Energy and Sustainability Projects Assistant

35 hours per week, \$14/hr for 15 weeks from May to August 2020

Work with [EOS](#) Eco-Energy this summer to gain meaningful work experience connected to your studies at Mount Allison. You will have the opportunity to further develop core competencies such as communication, collaboration, critical thinking, creativity, citizenship and more. You will receive mentoring from our executive director as well as our energy coordinator. We welcome all applications including those from equity-seeking groups. Internships with EOS are a great entry into post-graduate employment in the sciences and social sciences. EOS is an award-winning non-profit organization focused on helping local communities reduce and adapt to climate change in the Tantramar region. We are looking for a dynamic Mount Allison student to assist with a number of exciting community-based projects linked to energy and sustainability issues. The student will work out of our Sackville, NB office.

Duties:

- Project coordination assistance, help with promotion and organizing of energy events (solar home tour, carbonless concert, sustainable home show); a summer workshop series on gardening, wild foraging, and food preservation; survey on community resiliency; and bulk purchases of solar panels and food dehydrators, etc.
- Help raise public awareness about energy and climate change issues in creative ways
- Help develop and facilitate children's activities around solar energy and climate change
- Assist with meetings, workshops and information booths (some weekend & evening hours required)
- Assist with administrative tasks (EOS newsletter, social media posts, membership and merchandise sales, office tasks, data input, etc.)

Experience and knowledge required:

- Interest/experience in environmental issues (ie. energy use, solar energy, emissions, climate change, sustainability)
- Project coordination, research, event planning, working with the public and youth
- Excellent written and verbal communication and interpersonal skills
- Experience working independently as well as part of a team
- Knowledge of the Tantramar region
- Experience with emission calculations is an asset
- Bilingualism (English and French) is an asset

Qualifications

- Registered as a full-time Mount Allison student currently and intend to return to MTA on a full-time basis in the fall preferably in environmental studies, community planning, Canadian Studies, geography, and/ or a related field.
- Be creative, energetic, positive, organized, diligent, responsible, and have attention to detail.

Application procedure and deadline:

Please forward your cover letter and resume (combined into one pdf) to careers@mta.ca by January 31, 2020.

If you have questions about this internship opportunity, please contact EOS executive director, Amanda Marlin at (506) 536-4487 or eos@nb.aibn.com.
