the vocabulary of screen studies by examining topics such as directing, editing, mise-en-scene, costume, lighting, framing, composition, genre, and various modes of representation. By understanding how film and television work, students can interpret the ways that films, shows, series, and documentaries can inform, entertain, manipulate, or captivate the viewer. (Format: Lecture 3 Hours) (Exclusion: DRAM 1001)

SCRN1991 (3.00 CR)
SPECIAL TOPIC IN SCREEN STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for SCRN 1991 more than once, provided the subject matter differs.] (Format: Variable)

SCRN2001 (3.00 CR)
ADAPTATION STUDIES: PAGE TO SCREEN

Prereq: SCRN 1001; or 3 credits from ENGL 1201, 1801; or permission of the Department

This course is an introduction to adaptation studies: the study of how narrative is reinterpreted from one medium (often text-based) to another (often visual-based). It introduces the specific aesthetics of film and television as compared to other media, including text and stage. Students will identify and develop discourse around key features of adaptation such as interpretation, evaluation, point of view, and characterization. This course also broadens students' understanding of the historical, political, cultural, and social contexts that impact interpretation, and determine how narratives are re-evaluated, manipulated, and redeployed to reflect dominant cultural values across different moments in history. This course introduces aspects of interpretation that are generally overlooked in mainstream film studies by using a range of different media, including novel excerpts, graphic novels, stage plays, video games, film, and TV. [Note 1: This course is cross-listed with ENGL 2001 and may therefore count as three credits in either discipline.] (Format: Lecture 3 hours) (Exclusion: DRAM 2001)

SCRN2101 (3.00 CR)
SCREENWRITING

Prereq: Second-year standing; SCRN 1001; or permission of the Program Director

This course is an introduction to the technical and creative aspects of screenwriting. The emphasis will be primarily on character development, dramatic structure, visual language, and plot design. Upon successful completion of this course, students will have learned the basic structures of writing for the screen. Learning outcomes will include the ability to provide critical feedback to other writers; receive critical feedback for your own writing; provide coverage (analysis) of screenplays; and develop the fundamental skills and processes of writing for the visual medium. Additionally, the course looks at the role of the screenwriter in the filmmaking industry. [Note 1: This course is cross-listed as ENGL 2101 and may be taken as three credits in either discipline.] (Format: Lecture/Workshop 3 Hours) (Exclusion: ENGL/SCRN 2991 Screenwriting)

SCRN2991 (3.00 CR)
SPECIAL TOPIC IN SCREEN STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for SCRN 2991 more than once, provided the subject matter differs.] (Format: Variable)

SCRN3001 (3.00 CR)
MADNESS AND MONSTROSITY

Prereq: Third-year standing; SCRN 1001; or permission of the Program Director

This course examines themes of 'madness' and 'monstrosity' as depicted in film, television, and the media. It explores the ways in which historical notions of hysteria and monstrosity, gender inequality, the patriarchy, and prejudicial medicine continue to infiltrate representations of mental illness on screen. Through frameworks such as gothic feminism, the medical humanities, social (in)justice, neurodiversity, and the concept of the 'other', this course interrogates both historical and contemporary notions of mental illness, neurodiversity, gender and cultural norms through the lens of screen media. (Format: Lecture/Seminar 3 Hours) (Exclusion: SCRN 3991 Madness and Monstrosity; DRAM 2991 Mental Health on Screen)

SCRN3111 (3.00 CR)
HORROR STORIES

Prereq: Third-year standing; SCRN 1001; or permission of the Program Director

This course introduces the foundations of horror on screen, examining its major forms, themes, and stylistic conventions across both classic and contemporary screen media. Horror is one of the most enduring and dynamic genres in the history of film and television. With its roots in mythology, fairy tales, gothic literature, feminism, and psychoanalysis, horror continues to both unsettle and captivate audiences with stories of vampires, ghosts, zombies, werewolves, serial killers, and other "monstrous" figures. More than a source of fear and shock, horror serves as a powerful cultural lens through which societies confront their deepest anxieties and fears about technology, religion, politics, gender and sexuality, sexism and misogyny, diversity, otherness, and the environment. (Format: Lecture/Seminar 3 Hours) (Exclusion: SCRN 3991 Horror Stories)

SCRN3991 (3.00 CR)
SPECIAL TOPIC IN SCREEN STUDIES

Prereq: Third-year standing in the Interdisciplinary Drama Program; SCRN 1001; or permission of the Program Director

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for SCRN 3991 more than once, provided the subject matter differs.] (Format: Variable)

SCRN4001 (3.00 CR)
SELECTED TOPICS IN THE HISTORY, SOCIAL, OR CULTURAL AREAS OF SCREEN STUDIES

Prereq: Third-year standing; SCRN 1001; SCRN/ENGL 2001; or permission of the Department

This course examines closely one or more texts and themes from the historical, social, or cultural aspect of Screen Studies. Specificity will vary from term to term as will topics, depending on the discretion of the instructor. [Note 1: Permission of the Program is required. Note 2: Students may register for SCRN 4001 more than once, provided the subject matter changes.] (Format: Seminar 3 hours) (Exclusion: DRAM 4001)

SCRN4011 (3.00 CR)
ADVANCED SCREEN INTERPRETATION

Prereq: Third-year standing in a Drama program; or permission of the Program Director

This course involves experiential creative projects in the areas of Screen Studies and Popular Culture such as filmmaking, storyboarding, editing, writing, and adapting or as approved by the Program Director. Written and/or audio-visual material support artistic outcomes as appropriate. [Note 1: students may register for SCRN 4011 more than once, provided the subject matter differs for each course.] (Format: Independent Study)

SCRN4031 (3.00 CR)
TRUE CRIME IN THE MEDIA

Prereq: Third-year standing; SCRN 1001; or permission of the Department

This course examines a range of true crime events as depicted on screen. It explores the ways in which our understandings of real-life crime are habitually filtered through the media in the form of films, TV series, docuseries, podcasts, news and social media. Through various case studies, this course explores the 'true crime' phenomenon through a variety of critical frameworks, including the ethics of representation; the legal system; criminal profiling; criminal psychology; historical and contemporary journalism; fan culture; social history and discrimination. By interrogating the complex relationship between true crime and popular culture, students will gain critical insights into the field of true crime. (Format: Lecture/Seminar 3 Hours) (Exclusion: SCRN 4001 True Crime)

SCRN4950 (6.00 CR)
INDEPENDENT STUDY IN SCREEN STUDIES

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for SCRN 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

SCRN4951 (3.00 CR)
INDEPENDENT STUDY IN SCREEN STUDIES

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. SCRN4991 (3.00 CR)
SPECIAL TOPIC IN SCREEN STUDIES

Prereq: Fourth-year standing in the Interdisciplinary Drama Program; SCRN 1001; or permission of the Program Director

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for SCRN 4991 more than once, provided the subject matter differs.] (Format: Variable)

ECONOMICS

Every society must in some way determine what goods and services its members will produce, and to what extent each person can claim a portion of this flow of output. Our Canadian society relies primarily, although not completely, upon a system of variable money prices, a market economy, to resolve the questions of production and distribution.

Much of the study of economics consists of examining the operation of market economies to discover regularities of behaviour, ultimately in the expectation that through better understanding society will be able to remedy undesirable results and achieve better ones. Such a study logically includes looking at the historical evolution of modern economies (economic history), the evolution of thinking about economic systems (economic thought), the operation of markets (microeconomics), the aggregate flows of output (macroeconomics), the operation of the money system (money and banking), economic relationships with other societies (international economics) and so on. Instruction on such topics emphasizes understanding.

To achieve understanding means moving into the seemingly abstract realm of theory, analysis and technical terms. Little attention is paid to description or factual memorization. Students planning to concentrate on economics will find mathematics a valuable complementary study. Those who dislike mathematics or who do poorly in it usually encounter difficulties in economics.

Disciplinary B.A. Programs

MINOR in Economics is 24 credits earned as follows:

6 from ECON 1001 and 1011
18 from Economics, including 6 from the 3/4000 level, chosen in consultation with the Program Advisor

MAJOR in Economics is 60 credits earned as follows:

21 from ECON 1001, 1011, 2001, 2011, 2101, 2111, 2701
3 from ECON 1701, MATH 1311
3 from MATH 1111, 1151
6 from COMM 2101, COMP 1631, MATH 1121, 2221
18 from Economics at the 3/4000 level
9 from complementary courses, chosen in consultation with the Program Advisor

Note:

1. COMM 3411, 3501, 4501, 4521, and 4541 may be designated as Economics electives for students taking a Joint Major in Computer Science and Economics, a Major, Minor or Honours in Economics or the Major or Honours in Philosophy, Politics, and Economics.
2. ECON 3201, 3211, 3301, 3601, 3711, 3921, 4501, 4521, 4611, 4621, 4711, 4721, 4801, 4811, 4821, 4990, and COMP 3851 are Commerce electives for students taking a Bachelor of Commerce or a Major or Minor in Commerce.
3. Students considering upper level courses in Economics are encouraged to complete MATH 1151 or 1111, and MATH 1121 early in their degree programs.

Note: See also the Interdisciplinary Minor in International Economics and Business

HONOURS PROGRAM

Honours in Economics may be completed in both Arts and Commerce Degree Programs. For Honours under the B.A. please see the section below; for Honours under the B.Comm. please see section 11.5.9. Students who plan to pursue graduate studies in Economics are advised to include Economics 4711, 4721, 4801, 4811, 4821 and courses in Calculus, Linear Algebra (Mathematics 2221) and Statistics (Mathematics 3311, 4311) from the Mathematics Department. Other courses in Mathematics are also valuable. Students should seek advice from a member of the Department of Economics when deciding on a program of study.

HONOURS in Economics is 72 credits earned as follows:

51 credits as in the first five lines of the Major, plus:
12 from ECON 4001, 4011, 4711, 4721, 4801, 4811, 4821, 4990
9 from Economics at the 3/4000 level, or PHIL 2611, 3631, or Mathematics and Computer Science (except MATH 1011, 1251 and 2321; and COMP 1631) chosen in consultation with the Economics Program Advisor

Interdisciplinary B.A. Program

B.A. JOINT MAJOR in Computer Science and Economics is 81 credits earned as follows:

18 from COMP 1631, 1731, 2211, 2611, 2711, 2931
9 from COMP 3611, 3811, 3851
6 from COMP at the 3/4000 level, chosen in consultation with the CS Program Advisor
3 from MATH 1111, 1151
6 from MATH 1121, 2221
21 from ECON 1001, 1011, 2001, 2011, 2101, 2111, 2701
3 from ECON 1701, MATH 1311
6 from ECON 4711, 4721
9 from Economics at the 3/4000 level

Note: Students in the BA Joint Major in Computer Science and Economics are required to integrate knowledge in both Economics and Computer Science in the research project component of ECON 4721.

B.A. HONOURS in Economics and Mathematics (Course Option) is 81 credits earned as follows:

21 from ECON 1001, 1011, 2001, 2011, 2101, 2111, 2701
3 from MATH 1111, 1151
15 from MATH 1121, 2111, 2121, 2211, 2221
3 from ECON 1701, MATH 1311
3 from COMP 1631
6 from MATH 3111, 3211
12 from ECON 4711, 4721, 4801, 4811, 4821
6 from ECON at the 3/4000 level
12 from MATH at the 3/4000 level

B.A. HONOURS in Economics and Mathematics (Thesis Option) is 81 credits earned as follows:

63 as in the first seven lines of the BA Honours (Course Option)
12 from MATH at the 3/4000 level
6 from ECON 4990 or MATH 4990

ECONOMICS COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

ECON1001 (3.00 CR)
PRINCIPLES OF MICROECONOMICS

This course introduces the study of Economics and the nature of microeconomic problems including the behaviour of consumers and firms in different markets, and the results of their actions as manifested in production, costs, and prices, market efficiency, and market failure. [Note 1: Students should normally have completed a university preparatory level course in Mathematics.] (Format: Lecture 3 Hours, Tutorial 1 Hour) (Exclusion: ECON 1000)

ECON1011 (3.00 CR)
PRINCIPLES OF MACROECONOMICS

This course introduces the study of Economics and the nature of macroeconomic problems such as the determinants of the level of national income, employment, and the accompanying stabilization problems and policies. Topics also include money and banking, international trade, exchange rates, and the problems of inflation. [Note 1: Students should normally have completed a university preparatory level course in Mathematics.] (Format: Lecture 3 Hours, Tutorial 1 Hour) (Exclusion: ECON 1000)

ECON1701 (3.00 CR)
OBSERVATIONAL DATA ANALYSIS

This course introduces students to statistical concepts used in the examination of data generated in uncontrolled environments with particular emphasis on investigating social and economic phenomena. Topics include data collection, descriptive statistics, probability concepts, statistical estimation, and hypothesis testing. (Format: Lecture 3 Hours)

ECON1991 (3.00 CR)
SPECIAL TOPIC IN ECONOMICS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for ECON 1991 more than once, provided the subject matter differs.] (Format: Variable)

ECON2001 (3.00 CR)
INTERMEDIATE MICROECONOMICS I: EXCHANGE AND CONSUMER DECISIONS

Prereq: ECON 1001; or permission of the Department

This course presents microeconomic theory and its applications relating to consumer decisions. Topics covered include: scope and method of microeconomics; demand and consumer behaviour; choices under uncertainty; intertemporal decisions making; asymmetric information; externalities and public goods; and exchange equilibrium and economic efficiency. (Format: Lecture 3 Hours) (Exclusion: Any version of ECON 2001 previously offered with a different title)

ECON2011 (3.00 CR)
INTERMEDIATE MICROECONOMICS II: MARKETS AND PRODUCER DECISIONS

Prereq: ECON 1001; or permission of the Department

This course presents microeconomic theory and its applications relating to producer decisions. Topics include: the theory of production and cost; profit maximization and competitive supply; pricing with market power; monopoly and monopsony; monopolistic competition and oligopoly; game theory and strategic interactions; markets for inputs and income distribution; markets and asymmetric information; analysis of markets and effects of government policies; and the theory of the firm and team production. (Format: Lecture 3 Hours) (Exclusion: any version of ECON 2011 previously offered with a different title)

ECON2101 (3.00 CR)
INTERMEDIATE MACROECONOMICS I

Prereq: ECON 1011; or permission of the Department

This course presents theories of national income, employment, inflation, balance of payments, and stabilization policy within the framework of macroeconomic models of an open economy. It focuses on short-run macroeconomic analysis and policy. (Format: Lecture 3 Hours)

ECON2111 (3.00 CR)
INTERMEDIATE MACROECONOMICS II

Prereq: ECON 2101; or permission of the Department

This course is a continuation of macroeconomic analysis in the context of the long-run. Topics include long-run consumption functions, investment and real business cycles, economic growth and productivity, and the monetary theories of the classical economists, Keynes, and Friedman. (Format: Lecture 3 Hours)

ECON2301 (3.00 CR)
ECONOMIC ISSUES IN CANADIAN PUBLIC POLICY I

Prereq: 6 credits from Social Sciences; or permission of the Department

This course introduces analytical methods used by social scientists examining Canadian social and economic policy by studying issues that arise perennially. Topics may include: unemployment and government policy, Canada and the global economy, social security reform, regionalism, education policy, health policy, and inflation. (Format: Lecture 3 Hours) (Exclusion: Any version of ECON 2301 previously offered with a different title)

ECON2311 (3.00 CR)
ECONOMIC ISSUES IN CANADIAN PUBLIC POLICY II

Prereq: 6 credits from Social Sciences; or permission of the Department

This course provides a critical study of current debates on economic and social policy in Canada. (Format: Lecture 3 Hours) (Exclusion: Any version of ECON 2311 previously offered with a different title)

ECON2401 (3.00 CR)
FREAKONOMICS

Prereq: Second-year standing; or permission of the Department

This course considers how the economic approach can be used to analyze social issues that are beyond the usual scope considered by economists. It explores unintended consequences of economic and social policies as applied in situations not traditionally examined in economics including sex work, drug trade, and teacher cheating. (Format: Lecture 3 Hours) (Exclusion: ECON 2991 Freakonomics)

ECON2701 (3.00 CR)
INTRODUCTION TO ECONOMETRICS

Prereq: ECON 1001; ECON 1011; 3 credits from ECON 1701, MATH 1311; or permission of the Department

This course introduces statistical tools for handling data generated in uncontrolled environments and the techniques involved in their use. Topics include estimation and inference of single- and multi-variable regression models, large sample techniques, dummy variables, heteroskedasticity, and an introduction to times series. (Format: Lecture 3 Hours) (Exclusion: Any version of ECON 2701 previously offered with a different title)

ECON2991 (3.00 CR)
SPECIAL TOPIC IN ECONOMICS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for ECON 2991 more than once, provided the subject matter differs.] (Format: Variable)

ECON3101 (3.00 CR)
LAW AND ECONOMICS

Prereq: ECON 1001; ECON 1011; or permission of the Department

This course introduces the economic analysis of law, the role of economics in legal debates, and the role of law in economic exchange. It examines economic aspects of social and legal issues and policies in regional, national and international contexts. Topics may include: property, contracts, torts, environmental law, and the economics of crime and punishment. (Format: Lecture 3 Hours)

ECON3111 (3.00 CR)
HEALTH ECONOMICS

Prereq: ECON 1001; ECON 1011; or permission of the Department

This course introduces economic issues in the health care system. It examines applications of economic principles and empirical analysis to the study of health and health policies in Canadian and International contexts. Topics may include: the demand for health care, the supply of health services through health practitioners and hospitals, the economic effects of health insurance, pharmaceutical markets, economic evaluation techniques for health, health technology assessment and public policy formulation. (Format: Lecture 3 Hours)

ECON3201 (3.00 CR)
MONEY, BANKING, AND THE CANADIAN FINANCIAL SYSTEM: MICROECONOMIC PERSPECTIVES

Prereq: ECON 1001; ECON 1011; or permission of the Department

This course covers microeconomic aspects of the Canadian financial system. One main focus of the course is on financial instruments, the markets in which they are traded, and the economic role that these markets play. The other main focus is on Canadian financial institutions, the activities in which they engage, and the economic roles they play. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture 3 Hours)

ECON3211 (3.00 CR)
MONEY, BANKING, AND THE CANADIAN FINANCIAL SYSTEM: MACROECONOMIC PERSPECTIVES

Prereq: ECON 1001; ECON 1011; or permission of the Department

This course covers macroeconomic aspects of the Canadian financial system. These include central banking, and the conduct and mechanics of monetary policy. The international financial system is also covered. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture 3 Hours)

ECON3301 (3.00 CR)
INTRODUCTION TO GAME THEORY

Prereq: 6 credits from ECON 1001, 1011; or 3 credits from MATH 1111, 1151; or permission of the Department

This course introduces the basic tools and methods of Game Theory. Game Theory is a mathematically oriented approach to understanding the strategic interaction of self-interested agents. Emphasis is on non-cooperative games. Topics include backwards induction, iterative deletion of dominated strategies, Nash equilibrium, repeated games, some equilibrium refinements, evolutionary game theory, and Bayesian Nash equilibria. [Note 1: This course is cross-listed as MATH 3301 and therefore may count as 3 credits in either discipline. Note 2: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce] (Format: Lecture 3 hours, Laboratory 1 Hour)

ECON3401 (3.00 CR)
SURVEY RESEARCH METHODS

Prereq: 6 credits from Social Sciences; 3 credits from ECON 1701, MATH 1311, PSYC 2011, GENS 2431, BIOL 2701; or permission of the Department

This course introduces students in social science disciplines to survey research methods. This involves the complete survey development process, including the development and administration of a survey questionnaire, sample selection, statistical analysis, and collaboration with survey developers and parties interested in the survey administration. It also covers presentation techniques (Format: Lecture 3 Hours) (Exclusion: ECON 4981 Data Analysis I; ECON 4981 Data Analysis II; ECON 4981 Data and Research)

ECON3501 (3.00 CR)
ECONOMIC GROWTH AND TECHNOLOGICAL CHANGE

Prereq: ECON 1001; ECON 1011; or permission of the Department

This course covers economic theories of economic growth and technological change and their application in the study of the historical evolution of the world economy. Historical sections of the course selectively cover materials on Canada, the US, Europe, Asia, and the developing world. (Format: Lecture 3 Hours)

ECON3601 (3.00 CR)
PRINCIPLES OF COST-BENEFIT ANALYSIS

Prereq: ECON 2001; or permission of the Department

This course examines the use of economic theory in the assessment of public sector regulations and projects. Topics include the measurement of social costs and social benefits, shadow pricing, and the choice of discount rate. The course relies heavily on concrete examples such as transportation infrastructure, medical services, environmental protection and hydro development. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture 3 Hours)

ECON3711 (3.00 CR)
LABOUR MANAGEMENT RELATIONS

Prereq: ECON 1001; ECON 1011; or permission of the Department

An introduction to the history and institutions of the North American industrial relations system. Topics include: labour management techniques used by firms; unions and union strategies; government regulation of pay and working conditions; and the structure of collective bargaining. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture 3 Hours)

ECON3721 (3.00 CR)
LABOUR ECONOMICS

Prereq: ECON 2001; or permission of the Department

This course introduces labour economics. Topics include the demand and supply of labour, the Canadian labour market and income distribution, unemployment, poverty, and discrimination in Canada. (Format: Lecture 3 Hours)

ECON3801 (3.00 CR)
ENVIRONMENTAL ECONOMICS

Prereq: ECON 1001; ECON 1011; or permission of the Department

This course presents the application of economic analysis in the study of environmental problems. It examines when and why markets often fail to allocate sufficient resources to environmental conservation, and critically assess different policy instruments available to correct for the fundamental "market failure". Using the analytical methods, it examines the following types of policies: measures to control air and water pollution, the disposal of hazardous wastes, the protection of endangered species, and the control of cross border pollution, including the Canadian "Green Plan". (Format: Lecture 3 Hours)

ECON3821 (3.00 CR)
NATURAL RESOURCE ECONOMICS

Prereq: ECON 2001; 3 credits from MATH 1111, 1151; or permission of the Department

This course examines the application of economic analysis to questions of management, use, and conservation of natural resources. It exposes students to economic theories used in the study of renewable and non-renewable resource industries. It pays particular attention to resource industries important to the Atlantic Canadian economy (the fishery, forestry, agriculture, mining, and energy). (Format: Lecture 3 Hours)

ECON3901 (3.00 CR)
INTERNATIONAL TRADE

Prereq: ECON 1001; ECON 1011; or permission of the Department

This course examines issues such as the pure economic theory of international trade and important institutions (the FTA, NAFTA, the EC, GATT, etc.), plus problems and policies associated with trade in goods and services. It also examines issues such as free trade and protectionism and the gains and losses resulting from globalization. (Format: Lecture 3 Hours)

ECON3921 (3.00 CR)
INTERNATIONAL FINANCE

Prereq: ECON 1001; ECON 1011; or permission of the Department

This course examines the financial side of international trade. The focus is on exchange rates, the balance of international payments, alternative means of adjustment to shocks in the international economy, and international monetary arrangements. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture 3 Hours)

ECON3991 (3.00 CR)
SPECIAL TOPIC IN ECONOMICS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for ECON 3991 more than once, provided the subject matter differs.] (Format: Variable)

ECON4001 (3.00 CR)
MODES OF CLASSICAL ECONOMIC THOUGHT

Prereq: ECON 1001; ECON 1011; 6 credits from ECON 2001, 2011, 2101, 2111, or 6 credits from ECON at the 3/4000 level, or 6 credits from PHIL 3000, 3221, 3231, 3250, 3301, 3311, 3311, 4111, 4211, or 6 credits from POLS 3001, 3011, 4000, 4011; or permission of the Department

This course focuses on the work of classical economists (especially Adam Smith, David Ricardo, and Thomas Malthus) and the economic theories of Karl Marx. (Format: Lecture 3 Hours)

ECON4011 (3.00 CR)
MODES OF ECONOMIC THOUGHT

Prereq: ECON 1001; ECON 1011; 6 credits from ECON 2001, 2011, 2101, 2111, or 6 credits from ECON at the 3/4000 level, or 6 credits from PHIL 3000, 3221, 3231, 3250, 3301, 3311, 4111, 4211, or 6 credits from POLS 3001, 3011, 4000, 4011; or permission of the Department

This course examines the historical origins of neo-classical, Austrian and Keynesian economic thought. (Format: Lecture 3 Hours)

ECON4501 (3.00 CR)
PUBLIC FINANCE: TAXATION AND FISCAL FEDERALISM

Prereq: ECON 2001; ECON 2011; or permission of the Department

This course examines positive and normative approaches to taxation and fiscal federalism with special emphasis on issues in Canadian Public Finance. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture 3 Hours)

ECON4521 (3.00 CR)
NORMATIVE ECONOMICS

Prereq: 12 credits from ECON 2001, 2011, 2101, 2111; or 3 credits from ECON at the 2/3/4000 level and 6 credits from ECON at the 3/4000 level; or permission of the Department

This course examines the criteria for making judgments on economic performance. It introduces and evaluates notions of efficiency, fairness, and distributive justice in economic outcomes. Topics include the measurement of economic inequality and poverty, value judgments in cost-benefit analysis, consistent collective decision making, and effective means of income redistribution. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture 3 Hours)

ECON4531 (3.00 CR)
ECONOMIC GROWTH AND DEVELOPMENT: JAPAN AND EAST ASIA

Prereq: 6 credits from ECON 1001, 2111; or ECON 3501; or permission of the Department

This course focuses on the economic performance of the economies of Japan, China, and other areas of eastern Asia, emphasizing historical and major current events. (Format: Lecture 3 Hours) (Exclusion: ECON 3531)

ECON4551 (3.00 CR)
INTERNATIONAL DEVELOPMENT

Prereq: 6 credits from ECON 1001, 2111; or ECON 3501; or permission of the Department

This course focuses on differences in the patterns of economic development in the world economy. It examines the developing world, national and international policies designed to improve the global distribution of income, and the economic development policies of the World Bank, the International Monetary Fund, and the United Nations. (Format: Lecture 3 Hours) (Exclusion: ECON 3551)

ECON4611 (3.00 CR)
INDUSTRIAL ORGANIZATION: THEORY

Prereq: ECON 2001; ECON 2011; 3 credits from MATH 1111, 1151; or permission of the Department

This course provides an overview of central theories of industrial organization, examining market power, the theory of the firm, and strategic behaviour, within classic and dynamic oligopoly theoretical frameworks. It makes explicit use of game theoretic techniques where appropriate. Topics may include: collusive and competitive behaviour, non-linear pricing, commitment and repeated games, and entry deterrence. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture 3 Hours) (Exclusion: ECON 3611)

ECON4621 (3.00 CR)
INDUSTRIAL ORGANIZATION: POLICY

Prereq: ECON 2001; ECON 2011; 3 credits from MATH 1111, 1151; or permission of the Department

This course examines the economics of vertical and horizontal constraints. It provides an introduction to regulatory economics and Canadian and International competition policy. Topics may include policy issues concerning the control of mergers, monopoly, predatory pricing, collusion, resale price maintenance, exclusive dealing, tying, and other contractual agreements, including restrictions on contracting agents. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture 3 Hours) (Exclusion: ECON 3621)

ECON4711 (3.00 CR)
ECONOMETRIC THEORY

Prereq: 6 credits from ECON 2701, MATH 2221; or 9 credits from MATH 2221, 3311, 4311; or permission of the Department

This provides a rigorous treatment of the linear regression model, with special attention paid to the statistical theory underlying estimation and inference. It also covers model design, functional form selection, bias, error structure, and consistent estimation. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture/Lab 3 Hours) (Exclusion: ECON 4700)

ECON4721 (3.00 CR)
APPLIED ECONOMETRICS

Prereq: ECON 4711; or permission of the Department

This course provides an introduction to applied econometrics through the carrying out of an independent research project. It introduces students to methods used in applied econometrics such as instrumental variables, panel estimation techniques, nonlinear models, and forecasting methods. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture/Lab 3 Hours) (Exclusion: ECON 4700)

ECON4801 (3.00 CR)
ADVANCED MICROECONOMIC THEORY

Prereq: ECON 2001; ECON 2011: ECON 2101; ECON 2111; MATH 1121; or permission of the Department

The course develops tools and techniques for analyzing problems in microeconomics. These include modern theories of the consumer and of the firm, general equilibrium, and welfare theorems. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce. Note 2: Although not required, the Economics Department recommends that students complete MATH 2111 and MATH 2221 prior to undertaking ECON 4801. Note 3: Honours students who wish to pursue graduate studies in economics are strongly advised to take this course.] (Format: Lecture 3 Hours) (Exclusion: Any version of ECON 4801 previously offered with a different title)

ECON4811 (3.00 CR)
ADVANCED MACROECONOMIC THEORY

Prereq: ECON 4801; or permission of the Department

This course introduces many of the models that form the foundation of modern macroeconomics, including growth, network, and search-and-matching models. The core organizing principle of the course is the concept of general equilibrium, emphasizing tools and techniques for deriving equilibrium properties of the models. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce. Note 2: Although not required, the Economics Department recommends that students complete MATH 2111 and MATH 2221 prior to undertaking ECON 4801. Note 3: Honours students who wish to pursue graduate studies in economics are strongly advised to take this course.] (Format: Lecture 3 Hours) (Exclusion: Any version of ECON 4811 previously offered with a different title)

ECON4821 (3.00 CR)
UNCERTAINTY AND STRATEGY IN ECONOMICS

Prereq: ECON 2001; ECON 2011; ECON 2101; ECON 2111; or permission of the Department

The course examines the roles played by uncertainty and asymmetric information in the allocation of resources. It also uses tools of probability theory to examine strategic interaction. Honours students who wish to pursue graduate studies in economics are strongly advised to take this course. [Note 1: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce.] (Format: Lecture 3 Hours)

ECON4891 (3.00 CR)
CAPSTONE IN PHILOSOPHY, POLITICS, AND ECONOMICS

Prereq: Fourth-year standing; 6 credits from ECON at the 3000 level or 6 credits from PHIL at the 3000 level or 6 credits from POLS at the 3000 level; or permission of the PPE Program Convenor

This is the capstone seminar course for the Philosophy, Politics, and Economics (PPE) Program and focuses on special topics not covered by the current course offerings in a department or program. Course material offers students an opportunity to draw on fundamental concepts from the contributing disciplines of the PPE Program. The course is open to students in other programs. [Note 1: Students may register for ECON 4891 more than once, provided the subject matter differs. Note 2: This course is cross-listed as PHIL 4891 and POLS 4891 and therefore may count as 3 credits in any of the three disciplines.] (Format: Seminar 3 hours)

ECON4950 (6.00 CR)
INDEPENDENT STUDY IN ECONOMICS

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for ECON 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

EDUC2001 (3.00 CR)
FOUNDATIONS OF EDUCATION

Prereq: Permission of the Department

This course is an orientation to professional practice in education. Learners will engage with foundational educational theories that shape educational practice, including differences between the banking model of education and problem-posing and social constructivist approaches. Learners will reflect on their own experiences in school, critically examining how their experiences, beliefs, values, and goals inform their teaching. The course also offers an introduction to essential components of teaching practice including the ethics of teaching, professional conduct and responsibilities, and critical reflection. (Format: Lecture 3 Hours)

EDUC2011 (3.00 CR)
EFFECTIVE TEACHING AND LEARNING

Prereq: Permission of the Department

This course focuses on practical elements of teaching and learning, enabling learners to develop skills in lesson planning, formative/summative assessment and evaluation, instructional strategies, providing effective feedback, and classroom management. The instructional design components of this course emphasize alignment of learning goals, activities, materials, and assessments. Course topics also include equity, diversity, and inclusion, Universal Design for Learning, and differentiation. (Format: Integrated Lecture and Lab 3 Hours)

EDUC2101 (3.00 CR)
TEACHING PRACTICUM I

Prereq: Permission of the Department

This course consists of a three-week placement in a K-12 school setting. Students will be placed with a cooperating teacher in the student's main teachable area. Field experiences generally take place in the Province of New Brunswick. [Note: Candidates for field placements must complete a Criminal Record Check and a Vulnerable Sector Check prior to the start of the internship.] (Format: Experiential)

EDUC3101 (3.00 CR)
TEACHING PRACTICUM II

Prereq: EDUC 2101; permission of the Department

This course consists of a three-week placement in a K-12 school setting. Students will be placed with a cooperating teacher in the student's second teachable area (i.e., cannot be in the same area as EDUC 2101). Field experiences generally take place in the Province of New Brunswick. [Note: Candidates for field placements must complete a Criminal Record Check and a Vulnerable Sector Check prior to the start of the internship.] (Format: Experiential)

EDUC3311 (3.00 CR)

Prereq: MUSC 1101; MUSC 1221; or permission of the Department

This course examines aspects of instruction in the elementary school classroom. Topics include lesson planning and pacing; navigating curriculum documents; finding and critically evaluating teaching resources; assessment and evaluation; classroom and behaviour management, maximizing student engagement; working with vulnerable populations; trauma-informed approaches; and professional ethics. The primary practical implementation of these concepts will be in the elementary school music classroom and will demonstrate interactive, play, and movement-based approaches drawn from Kodály, Dalcroze, and Orff methods. An introduction to classroom instruments (ukulele, recorder, barred instruments, percussion) is also included. [Note 1: This course is cross-listed as MUSC 3311 and may therefore count as three credits in either discipline] (Format: Lecture 3 Hours)

EDUC3401 (3.00 CR)
INDIGENOUS EDUCATION

Prereq: 3 credits from INDG 1001, CANA 1001, 1011; or 6 credits from CANA/INDG 2501, CANA/HIST/INDG 2801; or permission of the Program Director

This course explores historical and contemporary issues in Indigenous education. Topics may include traditional forms of education, colonial forms of education, Indigenous control of Indigenous education, as well as the indigenization of education. [Note 1: This course is cross-listed with INDG 3401 and SOCI 3401 and may therefore count as three credits in any of the three disciplines.] (Format: Lecture/Seminar 3 Hours)

EDUC3801 (3.00 CR)
EDUCATIONAL PSYCHOLOGY
Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course introduces selected principles, research findings, and theories of psychology considered relevant to teaching and learning. Topics include: human development and learning, including developmental changes; motivational and learning processes; exceptionalities and other individual differences; dynamics of social groups; and the evaluation of teaching and learning. [Note 1: This course is cross-listed with PSYC 3801 and may therefore count as three credits in either discipline. Note 2: Students enrolled in the BMusEd program will be admitted if they have completed 3 credits from PSYC at the 2000 level] (Format: Lecture 3 Hours)

EDUC4101 (3.00 CR)
TEACHING PRACTICUM III
Prereq: EDUC 3101; permission of the Department

This course is the first three weeks of a 12-week placement in a K-12 school setting. Students will be placed with a cooperating teacher in the student's main teachable area and will gradually move from observation and assisting in class to taking on increasing responsibility for teaching. (Format: Experiential)

EDUC4111 (3.00 CR)
TEACHING PRACTICUM IV
Prereq: EDUC 4101; permission of the Department

This course is a continuation of EDUC 4101 (i.e., the second three-week block of a 12-week placement). (Format: Experiential)

EDUC4121 (3.00 CR)
TEACHING PRACTICUM V
Prereq: EDUC 4111; permission of the Department

This course is a continuation of EDUC 4111 (i.e., the third three-week block of a 12-week placement). (Format: Experiential)

EDUC4131 (3.00 CR)
TEACHING PRACTICUM VI
Prereq: EDUC 4121; permission of the Department

[Note 1: This course is cross-listed as MUSC 4311 and may therefore count as three credits in either discipline] (Format: Lecture 3 Hours)

ENGLISH LITERATURES

The majority of students take at least one English course during their undergraduate career. While the curriculum focuses on literary study, students are encouraged to develop an appreciation for the English language that will stand them in good stead in all other fields of academic and professional endeavour. English is, in fact, a central study. The language is every student's essential instrument of understanding and expression, and the subject-matter of the literature touches on every area of human knowledge and experience. More and more, under the increasing threat in our society to the Humanities and the values they embody, the vital importance of English must be stressed. With urgent reason, English has become "the central humanity."

GENERAL DESCRIPTION OF THE ENGLISH PROGRAM

The 1000 level series courses offer an introduction to a variety of approaches to the reading of and writing about literature, using texts from a range of genres and periods. At the 2000 level, students may choose from introduction to literary periods courses, Shakespeare course, and Canadian and American literature courses. These courses provide foundation for the 3000 level courses. At the 3000 level students are offered courses in traditional periods of English literature, various national literatures including Canadian and American, Postcolonial literature, dramatic literature, creative writing, film, genre and cultural studies.

Normally taken only in the fourth year when students are best equipped to benefit from them, the "Selected Topics" courses of the 4000 series provide an opportunity for students and faculty to develop their special interests. While various topics are offered from year to year at the 4000 level, students can pursue individual study and research under supervision (4951: Independent Study).

DEPARTMENTAL ADVICE

At registration, students should consult with Departmental Program Advisors in the selection of courses.

Disciplinary B.A. Programs

It examines English Literature and its interaction with scientific and technological subjects in past and present societies. (Format: Lecture 3 Hours, Tutorials Time Arranged)

ENGL1201 (3.00 CR)
INTRODUCTION TO PRINCIPLES OF LITERARY ANALYSIS

This course, offered in several sections each year, introduces students to critical approaches to the reading of, and writing about, literature. Each section has its own reading list, set by the individual instructor and including a balanced representation of prose, fiction, poetry and drama, taken from a range of historical periods.[Note 1: Students who wish to pursue courses in English at the 2000 level and above must take ENGL 1201.] (Format: Lecture 3 Hours) (Exclusion: ENGL 1001)

ENGL1501 (3.00 CR)
INTRODUCTION TO POETRY

This course introduces the elements of poetry, including image, figure, rhythm, and form, and surveys outstanding achievements in the English tradition of poetry. (Format: Lecture 3 Hours) (Exclusion: ENGL 2011)

ENGL1701 (3.00 CR)
INTRODUCTION TO DRAMA STUDIES

This course introduces conventions, forms, and devices of drama as they emerge under, and respond to, specific theatrical and cultural conditions. [Note 1: This course is cross-listed as DRAM 1701 and may be taken as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: DRAM/ENGL 2021)

ENGL1801 (3.00 CR)
INTRODUCTION TO PROSE FICTION

This course examines the two major prose genres of the novel and the short story; selected examples of representative forms introduce students to the range and variety of both genres. (Format: Lecture 3 Hours) (Exclusion: ENGL 2031; ENGL 2041)

ENGL1851 (3.00 CR)
INTRODUCTION TO CREATIVE WRITING

This course offers an introductory seminar in creative writing, concentrating primarily on poetry and short fiction; it may also include work in other forms such as playwriting, creative non-fiction, and multi-media texts. (Format: Seminar 3 hours) (Exclusion: ENGL 1991 Intro Creative Writing)

ENGL1991 (3.00 CR)
SPECIAL TOPIC IN ENGLISH

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for ENGL 1991 more than once, provided the subject matter differs.] (Format: Variable)

ENGL2001 (3.00 CR)
ADAPTATION STUDIES: PAGE TO SCREEN

Prereq: SCRN 1001; or 3 credits from ENGL 1201, 1801; or permission of the Department

This course is an introduction to adaptation studies: the study of how narrative is reinterpreted from one medium (often text-based) to another (often visual-based). It introduces the specific aesthetics of film and television as compared to other media, including text and stage. Students will identify and develop discourse around key features of adaptation such as interpretation, evaluation, point of view, and characterization. This course also broadens students' understanding of the historical, political, cultural, and social contexts that impact interpretation, and determine how narratives are re-evaluated, manipulated, and redeployed to reflect dominant cultural values across different moments in history. This course introduces aspects of interpretation that are generally overlooked in mainstream film studies by using a range of different media, including novel excerpts, graphic novels, stage plays, video games, film, and TV. [Note 1: This course is cross-listed with SCRN 2001 and may therefore count as three credits in either discipline.] (Format: Lecture 3 hours) (Exclusion: DRAM 2001)

ENGL2101 (3.00 CR)
SCREENWRITING

Prereq: Second-year standing; SCRN 1001; or permission of the Program Director

This course is an introduction to the technical and creative aspects of screenwriting. The emphasis will be primarily on character development, dramatic structure, visual language, and plot design. Upon successful completion of this course, students will have learned the basic structures of writing for the screen. Learning outcomes will include the ability to provide critical feedback to other writers; receive critical feedback for your own writing; provide coverage (analysis) of screenplays; and develop the fundamental skills and processes of writing for the visual medium. Additionally, the course looks at the role of the screenwriter in the filmmaking industry. [Note 1: This course is cross-listed as SCRN 2101 and may be taken as three credits in either discipline.] (Format: Lecture/Workshop 3 Hours) (Exclusion: ENGL/SCRN 2991 Screenwriting)

ENGL2111 (3.00 CR)
PLAYWRITING AND DRAMATURGY

Prereq: DRAM/ENGL 1701; or permission of the Program Director

This course explores the nuts and bolts of dramatic structure to understand what makes for a 'good' play, why we tell certain stories, and how playwrights craft their work. Learning opportunities include play analysis, creative writing, and direct engagement with professional Canadian playwrights. The course balances dual priorities of playwriting (creative activity, analysis, reading, discussion) and dramaturgy (understanding of play structure and how to give and receive critical feedback). [Note 1: This course is cross-listed with DRAM 2111 and may therefore count as three credits in either discipline.] (Format: Lecture/workshop 3 Hours) (Exclusion: DRAM/ENGL 2991 Playwriting and Dramaturgy)

ENGL2201 (3.00 CR)
LITERARY PERIODS TO 1800

Prereq: ENGL 1201; or permission of the Department

This course presents an intensive survey of English literary history from Anglo-Saxon times to the late eighteenth century as well as training in the research methods of the discipline. FEMINIST AND GENDER STUDIES

Feminist and Gender Studies is an interdisciplinary program that investigates power from critical gender perspectives on social, cultural, economic, and political issues. Drawing on a substantial body of scholarship that challenges many of the assumptions and methods of traditional academic disciplines, Feminist and Gender Studies creates new perspectives from which all students may analyze such issues as work, health, sexuality, violence, family, race, class, and ethnicity. The curriculum of the Minor, Major, and Honours in Feminist and Gender Studies includes core courses in Feminist and Gender Studies and elective courses in the following Departments or Programs: Art History, Canadian Studies, Classics, Commerce, Drama, English, Fine Arts, Geography and Environment, History, International Relations, Modern Languages and Literatures, Music, Philosophy, Political Science, Psychology, Religious Studies, and Sociology. The core courses provide an introduction to the principles of Feminist and Gender Studies as well as a more advanced study of the theoretical and methodological approaches of feminism.

FEMINISM BEYOND BORDERS: TRANSNATIONAL FEMINIST PRAXIS

Prereq: Second-year standing; or 3 credits from FGST 1001 or WGST 1001; or permission of the Program Director

This course explores transnational feminist praxis with, within, and beyond the institution of the modern nation-state. Course materials draw from the rich history of anti-racist, anticolonial, and anti-imperial feminist theory and practice. Specific course topics vary from year to year, but include: transnational surrogacy, sex work, migrant labour, care work, prisons, mining, tourism, climate action, war, militarization, and more. Course materials include scholarly texts as well as videos, blog posts, visual and performance art, and materials produced by and for transnational feminist activism. (Format: Lecture/Discussion) (Exclusion: WGST 2991 Feminism Beyond Borders)

FGST2991 (3.00 CR)
SPECIAL TOPIC IN FEMINIST AND GENDER STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for FGST 2991 more than once, provided the subject matter differs.] (Format: Variable)

FGST3111 (3.00 CR)
FEMINIST THEORIES

Prereq: 3 credits from FGST 1001, 1991, WGST 1001, 1991; 3 credits from FGST 2101,2201, 2991, WGST 2101, 2201, 2991; or permission of the Program Director

This course provides a comparative and critical analysis of various feminist theories developed as explanatory frameworks for the understanding of gendered and other divisions within society. It surveys a range of feminist theoretical traditions, traces the emergence and transformation of central feminist concepts, and investigates the connections between theory and political practice. It examines theoretical frameworks that may include: Black feminist thought, anti-racist and postcolonial feminism, queer theory, trans theory, theories of embodiment, transnational feminist theory, psychoanalytic feminist theory, and decolonial theory. (Format: Seminar 3 Hours) (Exclusions: WGST 3101; WGST 3111)

FGST3121 (3.00 CR)
FEMINIST RESEARCH METHODS

Prereq: 3 credits from FGST 1001, 1991, WGST 1001, 1991; 3 credits from FGST 2101, 2201, 2991, WGST 2101, 2201, 2991; or permission of the Program Director

This course examines feminist critiques and strategies relating to the production of knowledge, with an emphasis on epistemology, decolonization, and community-based research. It introduces the methods, techniques, and ethics involved in feminist research and analysis. The emphasis is both theoretical and practical; students therefore engage in the process of assessing and conducting feminist research. (Format: Lecture 3 Hours) (Exclusions: WGST 3101; WGST 3121)

FGST3201 (3.00 CR)
GENDER AND WORK

Prereq: 3 credits from FGST 1001, 1991, WGST 1001, 1991; 3 credits from FGST 2101, 2201, 2991, WGST 2101, 2201, 2991; or permission of the Program Director

This course applies a feminist analysis to the study of people at work with the premise that the workplace and the labour market cannot be understood in isolation from the private spheres of the household and the labour of social reproduction. It focuses on different experiences of work across gender, race and ethnicity, and class using an intersectional approach. It draws on interdisciplinary studies in industrial relations and feminist research practice to explore experiences of paid and unpaid work and labour. (Format: Lecture 3 Hours) (Exclusion: WGST 3201)

FGST3301 (3.00 CR)
GENDER & SEXUALITY IN CANADA

Prereq: 6 credits from CANA 1001, 1011, FGST or WGST 1001, FGST or WGST 2101; or permission of the Program Director

This course provides an interdisciplinary perspective on gender and sexuality in Canada. It explores how gender and sexuality are taken up in contemporary scholarship on Canadian politics, law, and society. Topics include the role of identity, representation, multiculturalism, and social movements in Canada, within an approach that centres movements to queer and decolonize Canada. (Format: Lecture 3 Hours) [Note 1: This course is cross-listed with CANA 3301 and may therefore count as three credits in either discipline] (Exclusion: Any version of CANA 3301 previously offered with a different title)

FGST3401 (3.00 CR)
REPRODUCTIVE JUSTICE

Prereq: Second-year standing; 3 credits from FGST 1001, 1991; or permission of the Program Director

This course introduces the key tenets of reproductive justice with a focus on contemporary social movements for bodily autonomy. Rooted in Black feminist praxis, reproductive justice incorporates an intersectional approach to sexual health and well-being with a focus on political action. This course outlines the historical development of reproductive justice theory and action, highlights key social movements and organizations, and considers contemporary struggles for trans rights, parenting, birth care, and abortion care within a reproductive justice framework. (Format: Lecture 3 Hours) (Exclusions: FGST 2991 Reproductive Rights & Justice; FGST 3991 Reproductive Justice)

FGST3991 (3.00 CR)
SPECIAL TOPIC IN FEMINIST AND GENDER STUDIES

FGST4001 (3.00 CR)
CONTEMPORARY ISSUES IN FEMINISM AND GENDER STUDIES

Prereq: 3 credits from FGST 3111, WGST 3111; or permission of the Program Director

This course provides opportunity for students to study in considerable depth and detail selected contemporary issues of feminism and gender in a global context. The course may focus on issues such as gender and social movements, politics of difference, theory and praxis debates, anti-feminist backlash, women and social change, femininities and masculinities, and feminities explorations of the body. (Format: Seminar 3 Hours) (Exclusion: WGST 4001)

FGST4301 (3.00 CR)
GENDER AND SETTLER COLONIALISM

Prereq: 3 credits from FGST 3111, WGST 3111; or CANA 3301 and 3 credits from CANA at the 3000 level; or permission of the Program Director

This course focuses on the gendered, racialized, and sexualized dimensions of settler colonialism and Indigenous resurgence. It begins with the recognition that all of our learning takes place on the lands of the Mi'kmaw and Wolastoqiyik peoples, and with the acknowledgement that we all have different and specific relationships to this land and these nations. Attending to these relationships and the responsibilities they entail, the central questions this course examines include: How do Indigenous thinkers conceptualize identity, land, and belonging? How do they think and talk about gender, sexuality, and difference? [Note 1: This course is cross-listed with CANA 4301 and may therefore count as 3 credits in either discipline](Format: Seminar 3 Hours) (Exclusions: WGST 4001 18/WI and 19/WI; WGST 4301)

FGST4811 (3.00 CR)
GENDER, CULTURE AND THE CITY

Prereq: 3 credits from FGST 3111, GENV 2811, WGST 3111; or permission of the Program Director

This course examines the relationship between socially constructed gender relations and the nature and form of urban areas. Using a feminist intersectional analysis, students consider how social and cultural categories and historical processes shape the production of urban space, and how we in turn are shaped by it. [Note : This course is cross-listed as GENV 4811 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: WGST 4811)

FGST4901 (3.00 CR)
DIRECTED READING IN FEMINIST AND GENDER STUDIES

Prereq: 3 credits from FGST 3111, WGST 3111; and permission of the Program Director

This course is designed for honours students. It promotes bibliographic skills, information literacy skills, and additional research design skills for students who will be completing an honours thesis. (Format: Independent learning) (Exclusion: WGST 4901)

FGST4911 (3.00 CR)
FEMINIST PRAXIS STUDIES STUDIES

Prereq: 3 credits from FGST 3111, WGST 3111; and permission of the Program Director

This course is designed for honours students. Students will investigate key parts of the history of feminist activism and examine the links and gaps between feminist theories and feminist practices. In praxis, theory and practice come together to create informed, conscious, and self-conscious action. Critical reflection on the histories of feminist praxis and on students' own honours projects is a core element of this course. This course will prepare students pursuing an honours in women's and gender studies for the praxis element of their honours thesis project. (Format: Seminar) (Exclusion: WGST 4911)

FINE ARTS/PIERRE LASSONDE SCHOOL OF FINE ARTS

The teaching of visual art at Mount Allison University can be traced back to the opening of the Women's Academy in 1854. It has been an important part of the curriculum since that time. In 1941 Mount Allison was the first university in Canada to give a B.F.A. degree in the visual arts. Much of the Department's history was, and is, directly related to the Owens Art Gallery. Until 1965, when the Department moved to its own quarters in the Gairdner Fine Arts Building, the Department was housed in the gallery. Since that time the gallery has been extensively remodelled into one of the largest in the Maritimes, serving both the university and community. We enjoy one of the best student/staff ratios of any art department in the country. In 2014 the department moved to a new contemporary state of the art studio facility in the Purdy Crawford Centre for the Arts. We are proud of our tradition but prouder still of our ability to keep up with the changing needs of our students.

In 2020 the Pierre Lassonde School of Fine Arts was established through philanthropic support, and builds on the program's long-standing history in and support of the arts and will bolster new learning, scholarship, and arts initiatives. This will be achieved by increasing the department's capacity for new scholarly and artistic activity and support for students, offering increased entrance and upper-year scholarships as well as additional internship opportunities for upper-year students on campus and with external arts organizations, which will provide students with access to professionals and experts from the public and private sectors. A dynamic new Artist-in-Residence program will give students direct on-campus access to notable Canadian and International artists as part of their studies.

THE B.F.A. PROGRAM

A description of the program leading to the B.F.A. degree is given in Section 11.8 of the Calendar. Studio courses are offered in the following areas: Drawing, Painting, Photography, Printmaking, Sculpture and Open Media.

Disciplinary B.A. Programs

A Minor or Major in Fine Arts which includes a combination of Art History and Studio Art courses may also be completed on a B.A. degree. Students should submit a portfolio of artwork for assessment by February 15, to be considered for a Major or Minor in Fine Arts. Students completing a B.A. may earn a Minor or Major in Art History or a Minor in Museum and Curatorial Studies. These programs are outlined under Art History at the beginning of the section.

MINOR in Fine Arts is 24 credits earned as follows:

6 from ARTH/MUSE 2101, ARTH/MUSE 2111
6 from FINA at the 1000 level
6 from FINA at the 2000 level
6 from FINA at the 3000 level

Note: Students admitted to a Minor in Fine Arts will be registered following consultation with the Fine Arts Department.

Note: Students must have appropriate prerequisites for 2/3000 level courses or permission of the Department

MAJOR in Fine Arts is 60 credits earned as follows:

6 from ARTH 2101, ARTH/MUSE 2111
6 from Art History and/or Museum and Curatorial Studies at the 2/3/4000 level
12 from FINA 1101, 1111, 1921, 1931
27 from FINA, including at least 9 at the 3/4000 level
6 from FINA at the 4000 level
3 from FINA 3701, 4701

Note: Students must have appropriate prerequisites for 2/3/4000 level studio courses or permission of the Department

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

STUDIO COURSES

The prerequisite for 2000 level studio courses is the successful completion of the appropriate 1000 level course; i.e. 1101, 1111, 1921, 1931. Any first year studio course that is failed will have to be passed by the end of the next academic year in which the student is enrolled.

The following studio courses will be charged Fine Arts Instructional Supplies Fees: FINA 1921, 1931, 2201, 2211, 2401, 2411, 2501, 2511, 3201, 3211, 3401, 3411, 3501, 3511, 4801, 4811, 4821, and 4831. This list is subject to change.

Studio Courses Open to Non-Fine Arts Students

Six credits chosen from FINA 1101, 1111, 1921, 1931 are open to students from other degree programs, dependent on available space, and by written permission of the Department only.

Preference will be given to students with a major in Art History or Drama.

Students who have no background or previous training in visual art should be advised that these courses are required for the Bachelor of Fine Arts degree program and that standards are set accordingly.

Upper level studio courses will be open to students from other programs on a space available basis, provided that the student has met the prerequisite requirement, or been granted the permission of the Department.

FINA1001 (3.00 CR)
DRAWING EXPLORATIONS

This introductory course explores the application of drawing materials, techniques, and theories in a studio context. Aimed at students with an interest in drawing but not necessarily extensive experience, the course provides opportunity to develop skills related to observation, personal reflection, narrative, and image construction. ADVANCED STUDIO II: CRITIQUE

Prereq: Registration in the fourth-year of the BFA Degree or BA Degree with Major in Fine Arts

This course requires regular class critiques for fourth year students to workshop and develop an independently produced body of studio work thereby meeting students' needs for critical feedback in a single medium or in various media (Format: Studio 6 Hours)

FINA4821 (3.00 CR)
ADVANCED INDEPENDENT STUDIO I

Prereq: Registration in the fourth-year of the BFA Degree or BA Degree with Major in Fine Arts

This course requires that students create studio work independently while working with one faculty advisor thereby meeting a student's needs for critical feedback in a singe medium or in various media. [Note: This course is arranged by a student with a faculty member on an individual basis.] (Format: Studio)

FINA4831 (3.00 CR)
ADVANCED INDEPENDENT STUDIO II

Prereq: Registration in the fourth-year of the BFA Degree or BA Degree with Major in Fine Arts

This course requires that students create studio work independently while working with one faculty advisor thereby meeting a student's needs for critical feedback in a single medium or in various media. [Note: This course is arranged by a student with a faculty member on an indidual basis.] (Format: Studio)

FINA4950 (6.00 CR)
INDEPENDENT STUDY IN FINE ARTS

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for FINA 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

FINA4951 (3.00 CR)
INDEPENDENT STUDY IN FINE ARTS

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for FINA 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

FINA4991 (3.00 CR)
SPECIAL TOPIC IN FINE ARTS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for FINA 4991 more than once, provided the subject matter differs.] (Format: Variable)

GEOGRAPHY AND ENVIRONMENT

The Geography and Environment Department offers three degree programs: a B.A. in Geography, a B.A. in Environmental Studies, and a B.Sc. in Environmental Science, as well as a B.A. or B.Sc. Minor in Geographic Information Systems.

The Geography B.A. program is designed for students interested in the study of social sciences at various spatial and temporal scales and leads to the completion of a Minor, Major, or Honours. It is about the study of place and involves understanding the processes that have acted together to shape the complex "place" structures that exist in our world and on our landscape. Such study requires an understanding of the principles of ecological and physical systems; of the cultural, social, economic and political forces acting on those systems; and of the management, planning or scientific tools necessary to meet environmental challenges and opportunities.

The Environmental Studies B.A. program is designed for students interested in the human dimensions of environmental change and problem-solving, including environmental behaviour, management, planning, and policy. It operates as an inter-disciplinary, cross-departmental degree program and leads to the completion of a Minor, Major, or Honours. Studies in this stream address such topics as environmental policy and economics, natural resource management, and environmental ethics.

The Environmental Science B.Sc. program is an interdisciplinary, science-intensive program, requiring comprehensive study of the sciences and mathematics leading to a Major or Honours. Courses in this program provide the strong but diverse scientific foundation required to understand environmental issues from a multi-disciplinary perspective.

The Geographic Information Systems (GIS) B.A. or B.Sc. Minor involves the application of computer models to represent spatial features on the earth's surface. The two core GIS courses, combined with courses in Computer Science, provide a valuable foundation in applied spatial analysis.

Interdisciplinary B.Sc. Programs

MINOR in Environmental Science is 24 credits earned as follows:

3 from GENS 1401
3 from BIOL 1001, CHEM 1001, PHYS 1041, 1051
3 from BIOL 2701, GENS 2431, MATH 1311
9 from BIOL 2101, GENS 2101, 2111, 2421, 2441
6 from GENS at the 3/4000 level

MAJOR in Environmental Science is 69 credits earned as follows:

6 from GENS 1401, 2421
3 from GENS 2101, 2111, 2411, 2881
3 from GENS 2441
6 from BIOL 1001, 2101
6 from BIOC 1001, CHEM 1001
3 from PHYS 1041, 1051
3 from MATH 1111, 1151
3 from GENS 2431, BIOL 2701, MATH 1311
36 chosen from one of the following Optional Streams listed below.

Aquatic Environments
3 from MATH 1121, 1311, COMP 1631
6 from BIOL 2201, 2301, 2401
9 GENS 3201, 3471, 4401, BIOL 3361

Note: Additional 3/4000 level science courses are needed to fulfill Calendar Regulation 11.3.5.

Note: Recommended courses are indicated with an asterisk.

HONOURS in Environmental Science is 75 credits as follows:

69 credits as in the Major, plus:
3 from GENS 4421
6 from GENS 4990

Note: Students who have completed any one of the former Environmental Science course listings or Physical Geography courses will have credits applied to their Geography and Environment B.Sc. program.

Note: All GENS B.Sc. courses are considered Science credits for the completion of degree requirements.

Interdisciplinary B.A. Programs

MINOR in Environmental Studies is 24 credits earned as follows:

3 from GENS 1401
6 from GENV 1201, 2001, 2101, 2111, HIST 2301

Note: At least 9 of 18 elective stream credits must be at the 3/4000 level.

HONOURS in Environmental Studies is 78 credits earned as follows:

66 credits as in the Major, plus:
6 from GENV 4990
6 from courses at the 3000/4000 level in one of the elective streams chosen for the Major

B.A. JOINT MAJOR in Geocomputing is 87 credits earned as follows:

18 from COMP 1631, 1731, 2211, 2611, 2711, 2931
9 from COMP 3611, 3811, 3851
6 from COMP at the 3/4000 level, chosen in consultation with the CS Program Advisor
3 from MATH 1111, 1151
6 from MATH 1121, 2221
6 from GENV 1201, GENS 1401
6 from GENV 2001, 2101, 3201
12 from GENS 2431, 2441, 3441, 3481, 4721
3 from GENS 3401, GENV 3701
15 from GENV or GENS, including 9 credits at the 3/4000 level (GENV 3211 recommended)
3 from GENS 4951, with topic chosen in consultation with the CS and GENS Program Advisors

Note: The regulation requiring a Minor is waived for students pursuing a Joint Major.

Disciplinary B.A. Programs

MINOR in Geography is 24 credits earned as follows:

6 from GENV 1201, GENS 1401
18 from Geography and Environment including 6 from the 3/4000 level, chosen in consultation with the Program Advisor

MAJOR in Geography is 60 credits earned as follows:

6 from GENS 1401, 2421
3 from GENV 1201
9 from GENV 2101, 2201, 2221, 2811, HIST 2301
9 from GENS 2431, 2441, 3401 or GENV 3701
18 from Geography and Environment at the 3/4000 level, including 6 credits from the 4000 level
15 credits from complementary courses chosen in consultation with the Program Advisor

HONOURS in Geography is 72 credits earned as follows:

60 credits as in the Major, plus:
6 from GENV 4990
6 from Geography and Environment at the 3/4000 level, including 3 from the 4000 level, chosen in consultation with the Program Advisor

Interdisciplinary B.A. and B.Sc. Programs

B.A. or B.Sc. MINOR in Geographic Information Systems is 24 credits earned as follows:

6 from COMP 1631, 1731
3 from GENS 1401, GENV 1201
3 from GENS 2431, BIOL 2701, MATH 1311
9 from GENS 2441, GENS 3441, GENS 3481, GENS 4721
3 from COMP at the 2/3/4000 level

GEOGRAPHY AND ENVIRONMENT COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

GENS COURSES

GENS1401 (3.00 CR)
THE PHYSICAL ENVIRONMENT

This course introduces the general principles of Physical Geography and the Environment, emphasizing the physical world at a variety of spatial and temporal scales. This course introduces the four fundamental spheres of Physical Geography: the hydrosphere, lithosphere, atmosphere and biosphere. It examines basic processes in the physical environment such as the seasons, layers of the atmosphere, the earth's energy budget and interactions with atmospheric processes. It also investigates weather and its interplay within the hydrological cycle, the fundamentals of climatology, the three basic rock types, tectonic activity and weathering of the earth's surface. (Format: Lecture 3 Hours, Laboratory 1.5 Hours) (Exclusion: GEOG 1401)

GENS1991 (3.00 CR)
SPECIAL TOPIC IN GEOGRAPHY AND ENVIRONMENT

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for GENS 1991 more than once, provided the subject matter differs.] (Format: Variable)

GENS2101 (3.00 CR)
NATURAL RESOURCES MANAGEMENT

Prereq: 3 credits from GENV 1201, GENS 1401; or permission of the Department

This course introduces key concepts and issues in natural resources management and examines how ecological science, economics, and policy shape resource management and conservation outcomes. It focuses on renewable natural resource sectors of importance to the Canadian economy, including fisheries, forestry, wildlife, protected areas, fresh water, and agriculture. [Note 1: This course is cross-listed as GENV 2101 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: GEOG 2101)

GENS2111 (3.00 CR)
CLIMATE CHANGE AND PEOPLE

Prereq: Second-year standing; or permission of the Department

This course is intended for students who wish to broaden their understanding of the present and future impact of global climate change on societies, including the social justice elements of the issues. This course critically examines human-induced drivers of climate change, as well as the role of inequity in worsening its impact. The course also examines interventions to reduce negative climate impacts, from global policy development to actions at the community level. [Note 1: This course is cross-listed with GENV 2111 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hour) (Exclusion: GENV 2991 Climate Change and People).

GENS2411 (3.00 CR)
GEOMORPHOLOGY

Prereq: GENS 1401; or permission of the Department

This course is an introduction to geomorphology, the geoscience that explores the processes that shape the Earth's surface. The first half deals with the large-scale relief features of the Earth and how they are shaped by the processes of weathering, erosion, and sedimentary deposition. The second half introduces landforms/landscapes that exist in glacial, fluvial, and coastal environments. It also explores the geomorphic agents which control the formation and evolution of these landforms/landscapes. (Format: Lecture 3 Hours, Laboratory 3 Hours)

GENS2421 (3.00 CR)
WEATHER AND CLIMATE

Prereq: GENS 1401; or permission of the Department

This course highlights elements of weather and climate including the composition and thermal structure of the atmosphere, radiation and energy balances, global circulation, air masses, fronts and atmospheric disturbances, and climates of the world. It places special emphasis on recent climatic changes in the environment. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: GEOG 2421)

GENS2431 (3.00 CR)
DATA ANALYSIS

Prereq: 3 credits from GENV 1201, GENS 1401; or permission of the Department

This course develops basic skills in data collection, analysis, and presentation. It introduces basic statistical and hypothesis testing procedures, along with relevant software. (Format: Lecture/Laboratory 3 Hours) (Exclusion: GEOG 2711)

GENS2441 (3.00 CR)
GEOGRAPHIC INFORMATION SYSTEMS

Prereq: Second-year standing; 3 credits from GENS 2431, MATH 2311; or permission of the Department

This course surveys several aspects of traditional cartography, examines one or more Geographic Information Systems, and explores the role of maps in conveying geographic information. (Format: Lecture/Laboratory 3 Hours) (Exclusion: GEOG 2721; GEOG 3711)

GENS2881 (3.00 CR)
TRADITIONAL ECOLOGICAL KNOWLEDGE

Prereq: 3 credits from BIOL 1001, GENS 1401, INDG 1001; or permission of the Department

This course investigates the ways in which Indigenous scientific knowledge and ways of knowing and Western scientific knowledge and ways of knowing complement one another. It discusses Indigenous research methodologies and considerations. Students also learn from Mi'kmaw and/or Wolastoqiyik Elder(s). [Note 1: This course is cross-listed with INDG 2881 and may therefore count as three credits in either discipline.] (Format: Integrated Lecture/ Laboratory 3 Hours)

GENS2991 (3.00 CR)
SPECIAL TOPIC IN GEOGRAPHY AND ENVIRONMENT

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for GENS 2991 more than once, provided the subject matter differs.] (Format: Variable)

GENS3041 (3.00 CR)
ECOTOXICOLOGY

Prereq: BIOL 2101; or permission of the Department

This course examines how toxic pollutants coming from human activities affect ecosystems. Using a broad interdisciplinary approach, key topics include the environmental transport and fate of toxins, the effects of toxins on individual organisms, and the impact of toxins from the scale of biological populations and communities to a global scale. The course also covers the practical application of these topics to environmental monitoring and conservation as well as their intersection with issues of environmental justice and public policy. [Note 1: This course is cross-listed with BIOL 3041 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: BIOL 3991 Ecotoxicology)

GENS3101 (3.00 CR)
ENVIRONMENT CONSERVATION IN THE GLOBAL SOUTH

Prereq: 6 credits from GENV 2001, 2101, 2221; or permission of the Department

This course examines the challenges of integrating rural development and environmental conservation in the global south. Topics covered include: sustainable rural development, local vs. scientific knowledge, multi-national investment impacts on environmental conservation, tropical deforestation and reforestation, and community-based wildlife management. [Note 1: This course is cross-listed as GENV 3101 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: GEOG 3101; Any version of GENV 3101 previously offered with a different title)

GENS3201 (3.00 CR)
CANADIAN ENVIRONMENTAL POLICY

Prereq: 6 credits from GENV 2001, 2101, 2221, ECON 1001; or permission of the Department

This course is an introduction to environmental policy with an emphasis on the Canadian political context. It examines the history of environmental policy progress and key features of the Canadian political system that have influenced policy outcomes. This course will address the role of environmental science, economics, and stakeholder politics in both Federal and Provincial government decision making. This course will also examine alternative regulatory tools for achieving environmental goals. [Note 1: This course is cross-listed as GENV 3201 and may therefore count as 3 credits in either discipline.] (Format: Lecture3 Hours) (Exclusion: GEOG 3201)

GENS3401 (3.00 CR)
RESEARCH METHODS IN ENVIRONMENTAL SCIENCE

Prereq: Third-year standing; GENS 2431; permission of the Department

This course begins with a critical examination of current research techniques. Students then design,implement, complete, and evaluate a field research project in environmental science. [Note 1: This course requires attendance at an off-campus field camp and students will be liable for some field trip costs.] (Format: Lecture 3 Hours, Multi-Day Field Camp) (Exclusion: GEOG 3401)

GENS3421 (3.00 CR)
BIOGEOGRAPHY

Prereq: GENS 2421; 3 credits from GENS 2431, BIOL 2701; or permission of the Department

This course explores the links between the geomorphology and climatology of a region and the plant-animal environments through a biogeographical approach to ecological studies. It focuses on the geography of plants including environmental controls of plant distributions and the functional and historical aspects of plant communities. [Note 1: This course is cross-listed with BIOL 3421 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: GEOG 3421)

GENS3431 (3.00 CR)
FUNDY'S MEGATIDAL BIOGEOGRAPHY SCIENCE

Prereq: GENS 1401

This course explores the physical evolution of the Bay of Fundy's landscape through geologic time. It examines the development of terrestrial, intertidal, and marine ecosystems, and considers the anthropogenic influences that have transformed this dynamic environment. It pays close attention to the interaction between the climate, geology, tides, rivers, forests, and biodiversity, through direct observation and measurement in the field, the use of media such as video and photography, and in-class lectures. (Format: Field Course) (Exclusion: GENS 3991 Fundy Mega-Tidal Biogeography)

GENS3441 (3.00 CR)
REMOTE SENSING

Prereq: GENS 2431; GENS 2441; or permission of Department

This course surveys the theory and application of remote sensing as a technology for studying the earth at a distance. Learning goals of the course include exploration of the theory and principles of remote sensing, review of a range of current satellite-based platforms, implementation of various image processing techniques, and classification and interpretation of actual imagery though the use of case examples. (Format: Lecture 3 Hours, Laboratory 1 Hour) (Exclusion: GENS 3991 Remote Sensing)

GENS3471 (3.00 CR)
LIMNOLOGY

Prereq: Third-year standing; 3 credits from GENS 2431, BIOL 2701; or permission of Department

This course examines the structure and function of freshwater ecosystems. It emphasizes the physical, chemical, and biological processes that occur within lakes and, to a lesser extent, river and wetland environments. The course also covers the diversity of, and interactions between aquatic and highlights environmental stressors that threaten freshwaters. [Note 1: This course is cross-listed with BIOL 3471 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: GENS 3991 Stressors on Freshwater Systems; GENS 3991 Limnology)

GENS3481 (3.00 CR)
SKY EYES: READING LANDSCAPES

Prereq: GENS 1401; GENS 2441; or permission of Department

This course explores the tools and techniques for identifying and interpreting landforms and landscapes. Remotely sensed data (e.g., satellite imagery) will be analyzed using image processing software. Learning goals include the ability to identify and characterize landforms and natural hazards. Students who complete the course will be able to assess and solve real-world challenges related to human interactions with landscapes. (Format: Integrated Lecture/Laboratory 3 Hours) (Exclusion: GENS 3991 Sky Eyes: Reading Landscapes).

GENS3491 (3.00 CR)
GLOBAL ENVIRONMENTAL CHANGE

Prereq: Third-year standing; GENS 2421; or permission of Department

This course examines the major global changes influencing earth's atmosphere, hydrosphere (including cryosphere), lithosphere, and biosphere. Causes and impacts of a variety of global change issues are investigated and potential solutions are introduced. Learning activities also explore how scientific information about global change are communicated across diverse platforms to stakeholders. (Format: Lecture 3 Hours) (Exclusion: GENS 3991 Global Environmental Change)

GENS3991 (3.00 CR)
SPECIAL TOPIC IN GEOGRAPHY AND ENVIRONMENT

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for GENS 3991 more than once, provided the subject matter differs.] (Format: Variable)

GENS4011 (3.00 CR)
FOREST RESPONSE

Prereq: Third-year standing; GENS 3421; or permission of Department

This course examines the biogeography of global forests, past, present and future, in response to a range of environmental changes. It investigates methods of paleo-forest analysis that provide evidence of long-term forest shifts. The course also explores cumulative effects of human activities on forest ecosystems throughout the Anthropocene. Forest response to climate changes will be estimated using published models and paleoenvironmental data to forecast how forests may be reorganized. [Note 1: This course is cross-listed as BIOL 4011 and may therefore count as 3 credits in either discipline.] (Format: Seminar 3 Hours) (Exclusion: GENS 3991 Environmental Change: Forest Response).

GENS4401 (3.00 CR)
BIOMONITORING METHODS

Prereq: GENS 3421; GENS 3471; 3 credits from GENS 2431, BIOL 2701; or permission of the Department

This course focuses on the application of modern survey and paleoenvironmental methods in the assessment of environmental change and investigates bioindicator responses across time or space. The course also introduces aspects of design, analysis, and interpretation relevant to environmental science and biomonitoring programs. Topics of investigation may include the effects of climate change or shifts in water quality, and bioindicator distributions across ecological gradients. [Note 1: This course may require attendance at an off-campus field location outside of regular course hours.] (Format: Laboratory 3 Hours)

GENS4421 (3.00 CR)
SEMINAR IN ENVIRONMENT

Prereq: Registration in the final year of a Major or Honours in Environmental Science, Environmental Studies, or Geography.

This capstone course explores advanced topics relevant to research that investigates the cause and consequences of environmental change, both physical and social. Topics may include: case studies of human-environment interaction and environmental change; environmental study design, analysis and interpretation; research outreach, communication, and knowledge transfer; public consultation; and research ethics. [Note 1: This course is cross-listed as GENV 4421 and may therefore count as 3 credits in either discipline.] (Format: Seminar 3 Hours) (Exclusion: Any version of GENS 4421 previously offered with a different title)

GENS4701 (3.00 CR)
ADVANCED FIELD COURSE

Prereq: 3 credits from GENV 3701, GENS 3401; permission of the Department

This is an extended field course to be completed outside the September-May academic year in which students complete a supervised original research project at an off-campus location. [Note 1: This course is cross-listed as GENV 4701 and may therefore count as 3 credits in either discipline.](Format: Field Course)(Exclusion: GEOG 4701)

GENS4721 (3.00 CR)
ADVANCED GEOGRAPHIC INFORMATION SYSTEMS

Prereq: GENS 2431; GENS 2441; or permission of the Department

This course builds on the key concepts from GENS 2441 by introducing programming for automation and exploring advanced methods for producing and visualizing surfaces and data. It increases students' proficiency in the application of GIS and prepares them to conduct sophisticated spatial analyses. (Format: Lecture/Laboratory 3 Hours)(Exclusion: GENS 4951 Advanced Geographic Information Systems)

GENS4950 (6.00 CR)
INDEPENDENT STUDY IN GEOGRAPHY AND ENVIRONMENT

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for GENS 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

GENS4951 (3.00 CR)
INDEPENDENT STUDY IN GEOGRAPHY AND ENVIRONMENT

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 3: Students may register for GENS 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

GENS4990 (6.00 CR)
HONOURS THESIS

This course comprises independent research and study under the direction of a supervisor approved by the department. (Format: Independent Study/Thesis) [Note 1: Permission of the Department is required.]

GENS4991 (3.00 CR)
SPECIAL TOPIC IN GEOGRAPHY AND ENVIRONMENT

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for GENS 4991 more than once, provided the subject matter differs.] (Format: Variable)

GENV COURSES

GENV1201 (3.00 CR)
THE HUMAN ENVIRONMENT

This course introduces the study of the human population and the spatial dimensions of environmental change. It examines how people interact with the environment and the core forces which shape these interactions, including population, culture, technology, and geography. (Format: Lecture 3 Hours) (Exclusion: GEOG 1201)

GENV1301 (3.00 CR)
JAPANESE FOODWAYS

This course examines the historical origins, geographical evolution, and glocalization of contemporary Japanese cuisine around the world. Student learning is organized around lectures, discussions, experiential exercises, and events. This course draws on interdisciplinary perspectives to explore the uniquely Japanese cultural relationship between food and its representation in media. Students learn about the role of the state in shaping these foodways, the culture of craftsmanship in the culinary sphere, the supply chains that allow Japan to import a majority of its food, as well as their ecological limits of this demand, the pathways that have spread sushi, ramen, izakaya, and teppanyaki culture around the world, and the subsequent questions of authenticity that emerge in these global spaces. (Format: Lecture 3 hour) (Exclusion: GENV 1991 Japanese Foodways).

GENV1991 (3.00 CR)
SPECIAL TOPIC IN GEOGRAPHY AND ENVIRONMENT

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for GENV 1991 more than once, provided the subject matter differs.] (Format: Variable)

GENV2001 (3.00 CR)
CONTEMPORARY ENVIRONMENTAL STUDIES

This course reviews how different disciplines are brought to bear on the study of environmental issues. Some of the topics considered in this survey include the role of environmental philosophy and activism, interactions between science and environmental politics, environmental or ecological economics, and sustainable development. (Format: Lecture 3 Hours)(Exclusion: ENST 1001)

GENV2101 (3.00 CR)
NATURAL RESOURCES MANAGEMENT

Prereq: 3 credits from GENV 1201, GENS 1401; or permission of the Department

This course introduces key concepts and issues in natural resources management and examines how ecological science, economics, and policy shape resource management and conservation outcomes. It focuses on renewable natural resource sectors of importance to the Canadian economy, including fisheries, forestry, wildlife, protected areas, fresh water, and agriculture. [Note 1: This course is cross-listed as GENS 2101 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion:GEOG 2101)

GENV2111 (3.00 CR)
CLIMATE CHANGE AND PEOPLE

Prereq: Second-year standing; or permission of the Department

This course is intended for students who wish to broaden their understanding of the present and future impact of global climate change on societies, including the social justice elements of the issues. This course critically examines human-induced drivers of climate change, as well as the role of inequity in worsening its impact. The course also examines interventions to reduce negative climate impacts, from global policy development to actions at the community level. [Note 1: This course is cross-listed with GENS 2111 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hour) (Exclusion: GENV 2991 Climate Change and People).

GENV2201 (3.00 CR)
GEOGRAPHY OF ECONOMIC ACTIVITY

This course examines the changing spatial organization of the world industrial map since 1945 by comparing British and North American de-industrialization with the rapid growth of some sectors of newly industrialized countries, including the effects of new production technology, changes in industrial organization and transnational corporations and new regional trading blocs on those changing patterns are discussed. (Format: Lecture 3 Hours) (Exclusion: GEOG 2201)

GENV2221 (3.00 CR)
THE DEVELOPING WORLD

This course surveys the changing geography of the developing world. It examines the decline in traditional land systems and resource use, surveys current economic development strategies, and reviews the role of international aid and non-governmental organizations in these strategies. (Format: Lecture 3 Hours) (Exclusion: GEOG 2201)

GENV2811 (3.00 CR)
URBAN SOCIAL GEOGRAPHY

This course introduces the central concepts in urban geography by considering the historical and contemporary role of cities in the global landscape. It also investigates the shifting attitudes towards city life and city dwellers from the Industrial Revolution to the present day with an emphasis on social issues in the post-industrial city. Throughout this examination it emphasizes the place and development of Canadian cities. (Format: Lecture 3 Hours) (Exclusion: GENV 3811)

GENV2991 (3.00 CR)
SPECIAL TOPIC IN GEOGRAPHY AND ENVIRONMENT

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for GENV 2991 more than once, provided the subject matter differs.] (Format: Variable)

GENV3101 (3.00 CR)
ENVIRONMENTAL CONSERVATION IN THE GLOBAL SOUTH

Prereq: 6 credits from GENV 2001, 2101, 2221; or permission of the Department

This course examines the challenges of integrating rural development and environmental conservation in the global south. Topics covered include: sustainable rural development, local vs. scientific knowledge, multi-national investment impacts on environmental conservation, tropical deforestation and reforestation, and community-based wildlife management. [Note 1: This course is cross-listed as GENS 3101 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: GEOG 3101; Any version of GENV 3101 previously offered with a different title)

GENV3111 (3.00 CR)
GENDER, RACE, AND ENVIRONMENTAL JUSTICE

Prereq: 3 credits from GENV 1201, 2001; or permission of the Department

This course examines the ways in which environmental inequalities such as exposure to pollution, health risks, and lack of access to clean air, water, and food reflect, sustain, and reproduce gendered and racial inequalities. Focusing primarily on Canada, this course investigates the ways that Feminist, Indigenous, and Anti-racist Movements inform the concept of environmental justice and contemporary environmental movements. (Format: Seminar 3 Hours) (Exclusion: GENV 3991 Gender, Race, and Environmental Justice)

GENV3201 (3.00 CR)
CANADIAN ENVIRONMENTAL POLICY

Prereq: 6 credits from GENV 2001, 2101, 2221, ECON 1001; or permission of the Department

This course is an introduction to environmental policy with an emphasis on the Canadian political context. It examines the history of environmental policy progress and key features of the Canadian political system that have influenced policy outcomes. This course will address the role of environmental science, economics, and stakeholder politics in both Federal and Provincial government decision making. This course will also examine alternative regulatory tools for achieving environmental goals. [Note 1: This course is cross-listed as GENS 3201 and may therefore count as 3 credits in either discipline.] (Format: Lecture3 Hours) (Exclusion: GEOG 3201)

GENV3211 (3.00 CR)
TRANSPORTATION GEOGRAPHY

Prereq: GENV 1201; GENV 2201; or permission of the Department

This course investigates the impact of changing transport and communication technologies on spatial organization. Topics may include: the transportation-infrastructure problem and proposed solutions from a geographic perspective; an analysis of the land use-transportation system in North American cities; its social and environmental impacts; the analysis of travel behaviour; and the geographical implications of various policy and planning alternatives. (Format: Lecture 3 Hours)(Exclusion: GEOG 3211)

GENV3321 (3.00 CR)
GEOGRAPHY OF JAPAN

Prereq: Third-year standing; 3 credits from GENV 1201, HIST 1611; or permission of the Department

This course examines Japan's geography since 1860, emphasizing the importance of international trade and new technologies and their roles in forming new geographic relationships for Japan with other parts of East Asia and with the West. (Format: Lecture 3 Hours)(Exclusion: GEOG 3321)

GENV3531 (3.00 CR)
THE PLANNING PROCESS

Prereq: GENV 1201; 3 credits from GENV 2101, 2201; or permission of the Department

This course examines community responses to the necessity and challenge of growth. Discussion focuses on the contributions of planning to the process of development and to the outcomes and opportunities which parallel this process. (Format: Lecture 3 Hours)(Exclusion: GEOG 3531)

GENV3701 (3.00 CR)
RESEARCH METHODS IN HUMAN GEOGRAPHY AND ENVIRONMENT

Prereq: Third-year standing; GENS 2431; permission of the Department

This course presents a critical examination of current research techniques. Students design, implement, complete and evaluate a field research project in Human Geography and Environment. [Note 1: This course requires attendance at an off-campus field camp and students must cover some field trip costs.](Format: Lecture 3 Hours, Multi-Day Field Camp)(Exclusion: GEOG 3701)

GENV3831 (3.00 CR)
GEOGRAPHY OF GLOBAL CITIES

Prereq: GENV 2811; 3 credits from GENV 2201, 2221; or permission of Department

This course explores the rise in importance of global cities in the era of economic globalization. As command centres of the global economy, global cities serve as hubs of technology, knowledge, finance, culture, immigration, and tourism. It examines the differing roles of cities in the global north and global south with particular attention to issues of employment, environment, and inequality. (Format: Lecture 3 Hours) (Exclusion: GENV 4821 if taken in Winter 2011)

GENV3991 (3.00 CR)
SPECIAL TOPIC IN GEOGRAPHY AND ENVIRONMENT

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. GENV4101 (3.00 CR)
ADAPTING TO CLIMATE DISASTERS

Prereq: GENV 1201; GENS 1401; 3 credits from GENV 2001, GENS/GENV 2111; or permission of the Department

This course provides an in-depth exploration of the challenges and strategies associated with disaster response in the context of climate change. Students will learn why and how climate change has led to increased disasters, types of climate-related disasters, preparedness and mitigation measures, response strategies, and recovery efforts. Students will learn how disasters impact various groups in society differently and learn how climate justice enters the disaster response conversation. The course will also emphasize the role of interdisciplinary collaboration in effective disaster response. (Format: Seminar 3 Hours) (Exclusion: GEOG 4101; Any version of GENV 4101 previously offered with a different title)

GENV4111 (3.00 CR)
INTERNATIONAL ENVIRONMENTAL AFFAIRS

Prereq: GENV 3201; or permission of the Department

This course explores international environmental problems and their solutions. It examines climate change, biodiversity, conservation, international marine pollution, and the relationship between trade and environment, among other topics, giving particular consideration to the roles of science, civil society, and international governance. (Format: Lecture/Seminar 3 Hours) (Exclusion: GEOG 4101)

GENV4201 (3.00 CR)
CANADIAN ENVIRONMENTAL PLANNING AND MANAGEMENT

Prereq: GENV 3201; or permission of the Department

This course examines the theory, methods, regulatory frameworks and social implications of Environmental Impact Assessment (EIA), providing a basis for deciding whether and how to proceed with a proposed resource development project so as to prevent or minimize environmental degradation. Students consider the overall Canadian environmental planning and management process with an emphasis on recent Canadian case studies. (Format: Lecture/Seminar 3 Hours) (Exclusion: GEOG 4101)

GENV4211 (3.00 CR)
RESOURCE COMMUNITIES AND THE MULTINATIONAL CORPORATION

Prereq: GENV 2101; GENV 2201; or permission of the Department

This course explores the economic geography of resource industries with a focus on the role that large corporations play in shaping the fortunes of communities where they operate. Its conceptual themes include staples theory, industrial restructuring, the 'greening' (or greenwashing) of economic activity, and the use and abuse of environmental science by corporate interests. These issues are grounded in examinations of regional resource sectors, including forestry and fishing, as well as international case studies. (Format: Seminar 3 Hours)

GENV4421 (3.00 CR)
SEMINAR IN ENVIRONMENT

Prereq: Registration in the final year of a Major or Honours in Environmental Science, Environmental Studies, or Geography.

This capstone course explores advanced topics relevant to research that investigates the cause and consequences of environmental change, both physical and social. Topics may include: case studies of human-environment interaction and environmental change; environmental study design, analysis and interpretation; research outreach, communication, and knowledge transfer; public consultation; and research ethics. [Note 1: This course is cross-listed as GENS 4421 and may therefore count as 3 credits in either discipline.] (Format: Seminar 3 Hours) (Exclusion: Any version of GENS 4421 previously offered with a different title)

GENV4521 (3.00 CR)
SEMINAR IN COMMUNITY PLANNING RESEARCH

Prereq: GENS 2431; GENV 3531; GENV 3701; or permission of the Department

This course applies community planning theory and techniques to an actual case developed in concert with a local community. Students clarify client objectives, develop a research and analysis program, conduct fieldwork, analyze data, prepare recommendations, and present results to the client. (Format: Seminar 3 Hours) (Exclusion: GEOG 4521)

GENV4701 (3.00 CR)
ADVANCED FIELD COURSE

Prereq: 3 credits from GENV 3701, GENS 3401; permission of the Department

This is an extended field course to be completed outside the September-May academic year in which students complete a supervised original research project at an off-campus location. [Note 1: This course is cross-listed as GENS 4701 and may therefore count as 3 credits in either discipline.](Format: Field Course) (Exclusion: GEOG 4701)

GENV4811 (3.00 CR)
GENDER, CULTURE AND THE CITY

Prereq: 3 credits from FGST 3111, GENV 2811, WGST 3111; or permission of the Department

This course examines the relationship between socially constructed gender relations and the nature and form of urban areas. Using a feminist intersectional analysis, students consider how social and cultural categories and historical processes shape the production of urban space, and how we in turn are shaped by it. [Note : This course is cross-listed as FGST 4811 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: WGST 4811)

GENV4821 (3.00 CR)
SEMINAR IN URBAN ISSUES

Prereq: GENV 2201; GENV 2811; GENV3211; or permission of the Department

This course explores a selected contemporary urban issue focusing in any given year on topics such as the political geography of the Canadian urban movement, the urban dynamics of key world cities,cities in the developing world, and cities and the 'new' economy. [Note 1: Students may register for GENV 4821 more than once, provided the subject matter differs.] (Format: Seminar 3 Hours) (Exclusion: GEOG 4821)

GENV4950 (6.00 CR)
INDEPENDENT STUDY IN GEOGRAPHY AND ENVIRONMENT

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for GENV 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

HEALTH STUDIES

The **Bachelor of Arts and Science (BASc) in Interdisciplinary Health Studies** offers a multifaceted approach to the study of health, allowing students the opportunity to engage with health from biological, behavioural, social, environmental, ethical, historical, cultural and population perspectives. Drawing on concepts from across the life sciences, social sciences, and humanities, students will develop the critical thinking, analytic, and communication skills needed to engage in complex and nuanced issues such as health care for an aging population; confronting global pandemics; building healthy communities; and working for justice in health-care delivery and outcomes. Students will develop essential skills for a wide range of career paths related to health, including: foundational knowledge of life sciences; a fluency with various research methodologies and data analysis; exposure to another language (French or an Indigenous language); and the development of research skills through a capstone research project.

The **Bachelor of Arts and Sciences in Interdisciplinary Health Studies** is designed for students seeking strong interdisciplinary training combining the life sciences, social sciences, and humanities. Students will develop a broad skill set that includes health analysis and research, health communications, and critical thinking which prepares them for a breadth of health-related roles or professional programs in health care and allied health care. There will also be opportunities to complete hands-on health-focused projects through a capstone project.

A **Minor in Interdisciplinary Health Studies** is also available to students, which will allow them to engage with key health topics including the social determinants of health, health communications, cultural dimensions of health, and the Canadian health-care system.

Given the wide breadth of courses students engage in for an Interdisciplinary Health Studies degree, majoring students are not required to undertake a minor from an additional specific discipline.

Interdisciplinary B.A. & Sc. Program

MINOR in Health Studies is 24 credits earned as follows:

6 from HLTH 1001, 1011
3 from HLTH 2001, 2011

HEALTH STUDIES COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

HLTH1001 (3.00 CR)
HEALTH AND SOCIETY

This course introduces concepts of health, illness, and well-being and examines how different framings of health have been socially constructed. The course addresses social determinants of health and concepts of health equity. It discusses the influence of cultural, environmental, socioeconomic, demographic, biological, behavioural, historical, religious, and political factors on individual and population health. (Format: Lecture, 3 hours)

HLTH1011 (3.00 CR)
FOUNDATIONS OF HEALTH INQUIRY

This course focuses on how health, illness, and disease are defined and measured. It provides a broad overview of diverse qualitative and quantitative research methods for health. The course introduces concepts of correlation, causality, and the hierarchy of evidence. Emphasis is placed on building health literacy and information literacy (e.g. finding research in scientific/medical databases), developing written and oral communication skills, and understanding health ethics. (Format: Lecture 3 hours and Tutorial 1.5 hours)

HLTH1991 (3.00 CR)
SPECIAL TOPICS IN HEALTH

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. Topics might include current issues in health, health policy, global health, mental health, Indigenous health, health promotion, health law, or health and justice. (Format: Lecture 3 hours or as determined)

HLTH2001 (3.00 CR)
THE CANADIAN HEALTH CARE SYSTEM

Prereq: HLTH 1001

This course provides an overview of the Canadian health-care system including the roles of federal, provincial/territorial, and municipal health authorities; health financing and resourcing; service utilization; health care planning; and health promotion strategies. HISTORY

History is an ideal instrument of liberal education. It develops analytical and communication skills and also fosters knowledge and understanding of the institutions, ideas, groups, and individuals which have shaped the political, social, and cultural world of humankind. Though historical study encourages critical thinking, it also engenders a sensitive understanding of the past, avoiding what one historian has called "the condescension of posterity" (E. P. Thompson, *Making of the English Working Class* , 1963 preface). As another historian reminds us, "the past is not some remote and abstract catalogue of names and dates, but the very fabric of individual [and social] identity" (J.C.D. Clark, *Our Shadowed Present* , 2003 introduction).

Though it is impossible to study all significant past peoples, events, and cultures, the Mount Allison History Department offers a rich variety of both subject matter and interpretive approach through individualized programs designed to achieve both coherence and depth. Courses are regularly available at all levels in most major periods of Canadian, American, European, and Asian history. Here one can study the human experience in all its rich diversity: class and gender, wealth and poverty, faith and science, self and social identity, government and politics, and war and peace.

The skills and rigor which the study of history imparts make it an excellent preparation for many career paths: teaching, law, public administration, and politics, to name a few. More than this, with its breadth and depth, it contributes to responsible global citizenship in a free and humane world.

BASIC COURSES

The Humanities 1600 series is intended to provide an introduction to Humanities disciplines. These three-credit courses offered by the participating disciplines of Classics, History, Philosophy and Religious Studies are designed to acquaint beginning students with the methodologies typical of these disciplines and to familiarize them with the approaches taken, as well as the sorts of themes pursued and questions raised in these disciplines.

Students will normally take courses in sequential order from first through fourth years. Further information about specific courses, faculty members and special programs is available in the Department of History Handbook. Students should also be familiar with the university requirements for the B.A. degree, outlined in section 11.2 of the academic calendar.

INDIGENOUS STUDIES

Indigenous Studies at Mount Allison is an interdisciplinary field that examines and embodies the Mi'kmaw concept of Two-Eyed Seeing. It analyzes the historical and the contemporary, while critically examining the societal processes through time that continue to effect and affect Indigenous communities. It draws on survivance, resistance, and restorying Indigenous knowledges, while focusing learning on the generations of experiences and knowledges within the ancestral territory of the Mi'kmaw people.

Through its interdisciplinary approach, Indigenous Studies seeks to engage, examine, and produce both traditional and contemporary forms of Indigenous knowledge. Indigenous Studies prioritizes culturally centred approaches to teaching and research and seeks to engage with and support Indigenous communities. The program prioritizes cross cultural knowledge and communication as well as increasing knowledge about Indigenous people from Indigenous perspectives.

Disciplinary B.A. Programs

MINOR in Indigenous Studies is 24 credits earned as follows:

3 from INDG 1001
3 from MKMW 2001, 3001, INDG 3111
3 from INDG 2901, 3901
12 from INDG or MKMW at the 1/2/3/4000 level, with at least 6 credits from the 3/4000 level, chosen in consultation with the Program Advisor
3 from INDG or MKMW at the 4000 level, chosen in consultation with the Program Advisor

Note: A maximum of 6 credits from special topics courses coded INDG and/or MKMW 1991-4991 can be used to meet the requirements for a Minor in Indigenous Studies.

INDIGENOUS STUDIES AND INDIGENOUS LANGUAGE COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

INDIGENOUS STUDIES COURSES

INDG1001 (3.00 CR)
INTRODUCTION TO INDIGENOUS STUDIES

This course is an introduction to the diversity of Indigenous peoples in Canada and the Maritimes. Topics include: Indigenous studies as a discipline, world views, societies, cultures, politics, colonization, decolonization, survivance and re-storying. It emphasizes Indigenous authors and voices and introduces principles and practices of cross-cultural communication and relationships. A key objective of the course is for students to explore, through increased skills and knowledge, their motivations, positioning, and goals in pursuing Indigenous Studies. (Format: Lecture/Experiential Learning 3 Hours) (Exclusion: UNST 1991 Introduction to Indigenous Studies)

INDG1101 (3.00 CR)
INDIGENOUS COMMUNITY ASSETS

This course explores Indigenous community strengths as the starting point to authentic community building. This course explores asset based community development principles and practices and embed an experiential learning component that will require students to be active participants within First Nation communities. [Note 1: This course is cross-listed with CENL 1101 and may therefore count as three credits in either discipline.] (Format: Experiential) (Exclusion: CENL/INDG 1991 Indigenous Community Assets)

TRADITIONAL ECOLOGICAL KNOWLEDGE

Prereq: 3 credits from BIOL 1001, GENS 1401, INDG 1001; or permission of the Department

This course investigates the ways in which Indigenous scientific knowledge and ways of knowing and Western scientific knowledge and ways of knowing complement one another. It discusses Indigenous research methodologies and considerations. Students also learn from Mi'kmaw and/or Wolastoqiyik Elder(s). [Note 1: This course is cross-listed with GENS 2881 and may therefore count as three credits in either discipline.] (Format: Integrated Lecture/ Laboratory 3 Hours)

INDG2901 (3.00 CR)
INTRODUCTION TO INDIGENOUS RESEARCH METHODS

Prereq: 3 credits from INDG 1001, CANA 1001, CANA 1011; or permission of the Program Director

This course introduces students to the basic theories, practices, and concepts of working with Indigenous peoples in research. Students develop and critically explore Indigenous and Western methodologies, theories, and concepts through multidisciplinary and decolonial lenses. [Note 1: This course is cross-listed with SOCI 2901 and may therefore count as three credits in either discipline.] (Format: Lecture 3 hours)

INDG2991 (3.00 CR)
SPECIAL TOPIC IN INDIGENOUS STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the appropriate Dean. Note 3: Students may register for INDG 2991 more than once, provided the subject matter differs.] (Format: Variable)

INDG3111 (3.00 CR)
MI'KMA'KI

Prereq: 6 credits from CANA 1001, 1011, INDG 1001; or 6 credits from CANA/INDG 2501, CANA/HIST/INDG 2801; or permission of the Program Director

This course explores Mi'kma'ki from an interdisciplinary perspective. Topics include: Indigenous history, geographies, politics, language, stories, and culture in the Atlantic region, Mi'kmaw philosophy and ethics, as well as the politics of self-government among various Mi'kmaq, Abenaki, and Wolastoqiyik communities. [Note 1: This course is cross-listed with CANA 3111 and may therefore count as three credits in either discipline. Note 2: Students who have taken a previous version of CANA 3111 require Program Director permission to register in CANA 3111 Mi'kma'ki.] (Format: Lecture 3 Hours)

INDG3201 (3.00 CR)
INDIGENOUS HEALTH AND WELL-BEING

Prereq: 6 credits from CANA 1001, 1011, INDG 1001; 3 credits from CANA or INDG at the 2/3000 level; or permission of the Program Director

This course examines histories and social determinants that impact health and well-being of Indigenous peoples from the guiding principles of Two-Eyed Seeing. Students will explore how culturally responsive and safe practices of care and well-being contribute to increasing health equity and building healthy communities. (Format: Seminar 3 hours)

INDG3301 (3.00 CR)
TOPICS IN COMMUNITY LAND-BASED LEARNING

Prereq: INDG 1001; 3 credits from INDG at the 2/3000 level; or permission of the Program Director

This course utilizes Indigenous practices tied to community land-based learning. [Note 1: Additional prerequisites may set by the Department/Program when the topic and level are announced. Note 2: Students may register for INDG 3301 more than once, provided the subject matter differs.] (Format: Variable)

INDG3401 (3.00 CR)
INDIGENOUS EDUCATION

Prereq: 3 credits from INDG 1001, CANA 1001, 1011; or 6 credits from CANA/INDG 2501, CANA/HIST/INDG 2801; or permission of the Program Director

This course explores historical and contemporary issues in Indigenous education. Topics may include traditional forms of education, colonial forms of education, Indigenous control of Indigenous education, as well as the indigenization of education. [Note 1: This course is cross-listed with SOCI 3401 and EDUC 3401 and may therefore count as three credits in any of the three disciplines.] (Format: Lecture/Seminar 3 Hours)

INDG3501 (3.00 CR)
ABORIGINAL POLITICAL AND LEGAL ISSUES

Prereq: 6 credits from CANA 1001, 1011, INDG 1001; or 6 credits from CANA/INDG 2501, CANA/HIST/INDG 2801; or permission of the Program Director

This course explores political and legal issues that are integral to the examination and understanding of Aboriginal rights and relationships with the Settler State. Topics include: the politics of genocide and colonization and de-colonization, self-determination, gender, identity, land claims, court decisions, and international law and borders. [Note 1: This course is cross-listed with CANA 3501 and may therefore count as three credits in either discipline.] (Format: Seminar 3 Hours) (Exclusion: CANA 4111)

INDG3601 (3.00 CR)
SOCIAL ASPECTS OF PLACE

Prereq: Second-year standing; or permission of the Program Director

This course explores Indigenous conceptions of place and environment through collaborative partnerships with First Nations people and communities. [Note 1: This course is cross-listed with CENL 3601 and may therefore count as three credits in either discipline.] (Format: Experiential/Lecture)

INDG3821 (3.00 CR)
THE INDIAN ACT: LAW, POLICY, AND FIRST NATIONS

Prereq: INDG 1001 and 3 credits from INDG at the 2000 level; or 6 credits from CANA 1001, 1011, and 3 credits from CANA at the 2000 level; or 6 credits from HIST at the 2000 level; CANA/HIST/INDG 2801 recommended; or permission of the Program Director

This course will focus on the origins, evolution, contemporaneity of Canada's Indian Act and policies. Emphasis will be placed on First Nations resistance and survivance as well as efforts to overturn these colonial acts and policies through time. [Note 1: This course is cross-listed with CANA 3821 and HIST 3821 and may therefore count as three credits in any of the three disciplines.] (Format: Lecture 3 hours)

INDG3831 (3.00 CR)
INDIGENOUS CANADA: HIST. PERSPECTIVES CANADIAN FIRST PEOPLES

Prereq: INDG 1001 and 3 credits from INDG at the 2000 level; or 6 credits from CANA 1001, 1011, and 3 credits from CANA at the 2000 level; or 6 credits from HIST at the 2000 level; CANA/HIST/INDG 2801 recommended; or permission of the Program Director

This course will focus on the history of Indigenous people in Canada with a focus on debates within Indigenous history surrounding events, peoples, memory, de/colonialism, resurgence, survivance, and re-storying. [Note 1: This course is cross-listed with CANA 3831 and HIST 3831 and may therefore count as three credits in any of the three disciplines.] (Format: Lecture 3 hours)

INDG3841 (3.00 CR)
BORDERLANDS

Prereq: 6 credits from CANA, HIST, INDG at the 1/2000 level; or permission of the Program Director

This course explores Indigenous and Settler interactions, resistance, resurgence, and survivance along and amidst frontiers, borders, and borderlands. [Note 1: This course is cross-listed with CANA 3841 and HIST 3841 and may therefore count as three credits in any of the three disciplines.] (Format: Seminar 3 hours)

INDG3901 (3.00 CR)
INDIGENOUS RESEARCH ETHICS

Prereq: 6 credits from CANA 1001, 1011, INDG 1001; 3 credits from CANA or INDG at the 2/3000 level; or permission of the Program Director

This course examines how Indigenous research ethics and protocols ensure the appropriate use and protection of Indigenous knowledge systems. Students will develop the skills necessary to engage ethically with Indigenous communities by exploring how histories of Indigenous research shape ethical conduct and protocols within local communities and academic environments. The application of OCAP principles in Indigenous research will also be addressed. [Note 1: This course is cross-listed with SOCI 3901 and may therefore count as three credits in either discipline.] (Format: Seminar 3 hours)

INDG3951 (3.00 CR)
INDEPENDENT STUDY IN INDIGENOUS STUDIES

Prereq: INDG 1001; 6 credits from INDG at the 2/3000 level; or permission of the Department

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program is required. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings.] (Format: Independent Study)

INDG3991 (3.00 CR)
SPECIAL TOPIC IN INDIGENOUS STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the appropriate Dean. Note 3: Students may register for INDG 3991 more than once, provided the subject matter differs.] (Format: Variable)

INDG4101 (3.00 CR)
INDIGENOUS HISTORY: ADVANCED TOPICS

Prereq: INDG 1001 and 3 credits from INDG at the 2/3000 level; or 6 credits from CANA 1001, 1011, and 6 credits from CANA at the 2/3000 level; or third-year standing and 6 credits from HIST at the 3000 level; CANA/INDG 2501 and CANA/HIST/INDG 2801 recommended; or permission of the program director

This course will focus on specific topics in transcolonial-border Indigenous history. Theoretical concepts such as re-storying and survivance are used to explore topics that may include treaties, borders, state policy, violence, resistance, missionization, disease, death, well-being, and performance. [Note 1: This course is cross-listed with CANA 4101 and may therefore count as three credits in either discipline. Note 2: Students may register for INDG 4101 more than once, provided the subject matter differs.] (Format: Lecture 3 hours) (Exclusion: Any version of INDG 4101 previously offered with a different title)

INDG4121 (3.00 CR)
SUSTAINING INDIGENOUS LANGUAGES

Prereq: Third-year standing; or permission of the Program Director

This course explores both the 'critical loss' of Indigenous languages throughout Canada due to colonization and assimilation, along with current efforts by communities at revitalizing, promoting and sustaining Indigenous languages.?In addition to examining national and international topics related to language rights and advocacy, the course critically discusses the influence of Indigenous languages on health and wellbeing, culture and identity, relationships to land, as well as contemporary music and art. [Note 1: This course is cross-listed with CANA 4121 and may therefore count as three credits in either discipline.] (Format: Seminar)

INDG4201 (3.00 CR)
EXPLORING INDIGENEITY TOGETHER

Prereq: Third-year standing; or permission of the Program Director

This course embeds Indigenous and non-Indigenous panelists and panel discussions to explore important topics identified by the students. The course attempts to counter courses focused only on Indigenous topics that have an undertone of Indigenous peoples as objects of study. [Note 1: This course is cross-listed with CENL 4201 and may therefore count as three credits in either discipline.] (Format: seminar)

INDG4801 (3.00 CR)
FIRST NATIONS TREATIES

Prereq: 3 credits from INDG 1001, CANA 1001, 1011, HIST 1601, 1611, 1621, 1681; 6 credits from INDG, HIST or CANA at the 3000 level (INDG/CANA 3111, 3501, INDG/CANA/HIST 3831 recommended); or permission of the Program Director

This course explores historic and contemporary treaties between Indigenous Nations, Indigenous Nations and Europeans, as well as modern land claims agreements. Emphasis will be placed on the original intent of treaties and agreements, negotiation process, implementation, as well as ongoing socio-political and legal issues. [Note 1: This course is cross-listed with HIST 4801 and may therefore count as three credits in either discipline.] (Format: Seminar 3 Hours)

INDG4950 (6.00 CR)
INDEPENDENT STUDY IN INDIGENOUS STUDIES

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor is required. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for INDG 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

INDG4951 (3.00 CR)
INDEPENDENT STUDY IN INDIGENOUS STUDIES

Prereq: INDG 3951; or permission of the Department

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program is required. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings.] (Format: Independent Study)

INDG4991 (3.00 CR)
SPECIAL TOPIC IN INDIGENOUS STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course. [Note 1: Prerequisite set by the Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the appropriate Dean. MKMW2001 (3.00 CR)
INTRODUCTION TO MI'KMAW LANGUAGE (MÍKMAWÍSIMK)

Prereq: 3 credits from INDG 1001, CANA 1001, CANA 1011; or permission of the Program Director

This course provides an introduction to Mi'kmaw language for students with no or minimal knowledge of Mi'kmaw. Students will explore the connections between land, place, culture, and language while learning vocabulary, grammar, and sentence patterns both orally and through writing. This course will help students understand the importance of Mi'kmaw not only as a language but as a window to a vibrant culture. (Format: Lecture 3 hours) (Exclusion: INDG 2991 Introduction to Mi'kmaw Language; INDG 2001)

MKMW2991 (3.00 CR)
SPECIAL TOPIC IN INDIGENOUS LANGUAGE

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course. MKMW3001 (3.00 CR)
MI'KMAW LANGUAGE

Prereq: MKMW 2001; or permission of the Program Director

The continuation of MKMW 2001, this course builds vocabulary, oral fluency, and confidence in usage of the Mi'kmaw language. Students will construct short statements and practice Mi'kmaw pronunciation and intonation through dialogue and understanding of verb conjugation in first, second and third person. (Format: Seminar 3 Hours) (Exclusion: INDG 3001)

MKMW3991 (3.00 CR)

INTERNATIONAL ECONOMICS AND BUSINESS

Interdisciplinary B.A. Program

MINOR in International Economics/Business is 24 credits earned as follows:

12 from ECON 1001 and 1011, 3 credits in Computer Science or Mathematics (not including MATH 1011), COMM 2201

12 from Economics 3501, 3901, 3921, 4531, 4551, Commerce 2211, 3211, 3251, 4411, chosen in consultation with the Program Advisor

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

MATHEMATICS

Mathematics is a discipline which has been said to be the Queen of the Sciences, and is the foundation of most modern quantitative and qualitative studies. The permanence and universality of mathematics throughout the ages is a consequence of its very nature. Mathematics is cumulative, developing from the earliest use of numbers by prehistoric civilizations to the highly deductive nature of geometry as developed by the Greeks, from the practical applications of calculus developed in the seventeenth century to the modern use of number theory in computer cryptography. Mathematics has many faces, from practical uses of its statistical tools to theoretical studies of abstract relationships. Our goal is to introduce students to all facets of the discipline, and to give them an appreciation of the historical, theoretical and applied nature of the discipline, as well as a full understanding of the beauty of the subject.

The Department offers a broad variety of courses and programs in Mathematics. Beginning courses may introduce students to the applications to which Calculus may be applied or the practical uses of statistics; more advanced courses deal with topics ranging from geometry to game theory. All courses in the Mathematics curriculum offer a blend of theory and practical applications. Many of the courses offered include a substantial computational component, and students are encouraged to use the mathematical software tools available. Courses are designed to address the needs of a wide variety of users, from the casual to the professional. Some students may enrol in a course to familiarize themselves with university level mathematics, while others will take a series of courses related directly to their chosen study area. Those choosing to pursue a minor or major in mathematics will be exposed to more advanced courses which blend Mathematical theory and practice.

Mount Allison has been very successful in placing many of its students in graduate programs in Mathematics, while many others have found employment after graduation in one of many fields for which mathematical understanding is an asset. Teaching, actuarial work, law and medicine are all areas requiring the ability to think and reason logically and for which a mathematical background can prove beneficial.

Disciplinary B.A. and B.Sc. Programs

B.A. or B.Sc. MINOR in Mathematics is 24 credits earned as follows:

3 from MATH 1111, 1151
3 from MATH 1121
12 from MATH 1311, 2111, 2121, 2211, 2221, 2321.
6 from Mathematics at the 3/4000 level.

B.A. MAJOR in Mathematics is 60 credits earned as follows:

3 from MATH 1111, 1151
12 from MATH 1121, 2111, 2211, 2221
3 from MATH 1311, 2121
3 from MATH 3111, 3141, 3161
3 from MATH 3211, 3221, 3231, 4011
3 from MATH 3151, 3311, 3411
15 from Mathematics at the 3/4000 level

6 from COMP 1631, 1731
12 credits from complementary disciplines chosen in consultation with the Program Advisor

B.A. HONOURS in Mathematics (Course Option) is 72 credits earned as follows:

3 from MATH 1111, 1151
15 from MATH 1121, 2111, 2121, 2211, 2221
6 from COMP 1631, 1731
6 from MATH 3111, 3211
3 from MATH 3311, 3411
6 from MATH 4011, 4111, 4121, 4221, 4311, 4951, 4991
6 from Mathematics or Computer Science at the 3/4000 levels
6 from Computer Science, Economics, or Mathematics at the 2000 level or above, or from COMM 3411, LING 2001, 3001, PHIL 2611, PHIL 3631
21 from MATH at the 3/4000 level

B.A. HONOURS in Mathematics (Thesis Option) is 72 credits earned as follows:

51 as in the first eight lines of the BA Honours (Course Option)
15 from MATH at the 3/4000 level
6 from MATH 4990

B.A. or B.Sc. HONOURS in Computer Science and Mathematics (Course Option) is 75 or 87 credits earned as follows:

18 from COMP 1631, 1731, 2211, 2611, 2711, 2931
3 from MATH 1111, 1151
12 from MATH 1121, 2111, 2121, 2221
9 from MATH 3111, 3211, 3311
3 from MATH 3221, 3231, 3251, 4011, 4221
3 from Mathematics at the 3/4000 levels
3 from COMP 3361, 3971
12 from COMP 3411, 3611, 3911, 4721
12 from Computer Science or Mathematics at the 3/4000 level
9 from CHEM 1001, CEHM 1021, PHYS 1051, PHYS 1551 (only for B.Sc.)
3 from BIOL 1001, BIOL 1501, BIOC 1001, GENS 1401, PSYC 1001, PSYC 1011 (only for B. Sc.)

B.A. or B.Sc. HONOURS in Computer Science and Mathematics (Thesis Option) is 75 or 87 credits earned as follows:

63 as in the first eight lines of the BA or BSc Honours in Computer Science and Mathematics (Course Option)
6 from Computer Science or Mathematics at the 3/4000 level
6 from COMP 4990 or MATH 4990
9 from CHEM 1001, CHEM 1021, PHYS 1051, PHYS 1551 (only for B.Sc.)
3 from BIOL 1001, BIOL 1501, BIOC 1001, GENS 1401, PSYC 1001, PSYC 1011 (only for B. Sc.)

B.Sc. MAJOR in Mathematics is 60 credits earned as follows:

9 from MATH 3111, 3211, 3311
6 from MATH 3141, 3161
6 from MATH 3131, 3221, 3151, 3231, 3411, 3531, 4111, 4121, 4311, PHYS 4101, 4201, 4311, 4831, 4851, 4911; only 3 credits may be selected from the listed Physics courses
18 from PHYS 2811, 3101, 3201, 3701, 3821, 4411
6 from MATH 4990 or PHYS 4990

Note: Students pursuing Honours in Mathematics and Physics may be allowed to substitute PHYS 1041 for PHYS 1051 with permission of the Department

PLACEMENT IN MATHEMATICS

Students wishing to take the introductory calculus course (Mathematics 1111 or Mathematics 1151) are required to write a *Mathematics Assessment Test* to determine their level of mathematical preparation.

MATHEMATICS COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

MATH1011 (3.00 CR)
FUNCTIONS

This course focuses on the real number system, inequalities, plane analytic geometry (lines and conics), functions, inverse functions, polynomials, rational functions, trigonometric functions, and exponential and logarithmic functions. It emphasizes fundamental methods of graphing functions, using non-calculus based techniques. [Note 1: This course is primarily intended for non-science students or as a prerequisite for MATH 1111 or 1151 for those students who have not passed the Mathematics Placement Test. Science students who have passed the Mathematics Placement Test require the permission of the Department of Mathematics and Computer Science to enrol in this course. Credit will not be given for this course if credit has already been granted for MATH 1111 or 1151.] (Format: Lecture 3 Hours, Laboratory 1.5 Hours) (Exclusion: Any version of MATH 1011 previously offered with a different title)

MATH1111 (3.00 CR)
CALCULUS I

This course introduces differential calculus. Topics include derivatives of algebraic, trigonometric, and exponential functions and applications such as curve sketching, related rates, and optimization problems. [Note 1: This course has a Challenge for Credit option; see Calendar Section 3.11] (Format: Lecture 3 Hours, Laboratory 1.5 Hours) (Exclusion: MATH 1151; any version of MATH 1111 previously offered with a different title)

MATH1121 (3.00 CR)
CALCULUS II

Prereq: 3 credits from MATH 1111, 1151; or permission of the Department

This course continues the introduction to calculus begun in MATH 1111. Topics include techniques of integration; applications of the integral such as finding volumes and solving elementary differential equations; and sequences and series. (Format: Lecture 3 Hours, Laboratory 1.5 Hours) (Exclusion: Any version of MATH 1121 previously offered with a different title)

MATH1151 (3.00 CR)
APPLIED CALCULUS

This course introduces differential calculus with an emphasis on applications. Topics include modeling with functions, interpretation of the derivative and partial derivatives, optimization in one and two dimensions, and some computational methods. (Format: Lecture 3 Hours, Laboratory 1.5 Hours) (Exclusion: MATH 1111)

MATH1251 (3.00 CR)
FINITE MATHEMATICS

This course introduces common applications of finite mathematics. Topics include Markov chains, linear programming and game theory. [Note 1: This course is restricted to non-mathematics majors and is intended in particular for students in behavioural sciences, commerce, and social sciences. Mathematics majors require the instructor's permission to enrol.] (Format: Lecture 3 Hours)

MATH1311 (3.00 CR)
INTRODUCTION TO DATA SCIENCE

This course emphasizes practical techniques for working with large-scale data and introduces tools and techniques for managing, visualizing, and making sense of data through the use of statistical software. Topics include: descriptive statistics, confidence intervals, regression, and machine learning. (Format: Lecture 3 hours, Laboratory 1.5 hours)

MATH1991 (3.00 CR)
SPECIAL TOPIC IN MATHEMATICS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for MATH 1991 more than once, provided the subject matter differs.] (Format: Variable)

MATH2111 (3.00 CR)
MULTIVARIABLE CALCULUS
Prereq: MATH 1121; or permission of the Department

This course introduces the calculus of functions of several variables, including conic sections, quadric surfaces, polar co-ordinates in the plane, cylindrical and spherical co-ordinates in three space, continuity, partial derivatives, tangent planes, chain rule, maximum and minimum values, Lagrange multipliers, and double and triple integrals.(Format: Lecture 3 Hours)

MATH2121 (3.00 CR)
DIFFERENTIAL EQUATIONS I
Prereq: MATH 1121; or permission of the Department

This course introduces first and second order differential equations. Topics include techniques for solving simple differential equations and the qualitative analysis of linear and non-linear equations. Applications include growth and decay, heating and cooling, and mixing and chemical reactions. (Format: Lecture 3 Hours) (Exclusion: Any version of MATH 2121 previously offered with a different title)

MATH2211 (3.00 CR)
DISCRETE STRUCTURES
Prereq: 3 credits from MATH 1111, 1151; or permission of the Department

This course introduces the terminology and concepts of discrete mathematics. Topics may include: logical arguments, proofs and algorithm verification, sets, relations, functions and cardinality of sets, induction and recursion, enumeration, and algorithms and complexity. [Note 1: This course is cross-listed with COMP 2211 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

MATH2221 (3.00 CR)
LINEAR ALGEBRA
Prereq: 3 credits from MATH 1111, 1151; or permission of the Department

This course introduces linear algebra and its applications. Topics may include: linear equations, matrices, determinants, vector spaces, linear transformations, inner products, eigenvalues, and eigenvectors. Whenever possible, the course provides geometric interpretation in two- and three-dimensional space. (Format: Lecture 3 Hours)

MATH2311 (3.00 CR)
STATISTICS I
This course introduces some of the concepts and techniques of probability and statistics. Topics include descriptive statistics, elementary probability, probability distributions, statistical estimation, hypothesis testing, and the use of a statistical software package in analyzing data. Examples come from a wide variety of disciplines. (Format: Lecture 3 Hours)

MATH2321 (3.00 CR)
STATISTICAL METHODS FOR DATA SCIENCE
Prereq: MATH 1151; 3 credits from MATH 1311, 2311; or permission of the Department

This is a second course in the concepts and techniques of probability, statistics, and data science. It further emphasizes practical computational techniques for modelling, understanding, and making predictions with large-scale data, as well as the mathematical basis of those techniques. Topics covered may include: basic combinatorics, independence and conditional probability, Bayesian methods, linear and nonlinear regression, correlation estimation and prediction, goodness-of-fit tests, and machine learning. (Format: Lecture 3 Hours, Laboratory 1 Hour) (Exclusion: Any version of MATH 2321 previously offered with a different title)

MATH2991 (3.00 CR)
SPECIAL TOPIC IN MATHEMATICS
This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for MATH 2991 more than once, provided the subject matter differs.] (Format: Variable)

MATH3031 (3.00 CR)
HISTORY OF MATHEMATICS
Prereq: 6 credits from MATH 2111, 2121, 2211, 2221; or permission of the Department

This course surveys the history of mathematics. Topics include: the achievements of early civilizations, the developments in Europe leading to the calculus and its consequences, the growth of rigor in the eighteenth and nineteenth centuries, and the axiomatic method in the twentieth century. (Format: Lecture 3 Hours)

MATH3111 (3.00 CR)
REAL ANALYSIS I
Prereq: MATH 1121; MATH 2211; or permission of the Department

This course provides a systematic and rigorous study of the real numbers and functions of a real variable, emphasizing limits and continuity. (Format: Lecture 3 Hours)

MATH3131 (3.00 CR)
DIFFERENTIAL EQUATIONS II
Prereq: MATH 2121; MATH 2111; MATH 2221; or permission of the Department

This course focuses on ordinary and partial differential equations. Topics for ordinary differential equations include existence and uniqueness of solutions, systems of differential equations, power series solutions, Laplace and Fourier transforms, and Fourier series. Topics for partial differential equations include separation of variables, generalized Fourier series, Sturm-Liouville theory, Legendre polynomials, Bessel functions, Green's functions, and the calculus of variations. (Format: Lecture 3 Hours) (Exclusion: Any version of MATH 3131 previously offered with a different title)

MATH3141 (3.00 CR)
VECTOR CALCULUS
Prereq: MATH 2111; 3 credits from MATH 2221, PHYS 3451; or permission of the Department

This course covers the calculus of vector-valued functions and curves, vector fields, line and surface integrals, vector differential operators, and the various forms of Stokes' Theorem. It may also include the differential geometry of curves and differential forms. (Format: Lecture 3 Hours)

MATH3151 (3.00 CR)
AN INTRODUCTION TO MATHEMATICAL MODELLING
Prereq: Third-year standing; 3 credits from Math 1111, 1151; or permission of the Department

This course introduces the nature of theoretical mathematical modelling illustrated by examples drawn from the physical sciences, population dynamics (mathematical ecology), traffic flow, sociological problems (for example voting, kinship and cultural stability) and other areas depending on the interests of the class. (Format: Lecture 3 Hours)

MATH3161 (3.00 CR)
COMPLEX VARIABLES WITH APPLICATIONS
Prereq: MATH 2111; or permission of the Department

This course covers analytic functions, Cauchy-Riemann equations, conformal mapping, complex integrals, Cauchy's integral theorem, Taylor and Laurent Series, residues,evaluation of real integrals, and inverse transforms. (Format: Lecture 3 Hours; Exclusion MATH 4131)

MATH3211 (3.00 CR)
MODERN ALGEBRA I
Prereq: MATH 2211; MATH 2221; or permission of the Department

This course introduces the theory of groups and rings. (Format: Lecture 3 Hours)

MATH3221 (3.00 CR)
ADVANCED LINEAR ALGEBRA
Prereq: MATH 2221; MATH 2211 recommended; or permission of the Department

This course covers selected linear algebraic topics such as: change of basis and similarity of matrices; multilinear forms and determinants; canonical forms, Primary Decomposition Theorem, Jordan form; semisimple and normal operators; spectral theory; quadratic forms; and applications to areas such as geography, electrical networks, linear programming, differential equations, and the geometry of conic sections. (Format: Lecture 3 Hour)

MATH3231 (3.00 CR)
NUMBER THEORY
Prereq: MATH 2211; or permission of the Department

This course introduces the theory of numbers. Topics may include: the Euclidean algorithm, the Fundamental Theorem of Arithmetic, congruences, diophantine equations, Fermat and Wilson Theorems, quadratic residues, continued fractions, and the Prime Number Theorem. (Format: Lecture 3 Hours)

MATH3251 (3.00 CR)
GRAPH THEORY
Prereq: MATH 2211; or permission of the Department

This course introduces terminology, techniques, and applications of graph theory and examines parameters for a variety of classes of graphs. Topics include trees, planarity, colouring, matchings, and network flow problems. (Format: Lecture 3 Hours) (Exclusion: Any version of MATH 3251 previously offered with a different title.)

MATH3301 (3.00 CR)
INTRODUCTION TO GAME THEORY
Prereq: 6 credits from ECON 1001, 1011; or 3 credits from MATH 1111, 1151; or permission of the Department

This course introduces the basic tools and methods of Game Theory. Game Theory is a mathematically oriented approach to understanding the strategic interaction of self-interested agents. Emphasis is on non-cooperative games. Topics include backwards induction, iterative deletion of dominated strategies, Nash equilibrium, repeated games, some equilibrium refinements, evolutionary game theory, and Bayesian Nash equilibria. [Note 1: This course is cross-listed as ECON 3301 and therefore may count as 3 credits in either discipline. Note 2: Counts as a Commerce elective for students taking a Bachelor of Commerce or a Major or Minor in Commerce] (Format: Lecture 3 Hours, Laboratory 1 Hour)

MATH3311 (3.00 CR)
PROBABILITY AND STATISTICS
Prereq: MATH 1121; MATH 2321; or permission of the Department

This course focuses on the mathematical theory of probability. It includes topics such as: sample space, events, axioms, conditional probability, Bayes' Theorem, random variables, combinatorial probability, moment generating functions, transformations of random variables, univariate and joint distributions with reference to the binomial, hypergeometric, normal, Gamma, Poisson, and others; convergence of sequences of variables; and the Central Limit Theorem. (Format: Lecture 3 Hours) (Exclusion: Any version of MATH 3311 previously offered with a different title)

MATH3411 (3.00 CR)
NUMERICAL ANALYSIS
Prereq: MATH 1121; 3 credits from MATH 2221, PHYS 3451; 3 credits from COMP or PHYS; or permission of the Department

This course introduces numerical methods for solving a variety of problems in the sciences. Topics include numerical errors and precision, root finding, model fitting, integration and solution of differential equations, solution of linear and nonlinear systems of equations, and matrix factorization. [Note 1: This course is cross-listed as COMP 3411 and PHYS 3411 and may therefore count as three credits in any of the three disciplines.] (Format: Lecture 3 Hours)

MATH3531 (3.00 CR)
SIMULATION AND MODELLING

Prereq: 3 credits from MATH 1111, 1151; 3 credits from MATH 1311, 2311, 3311, PSYC 2001, 2011; 3 credits from COMP; or permission of the Department

This course introduces the simulation technique for studying mathematical models. Topics include: systems theory and system models, continuous system simulation, discrete system simulation, Monte Carlo methods, random number generators, and simulation languages. It emphasizes computer implementation of the methods studied. [Note 1: This course is cross listed as COMP 3531 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

MATH3991 (3.00 CR)
SPECIAL TOPIC IN MATHEMATICS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for MATH 3991 more than once, provided the subject matter differs.] (Format: Variable)

MATH4011 (3.00 CR)
SET THEORY AND INTRODUCTORY CATEGORY THEORY

Prereq: 3 credits from MATH 3111, 3211, 3221; or permission of the Department

This course provides an introduction to set theory via the basic ideas of category theory. Topics may include: categories, types of arrows in categories, limits and colimits, mapping sets, cardinals and ordinals, and the axiom of choice. (Format: Lecture 3 hours) (Exclusion: MATH 3011)

MATH4111 (3.00 CR)
TOPOLOGY

Prereq: MATH 2111; MATH 3111; or permission of the Department

This course introduces the essential ideas of topology. Topics include: metric and topological spaces, convergence, continuous functions, connected spaces, compact spaces, and homotopy. (Format: Lecture 3 hours)

MATH4121 (3.00 CR)
REAL ANALYSIS II

Prereq: MATH 2111; MATH 3111; or permission of the Department

This course continues the study of analysis begun in MATH 3111 and includes a rigorous study of the Riemann and Lebesgue integrals based on formal definitions and proofs. (Format: Lecture 3 Hours; Exclusion: MATH 3121)

MATH4221 (3.00 CR)
MODERN ALGEBRA II

Prereq: MATH 3211; or permission of the Department

This course explores the classical theory of rings and fields and their applications. (Format: Lecture 3 Hours)

MATH4311 (3.00 CR)
PROBABILITY AND STATISTICS II

Prereq: MATH 3311; or permission of the Department

This course focuses on mathematical statistics. It includes topics such as: estimation, unbiasedness,efficiency, Cramer-Rao lower bound, consistency, sufficiency, maximum likelihood estimators, hypothesis testing, power of tests, likelihood ratio, regression analysis and analysis of variance. (Format: Lecture 3 Hours) (Exclusion: MATH 3321)

MATH4631 (3.00 CR)
THEORY OF COMPUTATION

Prereq: COMP/MATH 2211; COMP 1731; or permission of the Department

This course is an introduction to theoretical aspects of Computer Science such as formal language and automata theory and complexity theory. [Note 1: This course is cross listed as COMP 4631 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

MATH4651 (3.00 CR)
CRYPTOGRAPHY

Prereq: COMP 1731; COMP/MATH 2211; MATH 2221; or permission of the Department

This course is an introduction to cryptographic algorithms and to the cryptanalysis of these algorithms, with an emphasis on the fundamental principles of information security. Topics include: classical cryptosystems, modern block and stream ciphers, public-key ciphers, digital signatures, hash functions, key distribution and agreement. [Note 1: This course is cross listed as COMP 4651 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

MATH4951 (3.00 CR)
INDEPENDENT STUDY IN MATHEMATICS

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for MATH 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

MATH4990 (6.00 CR)
HONOURS THESIS

Prereq: Fourth-year standing; Enrollment in the Honours in Mathematics program

This course comprises independent research and study under the direction of one or more supervisors approved by the Department. (Note: consent of supervisor(s) and permission of Department required.) (Format: Independent Study/Thesis)

MATH4991 (3.00 CR)
SPECIAL TOPIC IN MATHEMATICS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for MATH 4991 more than once, provided the subject matter differs.] (Format: Variable)

MODERN LANGUAGES AND LITERATURES

Courses offered by the Department of Modern Languages and Literatures include French, German, Spanish, Japanese and Linguistics. Linguistics, and most culture courses are offered in English. Students can also benefit from our study-abroad programs in France, Germany, Spain and Japan. The courses offered in each of these disciplines, as well as the Majors, Minors and Honours programs available, are outlined under each discipline heading. An interdisciplinary Major and Honours in Modern Languages, Literatures and Cultures are also offered, as outlined in this section.

Students who plan to specialize in one or more languages by electing a Minor, Major, or Honours program should declare their specialization to the Registrar's Office by the end of their first year of University studies. They should also visit the program advisor in the Department of Modern Languages and Literatures before registering for second year, since most programs require the advisor's approval of optional courses.

PLACEMENT

Beginning language courses (GERM 1001, SPAN 1101, and JAPA 1001) are designed for students who either have never studied the language previously or have had minimal experience with the language. All students with high school, post-secondary, or non-academic exposure to these languages must consult with the program advisor for that language about placement and may be asked to write a diagnostic placement test if the level of competence in the language cannot be readily established. The results of the consultation and testing will be used to place the students in the proper course level.

Placement of students in their first French course will be decided on the basis of a French Language Skills Assessment given by the Department. All students who have not studied French at Mount Allison previously must complete this assessment before registering for a course in French. The Skills Assessment is available on-line through the Department of Modern Languages and Literatures web site. Students completing Majors, Minors, or Honours programs in French should be aware that any exemptions from 1000-2000 level courses obtained through the placement process must be replaced on their programs by credits in French at the 3000-4000 levels.

For all language courses offered in the Department, if within the first seven class hours it becomes apparent that the initial placement was inappropriate, the student or the instructor may request a meeting with the Department Head to discuss the appropriateness of the student moving to a higher or lower level.

Note: A student cannot receive credit for a language course that is a prerequisite for a course for which they have already received credit by placement or by previous course work.

FRENCH STUDIES

Mount Allison offers an extensive French Studies program, within the Department of Modern Languages and Literatures, with a variety of language, literature and culture courses that increase the students' awareness of the French, French-Canadian, and Francophone identities while developing their ability to function in the second language. To this end, all language and literature courses are taught in French unless otherwise noted.

The courses at the first and second year levels provide students with the opportunity to establish a sound foundation in written and spoken

French. The study of grammar at these levels is reinforced by practice in the language laboratory or tutorial groups. Several courses at the 3000 and 4000 levels are specifically intended to refine students' command of written and spoken French, while other courses deal with the various areas of French, French-Canadian, and Francophone literatures and cultures as well as the theories of literary criticism. A series of prizes are awarded each year to students who distinguish themselves in French Studies.

The Department supports other activities that enrich the course of study:

- Le Cercle français
- Guest speakers
- Tintamarre, a bilingual theatrical troupe
- Study Abroad Program at the Université de Strasbourg, France
- Spring field course in France
- Certificate of Bilingualism (see Section H under Degrees and Certificates)

Minimum standard in French for certain courses

While there is no course prerequisite for FREN 2801 (Cinéma du monde francophone), there is a minimum standard of competency in French required for admission to the course. Anyone wishing to register in FREN 2801 must complete a French Skills Assessment (see previous section on Placement) and demonstrate a knowledge of French equivalent to completion of FREN 1711 (placement in FREN 2401).

Disciplinary B.A. Programs

Important note for advanced students: anyone who has completed French 2401 or who has been placed in FREN 2501 is encouraged to enrol in FREN 2501 and 2601 concurrently.

MINOR in French is 24 credits earned as follows:

0 to 6	FREN 1701, 1711, if required by placement
9	FREN 2401, 2501, 2601
3	FREN 3101
6 to 12	from French courses at the 3/4000 level

Note: FREN 2801 may only be included in the requirements for a minor if FREN 1701 and FREN 1711 are not required by placement. If an exemption is granted from any of the language courses, replacement credits must be obtained in other French courses at the 3/4000 level.

MAJOR in French is 60 credits earned as follows:

6 from FREN 1811*, 1821*, 2801
9 from FREN 2401, 2501, 2601
12 from FREN 3101, 3111, 3131, 4001
15 credits in FREN literature/culture form the 3000 level in at least 4 of the 5 following areas. Students are, however, encouraged to take 1 from each:
  a) 17th and 18th centuries: FREN 3301, 3401, 3411
  b) 19th century: FREN 3501, 3511
  c) 20th century: FREN 3601, 3611, 3621
  d) French Canada: FREN 3761, 3771
  e) Theoretical and Cultural Studies: FREN 3801, 3871
18 from complementary courses in other languages in Modern Languages, Literatures or Cultures; Arts & Letters and/or Humanities; HIST 1661, LING 2001, 3001, 3111 are especially recommended

Note 1: Courses taught in English are indicated with an asterisk.

Note 2: A maximum of 6 credits of courses taught in English at the 2/3000 level may count toward a Major in French.

Note 3: All complementary courses from disciplines outside the Department of Modern Languages and Literatures (with the exception of HIST 1661) must be chosen in consultation with the Program Advisor prior to enrolment in them.

HONOURS in French (Thesis Option) is 66 credits earned as follows:

9 from FREN 1811, 1821, 2801
9 FREN 2401, 2501, 2601
12 from FREN 3101, 3111, 3131, 4001
3 from LING 2001, 3001, 3011
27 credits from FREN at the 3/4000 level including:
  a) at least 6 credits from 17th and 18th centuries: FREN 3301, 3401, 3411
  b) at least 3 credits from 19th century: FREN 3501, 3511
  c) at least 3 credits from 20th century: FREN 3601, 3611, 3621
  d) at least 3 credits from French Canada: FREN 3761, 3771
  e) at least 3 credits from Theoretical and Cultural Studies: FREN 3801, 3871
6 FREN 4990 (Mémoire)

HONOURS in French (Course Option) is 66 credits earned as follows:

9 from FREN 1811, 1821, 2801
9 FREN 2401, 2501, 2601
12 from FREN 3101, 3111, 3131, 4001
3 from LING 2001, 3001, 3011
33 credits from FREN at the 3/4000 level including:
  a) at least 6 credits from 17th and 18th centuries: FREN 3301, 3401, 3411
  b) at least 3 credits from 19th century: FREN 3501, 3511
  c) at least 3 credits from 20th century: FREN 3601, 3611, 3621
  d) at least 3 credits from French Canada: FREN 3761, 3771
  e) at least 3 credits from Theoretical and Cultural Studies: FREN 3801, 3871

Note: An interdisciplinary Major and Honours in Modern Languages, Literatures and Cultures (French, German, Spanish and Japanese), are also available.

FRENCH COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of

the appropriate Department Head or Program Coordinator must be obtained.

FREN1001 (3.00 CR)
ELEMENTARY FRENCH I

This course is intended for students with little or no background in French. Its objective is to help students develop some proficiency in each of the four skill areas: listening, speaking, reading, and writing. It takes a traditional approach with an emphasis on elementary grammar, syntax, and systematic vocabulary building. [Note 1: This course is offered in the Spring/Summer term only. It is not available in the day sessions during the Fall and Winter terms.] (Format: Lecture/Workshop 3 Hours)

FREN1011 (3.00 CR)
ELEMENTARY FRENCH II

Prereq: FREN 1001

This course is a continuation of FREN 1001 and uses the same methods and approach; it focuses on building more familiarity with the grammar, syntax, and vocabulary of basic French. [Note 1: This ourse is offered in the Spring/Summer term only. It is not available in the day sessions during the Fall and Winter terms.] (Format: Lecture/Workshop, 3 Hours)

FREN1651 (3.00 CR)
PREPARATORY FRENCH/ FRANÇAIS PRÉPARATOIRE

This French grammar course designed for non-Francophones who did not complete high school French, is an intensive review of basic grammatical structures with a particular emphasis on verb conjugation, pronouns, adjectives and syntax. [Note 1: Placement by the Department is required. A minimum standard of achievement on the French Skills Assessment is required. Note 2: Students completing FREN 1651 may continue into FREN 1701.] (Format: Lecture 3 Hours, Laboratory 1 Hour)

FREN1701 (3.00 CR)
INTERMEDIATE FRENCH I FRANÇAIS INTERMÉDIAIRE I

Prereq: FREN 1651; or placement by the Department

This course is an intensive approach to the development of communication skills through the integration of grammar study, writing practice, and oral exercises. Analysis and discussion of readings reinforce the study of written and oral language. (Format: Lecture 3 Hours, Laboratory 1 Hour)

FREN1711 (3.00 CR)
INTERMEDIATE FRENCH II / FRANÇAIS INTERMÉDIAIRE II

Prereq: FREN 1701; or placement by the Department

The continuation of French 1701, this course pursues the development of communication skills through the integration of grammar study, writing practice, and oral exercises. Analysis and discussion of readings reinforce the study of written and oral language. (Format: Lecture 3 Hours, Laboratory 1 Hour)

FREN1821 (3.00 CR)
FRANCE: THE CULTURAL EXPERIENCE

This study-abroad course offers the opportunity to encounter, through an experiential and interdisciplinary lens, a diverse range of 'lieux de mémoire' [sites of memory] in French and Francophone culture such as castles, churches, gardens, museums, and commemorative monuments. Using Pierre Nora's approach to cultural memory, the course positions these landmarks as sites that crystallize the essence of French culture, reflect artistic movements and schools of thought, and exemplify the French nation's ability to respond to change and reinvent itself at critical moments in history. [Note 1: Language of instruction is English. Note 2: This course is only available to students during the Spring/Summer term. Enrollment is limited and students should be aware of the additional costs of travel and participation fees.] (Format: Field Course)

GERMAN STUDIES

The German language is spoken by approximately 120 million people in Germany, Austria, Switzerland, Luxembourg and Liechtenstein, and by more than one million Canadians. German is one of the official languages of the European Union and is the second most widely used foreign language in Europe, including Eastern Europe.

German language courses are designed to impart a good working knowledge of German. Students will also gain insight into the culture and mode of life of the German-speaking countries. In addition, as experience shows, students of foreign languages generally show significant improvement in their primary language skills.

German literature is rich and varied. The program places particular emphasis on representative authors and movements in order to provide students access to the literary tradition as a whole. The literature courses also aim to provide a strong complement to the available language courses.

Language of Instruction

All courses in the German Studies curriculum are taught in German unless indicated otherwise by a note.

Disciplinary B.A. Programs

MINOR in German is 24 credits earned as follows:

HISPANIC STUDIES

Spanish is one of the most widely spoken languages of the western world and is an official language of the United Nations' Organization. Canada's interest in the Spanish-speaking world is reflected in organizations such as CIDA, CUSO, WUSC and the Canadian Association of Latin American Studies.

Courses in Spanish, offered within the Department of Modern Languages and Literatures, offer the student a two-fold goal: the first, to learn to speak, understand, read and write this important language - particular attention is directed towards the students' achieving oral-aural proficiency, both in class and in the language laboratory; the second, to become familiar with the culture of the Hispanic world through the study of its literary and artistic works. Prizes are offered by the Department for excellence in Hispanic Studies.

The study of Spanish is very important in preparing for a career in the diplomatic corps, various international agencies, teaching, translation, journalism, publishing, commerce, web design, and commercial and cultural relations between Canada and Spanish-speaking countries.

The Department supports other programs and activities that enrich the course program. These include Club Hispánico, and the possibility of study in Spain and in Central or South America.

LINGUISTICS

Like other inquiries which are central to human experience, language has long been the focus of intellectual examination. Speculation on the nature of language appears in the works of Plato, Aristotle and other Greek philosophers. Although a number of disciplines, from literary studies to computer science, share the study of language with linguistics, the focus of linguistics is the scientific study of language. Linguists are interested in how human language is organized in the human mind and in how the social structures of human communities shape language to their own purposes, reflecting themselves in language use.

LINGUISTICS COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department or Program Coordinator must be obtained.

LING2001 (3.00 CR)
INTRODUCTION TO THE STUDY OF LANGUAGE

This course introduces the structural, social and psychological forces that shape language, beginning with a consideration of the origins and nature of language and proceeding to an examination of languages as systems and the ways they structure meaning. (Format: Lecture 3 Hours)

LING3001 (3.00 CR)
FUNDAMENTALS OF INTERNAL LINGUISTICS

Prereq: Second-year standing; LING 2001; students completing a Major or Honours in Modern Languages, Literatures and Cultures will be admitted without LING 2001; or permission of the Department

This course examines the nature and structure of language, the physiology of speech, word formation, theoretical concepts of sentence generation, and the phonological and historical forces involved in language creation and language change. It is recommended for senior students in language and literary studies, and students interested in language pathology. (Format: Lecture 3 Hours) (Exclusion: Any version of LING 3001 previously offered with a different title)

LING3011 (3.00 CR)
LANGUAGE AND SOCIETY

Prereq: Second-year standing; LING 2001; or permission of the Department

This course introduces issues and methods in the field of sociolinguistics, the study of the interaction between language and the structure and functioning of society. It includes topics in language variation, the contact of languages, and issues in second-language acquisition, with an emphasis on Canadian contexts. (Format: Lecture 3 Hours)

MODERN LANGUAGES, LITERATURES AND CULTURES

Interdisciplinary B.A. Programs

MUSIC

The study and performance of music has been a special feature of Mount Allison University since the first Certificate in Music was granted in 1874. The Department's excellent facilities and versatile faculty enable Mount Allison to provide a thoroughly professional experience within a small, residential, liberal arts university.

The Department of Music offers a wide range of degree programs and individual elective courses designed to develop well-rounded musicians and to provide students with a solid foundation in the liberal arts. A wide variety of courses are offered in the areas of composition and music technology, conducting, music education, music scholarship (music history, music theory), and performance. In all these programs, a core curriculum centered mainly on Western art ("classical") music in staff notation is supplemented by electives on a broad range of traditions including world music, popular music, and jazz. The various curricula were designed to align with the guidelines adopted by the Canadian University Music Society and have been updated in recognition of the need for greater flexibility, accessibility, and inclusion in postsecondary music studies in the twenty-first century. The Bachelor of Music (B.Mus.) degree includes the study of applied music (performance) among its core requirements and enables specialization in a wide range of sub-disciplines. For information concerning the B.Mus. degree and its requirements, see Section 11.6 (Bachelor of Music) of this Academic Calendar.

The Bachelor of Arts (B.A.) Major in Music is designed for students who wish to study Music alongside a broader range of Arts and Science courses than the B.Mus. program allows. The Bachelor of Arts (B.A.) Honours in Music allows for greater depth and specialization than the Major, with a particular focus on music scholarship and research. The Minor in Music is available to students in any program at Mount Allison.

The Department of Music also offers a Joint B.A. Major in Computer Science and Music, as well as a Certificate in Music Education, designed to prepare students for admission to post-degree studies in Education. Further details can be found in Section 12 (Certificate Programs) of this Academic Calendar.

The Department of Music also offers courses and ensembles as electives for students in all degree programs across the university. Subject to auditions, all students may participate in the Music Department's ensembles that are valued at one credit per year of participation.

Note: For information concerning the Bachelor of Music Degree Requirements, see Section 11.6 - Bachelor of Music.

Disciplinary B.A. Programs

Students planning a Music degree should note that the course requirements can take at least three academic years to fulfill. It is strongly recommended that students consult with the Music Program Advisor and declare this major before the end of their first year.

MINOR in Music is 24 credits earned as follows:

12 from 1101, 1201, 1221, 1703
6 from Music at the 1/2000 level, excluding ensembles
6 from Music at the 3/4000 level

MAJOR in Music is 60 credits earned as follows:

12 from MUSC 1101, 1201, 1221, 1703
9 from MUSC 1111, 1211, 2101, 2111, 2121, 2201, 2211
3 from MUSC 1619-4619, 1629-4629, 1639-4639, 1649-4649, 1659-4659, 1669-4669, 1689-4689, 1699-4699 (Ensembles)
6 from Music at the 2/3/4000 level
12 from Music at the 3/4000 level
18 from complementary courses from other disciplines in Arts and Letters and Humanities, of which at least 6 must be at the 3/4000 level

Note: Ensemble credits must be completed over at least two years

HONOURS in Music (Course Option) is 66 credits earned as follows:

42 credits as in the first five lines of the Major
9 credits from MUSC 1111, 1211, 2101, 2111, 2121, 2201, 2211 if not already counted in the Major; otherwise from Music at the 2/3/4000 level
15 credits from Music at the 3/4000 level

HONOURS in Music (Thesis Option) is 66 credits earned as follows:

42 credits as in the first five lines of the Major
9 credits from MUSC 1111, 1211, 2101, 2111, 2121, 2201, 2211 if not already counted in the Major; otherwise from Music at the 2/3/4000 level
9 credits from Music at the 3/4000 level
6 from MUSC 4990

Interdisciplinary B.A. Program

B.A. JOINT MAJOR in Computer Science and Music is 90 credits earned as follows:

9 from MATH 1151, 1121, 2221
27 from COMP 1631, 1731, 2211, 2611, 2711, 2931, 3361, 3611, 3811
6 from COMP 3711, 3831, 3911, 3971
3 from PHYS 1401
30 from MUSC 1101, 1201, 1221, 1703, 2141, 2151, 2171, 3141, 3151, 3171
9 from MUSC 1021, 1111, 1211, 1991*, 2021, 2101, 2111, 2121, 2201, 2211, 2703, 2991*, 3001, 3121, 3161, 3991*, 4991*
3 from MUSC 1619-4619, 1629-4629, 1639-4639, 1649-4649, 1659-4659, 1669-4669, 1689-4689, 1699-4699
3 from MUSC 4951

Note: * indicates that the Department may approve the course for inclusion when the topic is relevant to the program.

Note: MUSC 4951 will take the form of an independent capstone project co-supervised by faculty in Computer Science and Music.

Note: Students in the BA Joint Major in Computer Science and Music are required to integrate knowledge in both Computer Science and Music in their independent capstone project (MUSC 4951).

MUSIC COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

MUSC1001 (3.00 CR)
FUNDAMENTALS OF MUSIC

This course is an introduction to fundamental concepts of music theory, including notation and technical terminology, as well as to listening, singing, and keyboard skills. [Note 1: This course is not available for credit for the Bachelor of Music program. Credit will not be given for this course if credit has already been granted for MUSC 1011, 1101, or 1111.] (Format: Lecture 3 Hours) (Exclusion: Any version of MUSC 1001 previously offered with a different title; MUSC 1021)

MUSC1021 (3.00 CR)
MUSIC AND MATHEMATICS

This course addresses relationships between musical and mathematical concepts with an emphasis on problem-solving and visualization. Musical topics include time units and cycles, pitch organization, tuning systems, and chord structures in diverse cultures. These topics are explored through basic arithmetical operations on integers and rational numbers and through geometric sequences and series, radicals, logarithms, graphs, modular arithmetic, and the Euclidean algorithm. (Format: Integrated Lecture and Laboratory 3 Hours) (Exclusion: MUSC 1001)

MUSC1101 (3.00 CR)
INTRODUCTION TO MUSIC THEORY

Prereq: 3 credits from MUSC 1001, 1021; or Entrance Assessment

This course is an intensive review of the fundamentals of Western music in staff notation (rhythm and meter, scales and keys, intervals and chord qualities), coupled with an introduction to the field of music theory as a modern academic discipline. (Format: Lecture 3 Hours) (Exclusion: Any version of MUSC 1101 previously offered with a different title)

MUSC1111 (3.00 CR)
FOUR-PART WRITING

Prereq: MUSC 1101

This course explores methods of four-part composition from eighteenth-century Europe. Topics include chorale harmonization, figured bass realization in keyboard style, and model composition in various textures. (Format: Lecture 3 Hours) (Exclusion: Any version of MUSC 1111 previously offered with a different title)

MUSC1201 (3.00 CR)
INTRODUCTION TO WESTERN ART MUSIC HISTORY

This course introduces students to the history and literature of music in the Western World and provides an overview of the various styles, eras, and genres of Western Art Music. It considers and compares changing concepts, styles, forms, and media. (Format: Lecture 3 Hours) (Exclusion: MUSC 2001; Any version of MUSC 1201 previously offered with a different title)

MUSC1211 (3.00 CR)
HISTORY OF EUROPEAN ART MUSIC TO 1750

Prereq: MUSC 1101; MUSC 1201; MUSC 1221; or permission of the Department

This course surveys European Art Music history and literature from its beginnings to 1750, considering its written, oral, and improvisatory practices. It examines the social, cultural, and historical contexts of the works studied. (Format: Lecture 3 Hours) (Exclusion: Any version of MUSC 1211 previously offered with a different title).

MUSC1221 (3.00 CR)
INTRODUCTION TO MUSIC, CULTURE, AND CONTEXT

This course considers music's role in society and culture broadly through the comparison and consideration of musics from different locations and cultural contexts, including works of jazz, popular, Indigenous (resurgence), traditional, world, and art musics. The course aims to develop students' core research and critical thinking skills. It explores the theoretical frameworks of gender studies and decolonization, and their implications for music studies. (Format: Lecture 3 Hours)

MUSC1501 (3.00 CR)
APPLIED MUSIC I

This applied course involves individual weekly instruction in vocal and instrumental music and facilitates technical command, interpretive insight, and understanding of pedagogical procedures. It stresses the development of the ability to perform with competence and musical understanding while providing a comprehensive background of music of various periods, styles, and composers. [Note 1: This course is only open to students enrolled in the Bachelor of Music program.] (Format: Private Instruction 1 Hour)

MUSC1511 (3.00 CR)
APPLIED MUSIC II

Prereq: MUSC 1501

This applied course continues the weekly instruction started in MUSC 1501, culminating in a juried performance at the end of the term. (Format: Private Instruction 1 Hour).

MUSC1521 (3.00 CR)
DICTION FOR SINGERS

This course introduces the symbols and sounds of the International Phonetic Alphabet and its application to the English, French, German, and Italian languages. It explores differences between spoken and sung language and investigates and practices physical processes required to produce the various sounds. [Note 1: This course is only open to students enrolled in the Bachelor of Music program, or by permission of the Department. Note 2: All voice students must complete MUSC 1521 in the course of their degree. It is recommended that this course be completed within the first two years of study.] (Format: Lecture 3 Hours)

MUSC1601 (3.00 CR)
COLLABORATIVE KEYBOARD I

This course provides the basic knowledge and skills necessary for artistic accompaniment. It examines different styles of music, including Art Song, Lieder, and Oratorio, as well as accompaniments for instrumental works and orchestral reductions. [Note 1: This course is only open to students enrolled in the Bachelor of Music program, or by permission of the Department. Note 2 All piano and organ students must complete MUSC 1601 in the course of their degree. It is recommended that this course be completed within the first two years of study.] (Format: Integrated Lecture and Laboratory 3 Hours) (Exclusion: MUSC 2603 Collaborative Keyboard I)

MUSC1703 (3.00 CR)
AURAL SKILLS AND MUSICIANSHIP I

Prereq: MUSC 1001; or Entrance Assessment

This course studies the practical aspects of music theory. It includes practice in aural musicianship skills, including sight-singing, interval recognition, dictation, improvisation, and keyboard skills. (Format: Integrated Lecture and Laboratory 1.5 Hours)

MUSC1801 (3.00 CR)
INTRODUCTION TO APPLIED MUSIC I

This applied course provides individual weekly instruction in vocal or instrumental music, emphasizing technical proficiency and the development of interpretive insight. This course stresses the development of the ability to perform with competence and musical understanding. [Note: MUSC 1801 is open to students from other degree programs by permission of the Department, dependent on available space and completion of a successful audition. All other applied music courses are only open to students in the B.Mus. program.] (Format: Private Instruction 1 Hour) (Exclusion: MUSC 1803)

INDEPENDENT STUDY IN MUSIC
This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for MUSC 4950/51/53 more than once, provided the subject matter differs.] (Format: Independent Study)

MUSC4990 (6.00 CR)
HONOURS THESIS
The content of study is to be determined by the student in conjunction with one or more supervisors of the course. (Format: Independent Study/Thesis) [Note 1: Permission of the Department is required.]

MUSC4991 (3.00 CR)
SPECIAL TOPIC IN MUSIC

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for MUSC 4991 more than once, provided the subject matter differs.] (Format: Variable)

ONE CREDIT MUSIC ENSEMBLES:

Music ensembles focus on developing skills and practical experience in performance and include public performances. [Note 1: Music ensembles are open to all university students regardless of major. With the exception of Choral Society, which does not require an audition, a successful audition is required for enrolment in any ensemble.] (Format: Experiential)

MUSC 1619-4619 WIND ENSEMBLE
MUSC 1629-4629 CHAMBER ORCHESTRA
MUSC 1639-4639 SYMPHONIC BAND
MUSC 1649-4649 JAZZ ENSEMBLE
MUSC 1659-4659 ELLIOTT CHORALE

RECITALS AND CONCERTS

Performances by students, faculty, and guest artists form an important part of the musical life of Mount Allison. The University Performing Arts Series brings to the campus top performers of international rank. Various music faculty ensembles provide an "in residence" group of performers. Frequent student recitals and Collegia Musica provide further enrichment as well as opportunities for students to gain valuable listening and performance experience.

PHILOSOPHY

Philosophy is the endeavour to understand the basic questions that arise for us in our world, and to formulate this understanding in a critical manner. Traditionally, these questions have touched upon what can be known, what can be valued, what our own position is socially and individually- above all, how we can know what we think we know.

The Department believes that careful study of the great works of the past and present provides the best access to philosophical questions. Thus many of our courses concentrate the student on developments in the history of philosophy, from the sixth century B.C. to the twentieth century. Courses in logic, ethics, metaphysics, philosophy of science and the philosophy of mind examine special issues in these developments and are compared to the formulation of these same issues in Asian philosophy.

The study of philosophy invites critical and imaginative consideration of the questions themselves.

Only thereby can the student learn to appreciate their force, and the variety of responses to them. Since philosophical questions are deeply imbedded in the development of western civilization, one can study philosophy in conjunction with a wide range of other disciplines. Moreover, our students have found it a useful background for subsequent endeavours in fields such as law, civil service, medicine, theology, and further graduate study.

Disciplinary B.A. Programs

MINOR in Philosophy is 24 credits, earned as follows:

PHILOSOPHY COURSES

The Humanities 1600-series is intended to provide an introduction to Humanities disciplines. These three-credit courses offered by the participating disciplines of Classics, History, Philosophy and Religious Studies are designed to acquaint beginning students with the methodologies typical of these disciplines and to familiarize them with the approaches taken, as well as the sorts of themes pursued and questions raised in these disciplines.

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

PHIL1601 (3.00 CR)
PLATO'S REPUBLIC

This course consists of a discussion of fundamental philosophical issues presented in Plato's Republic, such as the nature of morality, selfhood, God, reality, and knowledge. It may also use non-western sources to illuminate and evaluate central presuppositions and preoccupations of the western philosophical tradition that persist today. (Format: Lecture 3 Hours) (Exclusion: Any version of PHIL 1601 previously offered with a different title)

PHIL1611 (3.00 CR)
SELF, SOCIETY, AND FREEDOM

This course investigates ideas about the self in the western philosophical tradition, including work in contemporary philosophy. Issues may include freedom and responsibility, otherness, the relationship between mind and body, the relationship between humans and animals, the impact of trauma, suffering or oppression on self- identity, and the existence or non-existence of the soul. (Format: Lecture 3 Hours) (Exclusion: Any version of PHIL 1611 previously offered with a different title)

PHIL1621 (3.00 CR)
REASON, WILL, AND WORLD

This course introduces the study of philosophy by looking at some major thinkers in the Western philosophical tradition as well as the fundamental and enduring questions they raise about human beings and the world. Specific topics may include the nature of knowledge, desire, goodness, human flourishing, and free will. Students explore these themes to discover the relations between reason, the will, and the world. (Format: Lecture 3 Hours) (Exclusion: Any version of PHIL 1991 previously offered with the title The Story of Reason)

PHIL1651 (3.00 CR)
KNOWLEDGE, NATURE, AND SCIENCE

This course introduces the study of philosophy in the Western tradition through an investigation of how and why humans come to know the natural world. Readings will include historical and contemporary sources. Specific topics may include the development of science, the relation between humans and nature, the relation between science and technology, and the nature of ideas like progress, realism, truth, pseudoscience, explanation, objectivity, responsibility, and justice. (Format: Lecture 3 Hours) (Exclusion: Any version of PHIL 1651 previously offered with a different title)

PHIL1991 (3.00 CR)
SPECIAL TOPIC IN PHILOSOPHY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for PHIL 1991 more than once, provided the subject matter differs.] (Format: Variable)

PHIL2301 (3.00 CR)
INTRODUCTION TO FEMINIST PHILOSOPHY

Prereq: 3 credits from Humanities 1600 Series; or permission of the Department

This course provides an overview and introduction to the critique of traditional philosophy undertaken by feminist philosophers who argue that philosophy, along with other human endeavours, is shaped by the prejudices and assumptions of its practitioners. They do not reject philosophy as a discipline but explore new ways of doing philosophy. The aim of this course is to explore these new approaches in order to examine how feminist philosophers have combined the tools and methods of philosophy with their insights and values. (Format: Lecture 3 Hours)(Exclusion: Any version of PHIL 2991 previously offered with this title)

PHIL2401 (3.00 CR)
INTRODUCTORY AESTHETICS

Prereq: 3 credits from Humanities 1600 Series; or permission of the Department

This course focuses on aesthetics and the philosophy of art, drawing on both the history of philosophy (including figures such as Plato, Aristotle, Kant, and Nietzsche) and on contemporary theories about art. Topics may include the problem of defining art, the role of art and the artist in society, the experience of the sublime, and the nature of aesthetic judgment and taste. [Note 1: This course may count as 3 credits in Art History.] (Format: Lecture 3 Hours)

PHIL2511 (3.00 CR)
INTRODUCTORY PHILOSOPHY OF SCIENCE

Prereq: 3 credits from Humanities 1600 Series; or permission of the Department

This course offers an introductory survey of the central schools, figures, and topics in the philosophy of science. It considers the views of the logical positivists as well as critics such as Karl Popper, Carl Hempel, Evelyn Fox Keller, Heather Douglas, and Helen Longino. It is organized around a set of philosophical questions, which may include: What is science? How does science explain the world? Is truth the aim of science? Are scientists responsible for the knowledge they produce? Is science objective? Is science value-free? (Format: Lecture 3 Hours)

PHIL2611 (3.00 CR)
INTRODUCTORY LOGIC

This course introduces the study of logic, examining the basic structure of arguments, common reasoning fallacies, truth tables, and propositional logic. Further topics may include an introduction to quantification theory, syllogistic reasoning, Venn diagrams, Mill's methods, and issues central to inductive and deductive reasoning. (Format: Lecture 3 Hours) (Exclusion: Any version of PHIL 2611 previously offered with a different title; PHIL 2621)

PHIL2701 (3.00 CR)
INTRODUCTORY ETHICS

Prereq: 3 credits from Humanities 1600 Series; or permission of the Department

This course introduces current western ethical theories (such as consequentialism, deontology, feminist, and virtue ethics) from historical sources (such as J. S. Mill, Kant, and Aristotle) as well as contemporary ones. In addition, material normally includes non-western texts (for instance, from Africana, Chinese, and Indian traditions) whose continuities and tensions with standard western theories and texts will usefully expand the scope of the discussion. Themes discussed may include: the nature of moral agency and the good life, the role of pleasure, power and desire in ethics, the relation of the ethical and the political, of the right and the good, and of reason and emotion. (Format: Lecture 3 Hours)

PHIL2801 (3.00 CR)
INTRODUCTION TO METAPHYSICS

Prereq: 3 credits from Humanities 1600 Series; or permission of the Department

An introduction to the study of metaphysics understood broadly as the study of the fundamental nature of reality. This will include the study of various themes including the nature of substance, divinity, causation, appearance and reality, the one and the many, mind and matter. (Format: Lecture 3 Hours)

PHIL2991 (3.00 CR)
SPECIAL TOPIC IN PHILOSOPHY

Prereq: 3 credits from Humanities 1600 Series; or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for PHIL 2991 more than once, provided the subject matter differs.] (Format: Variable)

PHIL3000 (6.00 CR)
ANCIENT PHILOSOPHY

Prereq: 3 credits from PHIL; 3 credits from PHIL at the 2000 level excluding PHIL 2611; or permission of the Department

This course examines the philosophical developments in the Ancient era within the thought of the Pre-Socratics, Plato, and Aristotle. Topics may include themes from metaphysics, epistemology, moral and political philosophy and aesthetics. Format: Lecture 3 Hours)

PHIL3011 (3.00 CR)
HELLENISTIC AND ROMAN PHILOSOPHY

Prereq: 3 credits from PHIL; 3 credits from PHIL at the 2000 level excluding PHIL 2611; or permission of the Department

This course examines the philosophical developments in the late Ancient and Roman eras within the various schools of the Epicureans, Stoics, Skeptics, Cynics, Romans, and Neoplatonists. Themes may include the nature and possibility of knowledge, the ethics of happiness, the problem of free will, and the nature of the Divine. (Format: Lecture 3 Hours)

PHIL3101 (3.00 CR)
MEDIAEVAL PHILOSOPHY

Prereq: 3 credits from PHIL; 3 credits from PHIL at the 2000 level excluding PHIL 2611; or permission of the Department

This course examines themes and developments in the mediaeval monotheistic tradition of philosophy (ca. 350-1400 CE). The enduring philosophical topics discussed may include knowledge of God, universals, the nature of the human person, freedom of the will, the scope of philosophy, and the relationship between faith and reason. (Format: Lecture 3 Hours)

PHIL3221 (3.00 CR)
MODERN PHILOSOPHY: THE RATIONALIST TRADITION

Prereq: 3 credits from PHIL; 3 credits from PHIL at the 2000 level excluding PHIL 2611; or permission of the Department

This course investigates the thought of Descartes, Spinoza, and Leibniz, the leading seventeenth-century continental thinkers who formulated the great a priori systems. The capacity and function of human reason fully to understand the world is a theme common to these thinkers; it constitutes one of the major concerns of the course, a concern balanced by investigation of why these systems have reached such diverse answers to the substantive issues of how the world is to be understood. (Format: Lecture 3 Hours)

PHIL3231 (3.00 CR)
MODERN PHILOSOPHY: THE EMPIRICIST TRADITION

Prereq: 3 credits from PHIL; 3 credits from PHIL at the 2000 level excluding PHIL 2611; or permission of the Department

This course investigates the thought of Locke, Berkeley, and Hume, the leading English-language thinkers of the seventeenth and eighteenth centuries. These authors seem to be reacting to the a priori tradition examined by Philosophy 3221. But they also make claims that are not merely reactive, and the course examines the degree to which they propose a coherent interpretation of the extent and the limitations of human understanding. (Format: Lecture 3 Hours)

PHIL3240 (6.00 CR)
KANT

Prereq: 3 credits from PHIL; 3 credits from PHIL at the 2000 level excluding PHIL 2611; or permission of the Department

This course examines Kant's Critical project, including the arguments for the existence of God, freedom, and immortality to which it led. This necessitates close study of Critique of Pure Reason, and may include other texts such as Groundwork for the Metaphysics of Morals, Critique of Judgment, Religion Within the Bounds of Mere Reason, and selections from Kant's social and political philosophy. (Format: Lecture 3 Hours)(Exclusion: PHIL 4200)

PHIL3250 (6.00 CR)
NINETEENTH-CENTURY GERMAN PHILOSOPHY

Prereq: 3 credits from PHIL; 3 credits from PHIL at the 2000 level excluding PHIL 2611; or permission of the Department

This course provides an overview of the philosophical revolution that followed in the wake of Kant, often referred to as Germany's counterpart to the French Revolution. This strain of philosophy challenged the traditional understanding of the relationship of mind and world and the nature of reality itself. The course begins with J.G. Fichte's late eighteenth-century attempt to carry on the spirit of Kantian critical philosophy by grounding it in the radical freedom of the 'I' before considering such figures as the early German Romantics, Schelling, Hegel, Kierkegaard, and Nietzsche. (Format: Lecture 3 Hours)

PHIL3301 (3.00 CR)
ANALYTIC PHILOSOPHY IN ORIGIN

Prereq: 3 credits from PHIL; 3 credits from PHIL at the 2000 level excluding PHIL 2611; or permission of the Department

This course is an introduction to major figures and topics in the analytic philosophical tradition throughout the twentieth century. Topics include philosophical analysis, logical empiricism, American pragmatism, the shifting conceptions of ethics and metaphysics, and projects for and against naturalization of philosophical subject matter. (Format: Lecture 3 Hours)

PHIL3311 (3.00 CR)
ANALYTIC PHILOSOPHY IN PROGRESS

Prereq: 3 credits from PHIL; 3 credits from PHIL at the 2000 level excluding PHIL 2611; or permission of the Department

This course is an introduction to contemporary philosophy in response to the twentieth century analytic tradition. We will read thinkers discussing topics in metaphysics, epistemology, and ethics. Topical focus may include experience, meaning, rationality, value, and accounts of the nature and practice of philosophy. (Format: Lecture 3 Hours)

PHIL3351 (3.00 CR)
PHENOMENOLOGY & EXISTENTIALISM

Prereq: 3 credits from PHIL; 3 credits from PHIL at the 2000 level excluding PHIL 2611; or permission of the Department

This course introduces phenomenology and existentialism from the nineteenth century to the present. Existentialism encompasses a range of philosophies concerned with themes of freedom, anxiety, responsibility, and authentic living. Phenomenology is a philosophical methodology aiming to describe and understand the complex layers of our experience, including how memory, history, and community shape our perceptions. This course may include nineteenth- and twentieth-century authors such as Søren Kierkegaard, Friedrich Nietzsche, Jean-Paul Sartre, Simone de Beauvoir, Maurice Merleau-Ponty, and Franz Fanon, and other more recent thinkers. (Format: Lecture 3 Hours) (Exclusion: PHIL 3991 Phenomenology and Existentialism)

PHIL3511 (3.00 CR)
ADVANCED PHILOSOPHY OF SCIENCE

Prereq: PHIL 2511; B.Sc. students already doing 3/4000 level work in their own field, and students with declared programs in Environmental Science, Environmental Studies, or Cognitive Science will be admitted; or permission of the Department.

This course offers an advanced survey of topics in philosophy of science such as the role of science in a democratic society, the nature of scientific expertise, the basis of our trust in science, the nature of political and scientific consensus, and the effects of commercialization. It may also consider philosophical issues unique to individual sciences, such as biology, physics, computer science, or neuroscience. (Format: Lecture 3 Hours) (Exclusion: Any version of PHIL 3511 previously offered with a different title)

PHIL3631 (3.00 CR)
SYMBOLIC LOGIC

Prereq: PHIL 2611; or permission of the Department

This is a course in quantificational logic, concentrating on the nature of logic, methods of deduction, quantification theory, and the logic of relational statements. (Format: Lecture 3 Hours)

PHIL3711 (3.00 CR)
BIOMEDICAL ETHICS

Prereq: PHIL 2701; or permission of the Department

This course will examine ethical issues involved in medicine and health and explore assumptions that we tend to make about health, the good life, and human functioning. We will cover a range of ethical theories used in bioethics, such as deontological, utilitarian, virtue, feminist, and disability-centered approaches. Issues covered may include medical assistance in dying, patient autonomy and welfare, medical research practices, and the history of eugenics in Canada. The course may use case studies and usually focuses on the Canadian context. [Note 1: Students enrolled in Health Studies programs who are already doing 3/4000 level work in their own field will be admitted to this course.] (Format: Lecture 3 Hours)

PHIL3721 (3.00 CR)
ENVIRONMENTAL ETHICS

Prereq: PHIL 2701; or permission of the Department

This course explores the interconnected ethical obligations that we have to other humans, to non-human life, and to the environment, within current ethical frameworks. Topics covered may include: animal welfare, industrial agriculture, the relations of ethical, political, aesthetic and economic value, global hunger, intergenerational and environmental justice, food security, and climate change. [Note 1: Students enrolled in Health Studies, Environmental Science, or Environmental Studies programs who are already doing 3/4000 level work in their own field will be admitted to this course.] (Format: Lecture 3 Hours)

PHIL3731 (3.00 CR)
PHILOSOPHY OF LAW

Prereq: 3 credits from PHIL at the 2000 level; or permission of the Department

This course introduces central issues in the philosophy of law. Topics may include the relation of law and morality, the rule of law in relation to coercion and liberty, the nature of judicial decision-making, the origin and justification of legal systems, and theories of the nature and function of law from the competing claims of legal positivism, formalism, and realism. (Format: Lecture 3 Hours)

PHIL3741 (3.00 CR)
PHILOSOPHY OF DISABILITY

Prereq: 3 credits from PHIL at the 2000 level excluding PHIL 2611; or permission of the Department

This course introduces the philosophical study of disability. It raises important questions that challenge our thinking and assumptions in a range of ways and explores issues such as: social versus medical models of disability; definitions of impairment and disability, including how they have changed through history; disability as identity and how it interacts with other identities; the relationship between concepts of disability and concepts of well-being; disability and culture; and philosophy's treatment of intellectual disability in the context of philosophy's traditional valorization of reason. [Note 1: Students enrolled in Health Studies programs who are already doing 3/4000 level work in their own field will be admitted to this course.] (Format: Lecture 3 Hours) (Exclusion: PHIL 4991 Philosophy of Disability)

PHIL3891 (3.00 CR)
INDIAN PHILOSOPHY

Prereq: 3 credits from PHIL at the 2000 level; or permission of the Department

A study of selected primary sources in the Indian philosophical tradition, from the Vedas and Upanishads to the recent work of thinkers like S. Radhakrishnan. Topics usually include the nature of reality, moral obligation, Divinity, selfhood and freedom, the philosophy of love, and various social and political issues. [Note 1: This course is cross-listed as RELG 3891 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

PHIL3991 (3.00 CR)
SPECIAL TOPIC IN PHILOSOPHY

Prereq: 3 credits from PHIL; 3 credits from PHIL at the 2000 level; or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for PHIL 3991 more than once, provided the subject matter differs.] (Format: Variable)

PHIL4001 (3.00 CR)
SELECTED TOPICS IN THE HISTORY OF PHILOSOPHY

This course involves careful study of one or more texts and themes in the History of Philosophy from antiquity to the twentieth century, depending on the interests and discretion of the instructor. [Note 1: Permission of the Department is required. Note 2: Students may register for PHIL 4001 more than once, provided the subject matter differs.] (Format: Seminar 3 Hours) (Exclusion: Any version of PHIL 4101 in which the same material was covered)

PHIL4111 (3.00 CR)
SELECTED TOPICS IN MORAL, SOCIAL AND POLITICAL PHILOSOPHY

This course examines closely one or more themes and texts in Moral, Social, and Political Philosophy, depending on the interests and discretion of the instructor. Topics include contemporary virtue theory, deontological ethics, theories of recognition, multiculturalism, and cultural criticism. [Note 1: Permission of the Department is required. Note 2: Students may register for PHIL 4111 more than once, provided the subject matter differs.] (Format: Seminar 3 Hours)

PHIL4211 (3.00 CR)
SELECTED TOPICS IN CONTINENTAL PHILOSPHY

This course explores twentieth- and twenty-first-century philosophical schools associated with French and German traditions of thought. Topics may include phenomenology, existentialism, hermeneutics, deconstruction, affect theory, feminist new materialism, and other developments in contemporary Continental thought. [Note 1: Permission of the Department is required. Note 2: Students may register for PHIL 4211 more than once, provided the subject matter differs.] (Format: Lecture 3 Hours)

PHIL4511 (3.00 CR)
PHILOSOPHY OF MIND

This course studies the philosophical arguments that attempt to resolve the real nature of mental states vis à vis the physical states of the brain. Topics include how it is we have knowledge of our own sensations, beliefs, desires, and consciousness; how we gain knowledge of other minds; and the more general questions of how we should best proceed to resolve these issues. [Note 1: Permission of the Department is required.] (Format: Lecture 3 Hours)

PHIL4521 (3.00 CR)
SELECTED TOPICS IN PHILOSOPHY OF SCIENCE

This course examines contemporary themes in the philosophy of science. Topics may include models and their use in scientific reasoning, philosophical foundations of statistical inference, the nature of scientific methods, truth and scientific progress, the political and moral elements of scientific research, science and the environment. It investigates the philosophical foundations of scientific theories of evolution, matter, time, biological life, and human social activity. [Note 1: Permission of the Department is required. Note 2: Students may register for PHIL 4521 more than once, provided that the subject matter differs.] (Format: Seminar 3 hours)

PHIL4611 (3.00 CR)
SELECTED TOPICS IN ANALYTIC PHILOSOPHY

This course examines contemporary themes in the analytic tradition of philosophy. Topics may include truth, logicism, the nature of reference, skepticism, the realism/anti-realism debate, historicism and the collapse of positivism or contextualism. [Note 1: Permission of the Department is required. Note 2: Students may register for PHIL 4611 more than once, provided the subject matter differs] (Format: Lecture 3 Hours)

PHIL4891 (3.00 CR)
CAPSTONE IN PHILOSOPHY, POLITICS, AND ECONOMICS

Prereq: Fourth year standing; 6 credits from ECON at the 3000 level or 6 credits from PHIL at the 3000 level or 6 credits from POLS at the 3000 level; or permission of the PPE Program Convenor

This is the capstone seminar course for the Philosophy, Politics, and Economics (PPE) Program and focuses on special topics not covered by the current course offerings in a department or program. Course material offers students an opportunity to draw on fundamental concepts from the contributing disciplines of the PPE Program. The course is open to students in other programs. [Note 1: Students may register for PHIL 4891 more than once, provided the subject matter differs. Note 2: This course is cross-listed as ECON 4891 and POLS 4891 and therefore may count as 3 credits in any of the three disciplines.] (Format: Seminar 3 hours)

PHIL4950 (6.00 CR)
INDEPENDENT STUDY IN PHILOSOPHY

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for PHIL 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

PHIL4951 (3.00 CR)
INDEPENDENT STUDY IN PHILOSOPHY

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. PHILOSOPHY, POLITICS, AND ECONOMICS/FRANK MCKENNA SCHOOL OF PPE

The PPE program offers students the opportunity of a multidisciplinary immersion in the problems of action and reflection which shape the human world. Philosophy, politics, and economics share in common a foundational concern with the abundant and widely varying ideas of what is good for human beings and the challenges that arise from attempts at realizing and reconciling these different ideas of the good in practice. Each discipline develops this concern from a conceptually and historically distinct standpoint.

The study of philosophy teaches students to reflect on fundamental questions about nature, human experience, and our responsibility to others. By working with classic texts from the history of philosophy, and key problems within contemporary philosophy, students will catalogue their emerging philosophical commitments to cultivate a broad view of human experience and values, and to develop their facility with rational and critical engagement.

The study of economics consists of examining the decisions of participants in economic systems to discover regularities of behaviour in the expectation that through this better understanding society will be able to remedy undesirable results and achieve better ones. Such a study includes looking at the historical development of modern economies and the evolution of thinking about economic systems; examining intended and unintended outcomes of economic policies; and revealing the economic consequences of participation in trade, exchange, or employment relationships.

The study of politics is concerned with the nature and workings of power, state and government; the rights and duties of citizenship; the limits and possibilities of collective political action; and the social, economic, and cultural formations that shape the life of the political community. The scope of inquiry is local, national, and international; it includes the empirical analysis of individuals, groups, institutions and processes as well as the investigation of longstanding philosophical questions concerning human nature, freedom, democracy, and justice.

The PPE program brings these three areas of study together in one multidisciplinary program designed to balance prescriptive dimensions of the theoretical enterprise with descriptive ones that are grounded in empirical considerations, such that graduates of the program are broadly educated to consider complex contemporary concerns.

Multidisciplinary B.A. Programs

MAJOR in PPE is 69 credits earned as follows:

3 from ECON 4891, PHIL 4891, POLS 4891

Philosophy Component (24 credits)

3 from PHIL 1601, 1611, 1621, 1651

6 from POLS 3001, 3011, 3031, 4000, 4011
6 from either POLS 31/41, 32/42, or 33/43 series

Note: Students who have declared their intention to complete a Major or Honours Degree in PPE must consult with a Program Advisor to determine an appropriate group of courses before registering for their third and fourth years of study. Approval of the Program Advisor will be required before the student registers for courses.

Note: COMM 3411, 3501, 4501, 4521, and 4541 may be designated as Economics electives for students taking a Joint Major in Computer Science and Economics, a Major, Minor or Honours in Economics or the Major or Honours in Philosophy, Politics, and Economics.

PHYSICS

Physics seeks to describe the nature of the physical world. The most fundamental of the natural sciences, it forms an essential part of any serious program of study in any branch of science, and indeed, to an increasing degree in the modern world, it is important in any well-balanced curriculum for the non-scientist as well.

In the undergraduate program the development of fundamental concepts and mathematical formulation proceeds simultaneously in a selected series of courses in physics and mathematics, from the elementary ideas of classical mechanics through modern relativistic, quantum and nuclear theories.

Whether the student wishes to prepare for more advanced study in physics itself; for a career in applied areas such as photonics, materials science, or biomedical engineering; for a career in such fields as astronomy, space research, or oceanography; or simply wishes to be informed in an important area of scientific thought, they will be able to make an appropriate choice of courses from the list.

Disciplinary B.Sc. Programs

MINOR in Physics is 24 credits earned as follows:

3 from PHYS 1051
3 from MATH 1111, 1151
3 from PHYS 1551
15 from MATH 1121 or Physics, including 6 from the 3/4000 level, chosen in consultation with the Program Advisor.

Note: Only one of PHYS 1021, 1031 and 1401 can be used on the Physics Minor

Note: Students who complete the Minor in Applied Physics may not complete this Minor

MINOR in Applied Physics is 24 credits earned as follows:

3 from PHYS 1051
6 from PHYS 1551, 2801
3 from MATH 1111, 1151
12 from PHYS 1401, 3361, 3581, 3701, 3751, 4311, COMP 1631, 1731, MATH 1121, including 6 from the 3/4000 level, chosen in consultation with the Program Advisor

MINOR in Astronomy is 24 credits earned as follows:

9-12 from PHYS 1021, 1031, 3001, 3021
3 from PHYS 1041, 1051
9-12 from BIOL 2811, 3021, CHEM 2111, 2211, 3521, GENS 1401, 3421, PHIL 1651, 2511, PHYS 1551, 2811, 3701, 4311, 4411, 4851, or maximum of 3 credits from BIOL 2701, COMP 1731, ECON 2701, GENS 2431, MATH 1311, PHYS 2801
Note: Many of these courses have one or more prerequisite courses. Students should plan their sequence of courses in consultation with the Program Advisor.

Note: At least 6 credits need to be from the 3/4000 level for this Minor.

MAJOR in Physics is 63 credits earned as follows:

6 from PHYS 1051, 1551
6 from CHEM 1001, 1021
3 from BIOL 1001, BIOL 1501, BIOC 1001, GENS 1401, PSYC 1001 or PSYC 1011
3 from COMP 1631, MATH 2221
3 from MATH 1111, 1151
9 from MATH 1121, 2111, 2121
21 from PHYS 2251, 2801, 2811, 3101, 3451, 3701, 4411
12 from Physics at the 3/4000 level

Note: Students pursuing a Major in Physics may be allowed to substitute PHYS 1041 for PHYS 1051 with permission of the Department

HONOURS in Physics is 87 credits earned as follows:

51 credits as in the first seven lines of the Major
6 from PHYS 4990
6 from PHYS 3201, 3821
3 from MATH 3141
3 from MATH 2221, 3131, 3161, 3221, 3411
3 from Physics at any level, chosen in consultation with the Program Advisor
3 from Physics at the 3/4000 level, chosen in consultation with the Program Advisor
6 from Physics at the 4000 level, chosen in consultation with the Program Advisor
6 from Physics or Mathematics at the 3/4000 level

Note: Students pursuing Honours in Physics may be allowed to substitute PHYS 1041 for PHYS 1051 with permission of the Department

Interdisciplinary B.Sc. Program

B.Sc. HONOURS in Computer Science and Physics is 87 credits earned as follows:

6 from COMP 1631, 1731
6 from CHEM 1001, 1021
3 from BIOL 1001, 1501, BIOC 1001, GENS 1401, PSYC 1001, 1011
3 from MATH 1111, 1151
12 from MATH 1121, 2111, 2121, 2221
12 from PHYS 1051, 1551, 2251, 2801
18 from COMP 2211, 2611, 2711, 2931, 3811, 3851
3 from COMP/MATH/PHYS 3411
3 from COMP/PHYS 3361
15 from PHYS 2811, 3101, 3451, 3701, 4411
6 from PHYS 4990

Note: The topic of the Honours project or thesis, PHYS 4990, must be chosen in consultation with both departments

Note: Students in the BSc Joint Honours in Computer Science and Physics are required to integrate knowledge in both Physics and Computer Science in their Honours project or thesis (PHYS 4990).

B.Sc. HONOURS in Mathematics and Physics is 90 credits earned as follows:

3 from BIOL 1001, BIOL 1501, BIOC 1001, GENS 1401, PSYC 1001 or PSYC 1011
3 from MATH 1111, 1151
15 from MATH 1121, 2111, 2121, 2211, 2221
3 from COMP 1631
6 from CHEM 1001, 1021
12 from PHYS 1051, 1551, 2251, 2801
3 from PHYS 3451
9 from MATH 3111, 3211, 3311
6 from MATH 3141, 3161
6 from MATH 3131, 3151, 3221, 3231, 3411, 3531, 4111, 4121, 4311, PHYS 4101, 4201, 4311, 4831, 4851, 4911; only 3 credits may be selected from the listed Physics courses
18 from PHYS 2811, 3101, 3201, 3701, 3821, 4411
6 from MATH 4990 or PHYS 4990

Note: Students pursuing Honours in Mathematics and Physics may be allowed to substitute PHYS 1041 for PHYS 1051 with permission of the Department

PHYSICS COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

PHYS1021 (3.00 CR)
SOLAR SYSTEM ASTRONOMY

This course introduces observational and solar system astronomy. Topics include observational astronomy, celestial mechanics, solar system patterns, theories of origin, radiometric dating, processes which transform planet surfaces, planetary atmospheres, comets, asteroids, meteoroids, and the search for life beyond Earth. It considers extrasolar planetary systems in the context of theories of solar system formation. [Note 1: In addition to daytime lab periods all students will need to be present at a number of night time observing periods at the university observatory.] (Format: Lecture 3 Hours, Laboratory 1.5 Hours)

PHYS1031 (3.00 CR)
STARS, GALAXIES AND THE UNIVERSE

This course introduces stellar and galactic astronomy as well as cosmology. Topics include optics and telescopes, atomic structure and spectra, the sun, stellar types and evolution, stellar remnants (black holes, neutron stars, and white dwarfs), quantum and relativistic ideas, galaxies, and dark matter and energy. [Note 1: In addition to daytime lab periods all students will need to be present at a number of night time observing periods at the university observatory.] (Format: Lecture 3 Hours, Laboratory 1.5 Hours)

PHYS1041 (3.00 CR)
PHYSICS FOR THE LIFE SCIENCES

This algebra-based course introduces and describes from a Physics perspective the many physical processes involving living organisms. Topics include biomechanics, kinesiology, energy and the body, fluid flow, electrical signaling, electrocardiography and electroencephalography, sound and hearing, light and vision, microscopy, and imaging of brain function. [Note 1: This course is designed for students planning to major in a life science. Note 2: If a student is considering entry to a professional program requiring two introductory Physics courses, PHYS 1051 should be taken as the first course rather than PHYS 1041.] (Format: Integrated Lecture/Collaborative Learning/Laboratory 6 Hours) (Exclusion: PHYS 1051)

PHYS1051 (3.00 CR)
GENERAL PHYSICS I

This algebra-based course introduces classical physics together with some aspects of modern physics. Topics include kinematics, dynamics, work and energy, momentum in one dimension, fluid mechanics, waves and sound, DC circuit electricity, geometrical and physical optics, and black body radiation, and atomic spectra. [Note 1: Students enrolling in Physics 1051 should normally have completed a university preparatory level course in Mathematics.] (Format: Integrated Lecture/Collaborative Learning/Laboratory, 6 Hours) (Exclusion: PHYS 1041)

PHYS1401 (3.00 CR)
THE PHYSICS OF MUSIC AND SOUND

This course explores various aspects of music production, sound transmission, and sound perception. Topics include: simple harmonic motion, waves and sound, standing waves, spectral analysis, the human ear and voice, auditorium acoustics, and woodwind, brass, and percussion instruments. It also introduces basic mathematical analysis. (Format: Integrated Lecture and Laboratory 3 Hours)

PHYS1551 (3.00 CR)
GENERAL PHYSICS II

Prereq: PHYS 1051; 3 credits from MATH 1111, 1151; or permission of the Department

This calculus-based course introduces further issues in classical and modern physics. Topics include time-dependent acceleration, gravitation, rotational motion, angular momentum, simple harmonic motion, electric forces, fields and potentials, magnetism, and electromagnetic induction. The course also introduces special relativity, nuclear reactions, particle physics, and cosmology. (Format: Integrated Lecture and Laboratory, 6 Hours)

PHYS1991 (3.00 CR)
SPECIAL TOPIC IN PHYSICS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for PHYS 1991 more than once, provided the subject matter differs.] (Format: Variable)

PHYS2251 (3.00 CR)
CLASSICAL WAVES

Prereq: PHYS 1551; MATH 1121; or permission of the Department

In this course the study of free, forced and damped harmonic oscillator is followed by a treatment of discrete coupled oscillators in one dimension. This is then generalized to the study of traveling and standing waves in continuous media. Ideas of Fourier components of signals are introduced. A number of examples will be taken from physical optics, and the topics in this course provide the theoretical basis for understanding modern photonic devices. (Format: Lecture 3 Hours, Laboratory 3 Hours)

PHYS2801 (3.00 CR)
DATA ACQUISITION AND ANALYSIS

Prereq: 3 credits from MATH 1111, 1151 ; 3 credits from PHYS 1041, 1051; or permission of the Department

This course provides techniques and software tools that assist in the use of computers to enhance work in science. It introduces basic methodology for data manipulation such as error analysis, statistical analysis of data, linear regression, graphing, aspects of simulation, digitization, interfacing and data acquisition. (Format: Lecture 3 Hours, Laboratory 3 Hours)

PHYS2811 (3.00 CR)
MODERN PHYSICS

Prereq: PHYS 2251; or permission of the Department

This course considers the two major revolutionary ideas of modern physics, special relativity and quantum mechanics. It considers Lorentz transformations, length contraction and time dilation, and relativistic mass and momentum, and introduces four-vector notation. It also examines evidence for quantization along with early models for atoms and discusses De Broglie's hypothesis for the wave nature of matter. Other topics include the Schrodinger equation and its solutions for some basic systems. (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: PHYS 3811)

PHYS2991 (3.00 CR)
SPECIAL TOPIC IN PHYSICS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for PHYS 2991 more than once, provided the subject matter differs.] (Format: Variable)

PHYS3001 (3.00 CR)
ASTROPHYSICS

Prereq: PHYS 1551; PHYS 1031; or permission of the Department

This course introduces a mathematical approach to the study of the universe. Topics include: celestial mechanics, stellar spectra, Hertzsprung-Russell diagrams, star formation, stellar evolution, stellar deaths and remnants, galaxy types and evolution, large-scale structure, and an introduction to cosmology and general relativity. [Note 1: In addition to daytime lab periods all students will need to be present at a number of night time observing periods at the university observatory.] (Format: Lecture 3 Hours, Laboratory 3 Hours)

PHYS3021 (3.00 CR)
LIFE IN THE UNIVERSE

Prereq: Second-year standing; 3 credits from PHYS 1021, 1031; or permission of the Department

This course will examine issues concerning the origin, evolution and survival of life in the universe from an astrophysical perspective. Topics covered include cosmology and the origin and evolution of the universe, solar system origin, detection of extrasolar planets, what is life and what conditions are necessary to sustain it, searches for life in the solar system, habitable zones, complex organics in extraterrestrial materials, delivery of organics to the primordial and current Earth and other planets, astrophysical threats to life on Earth, life in space, and searches for extraterrestrial intelligence. (Format: Lecture 3 Hours, Laboratory 3 Hours)

PHYS3101 (3.00 CR)
ELECTRICITY AND MAGNETISM

Prereq: PHYS 1551; PHYS 3451; MATH 2111; MATH 2121; or permission of the Department

This course commences the formal treatment of electricity and magnetism. The electric field and potential of point-like and continuous charge configurations are calculated. Certain special techniques such as the method of images and multipole expansion are introduced. Magnetostatics, Lorentz force, and magnetic induction are discussed. The electric and magnetic fields in matter are also examined leading to the derivation of Maxwell's equations. This course covers vector analysis, differential calculus, and integral calculus as needed. (Format: Lecture 3 Hours, Laboratory/Problem Solving 3 Hours)

PHYS3201 (3.00 CR)
STATISTICAL MECHANICS

Prereq: PHYS 2251; MATH 2111; or permission of the Department

This course examines the connections between the macroscopic thermodynamic properties of a system, such as pressure and temperature, and the microscopic details, such as the behavior of the atoms and molecules that make up the system. Starting from the number of accessible states and its relation to entropy, the familiar thermodynamic relations are derived. Maxwell-Boltzmann, Bose-Einstein, and Fermi-Dirac distributions are discussed along with the conditions under which they apply. (Format: Lecture 3 Hours)

PHYS3231 (3.00 CR)
PHYSICAL CHEMISTRY II: QUANTUM MECHANICS AND SPECTROSCOPY

Prereq: 3 credits from CHEM 2211, PHYS 3701; or permission of the Department

This course is an introduction to the foundations of quantum mechanics (QM) within the framework of spectroscopy and chemical systems. Starting from the early experimental observations that led to the development of QM, this course will explore its founding postulates and mathematical formalism. Exactly solvable model systems of spectroscopic relevance such as particle in a box, harmonic oscillator, rigid rotor, and the hydrogen atom will be discussed. Molecular orbital theory will also be examined in the context of polyatomic systems and how spectroscopic techniques (e.g., absorption, emission, infrared, and Raman) are utilized to probe complex molecular systems. [Note 1: This course is cross listed with CHEM 3231 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: any version of PHYS 3231 previously offered with a different title)

PHYS3361 (3.00 CR)
DIGITAL SIGNAL PROCESSING AND ELECTRONICS

Prereq: COMP 1631; PHYS 1551; or permission of the Department

This course introduces students to digital electronic circuits and digital signal processing, with a focus of understanding current applications and concepts. Topics include: transistors, digital logic gates, Boolean algebra, logic circuit design, latches and flip-flops, counting circuits, adder circuits, digital logic families, digital sampling, analog-to-digital and digital-to-analog conversion, Fourier Transforms, correlation and convolution, noise, digital filtering, and digital image processing. Students will gain hands-on experience working with integrated circuits and micro-controllers. [Note 1: This course is cross-listed with COMP 3361 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours, Laboratory 3 Hours)

PHYS3411 (3.00 CR)
NUMERICAL ANALYSIS

Prereq: MATH 1121; 3 credits from MATH 2221, PHYS 3451; 3 credits from COMP or PHYS; or permission of the Department

This course introduces numerical methods for solving a variety of problems in the sciences. Topics include numerical errors and precision, root finding, model fitting, integration and solution of differential equations, solution of linear and nonlinear systems of equations, and matrix factorization. [Note 1: This course is cross-listed as COMP 3411 and MATH 3411 and may therefore count as three credits in any of the three disciplines.] (Format: Lecture 3 Hours)

PHYS3451 (3.00 CR)
METHODS OF MATHEMATICAL PHYSICS

Prereq: MATH 2111; 3 credits from MATH 2121, PHYS 2251; or permission of the Department

This course provides students with a selection of mathematical skills needed in more advanced physics courses. It introduces frequently utilized mathematical methods in theoretical physics in close connection with physics applications. Topics include vector and tensor analysis, use of special functions, operators and eigenvalue problems. Fourier analysis, and complex variable techniques. (Format: Lecture 3 Hours, Laboratory 3 Hours)

PHYS3581 (3.00 CR)
MEDICAL PHYSICS
Prereq: PHYS 1551; or permission of the Department

This course considers fundamental concepts of ionizing radiation, diagnostic applications of medical physics, and therapeutic applications of medical physics. Diagnostic topics include x-rays, computed tomography, magnetic resonance imaging, positron emission tomography, and nuclear medicine. Therapeutic topics include radiation generators, absorbed dose calculations, dose measurement, and brachytherapy. [Note 1: This course is intended both for physics students who are considering a career in medical physics or in the field of medicine, and for students in other programs with similar interests.] (Format: Integrated Lecture and Laboratory 3 Hours)

PHYS3701 (3.00 CR)
THERMODYNAMICS
Prereq: PHYS 2801; MATH 2111; or permission of the Department

The objective of the course is to develop a clear and broad understanding of the First and Second Law of Thermodynamics, with application to a wide range of problems. Topics include: the general energy equation, First Law, Second Law, entropy, limiting-cycle efficiencies, irreversibility and availability, steam power plant, refrigeration and gas engine applications. (Format: Lecture 3 Hours, Laboratory 3 Hours)

PHYS3751 (3.00 CR)
ENERGY AND THE ENVIRONMENT
Prereq: PHYS 1551; CHEM 1021; or permission of the Department

This course examines different aspects of energy harvesting, storage, and transmission with particular emphasis on the environmental impacts, sustainability, and development of renewable energy resources. It also introduces modern technologies based on the development of novel materials. Specific technologies and topics may include: wind power, photovoltaic generation, solar energy, nuclear fission, and fusion, hydroelectric, combustion based fuel generation, tidal energy and fuel cells. [Note 1: This course is cross-listed with CHEM 3751 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours, Laboratory 3 Hours) (Exclusion: Any version of PHYS 3751 previously offered with a different title)

PHYS3821 (3.00 CR)
QUANTUM MECHANICS
Prereq: PHYS 2811; PHYS 3451; or permission of the Department

This course is an introduction to formal quantum mechanics. It covers time-independent quantum mechanics in one dimension with various potentials, including the harmonic oscillator, the delta function, the free particle, and the finite square well. Hilbert spaces and generalized statistical interpretations are discussed. The course concludes with an examination of quantum mechanics in three dimensions, including the hydrogen atom and an introduction to the general theory of angular momentum. (Format: Lecture 3 Hours)

PHYS3991 (3.00 CR)
SPECIAL TOPIC IN PHYSICS
This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for PHYS 3991 more than once, provided the subject matter differs.] (Format: Variable)

PHYS4101 (3.00 CR)
ELECTROMAGNETIC THEORY
Prereq: PHYS 3101; 3 credits from PHYS 2251, MATH 2121; or permission of the Department

This course introduces the following topics: electromagnetic wave equations in vacuum and materials; conservation of energy, momentum, and angular momentum for electromagnetic fields; retarded potentials and the electromagnetic fields of moving point charges; radiation by oscillating electric and magnetic dipoles and accelerating point charges; and the relativistic formulation of Maxwell's equations. (Format: Lecture 3 Hours)

PHYS4201 (3.00 CR)
SOLID STATE PHYSICS
Prereq: PHYS 2251; or permission of the Department

This course studies the various quantized models used to describe the thermal, electrical, optical and electromagnetic properties of solids. It also analyses conductors, semi-conductors and insulators. (Format: Lecture 3 Hours, Laboratory 3 Hours)

PHYS4311 (3.00 CR)
MODERN OPTICS
Prereq: PHYS 2251; PHYS 2801; and 3 credits from MATH 2221, PHYS 3451; or permission of the Department

This course provides an advanced treatment of a number of topics in modern optics with particular emphasis on topics of industrial and research importance. A brief treatment of geometric optics will concentrate on the design of optical systems. Topics in physical optics may include dispersion in materials, production and properties of polarized light, interference, diffraction in the Fresnel and Fraunhofer limits, Fourier optics, holography and an introduction to quantum optics. Applications of this theoretical background will be made in such areas as fibre-optic transmission, photonic devices, thin film coatings, and electrochromic devices. There will also be some considerations of electro-optical devices such as lasers, charge coupled device detectors, image intensifiers and photodiodes. (Format: Lecture 3 Hours, Laboratory 3 Hours)

PHYS4411 (3.00 CR)
CLASSICAL MECHANICS AND RELATIVITY

Prereq: PHYS 2811; PHYS 3451; or permission of the Department

This course covers three-dimensional dynamics of both particles and rigid bodies using various coordinate systems. The course focuses on an introduction to Lagrangian and Hamiltonian formalisms, followed by application of these approaches to problems in constrained motion. Other topics covered include motion in resistive fluids, planetary orbits, motion in accelerated reference frames and the inertia tensor. The latter part of the course provides an introduction to general relativity including spacetime invariants, metric and metric tensor, the field equations and tests of general relativity. (Format: Integrated Lecture/ Laboratory, 6 Hours)

PHYS4831 (3.00 CR)
ADVANCED QUANTUM MECHANICS

Prereq: CHEM 3231; or 6 credits from PHYS 3821, MATH 2221; or permission of the Department

This course extends the study of principles of quantum mechanics, comparing properties of continuous and discrete representations. It also develops time-independent perturbation theory for first order, second order, and degenerate cases and treats small perturbations through direct diagonalization of large matrices. This course examines variational principle, central force problems, elements of scattering theory, and the addition of quantized angular momenta. The course concludes with applications of quantum mechanics in molecules, aspects of relativistic quantum mechanics, time dependence in quantum and quantum statistics. [Note 1: This course is cross-listed with CHEM 4831 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours)

PHYS4851 (3.00 CR)
FUNDAMENTAL PARTICLES

Prereq: PHYS 3821; or permission of the Department

This course introduces the standard model of elementary particle physics.It examines the classification of the building blocks of matter into leptons, quarks, and gauge bosons. Mesons, baryons, and their properties based on symmetry and conservation principles are discussed, along with Feynman diagrams, quantum electrodynamics, and the weak and strong interactions.

PHYS4911 (3.00 CR)
CURRENT TOPICS IN PHYSICS

Prereq: PHYS 2811; or permission of the Department

This course will introduce students to current topics and trends in physics which are not represented in other courses in the curriculum. This will be a seminar format course with sessions led by students, faculty and guest speakers. A key part of the course will be development of skills for identification and critical evaluation of primary literature in physics. (Format: Seminar)

PHYS4950 (6.00 CR)
INDEPENDENT STUDY IN PHYSICS

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for PHYS 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

PHYS4951 (3.00 CR)
INDEPENDENT STUDY IN PHYSICS

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for PHYS 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

PHYS4990 (6.00 CR)
HONOURS THESIS

Normally, a student electing this course is expected to accomplish work equivalent to any fourth year course. Students are encouraged, but not required, to work on the project in the Department during the summer immediately preceding the senior year. The topic often involves experimental work, but must have a theoretical component. (Format: Independent Study/Thesis)

PHYS4991 (3.00 CR)
SPECIAL TOPIC IN PHYSICS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for PHYS 4991 more than once, provided the subject matter differs.] (Format: Variable)

POLITICS AND INTERNATIONAL RELATIONS

The Politics and International Relations Department offers three degree programs: a B.A. in Political Science, a B.A. in International Relations, and a B.A. in Canadian Public Policy.

The Political Science BA program is designed for students who are interested in the study of politics. The study of politics is concerned with the nature and workings of power, state, and government; the rights and duties of citizenship; the limits and possibilities of collective political action; and the social, economic, and cultural formations that shape the life of the political community. The scope of inquiry is local, national, and international; it includes the empirical analysis of individuals, groups, institutions, and processes as well as the investigation of long-standing philosophical questions concerning human nature, freedom, democracy, and justice.

The Political Science program is organized into four main subfields: Canadian Politics, Comparative Politics, International Politics, and Political Theory. The program offers students the opportunity to gain a strong foundation in all four subfields and to combine empirical, practical, and theoretical approaches in each year of study. In addition to the Canadian Politics subfield, students can take specialized area courses in Africa, the United States, Europe, and the Middle East. Political Science students who seek a more intensive concentration in one particular subfield can integrate courses from other programs in Canadian Studies, International Relations, History, and Philosophy.

The International Relations BA program is designed for students who are interested in an inter-disciplinary approach to international and global studies. International and global studies are concerned with the interconnections between state as well as non-state organizations and actors, the globalizing effects of economic, social, technological, environmental, military, and political processes, and with emerging issues of justice, responsibility, and human well-being that are international and global in scope.

The International Relations program operates as an inter- and multi-disciplinary degree program in which core as well as elective courses are drawn from a range of disciplines such as political science, history, modern languages and literatures, sociology, economics, geography, environmental studies, and feminist and gender studies. The program provides students with a broad range of intellectual and critical skills for analyzing the interactions between political and economic systems, cultural norms, environmental dynamics, and hierarchies of power. A university-level language requirement anchors the program. To supplement their coursework students are encouraged to gain international experience by studying or working abroad or by doing international work in Canada.

Public policy has long been defined as whatever governments choose to do or not to do in response to a problem. It involves conscious choices made in the public interest and shaped by current ideas, the institutional context, policy actors and economics. The Canadian Public Policy program incorporates these elements by focusing on government decision making. This involves understanding the public policy process, policy analysis, intergovernmental relations, economic forces and political considerations. Throughout the process students engage with contemporary and historical issues to critically assess the inclusiveness, fairness and effectiveness of public policy making given time and resource constraints. The Canadian Public Policy program is inter and multi-disciplinary with students completing a common core set of courses anchored in political science and economics. To develop and deepen their interest, students then select optional streams drawn from the disciplines of Canadian studies, commerce, economics, geography and environment, history, French, political science, sociology or statistics. The Canadian Public Policy program prepares students for potential careers in the public service (local, provincial, federal) and non-governmental organizations working as policy analysts and program managers or in the private sector working as policy consultants, research analysts and knowledge brokers. Key skills learned include critical thinking (policy analysis, policy process knowledge, public service norms), writing (policy analysis reports, policy briefs, cabinet memos) and communication (written, oral, online).

Political Science 1001: Foundations of Politics is the normal prerequisite for all second year Political Science courses and for the second year International Relations course. Students should consult their program advisor in Political Science or International Relations for additional information.

Interdisciplinary B.A. Programs

MAJOR in International Relations is 60 credits as follows:

Core (42 credits as follows):

6 from POLS 1001 and INLR/POLS 2301
3 from POLS at the 2000 level
3 from the POLS 3300 series
9 from INLR at the 3000 or 4000 level
6 from ECON 1001, 1011
3 from ECON 3301, 3401, 3501, 3801, 3901, 3921, 4531, 4551
12 from FREN 1651, 1701, 1711, 2401, 2501, 2601, 3101, 3111, 3131; or from GERM 1001, 1011, 2001, 2011, 3001, 3401, 3501; or from JAPA 1001, 1011, 2001, 2011; or from SPAN 1101, 1111, 2101, 2111, 3101, 3111, 3060

Optional Streams (18 credits)

18 Choose 9 credits from each of two of the following streams:

ECON 3301, 3401, 3501, 3801, 3901, 3921, 4531, 4551

SOCI 3431, 3551, 3561, 3711, 4501, 4511,4551, 4561

Note:

1. Students are responsible for ensuring that they have prerequisites for third and fourth year courses in the elective streams.
2. A student may choose to include up to 6 credits at the 3/4000 level not explicitly included in any of the Elective Streams provided prior approval is granted by the Program Advisor.
3. Students may substitute university-level courses in another language approved by the International Relations Program Advisor.
4. Students who complete this Major may not complete a Minor in International Politics.

HONOURS in International Relations is 72 credits as follows:

60 credits as in the Major, plus
6 from the 4000 level in one of the elective streams chosen for the Major
6 from INLR at the 4000 level

MINOR in International Politics is 24 credits earned as follows:

3 from POLS 1001
3 from POLS 2301
3 from POLS at the 2000 level
6 from one of FREN/GERM/JAPA/SPAN (as listed in the IR major) or from ECON 1001 and 1011
9 from any POLS 33/4300 series

MINOR in Canadian Public Policy is 24 credits earned as follows:

9 from POLS 1001, 2101, 3141
6 from ECON 1001, 1011
3 from ECON at the 2000 level
6 from 3/4000 level courses in one of the streams listed under the Major in Canadian Public Policy

MAJOR in Canadian Public Policy is 60 credits earned as follows:

Disciplinary B.A. Programs

MINOR in Political Science is 24 credits earned as follows:

3 from POLS 1001
6-12 from Political Science at the 2000 level
9-15 from Political Science 3000/4000 level

Note: At least 3 credits in the minor must be taken from two of the four sub-disciplines in Political Science corresponding with the series numbers for Political Theory (20/30/40), Canadian Politics (21/31/41), Comparative Politics (22/32/42) and International Politics (23/33/43)

MAJOR in Political Science is 60 credits earned as follows:

3 from POLS 1001
39 from Political Science 2/3/4000 level, 6 to 9 of these credits may be taken at the 2000 level. At least three credits at the 3/4000 level must be taken from each of the four sub-disciplines in Political Science corresponding with the series numbers for Political Theory (30/40), Canadian Politics (31/41), Comparative Politics (32/42) and International Politics (33/43)
18 credits from complementary courses in Arts & Letters, Humanities and Social Sciences, chosen in consultation with the Program Advisor

HONOURS (Course Option) in Political Science is 72 credits earned as follows:

3 from POLS 1001
57 credits from Political Science 2/3/4000 level. At least six credits at the 3/4000 level must be taken from each of the four sub-fields in Political Science (corresponding with the series numbers for Political Theory (30/40), Canadian Politics (31/41) Comparative Politics (32/42), and International Politics (33/43)
12 credits from complementary courses in Arts & Letters, Humanities and Social Sciences, chosen in consultation with the Program Advisor

HONOURS (Thesis Option) in Political Science is 72 credits earned as follows:

3 from POLS 1001
51 credits from Political Science 2/3/4000 level. At least six credits at the 3/4000 level must be taken from each of the four sub-fields in Political Science (corresponding with the series numbers for Political Theory (30/40), Canadian Politics (31/41) Comparative Politics (32/42), and International Politics (33/43)
6 credits from Political Science 4990
12 credits from complementary courses in Arts & Letters, Humanities and Social Sciences, chosen in consultation with the Program Advisor

Note: Students are encouraged to complete ECON 3401 as part of their complementary courses

Note: Students are responsible for ensuring that they have prerequisites for third and fourth year complementary courses.

POLITICS AND INTERNATIONAL RELATIONS COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Co-ordinator must be obtained.

INLR COURSES

INLR1991 (3.00 CR)
SPECIAL TOPIC IN INTERNATIONAL RELATIONS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for INLR 1991 more than once, provided the subject matter differs.] (Format: Variable)

INLR2301 (3.00 CR)
INTRODUCTION TO INTERNATIONAL RELATIONS

Prereq: POLS 1001; or permission of the Department

This course introduces several of the major theories, structures, processes, and issues in international relations. After introducing the current theoretical approaches to the study of global politics, the course addresses a series of topics from among the following: systems of global governance; the concept 'terrorism'; non-state actors in global politics such as corporations, social movements, and non-governmental organizations; human rights and human security; gender and international politics; poverty, 'development', and inequality; and the environment. [Note 1: This course is cross-listed as POLS 2301 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: Any version of INLR/POLS 2301 previously offered with a different title)

INLR2991 (3.00 CR)
SPECIAL TOPIC IN INTERNATIONAL RELATIONS

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for INLR 2991 more than once, provided the subject matter differs.] (Format: Variable)

INLR3001 (3.00 CR)
GENDER AND INTERNATIONAL RELATIONS

Prereq: INLR/POLS 2301; or permission of the Department

This course examines the highly gendered nature of international relations. Topics include: the seeming invisibility of women in the study of international affairs and within international decision-making, the existence of differential international "packages of expectations" concerning the roles of men and women, competing dominant and subordinate masculinities and femininities, the struggle for women's empowerment, and the gendered impact of globalization processes. (Format: Lecture 3 Hours)

INLR3201 (3.00 CR)
PROBLEMS IN INTERNATIONAL DEVELOPMENT

Prereq: INLR/POLS 2301; or permission of the Department

This course focuses on leading issues in international development from an international relations perspective. Format: Lecture 3 Hours)

INLR3301 (3.00 CR)
GLOBAL GOVERNANCE

Prereq: INLR/POLS 2301; or permission of the Department

This course examines the role of international organizations in International Relations with a focus on the United Nations. It addresses the challenges of multilateral diplomacy in the age of globalization and U.S. supremacy. [Note 1: This course is cross-listed as POLS 3301 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: INLR 3101)

INLR3311 (3.00 CR)
INTERNATIONAL POLITICAL ECONOMY

Prereq: INLR/POLS 2301; or permission of the Department

This course surveys the critical International Political Economy (IPE) tradition in the study of International Relations, from Marx and Polanyi to Cox and Strange. As a critique of realism and liberalism, IPE posits the inseparability of the domestic and international realms, of the political and economic spheres, as well as of state and society. It examines the impact of globalization and environmental change on states in the global order. [Note 1: This course is cross-listed as POLS 3311 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: INLR 3401)

INLR3351 (3.00 CR)
FOREIGN POLICY ANALYSIS

Prereq: 6 credits from POLS at the 2000 level; or permission of the Department

This course introduces key theories in the study of foreign policy-making. It explores the role of individual decision-makers, interest-groups, economics, bureaucratic politics, and regime types. It also examines how constraints and opportunities in the international system shape foreign policy choices. It analyzes foreign policy in the context of both developed and developing states and considers a variety of different foreign policy issues. [Note 1: This course is cross-listed as POLS 3351 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours)

INLR3361 (3.00 CR)
GLOBAL CAPITALISM

Prereq: 6 credits from POLS at the 2000 level; or permission of the Department

This course provides a critical analysis of global capitalism by drawing on a range of contemporary perspectives regarding the way global capitalism operates. The course also presents an analysis of selected contemporary alternatives to capitalism, and their potential to alleviate poverty on a local and/or global scale. [Note 1: This course is cross-listed as POLS 3361 and may therefore count as 3 credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: INLR 3991 Global Capitalism)

INLR3991 (3.00 CR)
SPECIAL TOPIC IN INTERNATIONAL RELATIONS

Prereq: INLR/POLS 2301; or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for INLR 3991 more than once, provided the subject matter differs.] (Format: Variable)

INLR4101 (3.00 CR)
GLOBAL GOVERNANCE SIMULATION

Prereq: INLR/POLS 2301; 3 credits from INLR at the 3000 level; or permission of the Department

This course engages students in an innovative and intensive simulation of an international conflict or crisis in order to highlight the challenges of international decision-making in multilateral forums. It draws case studies from the United Nations and other international organizations, or from disputes among states and non-state actors. (Format: Lecture 3 Hours)

INLR4201 (3.00 CR)
CANADA, GLOBALIZATION, AND INTERNATIONAL DEVELOPMENT

Prereq: INLR/POLS 2301; 3 credits from INLR at the 3000 level; or permission of the Department

This course critically evaluates the relationships between various Canadian actors and the so-called 'developing' world, historically and in the contemporary period. Through the use of country case studies this course investigates issues involving Canadian overseas development assistance, and the role played by Canadian corporations and non-governmental organizations (NGOs) in selected countries. (Format: Seminar 3 Hours) (Exclusion: Any version of INLR 4701 offered with a similar title)

INLR4221 (3.00 CR)
THE ARAB SPRING

Prereq: 3 credits from POLS or INLR at the 3000 level; or permission of the Department

This course explores the impact of the Arab Spring on the practice of authoritarian politics in the Middle East. It examines theoretical debates about the role of political culture, political economy, state-building and political liberalization. Case studies examine strategies used to manage, co-opt and/or coerce political opposition and civil society, as well as why some regimes eventually allowed transitions to take place, while others relied on repression even if it meant civil war. Finally, the impact of regional conflicts and rivalries is considered along with the influence of the United States. [Note 1: This course is cross-listed with POLS 4221 and may therefore count as three credits in either discipline.] (Format: Seminar 3 Hours) (Exclusion: POLS 4991 Arab Spring)

INLR4301 (3.00 CR)
GLOBAL CIVIL SOCIETY

Prereq: INLR/POLS 2301; 3 credits from INLR at the 3000 level; or permission of the Department

This course engages students in an advanced analysis of the concept Global Civil Society. It begins by exploring various theoretical approaches to understanding and employing this concept and proceeds to analysis of several issues confronted by Global-Civil-Society actors. Such issues may include: the World Social Forum (WSF); the campaign to ban landmines; anti-capitalist organizing; and the question of violence in achieving social change. (Format: Seminar 3 Hours) (Exclusion: Any version of INLR 4701 offered with a similar title)

INLR4310 (6.00 CR)
INTERNATIONAL RELATIONS THEORY

Prereq: 3 credits from POLS or INLR at the 3000 level; or permission of the Department

This course provides an advanced analysis of major theories of International Relations. It may include theories of realism, liberalism, constructivism, Marxism, feminism, poststructuralism, and postcolonialism. [Note 1: This course is cross-listed as POLS 4310 and may therefore count as 3 credits in either discipline.] (Format: Seminar 3 Hours)

INLR4321 (3.00 CR)
SECURITY AND DEVELOPMENT IN THE GLOBAL SOUTH

Prereq: 3 credits from POLS or INLR at the 3000 level; or permission of the Department

This course examines the relationship between political, economic, and social development and security. It studies the security environment of a developing world that faces a unique constellation of security threats created by the presence of weak states, divided societies, political and economic dependency, and the pressures of globalization. It uses the perspective of traditional theories that privilege the security of states and regimes as well as non-traditional theories that focus on human and environmental security. The course also examines potential strategies for coping with the various types of insecurity experienced by developing states and societies. [Note 1: This course is cross-listed as POLS 4321 and may therefore count as 3 credits in either discipline.] (Format: Seminar 3 Hours)

INLR4401 (3.00 CR)
AFRICA IN A GLOBAL CONTEXT

Prereq: INLR/POLS 2301; 3 credits from INLR at the 3000 level; or permission of the Department

This course focuses on the manner in which the African continent is connected to various processes and structures of global politics. Topics may include: the integration of Africa into the global economy; the scramble for oil and gas on the continent; Africa and the 'War on Terror'; the rising role of the Chinese state in Africa; and the role of other major powers such as the United States and France on the continent. (Format: Seminar 3 Hours) (Exclusion: Any version of INLR 4701 offered with a similar title)

INLR4950 (6.00 CR)
INDEPENDENT STUDY IN INTERNATIONAL RELATIONS

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for INLR 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

INLR4951 (3.00 CR)
INDEPENDENT STUDY IN INTERNATIONAL RELATIONS

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. PSYCHOLOGY

Psychology is the scientific study of mind and behaviour. It is a biological, a social, and a cognitive science. As a biological science, it studies the physiological mechanisms and evolutionary origins of mental and behavioural phenomena. As a social science, it studies personality and interpersonal relations and their bases in social interaction, cognition and emotion. As a cognitive science, it studies such processes as sensation and perception, abstract thinking, reasoning, language, and memory. Developmental psychology combines all three aspects in taking for its subject matter the total life span. The objectives of psychological study are to understand human nature, for its own sake, and to provide an increasingly reliable basis for the application of psychological principles to education, social policy, and medical treatment.

Psychologists use a variety of methods appropriate to the questions they study. Experimentation, laboratory techniques, observational procedures, measurement, and statistical methods are among the important tools of the psychologist. Whatever their methods, psychologists share in their research a commitment to careful and systematic observation aimed at the formulation of general principles.

In recent years psychology has become increasingly interdisciplinary. Psychologists work with biologists, geneticists, medical researchers, physiologists, and biochemists on those questions of a biological nature. They work with sociologists, criminologists, anthropologists, and economists, among others, on questions relating to social behaviour. Finally, they work with mathematicians, computer scientists, philosophers, linguists, and others on questions involving the nature and origins of knowledge.

Note: A maximum of 6 credits from PSYC 4950 and/or 4951 can be used to meet the 42 credit requirement for a Major in Psychology.

Note: Courses should be selected keeping in mind the B.Sc. requirement of 30 credits from science courses at the 3/4000 level.

B.A. and B.Sc. HONOURS in Psychology is 78 credits earned as follows:

60 credits as in either the B.A. or B.Sc. Major, plus:
18 from Psychology which must include 3001, 3901, 4903, 4990, chosen in consultation with the Program Advisor

Interdisciplinary B.A. Program

MINOR in Language and the Mind is 24 credits earned as follows:

3 from PSYC 2201, 2431
3 from PSYC 3221
6 from LING 2001, 3001
6 from FREN 1651, 1701, 1711, 2401, 2501, 2601, 3101, 3111, 3131, GERM 1001, 1011, 2001, 2011, 3001, 3401, 3501, MKMW 2001, JAPA 1001, 1011, 2001, 2011, SPAN 1101, 1111, 2101, 2111, 3101, 3111
6 from LING 3011, PSYC 2001, 2101, 2121, 2201 (if not used in line 1 above), 2431 (if not used in line 1 above), 3101, 3211

Note: Students are responsible for ensuring they have the necessary prerequisites. Please note in particular that all psychology courses have PSYC 1001 and PSYC 1011 as prerequisites and that the level of instruction for the language courses depends on placement.

PSYCHOLOGY COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

PSYC1001 (3.00 CR)
INTRODUCTION TO PSYCHOLOGY I

This course introduces the concepts, problems, and methods of modern scientific psychology. Topics include neuroanatomy and other aspects of the biological bases of psychological processes, learning, motivation, sensation, perception, aspects of cognition, memory, and language. [Note: PSYC 1001 and 1011 may be taken in either order; neither is a prerequisite to the other.] (Format: Lecture 3 Hours)

PSYC1011 (3.00 CR)
INTRODUCTION TO PSYCHOLOGY II

This course introduces the concepts, problems, and methods of modern scientific psychology. Topics include: attitudes, stereotyping and other aspects of social psychology, developmental psychology, intelligence, aspects of cognition and language, personality, and the psychology of abnormal behaviour. [Note: PSYC 1001 and 1011 may be taken in either order; neither is a prerequisite to the other.](Format: Lecture 3 Hours)

PSYC1991 (3.00 CR)
SPECIAL TOPIC IN PSYCHOLOGY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for PSYC 1991 more than once, provided the subject matter differs.] (Format: Variable)

PSYC2001 (3.00 CR)
RESEARCH DESIGN AND ANALYSIS I

Prereq: Second-year standing; PSYC 1001; PSYC 1011; or permission of the Department

This course considers a range of research strategies, including descriptive, correlational, experimental, and quasi-experimental research designs. Other topics include: the research process, ethics in research, defining and measuring variables, sampling, and writing a research report. This course teaches the process of using descriptive statistics to evaluate the results of carefully planned research (Format: Lecture 3 Hours, Laboratory 1 Hour)

PSYC2011 (3.00 CR)
RESEARCH DESIGN AND ANALYSIS II

Prereq: Second-year standing; PSYC 1001; PSYC 1011; PSYC 2001; or permission of the Department

This course covers the research process from the development of simple and complex research designs to statistical analyses of the data collected. Topics include: analysis of variance, correlation analysis, and nonparametric approaches. It also introduces a statistical software package. (Format: Lecture 3 Hours, Laboratory 1 Hour) (Exclusion: PSYC 2101 Research Design and Analysis)

PSYC2101 (3.00 CR)
BIOPSYCHOLOGY

Prereq: Second-year standing; PSYC 1001; PSYC 1011; or permission of the Department

This course introduces the neural bases of behaviour. Topics include: the role of evolution and genetics in the development of the nervous system, the structure and function of the nervous system, and the biological bases of perception, movement, eating, drinking, sleeping and dreaming, sexual behaviour, addiction and reward, and memory. (Format: Lecture 3 Hours, Laboratory 1 Hour) (Exclusion: PSYC 2051)

PSYC2121 (3.00 CR)
BEHAVIOUR MODIFICATION

Prereq: Second-year standing; PSYC 1001; PSYC 1011; or permission of the Department.

This course discusses the basic concepts and theories involved in the psychology of learning, the analysis of behaviour and behavioural assessment in the context of real life problems. Topics include: applications of behaviour modification and behaviour therapy in terms of problems associated with parenting, development of social skills, education, disabilities, and health. (Format: Lecture 3 Hours) (Exclusion: PSYC 2011 Learning and Memory)

PSYC2201 (3.00 CR)
COGNITIVE PROCESSES

Prereq: Second-year standing; PSYC 1001; PSYC 1011; or permission of the Department

This course provides an overview of mental processes and activities used in perceiving, learning, remembering, thinking, and understanding. It offers an opportunity to explore current information processing models and their applications. Topics include: attention, memory, language, neurocognition, and thinking and reasoning. (Format: Lecture 3 Hours, Laboratory 1 Hour) (Exclusion: PSYC 3021 Cognition)

PSYC2301 (3.00 CR)
SOCIAL PSYCHOLOGY

Prereq: Second-year standing; PSYC 1001; PSYC 1011; or permission of the Department

This course introduces the field of social psychology. Topics include: social cognition, attitudes, prejudice and discrimination, interpersonal attraction, social influence, helping and aggression, and group processes. (Format: Lecture 3 Hours, Laboratory 1 Hour) (Exclusion: PSYC 3081)

PSYC2431 (3.00 CR)
CHILD AND ADOLESCENT DEVELOPMENT

Prereq: Second-year standing; PSYC 1001; PSYC 1011; or permission of the Department

This course is an overview of social, cognitive, and biological development during infancy, childhood, and adolescence. Topics include: the development of perception, memory, emotions, and family relationships; puberty, identity, peer groups, and adolescent sexuality. (Format: Lecture 3 Hours) (Exclusion: PSYC 2401; PSYC 2411)

PSYC2601 (3.00 CR)
PSYCHOLOGY OF ABNORMAL BEHAVIOUR

Prereq: Second-year standing; PSYC 1001; PSYC 1011; or permission of the Department

This course presents an overview of psychological disorders: biological and social origins, classification, symptoms, and common treatments. (Format: Lecture 3 Hours) (Exclusion: PSYC 3061)

PSYC2611 (3.00 CR)
HEALTH PSYCHOLOGY

Prereq: Second-year standing; PSYC 1001; PSYC 1011; or permission of the Department

This course introduces the field of health psychology, a term that is often used interchangeably with behavioural medicine or medical psychology. The course focuses on the biopsychosocial model of health, specifically on how biological, psychological, and social factors interact to influence health and illness. (Format: Lecture 3 Hours)

PSYC2701 (3.00 CR)
PERSONALITY

Prereq: Second-year standing; PSYC 1001; PSYC 1011; or permission of the Department

This course introduces personality as an enduring, organized pattern of thinking, feeling, and behaving. The course examines key theories and broader perspectives on personality, as well as the measurement of personality from those perspectives. Examples may include dispositional, biological, psychoanalytic, learning, and phenomenological perspectives. (Format: Lecture 3 Hours) (Exclusion: PSYC 3071)

PSYC2991 (3.00 CR)
SPECIAL TOPIC IN PSYCHOLOGY

Prereq: Second-year standing; PSYC 1001; PSYC 1011; or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for PSYC 2991 more than once, provided the subject matter differs.] (Format: Variable)

PSYC3001 (3.00 CR)
ADVANCED DESIGN AND ANALYSIS

Prereq: Third-year standing; PSYC 1001; PSYC 1011; PSYC 2001; PSYC 2011; or permission of the Department

This course provides advanced analytic and design tools necessary to interpret the research of others and to conduct original research. (Format: Lecture 3 Hours, Laboratory 3 Hours)

PSYC3021 (3.00 CR)
PSYCHOLOGICAL MEASUREMENT AND INDIVIDUAL DIFFERENCES

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; 6 credits from PSYC 2001, 2011 recommended; or permission of the Department

This course examines the history and principles of psychological testing. It is concerned with the logic of test construction and the problems associated with attempts to quantify and assess human abilities and characteristics. (Format: Variable. Lecture 3 Hours, Laboratory 1.5 Hours or Integrated Lecture/Collaborative Learning/Laboratory 4.5 Hours)

PSYC3101 (3.00 CR)
HUMAN NEUROPSYCHOLOGY

Prereq: Third-year standing; PSYC 2101; 3 credits from PSYC at the 2000 level; or permission of the Department

This course examines the structure and functions of the cerebral cortex. Topics include cerebral asymmetry in function, the anatomy and functions of the frontal, parietal, temporal, and occipital lobes, and the neural substrates of higher functions such as memory, language, emotion, spatial behaviour, and attention. [Note 1: PSYC 2001 and 2011 strongly recommended as additional prerequisites.](Format: Lecture 3 Hours, Laboratory 1.5 Hour)

PSYC3111 (3.00 CR)
CONDITIONING

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course examines the role of associative processes in both human and non-human learning. Topics include: habituation, classical conditioning, operant conditioning, and observational learning. [Note 1: PSYC 2001 and 2011 strongly recommended as additional prerequisites.] (Exclusion: PSYC 3011 Conditioning) (Format: Lecture 3 Hours, Laboratory 3 Hours)

PSYC3141 (3.00 CR)
SOCIAL NEUROSCIENCE

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course explores the emerging discipline of social neuroscience with a focus on the interaction between the social environment, behavior, and biology. Methods covered include research in social psychology, neuroendocrinology, neuroimaging, and neurophysiology. Topics covered include emotion, behavioral regulation, motivational systems, perceptions of self and others, social hierarchies, and social learning. (Format: Variable. Lecture 3 Hours; or Lecture 3 Hours, Laboratory 1.5 Hours) (Exclusion: PSYC 3991 Social Neuroscience) [Note: PSYC 2101 is highly recommended]

PSYC3151 (3.00 CR)
DRUGS AND BEHAVIOUR

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course explores principles of pharmacology, neural transmission, behavioural assessment of drug effects, theories of addiction, tolerance, and dependence as a conceptual introduction to behavioural pharmacology. It discusses specific psychopharmacologic issues pertaining to alcohol, benzodiazepines, barbiturates, opiates, psychomotor stimulants, caffeine, tobacco, hallucinogens, and antipsychotic drugs. (Format: Lecture 3 Hours) (Exclusion: PSYC 2111)

PSYC3201 (3.00 CR)
MEMORY

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course examines contemporary research and theories of human memory. Topics include: short-term and long-term memory, forgetting, implicit memory, amnesia, memory and aging, reconstructive processes, mnemonics, and imagery. (Format: Lecture 3 Hours, Laboratory 1.5 Hours)

PSYC3211 (3.00 CR)
SENSATION AND PERCEPTION

Prereq: Third-year standing; PSYC 1001; PSYC 1011; PSYC 2101; 3 credits from PSYC at the 2000 level; or permission of the Department

This course examines how physical energy is translated into sensory information and processed into our perceptions of the world around us. It explores the psychophysics and neural coding of each of our senses as well as the higher order processes of attention and cognition. (Format: Lecture 3 Hours, Laboratory 1.5 Hour) (Exclusion: PSYC 3121 Sensation and Perception)

PSYC3221 (3.00 CR)
PSYCHOLOGY OF LANGUAGE

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course describes our present knowledge concerning the mechanisms underlying the production, comprehension, and use of language. (Format: Lecture 3 Hours, Laboratory 1.5 Hours) (Exclusion: Any version of PSYC 3221 previously offered with a different title)

PSYC3241 (3.00 CR)
FORENSIC PSYCHOLOGY

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course examines the relationship between psychology and the legal system. Topics include: police psychology, eyewitness testimony, jury decision-making, risk-assessment in legal situations, violent offenders, and psychopaths. (Format: Variable. Lecture 3 Hours; or Lecture 3 Hours, Laboratory 1.5 Hours) (Exclusion: PSYC 3991 Forensic Psychology)

PSYC3301 (3.00 CR)
INTERPERSONAL RELATIONS

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course examines aspects of interpersonal attraction and interpersonal relationships. Topics include: attachment and affiliation, interpersonal attraction, developing and maintaining close relationships, friendship and love, relationship problems, and relationship termination. (Format: Lecture 3 Hours)

PSYC3311 (3.00 CR)
HUMAN SEXUALITY

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or a declared Minor in Feminist and Gender Studies; or permission of the Department

This course examines human sexuality from a multidisciplinary perspective. Topics include physiology and anatomy, sexual behavior, sexual orientation, reproduction, sexual health, and sexual problems and solutions. (Format: Lecture 3 Hours)

PSYC3331 (3.00 CR)
DEATH AND DYING

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course examines psychological perspectives on issues related to death, dying, and bereavement. Topics include hospice palliative care, end-of-life decisions, suicide, euthanasia, funeral practices, dealing with grief and bereavement, and cross-cultural perspectives on and attitudes toward death and dying. (Format: Lecture 3 Hours)

PSYC3351 (3.00 CR)
MOTIVATION AND EMOTION

Prereq: Third-year standing and 12 credits from PSYC 1001, 1011, and PSYC at the 2000 level; or third-year standing and COMM 2311; or permission of the Department

This course examines two fundamental questions from the perspective of psychology of motivation and emotion: "what causes behaviour" and "why does behaviour vary in intensity?" Topics include psychological needs, social needs, intrinsic and extrinsic motivation, cognitions, goal setting, and emotions. [Note 1: This course is cross-listed with COMM 3351 and may therefore count as three credits in either discipline.] (Format: Lecture 3 hours) (Exclusion: PSYC 3991 Motivation and Emotion)

PSYC3371 (3.00 CR)
INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY

Prereq: Third-year standing and 12 credits from PSYC 1001, 1011, and PSYC at the 2000 level; or third-year standing and COMM 2311; or permission of the Department

This course provides information about Industrial and Organizational Psychology (I/O psychology), which studies human behaviour in the workplace using the science-practitioner model. Topics include the appropriate use of people or human resources such as job analysis, performance appraisal, selection, placement, understanding employee behaviour and enhancing the well-being of the employees such as job attitudes, counterproductive work behaviour, health, and workplace stress. [Note 1: This course is cross-listed with COMM 3371 and may therefore count as three credits in either discipline.] (Format: Lecture 3 hours) (Exclusion: PSYC 3991 Industrial/Organizational Psychology)

PSYC3411 (3.00 CR)
COGNITIVE DEVELOPMENT

Prereq: Third-year standing; 3 credits from PSYC 2401, 2431; 3 credits from PSYC at the 2000 level; or permission of the Department

This course examines theories and research methods of developmental psychology, with a focus on research and findings in cognitive development in infancy, childhood and adolescence. It includes theories of how infants and children discover and understand the world, remember information, and solve problems. (Format: Lecture 3 Hours, Laboratory 3 Hours)

PSYC3421 (3.00 CR)
ADULTHOOD AND AGING

Prereq: Third-year standing; 6 credits from PSYC at the 2000 level; or permission of the Department

This course is an overview of social, cognitive, and biological development during early, middle, and especially late adulthood. Topics include: age-related changes in the central nervous system; dementia; late-life changes in intellectual abilities, memory and sensory processes; and the effects of age on personality and interpersonal relationships. (Format: Lecture 3 Hours) (Exclusion: PSYC 2421)

PSYC3511 (3.00 CR)
PSYCHOLOGY OF GENDER

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or a declared Minor in Feminist and Gender Studies; or permission of the Department

This course systematically reviews psychological theories and research findings about gender. Topics include biological effects on gender development, gender roles, health and reproduction, personality and social interaction, work, sexuality, gendered violence, and mental health. It also considers the ways that race, ethnicity, class, physical ability, sexual orientation, and age modify women's and men's experience. (Format: Lecture 3 Hours) (Exclusion: PSYC 2501; any version of PSYC 3511 previously offered with a different title)

PSYC3601 (3.00 CR)
INTRODUCTION TO CLINICAL PSYCHOLOGY

Prereq: Third-year standing; PSYC 2601; 6 credits from PSYC at the 2000 level; or permission of the Department

This course introduces the main theoretical perspectives, strategies of diagnosis and assessment, and types of intervention used in clinical psychology. Lectures focus on developing a framework for conceptualizing psychological problems, on the basics of interviewing and using psychological tests, and on different types of clinical treatments. It also explores specialized areas of clinical psychology such as child psychology, clinical neuropsychology, and forensic psychology. (Format: Lecture 3 Hours) (Exclusion: PSYC 3501 Introduction to Clinical Psychology)

PSYC3611 (3.00 CR)
PERINATAL HEALTH PSYCHOLOGY

Prereq: Third-year standing; PSYC 1001; PSYC 1011; PSYC 2611; 3 credits from PSYC at the 2000 level; or permission of the Department

This course provides information about the biopsychosocial factors and experiences of women and men during the transition to parenthood, from preconception to three years postpartum. This specialized course integrates knowledge from health and behavioural sciences, namely psychoneuroendocrinology, obstetrics and gynecology, maternal-fetal medicine, psychiatry, nursing, midwifery, developmental and clinical health psychology. Topics covered include: access to prenatal care, infertility, complicated grief after pregnancy or perinatal loss, perinatal mood disorders (e.g., depression, anxiety, psychosis) and infant brain development, fetal growth, preterm birth, developmental origins of health and disease or DOHaD (e.g., fetal programming by epigenetic processes after environmental exposures such as parental lifestyle, nutrition, smoking, alcohol, obesity, and/or endocrine disruptor chemicals/toxins), attachment theory and early parenting. (Format: Lecture 3 hours) (Exclusion: PSYC 3991 Perinatal Health Psychology)

PSYC3801 (3.00 CR)
EDUCATIONAL PSYCHOLOGY

Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course introduces selected principles, research findings, and theories of psychology considered relevant to teaching and learning. Topics include: human development and learning, including developmental changes; motivational and learning processes; exceptionalities and other individual differences; dynamics of social groups; and the evaluation of teaching and learning. [Note 1: This course is cross-listed with EDUC 3801 and may therefore count as three credits in either discipline. Note 2: Students enrolled in the BMusEd program will be admitted if they have completed 3 credits from PSYC at the 2000 level] (Format: Lecture 3 Hours)

PSYC3821 (3.00 CR)
CHILD PSYCHOPATHOLOGY

Prereq: Third-year standing; PSYC 2431; 6 credits from PSYC at the 2000 level; or permission of the Department

This course examines prevalence, aetiology, diagnosis, and treatment of the major psychological disorders of childhood including: anxiety; mood and conduct disorders; ADHD; autism; and language and learning disorders. The course focuses on examining the current state of research in childhood psychopathology. (Format: Lecture 3 Hours, Laboratory 1 Hour) (Exclusion: PSYC 3501 Child Psychopathology)

PSYC3851 (3.00 CR)
SPORT PSYCHOLOGY
Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course presents an overview of sport psychology within the framework of psychological science. Sports psychology involves the study of psychological variables that impact participation and performance in athletics; this study incorporates theories and research from many areas of psychology, including personality, social, cognitive, and clinical. In this course, relevant theories and research will be reviewed and applied to the context of performance in sport and participation in physical activity as well as to coaching. Course content will bridge theory and empirical study with practical applications to health and sport. (Format: Lecture, 3 Hours) (Exclusion: PSYC 3991 Sport Psychology)

PSYC3901 (3.00 CR)
HISTORY OF PSYCHOLOGY
Prereq: Third-year standing; 15 credits from PSYC at the 2/3000 level; or permission of the Department

This course places the problems and concepts of contemporary psychology in a historical context by surveying the philosophical roots of pyschological research and clinical practice. It covers the development of psychology from antiquity to the present. (Format: Lecture 3 Hours)

PSYC3991 (3.00 CR)
SPECIAL TOPIC IN PSYCHOLOGY
Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for PSYC 3991 more than once, provided the subject matter differs.] (Format: Variable)

PSYC4101 (3.00 CR)
ADVANCED TOPICS IN BEHAVIOURAL NEUROSCIENCE
Prereq: Third-year standing; PSYC 2101; 6 credits from PSYC at the 3000 level; or permission of the Department

This course examines the relation between brain and behaviour. (Format: Seminar 3 Hours)

PSYC4111 (3.00 CR)
ADVANCED TOPICS IN CONDITIONING
Prereq: Third-year standing; PSYC 3111; 6 credits from PSYC at the 3000 level; or permission of the Department

This course examines Pavlovian conditioning, operant conditioning, and other forms of learning in animals and people. (Format: Seminar 3 Hours)

PSYC4201 (3.00 CR)
ADVANCED TOPICS IN COGNITION
Prereq: Third-year standing; PSYC 2201; 6 credits from PSYC at the 3000 level; or permission of the Department

This course examines subjects of current theoretical interest in the psychology of attention, memory, and thought. (Format: Seminar 3 Hours)

PSYC4301 (3.00 CR)
ADVANCED TOPICS IN SOCIAL PSYCHOLOGY
Prereq: Third-year standing; PSYC 2301; 6 credits from PSYC at the 3000 level; or permission of the Department

This course examines selected topics of current theoretical interest in the study of social behaviour. (Format: Seminar 3 Hours)

PSYC4311 (3.00 CR)
ADVANCED TOPICS IN SEXUALITY
Prereq: Third-year standing; PSYC 3311; 6 credits from PSYC at the 3000 level; or permission of the Department

This course focuses on topics related to sexuality and sex research and addresses research design and methodology in the field of sex research. (Format: Seminar) (Exclusion: any PSYC 4991 previously offered as an advanced special topic in Sexuality)

PSYC4371 (3.00 CR)
ADVANCED TOPICS IN INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
Prereq: Third-year standing; PSYC 1001; PSYC 1011; 6 credits from PSYC at the 2000 level; or third-year standing; COMM 2311; or permission of either department.

This course explores advanced issues in Industrial and Organizational Psychology. Topics include job satisfaction, person-environment fit, work-life balance, personality at workplace, motivation, performance, and selection. [Note 1: This course is cross-listed with COMM 4371 and may therefore count as three credits in either discipline.] (Format: Lecture 3 hours) (Exclusion: PSYC 4991 Advanced Topics in Organizational Psychology)

PSYC4401 (3.00 CR)
ADVANCED TOPICS IN DEVELOPMENTAL PSYCHOLOGY
Prereq: Third-year standing; 3 credits from PSYC 2401, 2411, 2431, 3421; 6 credits from PSYC at the 3000 level; or permission of the Department

This course provides a deeper understanding of the methods and concepts of developmental psychology through intensive treatment of specific research areas. (Format: Seminar 3 Hours)

PSYC4411 (3.00 CR)
ADVANCED TOPICS IN ADULTHOOD AND AGING
Prereq: Third-year standing; 3 credits from PSYC 2421, 3421; 6 credits from PSYC at the 3000 level; or permission of the Department

This course examines selected topics of current theoretical and applied interest in the study of adult development and aging. (Format: Seminar 3 Hours)

PSYC4421 (3.00 CR)
ADVANCED TOPICS IN SOCIAL DEVELOPMENT

Prereq: Third-year standing; PSYC 2431; 6 credits from PSYC at the 3000 level; or permission of the Department

This course provides a thorough examination of specific topics in social development, for example, attachment, abnormal social development, and emotional development of the child. It focuses on current theoretical and methodological issues in the chosen topic area. (Format: Seminar 3 Hours) (Exclusion: PSYC 4501 Advanced Topics in Social Development)

PSYC4601 (3.00 CR)
ADVANCED TOPICS IN PSYCHOPATHOLOGY

Prereq: Third-year standing; PSYC 2601; 6 credits from PSYC at the 3000 level; or permission of the Department

This course presents an in-depth examination of theory and research pertinent to a topic of current interest in the field of Psychopathology. (Format: Seminar 3 Hours)

PSYC4611 (3.00 CR)
ADVANCED TOPICS IN HEALTH PSYCHOLOGY

Prereq: Third-year standing; PSYC 2611; 6 credits from PSYC at the 3000 level; or permission of the Department

This research seminar in psychoneuroimmunology examines how interactions among behaviour, the nervous system, and the immune system influence health. The broad focus is on relationships among brain, behaviour, and immunity from a life-span perspective and on the implications for disease management within various areas of behavioural medicine.(Format: Seminar 3 Hours) (Exclusion: PSYC 4501 Advanced Topics in Health Psychology)

PSYC4701 (3.00 CR)
ADVANCED TOPICS IN PERSONALITY

Prereq: Third-year standing; PSYC 2701; 6 credits from PSYC at the 3000 level; or permission of the Department

This course presents an in-depth examination of theory and research pertinent to a topic of current interest in the field of Personality. (Format: Seminar 3 Hours)

PSYC4801 (3.00 CR)
PSYCHOLOGY, SCIENCE, AND SCIENCE-FICTION

Prereq: Third-year standing; 6 credits from PSYC at the 3000 level; or permission of the Department

This seminar integrates various aspects of the scientific method and psychology (including, but not limited to neuroscience,cognition, perception, human sexuality, and social psychology) to analyze the portrayal of psychology in science-fiction media using novels, movies, and television series. Science-fiction will provide an overarching framework for discussing topics that highlight the divide between 'real science' and psychology vs. pseudoscience. (Format: Seminar, 3 Hours) (Exclusion: PSYC 4991 Psychology, Science, And Science-Fiction)

PSYC4903 (3.00 CR)
HONOURS SEMINAR

Coreq: PSYC 4990

A seminar for honours students in Psychology that will involve consideration of metatheoretical, psychometric, and ethical issues that inevitably arise in the course of virtually any type of psychological inquiry. In addition to the critical evaluation of classic articles on these topics, students will make periodic presentations of their own ongoing research, which will be open to all members of the Department. (Format: Seminar 2 Hours)

RELIGIOUS STUDIES

Religion deals with the most basic and ultimate questions of human existence: the meaning and purpose of life; the presence of death, sorrow and anxiety; the existence of God; questions of morality and justice; the possibilities of transcendence, salvation, and liberation for individuals and communities. Religion plays a central role in the construction of human cultures and societies, motivating and legitimating social, political, and ethical action. Religion has been and continues to be a powerful influence in literature, the arts, and history, as well as in current civil and global conflicts.

Religious Studies as an academic discipline does not indoctrinate in any religious tradition (though it may certainly help students clarify their own thinking and convictions). Rather, it takes a scholarly and analytical approach, and, as such, is open to students from all backgrounds, secular and religious. The academic study of religion examines the various religious traditions of the world, east and west, in their historical and contemporary contexts. It explores the various ways in which religion shapes culture and history, forms values, and authorizes human action. Thus Religious Studies is an integral part of the liberal arts curriculum.

Courses in Religious Studies are divided into three streams: Eastern Traditions (Hinduism, Buddhism, East Asian Religions), Western Traditions (Judaism, Christianity, Islam), and Religion and Culture. Introductory courses (at 1000 and 2000 level) lay the foundation for focused study of particular traditions and for courses that explore how religion relates to themes in the wider culture - such as in the arts, gender issues, and ethics (at 3000 and 4000 level).

The Humanities 1600-series is intended to provide an introduction to Humanities disciplines. These three-credit courses offered by the participating disciplines of Classics, History, Philosophy and Religious Studies are designed to acquaint beginning students with the methodologies typical of these disciplines and to familiarize them with the approaches taken as well as the sorts of themes pursued and questions raised in these disciplines.

Further information is available on request from the Department Office, Room 112, Hart Hall (364-2556).

RELG1001 (3.00 CR)
INTRO TO COMPASSIONATE COMMUNITIES

This course explores the concept of the compassionate community as a model for how communities might address social injustices such as poverty, homelessness and loneliness in their midst. Drawing on tools from work in community engaged learning, the course gives students the critical and theoretical skills to understand the factors in community making (history, shared values, identity) and the preparations needed for establishing and maintaining community partnerships. The course has a particular focus on the local-Sackville, Port Elgin, Dorchester-and an applied component that directs students in the skills needed to make connections with local potential community partners and assemble the skills and competencies to discern mutually what sort of relationships and projects are best, given the needs of all involved. [Note 1: This course is cross-listed as CENL 1001 and may therefore count as three credits in either discipline] (Format: Lecture/Tutorial 3 hours) (Exclusion: RELG 1991 Compassionate Communities)

RELG1601 (3.00 CR)
GLOBAL RELIGIONS I

This course pursues answers to the question: Why does learning about religion matter for daily life, academic study, travel, careers within one's home community or far beyond? It does so through the study of texts, beliefs, stories and practices connected with the major religions of India, China, and Japan, including Hinduism, Buddhism, Jainism, Sikhism, Confucianism, Taoism and Shinto. This course explores how the phenomenon of religion infuses our lives, shaping the ways we interact, informing how we view each other and the world around us. (Format: Lecture 3 Hours) (Exclusion: RELG 2211, 2401)

RELG1611 (3.00 CR)
GLOBAL RELIGIONS II

This course pursues answers to the question: Why does learning about religion matter for daily life, academic study, travel, careers within one's home community or far beyond? It does so through the study of texts, beliefs, stories and practices connected with the so-called Abrahamic traditions, Judaism, Christianity and Islam, as well as New Religious Movements and Indigenous ways of knowing. This course explores how the phenomenon of religion infuses our lives, shaping the ways we interact, informing how we view of each other and of the world around us. (Format: Lecture 3 Hours) (Exclusion: RELG 2201, 2801)

RELG1621 (3.00 CR)
DEATH AND THE AFTERLIFE IN ASIAN RELIGIONS

This course examines the practices and beliefs concerning death and the afterlife in six religious traditions: Buddhism, Confucianism, Daoism, 'folk' or 'popular' religion, Shinto, and Hinduism. It compares beliefs and practices related to death and the afterlife in these traditions and examines the diversity that exists both between and within these religions. (Format: Lecture 3 hours) (Exclusion: RELG 1991 Death and the Afterlife in Asian Religions)

RELG1641 (3.00 CR)
RELIGION, THE BODY, AND SEXUALITY

This course investigates the role the human body plays in the world's Western religious traditions (predominantly Judaism, Christianity, and Islam), namely, how the body affects or facilitates worship of the divine and what the related rites, practices, and texts have to say to us as physical beings. It considers such issues as bodily functions, gender roles, and sexual orientation. The course pays considerable attention to the intersections of religion and culture as they inform what it means to be an embodied believer. It also considers why the human imagination seems to need to conceive the divine in bodily form. (Format: Lecture 3 Hours) (Exclusion: Any version of RELG 1641 previously offered with a different title)

RELG1661 (3.00 CR)
RELIGION AND POPULAR CULTURE

This course examines various points at which religion and culture collide. It utilizes various media (film, music, fashion, literature) in order to interpret some of the complex relationships that form and maintain contemporary Western identity. Topics include cultural uses of religious symbolism and story, the power of popular piety, and the Western tendency towards consumption and commodification of religious traditions. (Format: Lecture 3 Hours)

RELG1681 (3.00 CR)
THE QUEST FOR ENLIGHTENMENT: THE SEARCH FOR PERFECTION IN ASIAN RELIGIONS

This course treats the theme of the spiritual quest in Asian religions. Surveying some of the major Asian religions (Hinduism, Buddhism, Jainism, Confucianism, Taoism, and Shinto) it explores the nature of the highest state thought to be achievable by humans and how that state is realized. Topics may include the role of morality, love, and human relationships in that quest, the place of rituals and institutions, and the vision for society. This course looks at both classical and contemporary views on these issues and situates them within their relevant socio-historical context. (Format: Lecture 3 Hours)

RELG1991 (3.00 CR)
SPECIAL TOPIC IN RELIGIOUS STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for RELG 1991 more than once, provided the subject matter differs.] (Format: Variable)

RELG2411 (3.00 CR)
MOTHER EARTH, FATHER SKY: RELIGION, HUMANS, AND NATURE

This course investigates religious moral thought through the lens of nature and environmental issues. It explores various religious perspectives, both Asian and Western, on topics such as the meaning of nature and the place of humans in it, the value of landscapes and ecosystems, whether animals have moral standing and how they should be treated, and how current environmental problems should be understood and approached. (Format: Lecture 3 Hours)

RELG2421 (3.00 CR)
ACTIVE HOPE

This course investigates models and frameworks that are useful to students who are considering embarking on the path of environmental advocacy, which is notorious for its accompanying risks of burnout and despair. Based on theories of critical hope, the course examines and critically assesses the various approaches to the grave problems of our time that are aimed at fostering resilience and facilitating collaborative work for ongoing engagement. [Note 1: This course is cross-listed as CENL 2421 and may therefore count as three credits in either discipline] (Format: Lecture 3 Hours)

RELG2521 (3.00 CR)
FOOD PRACTICES AND EAST ASIAN RELIGIONS

This course examines the practices and beliefs associated with food in five East Asian religious traditions: Buddhism, Confucianism, Daoism, 'folk' or 'popular' religion, and Shinto. It introduces religious prescriptions and prohibitions related to food cultivation, storage, distribution, preparation, and consumption. Topics include connections between food practices and hierarchy and the roles that food plays in creating and sustaining relationships such as those between humans, living and dead, and non-humans. (Format: Lecture 3 Hours) (Exclusion: RELG 2991 Food Practices and East Asian Religions)

RELG2541 (3.00 CR)
SACRED STUFF

This course explores relationships between material culture and religion. It is built around the hands-on study and analysis of diverse objects and the exploration of scholarship investigating the ways "sacred stuff" matters to religious practice and belief. These include jewelry, woodblock prints, musical instruments, and icons. (Format: Lecture 3 Hours) (Exclusion: RELG 2991 Sacred Stuff)

RELG2811 (3.00 CR)
INTRODUCTION TO THE BIBLE I: HEBREW BIBLE

This course introduces, in translation, the literature of the Hebrew Bible, or Old Testament. It discusses selected passages in the context of Israel's history, religion, and society, set against the backdrop of the Ancient Near Eastern civilizations of Egypt and Mesopotamia. It also explores why these texts and the religion they represent have been so influential and in what ways they still illuminate and speak to the human situation today. (Format: Lecture 3 Hours) (Exclusion: RELG 001)

RELG2821 (3.00 CR)
INTRODUCTION TO THE BIBLE II: NEW TESTAMENT

This course discusses the literature of the New Testament, in English translation, in light of the historical and cultural conditions from which it emerged. It analyzes the New Testament both as a witness to Jesus and to Christian origins, and as a text which has exerted enormous creative power within human culture and history. (Format: Lecture 3 Hours) (Exclusion: RELG 2011)

RELG2831 (3.00 CR)
FAITH AND DOUBT

This course introduces the disciplines of theology and philosophy of religion within the Western theistic (Jewish/Christian) tradition. It considers the sometimes ambivalent relationship between reason and religious experience. Topics include rational proofs for the existence of God, religious self-understanding, the problem of evil, and the relationship between religious belief and scientific reason. (Format: Lecture 3 Hours) (Exclusion: RELG 2501)

RELG2841 (3.00 CR)
THE APOCALYPTIC CONSCIOUSNESS

This course studies the apocalyptic consciousness in ancient documents and in modern thought, particularly with reference to ideas about the Day of Judgment and Second Coming. In addition to biblical and non-biblical texts, it reflects on contemporary portrayals of the apocalyptic image in art, literature and film, and explores the apocalyptic cult with specific reference to cults of expectation. (Format: Lecture 3 Hours) (Exclusion: RELG 2031)

RELG2991 (3.00 CR)
SPECIAL TOPIC IN RELIGIOUS STUDIES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. RELG3301 (3.00 CR)
RELIGIONS OF CHINA

Prereq: 3 credits from RELG; 3 credits from RELG at the 2000 level; or permission of the Department

This course will study the religious traditions of China, examining the basic ideas and concepts underlying Chinese religion and the ways in which these ideas were implemented. The course will look in detail at both Confucianism and Daoism, at Chinese folk religion, and at the adaptation of Buddhism to China. It will conclude with an evaluation of the current state of religion in China. (Format: Lecture 3 Hours)

RELG3311 (3.00 CR)
RELIGIONS OF JAPAN

Prereq: 3 credits from RELG; 3 credits from RELG at the 2000 level; or permission of the Department

This course will study the religious traditions of Japan, examining the underlying ideas and concepts of Shinto, including its relation to Shamanism, the nature and role of Kami, the role of purity and aesthetics, and its political functions. The introduction and adaptation of Buddhism and its relation to Shinto will be discussed, as will the modern day "new religions" which form such a vital part of contemporary Japanese religious practice. The influence and roles of Confucianism and Daoism will also be briefly covered. (Format: Lecture 3 Hours)

RELG3321 (3.00 CR)
SACRED PLACE IN EAST ASIA

Prereq: 3 credits from RELG; 3 credits from RELG at the 2000 level; or permission of the Department

This course focuses on the ways in which sacred sites have been constituted and transformed in five East Asian religious traditions: Buddhism, Confucianism, Daoism, 'folk' or 'popular' religion, and Shinto. By analysis of diverse primary source materials the course aims to enhance understanding of the complex processes by which sites are singled out as worthy of devotion to address the question: what needs have the establishment, preservation, recreation, and destruction of sacred places met in particular times and territories? (Format: Lecture 3 Hours) (Exclusion: RELG 3991 Sacred Space in East Asia)

RELG3411 (3.00 CR)

This course treats the history of Christianity during the fifteenth and sixteenth centuries, an era when the unity of mediæval western Christendom was driven by series of reformations: Protestant, Radical, and Catholic. It investigates the ecclesiastical, intellectual, political, and social circumstances and consequences of dramatic religious change. [Note 1: This course is cross-listed as HIST 3631 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: HIST 3131)

RELG3681 (3.00 CR)
IDENTITY AND THE MAKER

Prereq: 3 credits from RELG; 3 credits from RELG at the 2000 level; or permission of the Department

This course examines religious and cultural notions of identity via the creative arts and cultural practices of making and crafting. The course presents typical ways that theology and philosophy attempt to account for human experience and self-understanding, contrasting them with the radical and often marginal transformations that might be explored through creative material and cultural practice. Through scholarly discourse as well as concrete creative applications students will have the opportunity to consider the many ways in which the human experience and the quest for meaning and expression are paralleled and mediated by traditions, practices and materials associated with craft. (Format: Seminar 3 Hours)

RELG3701 (3.00 CR)
ISLAM

Prereq: 3 credits from RELG; 3 credits from RELG at the 2000 level; or permission of the Department

This course traces Islam from its origins in the life and activities of Mohammed through to contemporary world Islam and its diverse responses to the challenges of "modernity" and the West. The world view, institutions, rituals, and practices of Islam will be studied within these changing historical and cultural contexts. Effort will be made throughout to gain insight into the religious, spiritual impulses which animate Islam and unite devout Muslims. (Format: Lecture 3 Hours) (Exclusion: RELG 3291)

RELG3811 (3.00 CR)
GENDER ISSUES IN WESTERN RELIGIONS

Prereq: 3 credits from RELG; 3 credits from RELG at the 2000 level; or permission of the Department

This course examines the role that gender plays in the context of myths, scriptural texts, rituals and doctrine, in the major religious traditions of the West. It examines such matters as sexuality and sexual orientation, the body, feminism and other critical approaches, political rights and responsibilities, access to religious experience, and spiritual leadership. (Format: Seminar 3 Hours)

RELG3821 (3.00 CR)
THE WORD MADE TEXT: INTERMEDIATE TOPICS IN BIBLICAL STUDIES

Prereq: 3 credits from RELG; 3 credits from RELG at the 2000 level; or permission of the Department

This course considers what the Bible means and how we should interpret it. It builds upon knowledge of the basic content of the Bible (Hebrew Bible and New Testament), as well as some of the methods or mechanics of biblical interpretation discussed in RELG 2811 and 2821. The course offers the opportunity for close and critical readings of a variety of biblical texts, allowing for the investigation of numerous interpretive approaches such as historical, poetic, narrative, and ideological. Overall the goal is for students to become competent and self-aware readers of the Bible. (Format: Lecture 3 Hours)

RELG3891 (3.00 CR)

ADVANCED STUDIES IN EASTERN THOUGHT

This course focuses on the philosophical traditions of Hinduism and Buddhism. It examines both classical systems of thought and their modern interpretations. [Note 1: Permission of the Department is required.] (Format: Seminar 3 Hours)

RELG4421 (3.00 CR)
EASTERN RELIGIONS AND THE CHALLENGE OF MODERNITY

This course examines the contemporary state of Eastern Religions. It discusses the recent histories of Eastern Religions, and looks at the challenges of science, consequences of colonialism, movements of political independence, and issues of poverty and social justice. It studies particularly these traditions' encounter with the West, and their responses to the cultural exchange that ensues from this encounter. [Note 1: Permission of the Department is required.] (Format: Seminar 3 Hours)

RELG4521 (3.00 CR)
KEY RELIGIOUS TEXTS OF EAST ASIA

This course examines the significance in East Asian religion of a selected single religious text. Combining a careful reading of this document with the analysis of closely related primary source materials and important secondary scholarship, it explores relationships between texts and the social, political, economic, and religious contexts of their creation and circulation. [Note 1: Permission of the Department is required. Note 2: Students may register for RELG 4521 more than once, provided the subject matter differs.] (Format: Seminar 3 Hours)

RELG4611 (3.00 CR)
REINVENTING THE SACRED: CHRISTIANITY IN THE POST-SECULAR WEST

This course considers the relationship between the Christian tradition and contemporary Western culture and looks at contemporary re-articulations of Christian beliefs, practices, and understandings. It examines from a cultural- critical perspective how thinkers have been forced to reformulate and modify traditional positions and beliefs in order to accommodate what are often vastly differing or at least unpredictable circumstances. This course considers how such innovations may reveal new ways forward in terms that are social, political, ethical, spiritual, and possibly even conventional. Ultimately it invites students to reflect on how these perspectives might enable the West to re-imagine its future possibilities in ways that are challenging and transformative for both the Christian tradition and Western identity. [Note 1: Permission of the Department is required.](Format: Seminar 3 Hours)

RELG4811 (3.00 CR)
THE DIVINE LIGHT OF REASON: ADVANCED TOPICS IN WESTERN THOUGHT

This course examines the theology and philosophy of religion as they bear on Western religious traditions. It explores the strengths and limitations of theological perceptions and philosophical concepts as these apply to traditional religious issues such as the power of death, the possibility of hope and the ineffability of religious experience. Topics may include reformulating sacramental theology; comparing theological anthropology and phenomenology; reconciling biblical language and post-structuralism; and examining the incommensurate parameters of divine presence. [Note 1: Permission of the Department is required.] (Format: Seminar 3 Hours)

RELG4821 (3.00 CR)
THE AUTHORITY OF THE TEXT: MEANING AND SACREDNESS IN WESTERN SCRIPTURE

This course examines the nature of scripture and what (or who) gives it authority. Through study of the related phenomena of interpretation, sacredness, and canonicity in biblical traditions, this course addresses questions of the origins of sacred texts and how such texts establish and sustain the religious, cultural, and social lives of communities. It explores how and with what results culturally and historically diverse interpretive communities have made fresh appropriations of scriptural traditions through various strategies of interpretation. It also asks what is at stake in these deliberations, who benefits, and how power operates or shifts via the various ideological mechanisms that serve to authorize scripture. [Note 1: Permission of the Department is required.] (Format: Seminar 3 Hours) (Exclusion: Any version of RELG 4821 previously offered with a different title)

RELG4841 (3.00 CR)
SEXUALITY AND THE BIBLICAL TRADITION

This course explores the history of sexuality in biblical and post-biblical traditions. Through the close reading of biblical texts it examines the Bible's treatment of the subject of sex including bodily purity, reproduction and sexual orientation. It also looks at the Bible's influence on this subject in the history of Judaism, Christianity, and the modern, secular era. [Note 1: Permission of the Department is required.] (Format: Seminar 3 Hours)

RELG4950 (6.00 CR)
INDEPENDENT STUDY IN RELIGIOUS STUDIES

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. SOCIOLOGY

Sociology involves the study of people as they interact with one another in varied social-structural, cultural and historical contexts. Sociology provides information on the social world, introduces students to different perspectives on social life, and offers training in specific research skills. It expands our horizons, challenges us to think critically about the world around us, and prepares us to participate in that world First and second year sociology courses provide an overview of the discipline and an introduction to sociological analysis. Third year courses emphasize theoretical approaches, analytical methods, and their application to major substantive areas of sociological interest. Fourth year courses allow students to work with greater interdependence and in more depth on a range of sociological topics.

Disciplinary B.A. Programs

MINOR in Sociology is 24 credits earned as follows:

SOCIOLOGY COURSES

Note: The listing of a course in the Calendar is not a guarantee that the course is offered every year.

Note: Students must obtain a grade of at least C- in all courses used to fulfill prerequisite requirements. Otherwise, written permission of the appropriate Department Head or Program Coordinator must be obtained.

SOCI1001 (3.00 CR)
INTRODUCTION TO SOCIOLOGY

This course introduces the basic concepts of sociology including social structure, culture, socialization, social organization, structured social inequality, and social change. In particular, the course provides a close examination of the processes of social inequality including institutional, ideological, and interactional factors. It makes extensive use of examples from the Canadian context. (Format: Lecture 3 Hours)

SOCI1201 (3.00 CR)
SOCIOLOGICAL IMAGINATION

Prereq: 3 credits from SOCI 1001, HLTH 1001; or permission of the Department

This course explores the major theoretical frameworks of sociology and the conceptual tools used to examine intersecting social relations embedded in everyday practices. It focuses on understanding how biographical characteristics are influenced by impersonal historical forces and significant structural transformations of society. The examination of sociological imagination lays the foundation for understanding how to differentiate between 'personal troubles' and 'public issues'. (Format: Lecture 3 hours)

SOCI1991 (3.00 CR)
SPECIAL TOPIC IN SOCIOLOGY

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. SOCI2111 (3.00 CR)
SOCIAL CLASS AND INEQUALITY

Prereq: SOCI 1201; or permission of the Department

This course is intended as an introductory examination of social inequalities and stratification in Canada based primarily on issues relating to class. This course guides students through an understanding of historic class formations in Canada to more modern analyses and understandings of class as related to neo-liberal and global economies. As well, this course looks at the intersections of class with gender, race, and disability as it relates to social inequalities and stratification. (Format: Lecture 3 Hours) (Exclusion: SOCI 2991 Social Class and Inequality)

SOCI2121 (3.00 CR)
RACE AND RACIALIZATION

Prereq: SOCI 1201; or permision of the department

This course uses sociological perspectives to examine the social construction of "race" in historical and contemporary contexts. The course analyzes and students critically examine evidence of systemic patterns of advantage and disadvantage based on migration, racism, ethnicity, and aboriginality in national and global contexts. It explores the effects of racialization on social, political, and academic discourse as well as policy responses, resistance movements, and alternatives for reducing and eliminating racism. (Format: Lecture 3 Hours)

SOCI2211 (3.00 CR)
GENDER RELATIONS

Prereq: SOCI 1201; or permission of the Department

This course introduces the study of gender through an examination of the nature of gender relations. It also considers major theories of the origin and consequences of gender inequality and addresses issues such as reproduction, work, law, violence, and racism with a focus on Canadian examples. (Format: Lecture 3 Hours)

SOCI2221 (3.00 CR)
SOCIOLOGY OF YOUTH

Prereq: Take SOCI 1201 or permision of the department

This course explores youth in relation to contexts of social structure (culture, family and peer groups), within institutions, and from local as well as global perspectives. This course looks critically at the social construction of youth in schools, families, the media, and other social institutions. It examines how socio-political factors affect youth, the agency of youth as citizens and decision-makers, and the importance of social positions such as race, sexuality, gender, nationality, and socioeconomic status. (Format: Lecture 3 Hours)

SOCI2231 (3.00 CR)
SOCIOLOGY OF SEX AND SEXUALITY

Prereq: SOCI 1201; or permission of the Department

This course examines sexual attitudes, beliefs, and behaviors from a sociological perspective, exploring how the biology of sex is sociologically constructed. It examines and explores theoretical and conceptual issues and empirical research and directs students to think about sexuality analytically and critically and to develop a sociological understanding of diverse issues. Topics include: sexual identity and its construction and regulation; sexuality and the Enlightenment; science and sex; ethics and social institutions; and the relationship between sexuality and the socio-political process. (Format: Lecture 3 Hours)

SOCI2401 (3.00 CR)
COLONIALISM, RACISM, AND INDIGENEITY IN CANADA

Prereq: SOCI 1201; or permission of the Department

This course explores the position of Indigenous people in Canadian society by focusing on the social dimensions of race, ethnicity, and aboriginality. The course also considers the extent to which racism, patriarchy, capitalism, power, privilege, and access to resources contribute to the marginalization of Indigenous peoples and focuses particularly on socially constructed relationships that emphasize and perpetuate social inequality and stratification. (Format: Lecture 3 hours)

SOCI2501 (3.00 CR)
YOUTH CRIMINALIZATION

Prereq: SOCI 1201; or permission of the Department

This course explores youth criminalization and youth justice from a critical sociological perspective, with particular attention to systemic issues of race, class, gender, age, and sexuality. Drawing primarily from critical criminology, the course traces the emergence and development of youth justice systems, and analyzes continuity and changes in youth justice policy and practice over time. Main topics include different correctional models such as punitive, welfare, and newer actuarial justice approaches and the criminalization of youth in the contemporary period with emphasis on the theory of intersectionality. Finally, the course examines alternative policies, practices, and attitudes intended for radical transformation of youth justice in the future. (Format: Lecture 3 Hours) (Exclusion: SOCI 2991 Youth Criminalization)

SOCI2611 (3.00 CR)
SOCIOLOGY OF DISABILITY

Prereq: SOCI 1201; or permission of the Department

This course explores sociocultural and political aspects of disability while paying particular attention to the ways in which disability intersects with other aspects of social life such as race, religion, sexuality, socioeconomic status, age, and gender. It explores key theoretical and methodological approaches used in the sociological study of disability and examines federal and international policy debates that address the rights and needs of people with disabilities. Course topics include: the medical model of disability, the social model of disability, feminist theories of disability, neurodiversity, activism, ableism, employment, race, eugenics, disability culture, gender, sexuality, and the representation of disability in media and popular culture. (Format: Lecture 3 Hours) (Exclusion: SOCI 2991 Sociology of Disability)

SOCI2901 (3.00 CR)
INTRODUCTION TO INDIGENOUS RESEARCH METHODS

Prereq: 3 credits from INDG 1001, CANA 1001, CANA 1011; or permission of the Program Director

This course introduces students to the basic theories, practices, and concepts of working with Indigenous peoples in research. Students develop and critically explore Indigenous and Western methodologies, theories, and concepts through multidisciplinary and decolonial lenses. [Note 1: This course is cross-listed with INDG 2901 and may therefore count as three credits in either discipline.] (Format: Lecture 3 hours)

SOCI2991 (3.00 CR)
SPECIAL TOPIC IN SOCIOLOGY

Prereq: SOCI 1201; or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for SOCI 2991 more than once, provided the subject matter differs.] (Format: Variable)

SOCI3001 (3.00 CR)
THEORETICAL FOUNDATIONS OF SOCIOLOGY

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course offers a critical review of the perspectives developed in the first and second generations of sociology in Europe with special emphasis on the ideas of Mary Wollstonecraft, Emile Durkheim, Karl Marx, W.E.B Du Bois, and Max Weber. (Format: Lecture 3 Hours)

SOCI3011 (3.00 CR)
CONTEMPORARY SOCIOLOGICAL THEORY

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course provides an overview of concepts, theoretical issues, and debates in recent sociological theory. It examines the nature of Functionalism and Conflict theory, Critical theory and neo-Marxism, the rise of micro-sociological analysis including Symbolic Interactionism, Phenomenology and Ethnomethodology, the transformative interventions of Feminist theory, and the role of Capital in the Social Reproduction of Inequality. In addition, the course explores emergent frameworks including postcolonial and decolonial theory, intersectionality, sexuality, queer and trans theories, and critical race theory. Students will explore developments in Economic and Political Globalization analysis, Risk theory and Modernities, Cosmopolitanism, and Posthumanism. (Format: Lecture 3 Hours)

SOCI3101 (3.00 CR)
SOCIOLOGY OF EMOTIONS

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course draws upon contemporary social theory on emotion, subjectivity, and power in order to analyze the emotional terrain of 'social world' and understand how power affects us. This course introduces major works in post-Foucauldian Sociology, including the work of Hochschild, Sedgewick, Ahmed and Illouz and responds to the question of how power works outside of financial or material systems. It examines the role that shame, happiness, desire, and other emotional experiences are shaped and structured by institutions such as the media, religion, and education and how, in turn, emotion comes to drive social life. (Format: Lecture 3 Hours)

SOCI3211 (3.00 CR)
DEVIANCE, CRIME, AND SOCIAL CONTROL

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course acquaints students with a sociological understanding of deviance, labelling and other forms of social control such as policing, prosecution and punishment. The course explores critical frameworks used to understand how deviance from social norms is labelled, framed, and acted upon by social institutions and structures like Law, Psychiatry and Medicine. This course draws upon foundational texts in Social Theory, Sociology of Health, Critical Criminology and Socio-legal Studies to provide rich context for understanding complex social problems such as violence, addiction, mental illness and anti-social behaviour. This course introduces Sociological methods for assessing our success, or failures, in tackling these social problems in contemporary life. (Format: Lecture 3 Hours)

SOCI3221 (3.00 CR)
WORK AND SOCIETY
Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course explores the nature and meaning of work in relation to political, economic, and social changes in industrial and post-industrial societies. The course also includes consideration of topics such as the relations between work and the family, work and identity, and work and community. While this examination is focused on Canada, it is contextualized within broader international trends and processes. (Format: Lecture 3 Hours)

SOCI3301 (3.00 CR)
QUANTITATIVE SOCIOLOGICAL RESEARCH METHODS
Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This is a course in sociological research methodology, including a consideration of questions of social epistemology and research design. Students gain practical experience in doing social research through the conducting of surveys, data analysis, introductory statistical procedures, content analysis, case studies, and other techniques. (Format: Integrated Lecture and Laboratory 3 Hours) (Exclusion: Any version of SOCI 3301 previously offered with a different title)

SOCI3311 (3.00 CR)
QUALITATIVE SOCIOLOGICAL RESEARCH METHOD
Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course examines the ways in which qualitative data are collected, analyzed, and used in the social sciences. Beginning with understanding the theory and theoretical debates of qualitative research, the course explores questions of definition, use, evidence, standards of rigour, and notions of what constitutes 'good' scientific evidence. The course covers a variety of theoretical orientations and explores how and when they are best applied. (Format: Integrated Lecture and Laboratory 3 Hours)

SOCI3331 (3.00 CR)
FIELD COURSE IN SOCIOLOGY
This course is designed to provide students with an intensive field experience, during which they pursue research on a topic to be chosen by the Instructor. Completion of SOCI 3301 (Sociological Research Methods) is recommended before registering for this course. [Note 1: Permission of the Department is required. Note 2: This course requires attendance at a multi-day off-campus field camp and students will be liable for some field trip costs. Note 3: Students may register for SOCI 3331 more than once, provided the subject matter differs] (Format: Lecture 3 Hours, Field Course)

SOCI3401 (3.00 CR)
INDIGENOUS EDUCATION
Prereq: 3 credits from INDG1001, CANA 1001, 1011; or 6 credits from CANA/INDG 2501, CANA/HIST/INDG 2801; or permission of the Program Director

This course explores historical and contemporary issues in Indigenous education. Topics may include traditional forms of education, colonial forms of education, Indigenous control of Indigenous education, as well as the indigenization of education. [Note 1: This course is cross-listed with INDG 3401 and EDUC 3401 and may therefore count as three credits in any of the three disciplines.] (Format: Lecture/Seminar 3 Hours)

SOCI3431 (3.00 CR)
CRITICAL MEDIA ANALYSIS
Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This is an advanced research course on the media-based control of information and dissemination of ideologies in modern society. It examines issues of ownership and control of the media and the social construction of news, and current theoretical debates in media analysis. (Format: Lecture 3 Hours)

SOCI3451 (3.00 CR)
DYNAMICS OF POPULAR CULTURE
Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course investigates the processes and forms of contemporary popular culture. It introduces students to the major theoretical debates in the field of popular culture and examines the development of popular cultural expression. (Format: Lecture 3 Hours)

SOCI3511 (3.00 CR)
SOCIOLOGY OF HEALTH & ILLNESS
Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course explores health, illness, and health care from a sociological perspective. The course focuses on the social determinants of health, demonstrates how social structures influence the occurrence of illness, examines why some social groups suffer more sickness and disease than others, deconstructs the social construction of medical practices and medicalization, and shows how health practices are socially constructed. (Format: Lecture 3 Hours)

SOCI3521 (3.00 CR)
COMMUNITIES
Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course reviews the sociological literature on rural, small-town, and urban social organization with special emphasis on the notion of "community" in Canadian society. (Format: Lecture 3 Hours)

SOCI3531 (3.00 CR)
EDUCATION AND SOCIETY

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course examines education as a social institution. Focusing primarily on public education at the elementary and secondary level, this course addresses the changing context of the learning environment and its relation to diverse aspects of society including class, gender, and race. This course employs various theoretical lenses to explore the social construction of public education in Canada, tracing its changing nature and purpose from its inception to more modern times. (Format: Lecture 3 Hours) (Exclusion: SOCI 2531)

SOCI3551 (3.00 CR)
CITIZENSHIP, IDENTITY & DIFFERENCE

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course explores identity and difference in relation to national and post-national forms of citizenship. Students examine contemporary discourses of Canadian identity, immigration, diversity, multiculturalism, and belonging. The course considers what it means to be a citizen, ideas of home, access to rights for dominant and subordinate groups, the dynamics of inclusion and exclusion in the nation and globally, and struggles for recognition among ethnic minority groups. The course also analyzes social inequalities in citizenship practice, the renegotiation of citizenship rights, and the emergence of new forms of citizenship in Canada and globally. (Format: Lecture 3 Hours)

SOCI3561 (3.00 CR)
CRITICAL BORDER STUDIES

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course explores how borders are used not only to demarcate physical boundaries between nation states but also as more comprehensive political tools to maintain and reinforce multiple social boundaries and inequalities symbolically and materially. Border walls, detention centres, and the more everyday practices of passport control regulate the movement of people practically and symbolically. Importantly, borders have become essential devices for the articulation of the contemporary global order. Borders do not just nestle within the geographic domains of the nation state but are mobilized in and through international and national laws, social institutions, and culture as a means to block and at times facilitate the mobility of people, knowledge, things, and capital. Borderlands have therefore become the sites of struggle for some of the most pressing issues in the contemporary global order. Borders and borderlands are also undergoing significant transformation through globalization as cross-border and transnational experiences, identities, and solidarities form and proliferate. Borders in this sense are constantly transforming practices, evoked for particular means at particular moments, spurring resistance of various kinds. (Format: Lecture 3 Hours)

SOCI3601 (3.00 CR)
TRANSFORMATIVE LEARNING PRACTICUM

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course is an introduction to the professional field of adult education and exposes students to the principles of transformative learning and the tools needed to put these theories into within a range of learning communities. Topics include social and cultural factors that affect learning, strategies and methods for facilitating adult learning, learning domains, learning in formal and non-formal environments, professional and lifelong learning, principles and characteristics of adult learners, and Universal Design for Learning (UDL). An applied community project will provide students with an opportunity to develop and demonstrate their skills. (Format: Lecture, 3 Hours)

SOCI3701 (3.00 CR)
SOCIAL POLICY ANALYSIS

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course provides the opportunity for students to apply sociological theories and perspectives to the development and analysis of social policies and programs. Social policy is the arena in which citizens, professionals, non-governmental organizations, social movements, and government address the social inequities underlying the lived realities of individuals. The course leads to an understanding of how sociology can be applied in researching, developing, analyzing, and implementing 'real world' social policies and programs. (Format: Lecture 3 hours)

SOCI3711 (3.00 CR)
COMPARATIVE SOCIAL POLICY

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course provides students with a comparative perspective on social welfare policies in Canada and other industrialized nations. Students examine the various ways that countries conceptualize and organize social welfare policies, especially those that have an impact on poverty, child and family well-being, and gender equality. The course emphasizes change, culture, polity, and economic forces as important factors in shaping social policies throughout the world and assesses the strengths and weaknesses of a variety of empirical and theoretical models. (Format: Lecture 3 Hours) (Exclusion: SOCI 3991 Comparative Social Policy)

SOCI3721 (3.00 CR)
NON-PROFIT ORGANIZATIONS

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course provides students with theoretical perspectives and empirical research connected to the sociology of organizations. Students explore the history, magnitude, and trends of the non-profit sector in Canada. Topics include the dynamics of the non-profit, government, and for-profit sectors; the history of the social roles of volunteerism and non-profit organizations; the impact of non-profit organizations on society; and the changing roles of the three sectors in the twenty-first century. (Format: Lecture 3 Hours) (Exclusion: SOCI 2991 Non-Profit Leadership)

SOCI3731 (3.00 CR)
APPLIED SOCIAL RESEARCH

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course draws on a broad range of theoretical principles in sociology and sociological research methods to analyze and recommend solutions for various social problems. Topics include establishing a research agenda and parameters, funding applied research, the relationship between goals and outcomes, measurement issues, program and evaluation processes, and client relations. A key component of the course is grant writing and communication in the professional setting. (Format: Lecture 3 Hours)

SOCI3741 (3.00 CR)
CLINICAL SOCIOLOGY

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course introduces clinical sociology beginning with a critical examination of the ethics, values, and historical development of the profession. It provides an opportunity for students to understand the role of the human services sector in a diverse and complex society. Students learn to apply sociological analysis of power, practices, policies, and beliefs in order to develop interventions at the micro, meso, and macro levels which will improve the situation of client systems. (Format: Lecture 3 Hours) (Exclusion: Any version of SOCI 3741 previously offered with a different title.)

SOCI3751 (3.00 CR)
SERVICE SOCIOLOGY

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course provides hands-on opportunities for students to gain practical skills and experience in service sociology, a socially responsible and mission-oriented sociology of action and alleviation, through public service, social action, and community engagement. It provides an opportunity for students to learn from experienced professionals and acquire relevant skills that can be applied in the work or voluntary sector. Students gain theoretical and methodological understanding of the interventions available for community-based engagement.(Format: Lecture 3 Hours) (Exclusion: Any version of SOCI 3751 previously offered with a different title.)

SOCI3761 (3.00 CR)
COMMUNITY HEALTH

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course provides an introduction to the study of structural inequalities that contribute to health disparities, with an emphasis on geographic, identity-based, or virtual communities as the focus for research and intervention. It also considers the social justice implications and potential effectiveness of public health policies and programs and investigates the value of participatory community interventions in prevention, health promotion, and care with individuals, families, and community members. (Format: Lecture 3 hours)

SOCI3771 (3.00 CR)
CULTURAL RESPONSIVITY

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course investigates the relevance of culture and diversity through concepts such as cultural competence, cultural intelligence, cultural humility, and cultural safety. The course explores these concepts as part of a lifelong learning process focused on acknowledging, respecting and working towards equity-minded interactions between the individual and various cultural, ethnic, and racialized groups. Concepts related to the development of culturally responsive practices are examined from personal, experiential, historical, and systemic perspectives with a focus on how learning may be applied in a variety of settings to foster inclusive and welcoming spaces. Course topics also include identity and values, bias and perception, intercultural communication, and an introduction to facilitating learning for others as connected to equity, diversity, inclusion, accessibility, and reconciliation. (Format: Lecture 3 Hours) (Exclusion: SOCI 3991 Cultural Competencies; Any version of SOCI 3771 previously offered with a different title)

SOCI3781 (3.00 CR)
PROGRAM EVALUATION

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course provides a conceptual and practical introduction to the orientation, values, methods, and professional standards of program evaluation as an applied technique to evaluate the design, implementation, effectiveness, and impact of social programs in both the for-profit and not-for-profit sectors. It involves the systematic collection and analysis of data using research methods, including but not limited to needs assessments, cost/benefit analysis, and interviews. It introduces students to program evaluation theory, principles, and technique and involves the design and execution of a case-based program evaluation. (Format: Lecture 3 Hours)

SOCI3791 (3.00 CR)
INTRODUCTION TO RESTORATIVE JUSTICE: THEORY AND PRACTICE

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This foundational course introduces an alternative approach to addressing crime that differs from the traditional punitive approach of the legal system. The course explores the foundational principles, values, and goals of restorative justice as compared to other theories of justice, and discusses several restorative process models. The course explores restorative practices, including the role of victims, offenders, and community; various forms of conferencing; and the effectiveness of taking a restorative approach. The course also offers an opportunity to analyze contexts beyond the criminal justice system in a variety of sociological settings including, but not limited to social services, nonprofits, and schools. The course explores how restorative justice practice represents a move from one of social control to one of social engagement, in terms of the response to crime. Further, the course considers Canadian approaches to restorative justice as compared to other global contexts in implementing reforms to the justice system based on diversionary approaches and strategies. Finally, the course reviews evidence of the cost-effectiveness of restorative approaches and the effectiveness at reducing recidivism. (Format: Lecture, 3 Hours) (Exclusion: Any version of SOCI 3791 previously offered with a different title)

SOCI3801 (3.00 CR)
ENVIRONMENTAL SOCIOLOGY

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course is an introduction to environmental sociology and explores the interaction between the environment and human society. Using sociological perspective, the course explores how the technologies, consumption and production patterns, population trends, status systems, racialization, class, religion and culture, among others, affect the emergence of, and reactions to, environmental problems. This course investigates how the risks and harms of environmental problems are distributed across societies to understand the relationship between social systems and environmental inequalities. This course will also explore and introduce post materialism, global environmentalism, anti-reflexivity and political polarization. Instances of global injustice, environmental racism, regulatory practices and risk, the social creation of nature, as well as ecopopularism, will also be investigated. (Format: Lecture, 3 Hours)

SOCI3811 (3.00 CR)
DIGITAL SOCIOLOGY

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

Digital innovations and the internet are ubiquitous within and beyond our borders. Digital technologies (Facebook, Twitter, smart phones, etc.) have become normalized and are an integral part of many people's everyday lives. This course has four primary objectives: 1) to discuss the relevance of studying the intersection of the digital and social 2) to become familiar with different theoretical approaches to examining the effects of the internet and digital environments on society 3) to learn about contemporary uses of the internet and digital environments and 4) to learn how diverse groups experience the digital world. Topics covered in this course include, but are not limited to the following: security, surveillance and privacy, cyberbullying, uses of digital innovations and gratification, labour and the internet, the digital divide, bias in big data, social capital, isolation and the internet, the body in cyberspace and transhumanism, concepts of the self, including the cyborg and the posthuman, and social relationships and the web including intimacies and dating. The aim is to not only have a thorough understanding of the theories of the internet and digital environments, but also of the methodological challenges inherent in studies of the sociodigital. (Format: Integrated Lecture and Laboratory, 3 Hours)

SOCI3901 (3.00 CR)
INDIGENOUS RESEARCH ETHICS

Prereq: 6 credits from CANA 1001, 1011, INDG 1001; 3 credits from CANA or INDG at the 2/3000 level; or permission of the Program Director

This course examines how Indigenous research ethics and protocols ensure the appropriate use and protection of Indigenous knowledge systems. Students will develop the skills necessary to engage ethically with Indigenous communities by exploring how histories of Indigenous research shape ethical conduct and protocols within local communities and academic environments. The application of OCAP principles in Indigenous research will also be addressed. [Note 1: This course is cross-listed with INDG 3901 and may therefore count as three credits in either discipline.] (Format: Seminar 3 hours)

SOCI3991 (3.00 CR)
SPECIAL TOPIC IN SOCIOLOGY

Prereq: 6 credits from SOCI at the 2000 level; or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for SOCI 3991 more than once, provided the subject matter differs.] (Format: Variable)

SOCI4011 (3.00 CR)
SOCIOLOGY OF KNOWLEDGE

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course focuses on the relationship between ideas and their social and cultural contexts. It critically examines various forms of knowledge, including common sense, scientific knowledge, and propaganda. In addition, the course explores forms and tactics of hegemonic and counter hegemonic knowledge. (Format: Seminar 3 Hours)

SOCI4111 (3.00 CR)
REPRESENTATIONS OF SOCIAL PROBLEMS

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course explores contemporary social problems through the lenses of social institutions, inequality, socioeconomic status, racialization, political and economic structures, and social policy. Relying on representations depicted in television, film, music, and literature, this course analyzes causes of major problems including drug use, crime, poverty, family, youth, education, discrimination, and urban problems. (Seminar 3 Hours)

SOCI4201 (3.00 CR)
SOCIOLOGY OF HUMAN SERVICES

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course brings a critical and theoretical focus to the 'helping professions'. Drawing from contemporary social theory on institutions, power, and subjectivity, it investigates the landscape of non-governmental, governmental, and private charitable organizations within the human services. It also explores the tensions between non-governmental organizations and democracy in contemporary society and examines notions of power, welfare, and 'help' in the context of class, race, gender, medical status, and education in Canada. (Format: Seminar 3 hours)

SOCI4211 (3.00 CR)
CRITICAL CRIMINOLOGY

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course investigates contemporary concepts in critical criminology through examination of texts drawn from postmodern sociological theory, critical prison studies, cultural criminology, and the sociology of law. It examines the social constructions of deviance and crime and resulting practices of punishment, detention, policing, and control, and also considers the role of race, class, gender, age, and citizenship status as factors that result in a diversity of experiences with law, freedom, violence, and punishment. (Format: Seminar 3 hours)

SOCI4311 (3.00 CR)
COMMUNITY-BASED PARTICIPATORY RESEARCH METHODS

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course examines the emerging field of Community-Based Participatory Research (CBPR) and its applications through arts-based research initiatives. This course focuses on CBPR literature that highlights the benefits of active collaborations between communities and researchers and recognizes and values the contributions of community collaborators. (Format: Seminar 3 Hours)

SOCI4401 (3.00 CR)
ADVANCED TOPICS IN SOCIOLOGICAL METHODS: HISTORICAL RESEARCH

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course introduces students to the methodological tools used to conduct historical sociological research. A variety of research methodologies, from archival studies to oral history interviews are utilized to explore the historical roots and contemporary implications of sociological case studies. The course explores documentary evidence of systems of inequality that are constructed through institutional policies, exclusionary ideologies, and interactional practices. (Format: Seminar 3 Hours)

SOCI4501 (3.00 CR)
POLITICAL SOCIOLOGY

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course examines the sociological practices that lead to political authority, structures of control, and relations of power that guide and influence social life. Starting from theoretical perspectives in political sociology, this course explores domestic and international examples of social and political practices that help sustain existing conditions while at the same time providing opportunities to transform society. Understanding agency and structure as elements of political action and participation, both in large group and communal settings and small-scale and individual actions, this course explores the multi-dimensional aspects of power and control in our society. (Format: Seminar 3 Hours) (Exclusion: SOCI 3501)

SOCI4511 (3.00 CR)
SOCIAL MOVEMENTS

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course examines movements that seek change in the social and political structure of society. It surveys the major principles and perspectives used by sociologists to explain social movements and revolutions. It examines the origins, strategies, recruitment, consequences, decline, and renewal of various social movements and revolutions. (Format: Seminar 3 Hours)

SOCI4541 (3.00 CR)
ADVANCED TOPICS IN EDUCATION

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course explores advanced issues in education as they relate to social problems. Exploring the reproductive and structural aspects of knowledge creation, this course moves toward an understanding of the contradictory elements of public education as it pertains to a post-industrial world fraught with inequalities. The course explores issues of schooling as it relates to work in institutions that are both preparatory for the workplace and places of work for teachers, administrators, and others. Lastly, this course uncovers opportunities for educational reforms that can contribute potentially to a more just society. (Format: Seminar 3 Hours)

SOCI4551 (3.00 CR)
REFUGEE STUDIES

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course explores selected topics of the contemporary global refugee crisis and the role of Canada and international agencies in humanitarian assistance, resettlement, and return. The course addresses sociological analyses of the relationship between emergency responses and sustainable solutions to internal displacement and refugee flight. It considers, with respect to national and international refugee policies, socially significant differences among refugees according to gender, age, ethnicity, social class, country, and region of origin. (Format: Seminar 3 Hours)

SOCI4561 (3.00 CR)
GLOBALIZATION AND HUMAN RIGHTS

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course examines selected topics of contemporary globalization in relation to transnational processes and forms. It analyzes transnational forms and practices of migration, migrant organization, community, identity, and belonging in relation to contemporary globalization. Particular attention will be paid to human rights in relation to security, migration, settlement, race, gender, age, legal status, and other bases of social inequality. The course considers implications of interrelated global flows of people, culture, goods, and capital for social relations, social structure, and social change. (Format: Seminar 3 Hours)

SOCI4601 (3.00 CR)
SOCIOLOGY OF THE BODY

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course provides an introduction to recent sociological thinking about the body in social, cultural, and historical contexts. Topics include a consideration of bodies as objects of discipline, as gendered and classed constructions, and as means of expression regarding race and sexuality. It examines the body as a set of experiences and institutions while paying particular attention to that which is perceived to be 'natural' and 'normal', the assumptions underlying social understandings of bodies, and the implications of those assumptions for social change. (Format: Seminar 3 Hours) (Exclusion: SOCI 4991 Sociology of the Body)

SOCI4701 (3.00 CR)
SOCIOLOGY OF POWER AND INEQUALITY

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course uses sociological analyses of power to understand issues of bullying, harassment, shaming, violence, abuse of authority, and consent in various social institutions including workplaces, police and military, schools and universities, and online communities. It explores sociological approaches to addressing these issues, such as conflict resolution and restorative justice perspectives. (Format: Seminar 3 Hours).

SOCI4721 (3.00 CR)
CONSTRUCTING EQUITY

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course offers an in-depth sociological examination of Equity, Diversity, and Inclusion (EDI) policy formulation and implementation. Utilizing intersectional frameworks and critical race theory, the course interrogates systemic sources of inequity to inform actionable policy interventions. The course emphasizes stakeholder engagement strategies in order to develop culturally-responsive and equitable solutions. The course delves into best practices for equity construction and explores the complexities of power dynamics and privilege. The course aims to equip future policymakers with the necessary skills to advance social justice through innovative and meaningful EDI strategies. (Format: Seminar 3 Hours)

SOCI4801 (3.00 CR)
ADVANCED TOPICS IN SOCIOLOGY OF THE LIFE COURSE

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course explores the shared and varied understandings that members of Western industrialized societies have about the changes that occur between birth and death, and about the social roles and activities that are expected to occur during different times of life. It explores the ways in which individuals organize their lives, and have their lives organized in ways that are consistent with these ideas, as well as exploring changing ideas about life course development. (Format: Seminar 3 Hours).

SOCI4811 (3.00 CR)
ADVANCED TOPICS IN THE SOCIOLOGY OF MENTAL HEALTH

Prereq: 6 credits from SOCI 3001, 3011, 3301, 3311; or permission of the Department

This course provides a critical overview of the problems of mental health and illness from a sociological perspective. Topics include: the theoretical foundations of the sociology of mental health, the social conditions that influence mental well-being, the experiences and social meanings of mental illness and its treatment, institutionalization and deinstitutionalization, and the social construction of mental disorders. (Format: Seminar 3 Hours). (Exclusion: SOCI 4991 Mental Health)

SOCI4901 (3.00 CR)
ISSUES IN SOCIOLOGY

UNST 1999

VISUAL AND MATERIAL CULTURE

The Minor in Visual Communication and Culture offers cross-cultural and interdisciplinary programming that encourages students to develop a comparative perspective on visual expression, communication, and culture. It is designed to complement degrees in Art History, Canadian Studies, Classical Studies, Commerce, Drama, Fine Arts, French Studies, Geography, German Studies, Hispanic Studies, History, International Relations, Music, Psychology, and Religious Studies.

The Minor in Visual Communication and Culture fosters critical engagement with the art world, consumer practice, the creative industries, the digital realm, politics, and popular culture. It will be an asset not only to students who wish to continue their studies at the graduate level but also those who seek post-graduation employment in the following fields: the arts, culture, and creative industries; communications and media relations; government and not-for-profit leadership; heritage and conservation; journalism and publishing; tourism; and marketing and advertising. Being able to proficiently decode and interpret various types of images produced in different cultural contexts and for a range of purposes, to appreciate them not only in their aesthetic appeal but also as carriers of meaning and persuasive devices will give students a clear advantage in their post-graduation endeavours. This training is relevant in that it will also enable students to develop a thorough understanding of the functioning mechanisms of social media, to better navigate digital domains, and to acquire skills transferable to the workplace.

Core courses are designed to provide theoretical and contextual knowledge of visual culture. One of the second-year core components, CANA 2201 Experience the Arts, provides students with an opportunity to practice their visual analysis skills while critically engaging with on campus performances, exhibitions, and cultural repositories. To encourage students to sample different approaches to visual expression, communication, and culture, complementary courses are classified under seven streams: 1) Art Historical, Visual, and Cultural Contexts; 2) Visuality in the Performing Arts; 3) Media and Popular Culture Studies; 4) Archeological and Classical Contexts; 5) Indigenous Perspectives; 6) The Arts, Culture, and Creative Industries; and 7) Images and Visual Representation in Cultural and Geographic Settings.

VMCS1201 (3.00 CR)
INTRODUCTION TO VISUAL CULTURE: THE POWER OF IMAGES AND VIEWERS

This course provides a cross-cultural and interdisciplinary introduction to visual culture from ancient civilizations to our contemporary global world. It presents key terms, concepts, and issues that are central to the study of images, visuality, practices of looking, as well as visual media, technology, and culture. It deconstructs the mechanism and impact of visual communication by illuminating how images exert power in specific geographic and cultural contexts, manufacture desire in viewers and consumers, and construct meaning and experience through time. Lectures target the acquisition of visual literacy and the understanding of visual culture around the world. (Format: Lecture 3 hours)

VMCS1301 (3.00 CR)
INTRODUCTION TO MATERIAL CULTURE: KNOWLEDGE AND ITS TEXTURES

This course provides a cross-cultural and interdisciplinary introduction to material culture from ancient civilizations to our contemporary global world. It presents key terms, concepts, and issues that are central to the study of materiality, including maker and creation practices, modes of objectification and commodification, and material ways of knowing often set aside by textually-expressed knowledge. By decentring the text and focusing on the material world, this course will allow a better understanding of otherwise overlooked knowledge and experiences. This course offers a range of approaches to material culture drawing from anthropology, archeology, art history, archival and curatorial studies, the history of the book, ethno-history, Indigenous studies, marketing, museology, race studies, sound studies, and feminist and gender studies. (Format: Lecture 3 hours)

VMCS1801 (3.00 CR)
PARIS IN A CULTURAL CONTEXT

This course introduces elements that define the essence of Paris through a series of historical and cultural snapshots. Using multimedia presentations of the Parisian cultural landscape and a broadly interdisciplinary perspective, lectures explore the development of a vibrant and unique urban centre that has always been a magnet for creative minds and cultural fervour. Films, songs, documentaries, maps, paintings, posters, and photographs are among the types of visual documents used to investigate what is perceived as the singularity, timelessness, and seductive appeal of Paris (Format: Lecture 3 Hours) (Exclusion: FREN 1801; Any version of VMCS 1801 previously offered with a different title)

VMCS1821 (3.00 CR)
SPAIN: A MOSAIC OF CULTURES

This course introduces the history and culture (visual, material, media, popular, etc.) of Spain. It focuses on a number of specific eras that were important to the evolution of Spanish identity: the Muslim world, the conquest of America and the Golden Age, the 1898 war, the Spanish Civil War, and the contemporary period. It demonstrates how historical events that occurred in Spain continue to have international repercussions and affect us as a global society today. It explores the culture of Spain across centuries using various resources including film, literature, visual and material objects, popular culture, and music. (Format: Lecture 3 Hours) (Exclusion: SPAN 1801; SPAN 1821)

VMCS1991 (3.00 CR)
SPECIAL TOPIC IN VISUAL AND MATERIAL CULTURES

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: Prerequisite set by Department/Program when the topic and level are announced. Note 2: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 3: Students may register for VMCS 1991 more than once, provided the subject matter differs.] (Format: Variable)

VMCS2101 (3.00 CR)
RESEARCH METHODS INTENSIVE: VISUAL AND MATERIAL CULTURE STUDIES

Prereq: 3 credits from VMCS 1201, 1301; or permission of the Department

This course provides an opportunity for students to strengthen and diversify their research skills as applied to visual and material cultures through exploration of key terminology, methodological approaches, and ethical considerations. It introduces various procedures for collecting visual and material data from institutional collections (archives, libraries, and museums), researcher-created databases, photo-sharing websites, everyday life, and social media. By combining research and experiential activities, students are exposed to interdisciplinary and cross-cultural forms of critical thinking about and creative engagement with visual and material cultures, both historical and contemporary. Objects under consideration may include fashion magazines, film adaptations, manga, photographs, TV series, video games, visual poetry, and vlogs. (Format: Integrated Lecture/Laboratory 3 hours)

VMCS2111 (3.00 CR)
MAPS AND EMPIRE: UNCOVERING THE INSTRUMENTS OF IMPERIAL AMBITION

This course is an introduction to cartography, which examines not only the visualization of space but also the creation of tools that can powerfully define and delineate space in Political, social, and cultural ways, and in the process give rise to borders and exclude or include people, things, and resources in life-changing ways. It digests several thousand years of mapping in the western and non-western worlds to teach students how maps work and what types of knowledge they express. Students will be exposed to the uses and implications of mapping as an instrument that furthers the ambitions of monarchs, leaders, and even academics. Students will also be exposed to non-western ways of articulating space and reflect on how the digital realm is urgently requiring our society to assess the ways that maps control how we know the world around us. (Format: Integrated Lecture/Laboratory 3 hours)

VMCS2121 (3.00 CR)
FOOD MATTERS: CULTURAL INGREDIENTS IN A CRITICAL CONTEXT

This course examines food as a form of material culture that not only makes our existence possible but also enlivens it. Its textures, smells, sounds, and tastes graft experiences upon memories that comfort or haunt us at all stages of our lives. Students will explore the cultural significance of common ingredients, reflect on how they project identity and ideology, and deconstruct the representation of food, the kitchen, and cooking in visual culture. They will engage critically with cultural materialism, food history, visual and material culture studies, and applied learning. (Format: Integrated Lecture/Laboratory 3 hours)

VMCS2131 (3.00 CR)
DEATH AND CULTURE: THE MATERIAL OBJECTS OF DYING

This course explores diverse cultural understandings of a 'good death' and the practice of 'dying well.' Through the hands-on analysis of material culture from various societies, students will examine how different cultures approach mortality, death rituals, and commemorative practices across time and space. The course offers an opportunity to gain a deeper insight into how societies shape their experiences of death, honour the deceased, and navigate the final stages of life. (Format: Integrated Lecture/Laboratory 3 hours)

VMCS2301 (3.00 CR)
HOMO FABER: WE ARE MAKERS INSTRUMENTS OF IMPERIAL AMBITION

Prereq: 3 credits from VMCS 1301, FGST 1001; or permission of the Department

This course employs the concept of "Homo Faber" (Wo/Man the Maker) cross-culturally and through time to explore how the development of technologies such as containers, clothing, and shelters has shaped human societies and the relations between them. This course explores reflective and critical perspectives about the social, political, economic, environmental, gendered, and racialized impacts of textile technologies, both historical and contemporary. (Format: Variable 3 Hours)

VMCS2401 (3.00 CR)
BRIDGING CULTURAL DIFFERENCES: INTRODUCTION TO INTERCULTURAL COMMUNICATION

This course adopts an approach grounded in cultural studies to introduce students to key theories, concepts, and issues in intercultural communication, which is defined as the transmission and reception of verbal and non-verbal messages across languages and cultures. It sheds light on how cultural differences and variables impact communication, reveals the common barriers to intercultural exchange, and reflects on identity and otherness, cultural filters and templates, and the relationship between culture, media, and language. Examples are drawn from textual, visual, and material cultures of the past, as well as contemporary mass media contexts. By playing the role of cultural mediators, students will learn how to deconstruct cultural templates and frames of reference, analyze past and present intercultural encounters and conflict, and interpret standards and values as embedded in various contexts of expression (pictures, advertisements, texts, films, etc.) (Format: Lecture/Tutorial 3 hours) (Exclusion: VMCS 2991 Intercultural Communication)

VMCS2501 (3.00 CR)
INTRODUCTION TO ARCHAEOLOGY

This course introduces the methods, basic techniques, and theory of archaeology and excavation. It uses examples of both past and present archaeological research done in the Old and New Worlds to illustrate the topics under discussion. [Note 1: This course is cross-listed with CLAS 2501 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

VMCS2521 (3.00 CR)
THE ARCHAEOLOGY OF DAILY LIFE IN THE GREEK AND ROMAN WORLD

An examination of the evidence used by archaeologists to recreate the social history of ancient Greece and Rome. The course will consider how archaeology can shed light on such topics as the lives of men, women, and children; the home; government; the economy; the army; and entertainment. [Note 1: This course is cross-listed with CLAS 2521 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

VMCS2531 (3.00 CR)
THE ARCHAEOLOGY OF RELIGION IN THE GREEK AND ROMAN WORLD

An examination of the evidence used by archaeologists to recreate the religions of the ancient Greeks and Romans. The course will consider how archaeology reveals ancient views and practices involved in the worship of the Olympian Gods; the religions of Egypt and the Near East; Royal and Emperor cults; Mithraism and mystery cults; Judaism; and early Christianity. [Note 1: This course is cross-listed with CLAS 2531 and may therefore count as three credits in either discipline.](Format: Lecture 3 Hours)

VMCS2801 (3.00 CR)
INTRODUCTION TO ANIME AS A VISUAL MEDIUM AND GLOBAL CULTURAL PRODUCT

This course presents a critical approach to anime as a visual medium, an industry, and a global cultural product. It focuses in particular on its distinct modes of representation for developing characters and visual storytelling, designing sets, reflecting socio-cultural reality, and captivating the viewer's imagination. Topics are selected from the following: the history of anime; the subgenres of anime; issues of identity, gender, and sexuality; anime as a creative arts industry with commercial objectives; anime and adaptation (manga, toys, etc.); the transcultural fandom of anime; anime as a global cultural product and international phenomenon (fan conventions, cosplay, the Pokémon franchise, Otaku culture, etc.); and the marketing of anime in the West (Studio Ghibli, Netflix, etc.). The course involves a critical understanding of anime as form and product, but it does not include instruction in the creation of anime or manga. (Format: Integrated Lecture/Laboratory 3 hours) (Exclusion: VMCS 2991 Introduction to Anime)

VMCS2991 (3.00 CR)
SPECIAL TOPIC IN VISUAL AND MATERIAL CULTURES

Prereq: 3 credits from VMCS 1201, 1301; or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for VMCS 2991 more than once, provided the subject matter differs.] (Format: Variable)

VMCS3101 (3.00 CR)
THE COLONISING WORD: TEXTUAL CULTURE AND THE PERSISTENCE OF COLONIALISM

Prereq: Second-year standing; or permission of the department

By problematizing textual culture, this course exposes the ways that our architecture of knowledge continues to support white, primarily male supremacy through its valuation of textuality as a legitimate vehicle of truth and knowledge. In addition to exploring the origins of textual culture as well as its relationship with oral ways of knowing, this course interrogates non-western textual and oral knowledge. It seeks, moreover, to contrast the ways that non-western oral knowledge is valued differently than western verbal knowledge. Students will also be exposed to ways of knowing that do not rely upon textuality, with a focus on visual and material culture. By embracing non-textual knowledge, students will discover ways of knowing as expressed, created, and used by women, Indigenous groups, and people of colour more broadly. (Format: Integrated Lecture/Laboratory 3 hours)

VMCS3111 (3.00 CR)
TRAVEL AND TOURISM

Prereq: 3 credits from VMCS 1201, 1301; or second-year standing; or permission of the Department

This course examines the ways in which visual and material cultures shape and are shaped by travel and tourism. Topics will include the history of tourism and travel, the role of visual and material culture in creating and sustaining tourist destinations, the impact of tourism on local communities and their material culture, and the ways in which travelers themselves create and consume images and objects associated with travel and tourism. Examples will be drawn from a range of cultures and global tourist destinations. (Format: Integrated lecture and laboratory, 3 Hours)

VMCS3121 (3.00 CR)
FOOD ON SCREEN: THE CULINARY ARTS IN GLOBAL FOOD MEDIA

Prereq: Second-year standing; or permission of the Department

This course provides an interdisciplinary overview of different sectors of the mass and social media food industry through a global lens. It engages with topics such as recipe and cookbook development, baking competitions, dietary advice websites, food styling and photography, and communicating about and marketing food. It also explores digital identity creation of individuals and communities through foodie culture, family culinary traditions, and regional or national cuisine. With a focus on the global food system, cultural attitudes to cooking and eating, creative approaches to food preparation, policies regulating production, import, and sustainability, it positions people across the world as active consumers of and participants in an industry that has an increasingly impactful presence on screen - through social media, TV and streaming platforms, digital photography, recipe and chef-powered websites, restaurant reviews, etc. The course provides an introduction to blogging and vlogging about food and culture, with a focus on different means of expression, communication, and creative visions to articulate views regarding taste and flavour, consumption practices, and sustainability in relation to foodstuff. (Format: Integrated Lecture/Tutorial)

VMCS3131 (3.00 CR)
HAPPINESS AND CULTURE: THE MATERIAL CULTURE OF PLEASURE AND EXHILARATION

Prereq: 3 credits from VMCS 1201, 1301; or permission of the Department

This course considers how diverse objects shape the ways humans think about and pursue happiness. Taking an interdisciplinary, cross-cultural approach, the course is built around the exploration of a range of material culture including personal objects (e.g. children's toys and board games), consumables (e.g. chocolate bars and soda pop), and landscapes and other built environments (e.g. karesansui dry gardens). Through active, hands-on, and collaborative learning with objects, the course aims to support students both in understanding how perceptions and pursuits of happiness vary across time and place and in appreciating the ways object-based approach can enrich our understandings and experiences of happiness. (Format: Integrated Lecture/Tutorial) (Exclusion: VMCS 3991 Happiness and Culture)

VMCS3201 (3.00 CR)
THE INNOVATIVE GAZE: SNAPSHOTS OF VISUAL CULTURE IN THE CITY

Prereq: 3 credits from VMCS 1201, 1301; or permission of the Department

This course examines the multifarious relationship between the city and visual culture through the prism of creativity, innovation, and design. Using cultural snapshots of a selection of cities at defining moments in their history, it sheds light on the impact of images and visual expression on urban spaces and the communities inhabiting them. It focuses on culturally important and globally significant cities that foster innovation and embody a unique creative vision in their visual language, in order to reflect on how metropolitan culture and visuality in the public sphere display artistic principles, ideological preoccupations, societal values, and political views through architecture, fashion, food, open-air sculpture, street art, and interior and urban design. It considers the representation of cities in advertising, digital media, illustration, film, music videos, painting, photography, and other visual media. (Format: Integrated Lecture/Laboratory 3 hours)

VMCS3211 (3.00 CR)
GLOBAL MEGAHITS: STREAMING, ADAPTATION, AND POPULAR CULTURE

Prereq: Second-year standing; or permission of the Department

This course focuses on the internationally streamable series as a visual form, an adapted product, and a powerful means of communication about national cultures and geographic contexts. It provides instruction in formal and contextual analysis of the streamable series and its role in popular culture and as product thereof. Examples of series produced to cater to the diverse tastes of international audiences are drawn from dynamic non-Hollywood centres of production such as Egypt, India ("Bollywood"), Mexico, Nigeria ("Nollywood"), South Korea, Spain, Sweden, Turkey, and the United Kingdom. Topics include: the codes and conventions of this globalised cultural form; the streamable product as an international event (fan audiences, global marketing, social media engagement, etc.); the role of images in shaping popular culture; visual and material culture in transnational contexts; and the digital media's role in movements for social, cultural, and political change. (Format: Integrated Lecture/Laboratory 3 hours)

VMCS3241 (3.00 CR)
FIELD COURSE IN VISUAL CULTURE CULTURE IN THE CITY

This course offers an immersive opportunity to experience and examine visual culture in a real, non-simulated context though a first-hand encounter with images and visual representation. Fieldwork is designed to facilitate the direct application of key terms, concepts, and issues in visual culture to the analysis of images, practices of looking, and media of communication. Visits to sites of significance in visual culture (archives, castles, churches, libraries, monuments, museums, palaces, etc.), interactions with local image producers, and interest-guided exploration will illuminate how images communicate meaning, exert power in a specific geographic and cultural context, inspire desire in the viewer, and travel across borders. [Note: Enrollment is limited and students should be aware of the additional costs of travel and participation fees.] (Format: Field Study)

VMCS3301 (3.00 CR)
CRITICAL MAKING

Prereq: Second-year standing; VMCS 1301; or permission of the Department

This course guides participants to interrogate the concept and practices of critical making (in and out of the classroom) while exploring how "making" can be a practice that strengthens and/or contests social norms and systems. The concepts of gender, race, and power are integrated throughout the course in lectures and assignments. Drawing our attention to makers' agency, the course covers historical and contemporary topics in critical making that may include the Arts and Crafts and Craftsman movements, craft in feminist protests, "making" in ritual contexts, and cultural appropriation and technology. (Format: Integrated Lecture/Laboratory 3 hours)

VMCS3311 (3.00 CR)
FASHION-OLOGY: THE MATERIAL CULTURE OF CLOTHING

Prereq: Second-year standing; 3 credits from VMCS 1301, FGST 1001; or permission of the Department

This course focusses on clothing which is one of the largest and most rapidly expanding sectors of the global economy measured in terms of employment, sales, and pollution. It examines the social systems, body practices, and power configurations that underlie historical and contemporary clothing practices both cross-culturally and locally, focusing on Canada's fashion industry and dress practices. Topics include non-western and non-capitalist clothing practices; gender (male, female, and LGBTQ+) identities in fashion; the ready-made clothing manufacturing and retail industries; environmental impacts of the clothing industry; and labour practices. (Format: Variable 3 Hours)

VMCS3501 (3.00 CR)
ARCHAEOLOGICAL FIELD COURSE

This course involves participation in an archaeological field project, through which students gain experience in archaeological methods such as site survey, supervised excavation, recording and interpretation of evidence, and the processing of finds. The field location varies according to the project. [Note 1: Permission of the Department is required. Note 2: This course is only available to students during the Spring/Summer term. Enrollment is limited and students should be aware of the additional costs of travel and participation fees. Note 3: This course is cross-listed with CLAS 3501 and may therefore count as three credits in either discipline.] (Format: Field Course)

VMCS3511 (3.00 CR)
LABORATORY METHODS IN CLASSICAL ARCHAEOLOGY

Coreq: CLAS 3501

This course introduces students to the laboratory methods used by Classical archaeologists in the study of materials recovered from Greek and Roman sites. The field location and nature of the remains studied vary according to the project. [Note 1: Permission of the Department is required. Note 2: This course is only available to students during the Spring/Summer term. Enrollment is limited and students should be aware of the additional costs of travel and participation fees. Note 3: This course is cross-listed with CLAS 3511 and may therefore count as three credits in either discipline.] (Format: Field Course)

VMCS3621 (3.00 CR)
THE ARCHAEOLOGY OF GREEK COLONIZATION OF SOUTHERN ITALY

Prereq: Second-year standing; 3 credits from CLAS, ARTH (or FINH), HIST at the 1/2000 level; or permission of the Department

This course surveys the art and archaeology of Magna Graecia and Sicily, the areas of Southern Italy colonized by the Greeks between the 8th and 3rd centuries BC. The course begins with an overview of the Italian cultures living in Southern Italy and Sicily during the Late Bronze Age and the Iron Age, and their interaction with contemporary Greek cultures (e.g., Mycenaeans). Most of the course focuses upon the period between the mid-8th century (when Greek colonization started) and the late 3rd century BC (when Rome colonized or otherwise dominated the region). It examines urban planning, architecture (private and public), sculpture, painting, and minor arts. It uses a broad contextual approach, locating archaeological evidence within its historical, political, economic, and cultural context, and pays special attention to concepts such as colonization, cultural interaction, and acculturation, as well as to the differences and similarities between Greek and Roman colonization, and between ancient Greek and modern colonization. [Note 1: This course may count as 3 credits in Art History. Note 2: This course is cross-listed with CLAS 3621 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusion: 17/WI CLAS 3991 The Greeks in Southern Italy)

VMCS3631 (3.00 CR)
GREEK ART AND ARCHAEOLOGY

Prereq: Second-year standing; 3 credits from CLAS, ARTH (or FINH), HIST at the 1/2000 level; or permission of the Department

This course introduces the art of the ancient Greek world - urban planning, architecture (private and public), sculpture, painting, minor arts - from the Bronze Age to the Hellenistic period. It engages the analyzed monuments and artifacts within the political, economic, religious, intellectual, and social context in which they were created. It uses this contextual approach as a framework for a more comprehensive understanding of art and artistic movements in their diachronic development. It considers other themes such as the way we experience ancient Greek culture today, and questions about archaeological investigative practice, the antiquities trade, and cultural heritage. [Note 1: This course may count as 3 credits in Art History. Note 2: This course is cross-listed with CLAS 3631 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusions: CLAS 3601; CLAS 3611)

VMCS3721 (3.00 CR)
ART AND ARCHAEOLOGY OF POMPEII

Prereq: Second-year standing; 3 credits from CLAS, ARTH (or FINH), HIST at the 1/2000 level; or permission of the Department

This course closely examines the archaeological remains from the city of Pompeii in the Bay of Naples: its road system, sewers, public markets, cult places, burial monuments, brothels, bathhouses, political buildings, and houses and residential areas. It pays special attention to the occupation phases of the city before the foundation of the Roman colony in 80 BC, and the impact that the Roman conquest of Pompeii had on its architectural and artistic forms. It also explores the 'hidden history' of Pompeii as a means to raise awareness about the role of material culture in giving voice to cultures and communities that have not left written sources to us. [Note 1: This course may count as 3 credits in Art History. Note 2: This course is cross-listed with CLAS 3721 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours)

VMCS3731 (3.00 CR)
ROMAN ART AND ARCHAEOLOGY

Prereq: Second-year standing; 3 credits from CLAS, ARTH (or FINH), HIST at the 1/2000 level; or permission of the Department

This course introduces the artistic, architectural, and archaeological monuments of the Roman world from the eighth century BC to the fifth century AD. It traces Roman art and architecture from its early origins under Etruscan influence through to the periods of the Roman Republic and Principate. It engages monuments and artifacts within their political, economic, religious, intellectual, and social context. This approach provides a framework for a more comprehensive understanding of art and artistic movements in their diachronic development. [Note 1: This course may count as 3 credits in Art History. Note 2: This course is cross-listed with CLAS 3731 and may therefore count as three credits in either discipline.] (Format: Lecture 3 Hours) (Exclusions: CLAS 3701, CLAS 3711)

VMCS3991 (3.00 CR)
SPECIAL TOPIC IN VISUAL AND MATERIAL CULTURES

Prereq: 3 credits from VMCS 1201, 1301; or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for VMCS 3991 more than once, provided the subject matter differs.] (Format: Variable)

VMCS4101 (3.00 CR)
CREATIVITY IN ACTION: THE MECHANICS OF CREATIVE PROJECT DESIGN

Prereq: Second-year standing; or permission of the Department

This course offers students the unique opportunity to develop their own creative projects through various guided stages, ranging from the initial brainstorming and thinking outside the box, to planning, to completion and dissemination. The course is focused on fostering creativity and interest in culture, and aims to support creativity in all its forms (activation, experimentation, discovery, innovation, entrepreneurship, etc.). Project topics must be connected to visual communication and culture, food culture, material culture, social media, and/or intercultural communication. Creative projects can involve design, communication, photography, performance, film, and other means of expression using print, digital, visual, material, or social media. The course targets the acquisition of valuable skills (soft or hard) that are transferable to real-life scenarios: project scoping and road-mapping; writing a project brief; determining goals and deliverables, along with potential barriers, boosters, and risks; time management; effective and engaging communication (verbal/visual); organisation, problem solving, and critical thinking. (Format: Integrated Lecture/Tutorial) (Exclusion: VMCS 4991 Creativity in Action)

VMCS4301 (3.00 CR)
DESTRUCTION

Prereq: Third-year standing; VMCS 1301; or permission of the Department

This course examines how thinking about destruction helps us to understand our complicated relationship with material objects, what practices and meanings are associated with the destruction of material objects in different cultures, and how we respond to destruction in writing and other forms of representation.?In this course, destruction will offer us a lens through which to consider themes of empire, economy, environment, memory, gender, and race. Topics include destruction in western and non-western religions, destruction in conflict and punishment, destruction in waste management, destruction as a market tool, and destruction in art and as art. (Format: Seminar 3 Hours)

VMCS4950 (6.00 CR)
INDEPENDENT STUDY IN VISUAL AND/OR MATERIAL CULTURE

This course permits senior students, under the direction of faculty members, to pursue their interest in areas not covered, or not covered in depth, by other courses through a program of independent study. [Note 1: Permission of the Department/Program Advisor. Students must obtain consent of an instructor who is willing to be a supervisor and must register for the course prior to the last day for change of registration in the term during which the course is being taken. Note 2: A program on Independent Study cannot duplicate subject matter covered through regular course offerings. Note 3: Students may register for VMCS 4950/51 more than once, provided the subject matter differs.] (Format: Independent Study)

HONOURS THESIS

The Honours thesis is based on independent research on visual and/or material cultures under the direction of a faculty member of the Visual and Material Culture Studies Program. The subject must be approved by the Program Advisor. This course is open only to candidates for Honours in Visual and Material Culture Studies in their senior year. The candidate will receive guidance in research methods and thesis writing from the supervisor. [Note 1: Consent of supervising staff member prior to registration and permission of the Program Advisor are required.] (Format: Independent study/Thesis)

VMCS4991 (3.00 CR)
SPECIAL TOPIC IN VISUAL AND MATERIAL CULTURES

Prereq: 3 credits from VMCS 1201, 1301; or permission of the Department

This course either focuses on topics not covered by the current course offerings in a department or program or offers the opportunity to pilot a course that is being considered for inclusion in the regular program. [Note 1: When a Department or Program intends to offer a course under this designation, it must submit course information, normally at least three months in advance, to the Dean. Note 2: Students may register for VMCS 4991 more than once, provided the subject matter differs.] (Format: Variable)

VMCS4993 (3.00 CR)
CAPSTONE IN PPE

Prereq: 3 credits from VMCS 1201, 1301; or permission of the Department

This course is a full year capstone project for VMCS. (Format: Variable)

CERTIFICATE PROGRAMS

Certificate in Anti-Colonial Thought

Certificate Overview. This certificate is designed to provide students with an in-demand competency and accreditation beyond their majors and minors. The Certificate can be embedded in the degree of students enrolled in any program, who choose to pursue a coherent focus on anticolonialism and decolonization.

The Certificate in Anti-Colonial Thought is 18 credits earned as follows:

3 from DCOL 2001
6 from INDG 2901, 3201, 3301, 3901, 4801, INDG/CANA 3111, 3831, 4101, 4121, INDG/CANA/HIST 3821, 3841, MKMW 2001, 3001
9 from CANA 2501, CANA/HIST 2801, ENGL 2751, 3731, 3751, 3771, 3791, 4941, FGST 2301, 4301, HIST 2411, 3021, INDG/SPAN 2701, DCOL 4001

Note: Special topic and independent study courses from the following disciplines may also be approved by the Program Coordinator when a significant Anti-Colonial Studies component can be demonstrated: Canadian Studies, English, Feminist and Gender Studies, History, Indigenous Studies, Indigenous Language, and Spanish.

Certificate in Arts Administration

Certificate Overview. This certificate provides students the opportunity to develop valuable marketing and management skills linked directly to their experiences in Canadian culture and the Fine and Performing Arts. It is of particular use for any students considering careers in arts administration, cultural management, arts leadership, arts management, and arts entrepreneurship.

The Certificate in Arts Administration is 18 credits earned as follows:

6 from COMM 1011, 3271, 4301
9 from ARTH 1991*, 2991*, 3991*, 4991*, ARTH/MUSE 2111, CANA 1011, 1991*, 2201, 2121, 2211, 2991*, 3991*, 4991*, COMM 1991*, 2991*, 3991*, 4991*, DRAM 1701, 1991*, 2161, 2991*, 3161, 3991*, 4991*, INDG 2901, 3901, MUSE 1991*, 2991*, 3301, 3321, 3991*, 4991*, MUSC 1991*, 2991*, 3001, 3813, 3991*, 4991*, VMCS 1201, 1301, 1991*, 2101, 2401, 2991*, 3991*, 4991*
3 from EXPL 3001, 4001, ARTH 4951, CANA 4951, COMM 4951, DRAM 4951, FINA 4951, INDG 4951, MUSE 4951, MUSC 4951, VMCS 4951 (Topic must be approved by the Head of the Department or Program in question to count towards the Certificate, and the 4951 courses should include a practical component)

Note: *Special Topics courses must be approved by the Head of the Department or Program in question to count towards the Certificate.

Note: Students are responsible for ensuring they have the necessary prerequisites.

Certificate in Biopsychology

Certificate Overview. The courses that comprise the certificate provide students with foundational knowledge about the physiological basis for behaviour. The certificate is interdisciplinary in nature and students are required to take courses in both disciplines, although there is some flexibility that allows them to focus more heavily on either Biology or Psychology should they choose to do so.

The Certificate in Biopsychology is 18 credits earned as follows:

6 from BIOL 2811, PSYC 2101
12 from the following, with a minimum of 3 credits taken from each of BIOL and PSYC: BIOL 3211, 3401, 4311, PSYC 3101, 3141, 3211, 3611, 4101

Note: Other courses from Biology and Psychology may also be approved by either Department Head when they contain a significant Biopsychology component.

Note: Students who complete a Major or Honours in Biopsychology may not complete the Certificate in Biopsychology.

Certificate in Canadian Arts and Culture

Certificate Overview. The Certificate in Canadian Arts and Culture invites students to experience and analyze different kinds of creative production, including music, theatre, literature, and visual art, made in Canada. Drawing from diverse programs and departments, this suite of courses engages vital questions: what cultural creations emerge from this place? What do they teach us about identities, belonging, and creativity? How can we intervene in critical conversations about artistic expression in this country? The Certificates foundational courses introduce students to key Canadian symbols, myths, and cultural themes as well as concepts for assessing cultural experiences and products. From there, students deepen their understanding of particular forms (textual, visual, auditory, performance) by deciphering, analyzing, and critiquing a wide variety of Canadian creations.

The Certificate in Canadian Arts and Culture is 18 credits earned as follows:

6 from CANA 1011, 2201
12 from ARTH 3021, 3031, DRAM/ENGL 3841, ENGL 2801, 3821, 3831, FREN 1811, 3761, 3771, MUSC 3001

Note: Courses must be chosen from at least three different disciplines

Certificate in Community Engaged Learning

Certificate Overview. The Certificate in Community Engaged Learning has three core courses, which introduce ideas of community, the theory and practice of community engaged learning, and critical pedagogies. The intermediate level courses build on this knowledge and also allow students an opportunity to work in a sustained way with a community partner. The program incorporates a range of courses from around the University to allow students the chance to explore themes in community engaged learning. The Certificate combines both theoretical and applied learning by requiring a 3-credit practicum.

A Minor in Community Engaged Learning is also available (see Community Engaged Learning in Section 12 Programs and Courses of Instruction).

The Certificate in Community Engaged Learning is 18 credits earned as follows:

9 from CENL/RELG 1001, CENL 1201, 1401, 2001, 2101, 3101
6 from CANA 2201, 3231, 4201, GENV 1201, INDG 1001, 3991, 4991, PHIL 1651, 2701, PSYC 2301, 2431, 3801, 3521, 3751, 4311, RELG 2411, 3981, FGST 1001, 2101, 3101
3 from CENL/RELG 4001, CENL 4101, GENV 4521, SOCI 4311, 4971

Note: Students are responsible for ensuring that they have prerequisites for 2/3/4000 level courses in the elective streams

Certificates in Data Science

Certificate Overviews. Data Science is the emerging interdisciplinary study and application of how we capture, organize, archive, access, and use large-scale data. Data Science alters disciplinary and professional practices, enabling new conceptual approaches and categories of questions, while generating new challenges in ethics and privacy. These issues and opportunities now pervade many areas of human endeavour, from physics to health care to social policy.

To successfully engage with the scope and scale of data resources requires high throughput approaches, with new concepts and practices for effective management, distribution, and presentation of data. Our goal is to give students the concepts and tools to empower their ethical engagement with the emerging potentials and challenges of data, across disciplines and fields of enquiry.

The Certificate in Data Management covers the theory, ethics, and practice of managing and presenting large data resources. The certificate will empower students with tools to advance their disciplinary work, and to progress to graduate or professional practice.

The Certificate in Data Analytics covers conceptual approaches to analyses of large-scale data, which presents both challenges and opportunities.

The two certificates can be combined, along with advanced statistics, to form a Minor in Data Science (see Data Science in Section 12 Programs and Courses of Instruction). The certificates and minor are designed to engage and serve the interests of a wide range of students and in all cases emphasize interdisciplinary opportunities and challenges of data science, which supports and extends many disciplines and professional areas. Skills in data science are thus highly transferrable across many areas of practice.

The Certificate in Data Management is 12 credits earned as follows:

3 from MATH 1311
9 from DATA 3001, 3101, 4001

The Certificate in Data Analytics is 18 credits earned as follows:

6 from MATH 1311, 2221
3 from COMP 1631
3 from ECON 2701, BIOL 2701, MATH 2321, PSYC 2011, GENS 2431, PHYS 2801
6 from DATA 3001, 4001

Note: There are prerequisites for some 2000 level courses in this certificate. Students are responsible for ensuring that they have the necessary prerequisites. It is recommended that students meet with the program director early on to map out the certificate.

Certificate in Diversity, Equity, and Inclusion

Certificate Overview. The Department of Sociology, Diversity, Equity, and Inclusion Certificate provides students with the opportunity to develop valuable knowledge, methodologies, and applied skills about the important issue of building an inclusive society free from barriers to full participation and engagement. Students develop their cultural competence by exploring the wide range of human qualities and attributes within a group, organization, or society including dimensions of diversity such as ancestry, culture, ethnicity, gender, gender identity, language, physical and intellectual ability, race, religion, sex, sexuality, and socio-economic status. Courses examine the principles of equity in polices and practices to assess and improve their effectiveness in achieving fair, inclusive, and respectful treatment of all people. Course material reviews historical and contemporary injustices and disadvantages faced by particular groups. Students examine how to create opportunities and reduce disparities in opportunities and outcomes for diverse communities and to assist institutions and organizations in identifying and tackling barriers to create safer environments for marginalized people. Applied projects allow students to develop strategies that facilitate individuals' and communities' social inclusion in economic, social, cultural, and political dimensions.

The Diversity, Equity, and Inclusion Certificate is 18 credits earned as follows:

9 from SOCI 2111, 2121, 2211, 2221, 2231, 2401, 2501, 2611
6 from SOCI 3101, 3511, 3531, 3551, 3701, 3711, 3731, 3741, 3771, 3781, 3791
3 from SOCI 4201, 4541, 4551, 4561, 4701, 4721, 4811, 4401

Certificate in Foundations of Health

Certificate Overview. The courses that comprise the certificate provide students with foundational knowledge about the biological and psychosocial bases of health and health care. This certificate is beneficial to students planning a career in health care broadly defined, including medicine, nursing, allied health care professions, health policy and biomedical research.

The Certificate in Foundations of Health is 18 credits earned as follows:

3 from BIOL 3211
3 from BIOL 3221, 3751
6 from PSYC 2101, 2611
3 from PSYC 3101, 3151, 3211, 3611, 4101, 4611, BIOL 2811, 3911, 4221, 4311
3 from PSYC 2431, 3421, 3311, 3331, 3511, 4411, SOCI 2611, 3511, 3761, 4201, 4601, ECON 3111, PHIL 3511, PHIL 3711, PHIL 3741, COMM 4391

Note: Department Heads may approve other selected Special Topics courses if the topic is appropriate.

Note: Students will also be required to obtain the Certificate of Completion of the TCPS 2 Tutorial Course on Research Ethics.

Certificate in Mi'kmaw Studies

Certificate Overview. The Certificate in Mi'kmaw Studies offers an introduction to Indigenous Studies and Indigenous research while focusing on Mi'kmaw language, culture, and land. Given Mount Allison's location in the unceded and ancestral territory of Mi'kma'ki, students from any program may want to deepen their knowledge of local Indigenous cultures through the Certificate in Mi'kmaw Studies. The Certificate offers an Experiential Learning option, and many courses will include land-based learning, visits from Elders and Knowledge Keepers, and other kinds of interactive learning experiences.

The Certificate in Mi'kmaw Studies is 18 credits earned as follows:

3 from INDG 1001
6 from MKMW 2001, INDG 3111
3 from INDG 2901, 3901
6 from INDG 2881, 3301, MKMW 3001

Note: Students are responsible for ensuring they have the necessary prerequisites.

Certificate in Music Education

Certificate Overview. Designed for students intending to pursue a career in Music Education in elementary or secondary school systems, the Certificate in Music Education includes the courses most commonly required by B.Ed./B.Mus.Ed. programs which students would complete following their degree at Mount Allison. The Certificate demonstrates students' specialization in Music Education, both for themselves and for future educational institutions and employers. The courses included in the Certificate develop musical and classroom leadership skills by ensuring that students take a balanced series of courses pairing philosophical approaches to music education with practical skills. The Certificate includes practical experiential courses, instrument and ensemble methods courses, and courses that offer opportunities to explore the philosophies underpinning pedagogical practices and critically reflect on them.

The Certificate in Music Education is 18 credits earned as follows:

12 from MUSC 2301, 3361, 3311, 4311
3 from MUSC 3411, 3421
3 from MUSC 3321, MUSC 3331, MUSC 3341, MUSC 3351

Certificate in Public History

Certificate Overview. The Certificate in Public History provides students with both a comprehensive grounding in Public History as a field of critical inquiry, and with experiential learning opportunities in its principal practices and methodologies. Students will gain a critical understanding of the many and various ways in which narratives and representations of the past are created for and consumed in modern societies, whether in traditional formats, including museum exhibits, historic sites, monuments and commemorations, or contemporary popular media such as movies, graphic novels, video games, and podcasts. Courses in the program will emphasize how non-academic historical narratives designed to engage the interest of the general public are connected to broader issues of collective memory and identity, citizenship and belonging, exclusion and resistance. Core courses will pay particular attention to the most urgent political and ethical challenges facing public historians in contemporary society: above all, the imperative to recover previously suppressed or forgotten pasts and incorporate them into genuinely inclusive narratives of the past to serve present needs. The certificate program will also enable students to immerse themselves in the applied aspects of Public History. Through field trips to local museums and historic sites, applied workshops and hands-on research projects, students will acquire practical experience of the latest methods used by public history professionals to engage and educate non-academic audiences, as well as gain insights into the daily working life of a public historian. Student projects may also offer opportunities for collaborative relationships with local and regional museums, historical societies, schools and other institutions and community groups engaged in history education outside the university. Students will also be introduced to the wide range of careers open to graduates with qualifications in Public History, such as museum curators, historic site managers, archivists, heritages planners, and conservationists. It will equip students with up-to-date intellectual tools and practical skills that are relevant to a range of workplaces, as well as providing, for those seeking further professional qualifications, an invaluable foundation for post -graduate programs in Museum Studies, Archival Studies, Library and Information Studies, and related fields.

The Certificate in Public History is 18 credits earned as follows:

3 from HIST 1601, 1611, 1681, 2301, CANA 1011
9 from HIST 3921, 4921, CANA 3231
6 from HIST 3831, 3861, 4001, 4901, CLAS 3801

Certificate in Social Research Methodologies

Certificate Overview. The courses included in this certificate focus on the understanding and application of the social science research methods commonly used in the public and private sectors. Skills in social research methods are highly transferrable and marketable, and graduates with these skills are increasingly sought by employers across all sectors academia, government, charities and business.

The Certificate in Social Research Methodologies is 18 credits earned as follows:

6 from PSYC 2001, 2011
6 from SOCI 3301, 3311
6 from COMM 3401, ECON 1701, 3401, GENV 3701, INDG/SOCI 2901, 3901, PSYC 3001, 3021, SOCI 3731, 4311, FGST 3121

Certificate in Studies of Indigenous History

Certificate Overview. The Certificate of Studies in Indigenous History offers an accreditation for students who take a number of Indigenous Studies courses with strong historical content. Courses focus on the history of Indigenous nations within and across Canadian borders,

including the historical relations between Indigenous peoples, colonial powers, and settler nation-states.

The Certificate in Studies of Indigenous History is 18 credits earned as follows:

3 from INDG 1001
3 from INDG 2801
3 from MKMW 2001, INDG 3111
3 from INDG 2901, 3901
6 from INDG 3111, 3821, 3831, 3841, 4801

Note: Students are responsible for ensuring they have the necessary prerequisites.

Certificate in Theatre Arts

Certificate Overview. The courses included in this certificate focus on the practical aspects of theatre and drama and highlight synthesis and practical application of many facets of theatre arts. With courses in acting, directing, production, design, as well as the capstone DRAM 4011 course and the production practicum course, students will be immersed in experiential learning as they hone their craft and learn about the myriad aspects of theatre.

The Certificate in Theatre Arts is 15 credits earned as follows:

3 from DRAM/ENGL 1701
12 from DRAM 1991-4991, 2151, 3141, 3151, 3161, 3171, 4011, 2559, 3669, 4669

Note: Students may register for DRAM 4011 more than once, provided the subject matter differs.

Note: Each of 2559, 3669, and 4669 are worth one credit.

Certificate in Visual Literacy and Culture

Certificate Overview. Visual literacy is indispensable in our information age and global economy. To be successful in navigating careers and personal lives, twenty-first-century students must acquire the critical and analytical skills required to expertly decode visual communication, describe and interpret images and visual representation, use visual materials proficiently and creatively, and grasp the impact of visual culture. This certificate is thus intended as accreditation for students who develop visual literacy skills in order to enhance their post-graduation employment prospects in industry sectors where images, visuality, and viewing practices play an important role (e.g. the arts, culture, and creative industries; communications and media relations; government and not-for-profit leadership; heritage and conservation; journalism and publishing; tourism; and marketing and advertising). Visual literacy is extremely useful in a range of workplace tasks, such as designing professional presentations and websites, creating efficient systems of organizing verbal and visual information, mapping out collective problem solving, and communicating competently with a wide spectrum of demographics (designated by age, culture, disability, ethnicity, gender, race, etc.). This certificate will also be beneficial to students seeking admission to competitive professional or graduate schools, such as medicine, engineering, and education, which increasingly recognize the significance of an observant eye and visual analysis skills.

The Certificate in Visual Literacy and Culture is 18 credits earned as follows:
