

GRADUATE STUDIES – Internal Fellowship Application

Two fellowships, available to incoming Master of Science students, are offered through the generosity of two Mount Allison alumni with the goal of supporting academic and research success in the MSc program. Applicants may be Canadian or international students, and are evaluated based upon demonstrated and potential academic and research ability.

Application Process: A complete fellowship application consists of the completed Graduate Studies application package (copies of academic transcripts, two letters of reference, and a one-page research proposal) PLUS this form. The Graduate Scholarships Committee will consider your application for ONLY ONE fellowship based upon the one that you indicate below as the most appropriate for your area of research. **Submit this application form on or before June 1st to the Office of Dean of Graduate Studies using the same secure upload link that you used for your Graduate Studies application package.**

Contact gradstudies@mta.ca with any questions.

Please select ONE of the following fellowships for evaluation:

- ☐ **Greenidge Graduate Fellowships:** Established by Dr. Dorothy Greenidge (Mount Allison class of '78), two awards are available annually to students entering a full-time thesis-based MSc program in Biology or in Chemistry (as indicated upon the Graduate Studies Application Form). If all candidates are equally qualified, preference is to be given to a female identifying student.
Value¹: \$10,000CAD; granted for a period of one year (non-renewable)
- ☐ **Robert L. Rice Memorial Graduate Fellowships:** Established by the family of Robert Lewis Rice (Mount Allison classes of '48 and '50), two awards are available annually to students entering a full-time thesis-based MSc program in any field of Chemistry (as indicated upon the Graduate Studies Application Form).
Value¹: \$7,000CAD; granted for a period of one year, possibility of one renewal (renewal request: 1-page progress report due on or before June 1st of the student's second year)

¹ The award will be administered thus: half to support the guaranteed supervisor's stipend (as indicated on your Letter of Admission) and half in addition to the stipend.

Condition of award: One cannot hold a Canada Graduate Scholarship – Masters and one of these Mount Allison internal fellowships at the same time.

Name (as on Graduate Studies Application):		Optional: I identify as female ☐ Yes ☐ No ☐ Prefer not to say	
Previous post-secondary program/degree completed or in-progress (e.g. Bachelor of Science):			
Major (and Minor(s), if applicable):			
Graduation Date:		or Upcoming Graduation Date:	
Honours (e.g. First Class Honours):		Cumulative GPA from previous post-secondary program:	

Provide a succinct statement of your readiness for graduate studies within these categories and *please number each section*: (1) Academic Preparation (including key applicable courses excelled in), (2) Research Training and Skills, and (3) Research Accomplishments
