

Data Services Student

Who are we?

Founded in 1924, Irving Oil is a family-owned company with operations throughout Eastern Canada, New England and Ireland with a focus on providing exceptional service and high-quality products to our customers. Every day, we strive to put our good energy in action to bring families together, support the environment and local wildlife, and to create learning opportunities that empower the next generation.

Here's what you can expect from us:

When you're a part of our team, you'll see how we bring good energy to our business and our employees. Together, we will support our corporate strategy, high standards and the communities where we live and work. Our collaborative approach, commitment to diversity and inclusion along with our safety-first culture helps reinforce our internal brand position where People Matter. That's why we're dedicated to the development of our employees, so that they can reach their career goals.

Here's what you can expect in a typical day:

As a Data Services student, you will have the opportunity to work with the Data & Integration Services team within IT. This team is a shared services group providing technical services to the entire organization in the areas of data analytics, data visualization, data and application integrations, master data management, and enterprise warehouse and custom script development.

A typical day may include tasks such as:

- Meeting commitments to internal and external stakeholders
- Working collaboratively with various users and technical team members
- Development and deployment of application & data integration
- Analyzing data
- Master data management
- Data visualization solutions

What you'll need to succeed?

- Ability to work collaboratively in a team environment
- Ability to make decisions and manage multiple priorities
- Excellent attention to detail
- Ability to build strong relationships
- Self-motivated; ability to work independently
- Strong creative thinking skills with the ability to problem solve

Travel

- Travel is not a requirement for this role

Education and experience

- Currently enrolled in a Computer Science program completing 2nd, 3rd or 4th year of study
- Strong interest in information technology

Irving Oil supports a diverse and inclusive work environment and welcomes applications from all qualified applicants.
