# BUILD BONDS IN THE CLASSROOM

GET TO KNOW YOUR PROFESSORS,  
FELLOW STUDENTS, AND  
YOURSELF IN CLASSROOMS BUILT  
FOR CONNECTION

With roughly 2,300 students, an average first-year class size of 60, and upper year classes as small as three, the small class difference can be found across campus. That means you have the space to collaborate, the confidence to ask questions, and the freedom to share your ideas.

You will be able to connect easily with your professors — who are leaders in their fields — both inside and outside the classroom. These meaningful interactions will connect you with valuable networking opportunities, guide you throughout your degree, and help you figure out what you want to do next.

"The small class sizes allow you to build relationships with your profs...By building these relationships the doors open for great opportunities in research. All you have to do is be curious!"
