Bouhlel Family — Rami ('23) and Rayan ('15), Tunisia

A degree from Mount Allison will take you places! Just ask Johnny — he graduated with a Bachelor of Science in chemistry and went on to complete a PhD in chemistry at the University of Toronto. After spending time as a researcher, he now works as a technical sales specialist for a chromatography instrument, which is used in pharmaceutical research.

“I had the opportunity to work with professors during the summer, which helped me understand what a research career looks like and prepared me for my PhD. I am still using things I learned in chemistry at Mount Allison in my current job.”

GET TO KNOW YOUR PROFESSORS,

FOR CONNECTION

With roughly 2,300 students, an average first-year class size of 60, and upper year classes as small as three, the small class difference can be found across campus. That means you have the space to collaborate, the confidence to ask questions, and the freedom to share your ideas.

MTA.CA/SMALLCLASS

These meaningful interactions will connect you to valuable networking opportunities, guide you throughout your degree, and help you figure out what you want to do next.
